Primary Education

Recommendation of
Central Advisory
Education Board

Secy

The Board directed their opinion to be recorded as follows :-

(a) It was the feeling of the Board that at present, for the expansion of primary education, Government should, as in the past, rely on the voluntary principle and that the initiative for the introduction of compulsion should be left entirely to local bodies as under the recently passed Acts.

(b) The Board considered that the present system under which local Boards are legally liable for financing elementary education with assistance from provincial funds should be continued. It assumes that the question of the proportionate cost to be met from provincial and local funds is being or has been investigated in each province.

yes: under
the Sely Edn
Act - Govt
have pledged
to the grant of
a contribution
to the Provind
of taxation

It came to the above conclusion for the following reason :-
While recognising the ultimate responsibility of Government to ensure adequate provision for primary education the Board does not consider that the time has come for such responsibility to receive legislative sanction. Such sanction would at once give rise to a demand for expenditure which could not be met.
