us on its merits, the introduction of spinning and weaving in girls' schools is quite desirable and has been done with ref. to the circumstances of each school. The question is however general and it will not be possible nor feasible to give a straight answer to it without full consideration and consultation with the D. P. I. and the D. I., in view of the financial commitments which it will entail on Govt. It might more appropriately have been put in the

form of a resolution.

2. It may be

pointed out that a temporary weaving instructor is employed in the Govt. Girls' School at Tanchengode and that in G.O. 1050 Est. of 18.7.21, the Govt. have sanctioned as an experimental measure, the opening of a weaving class in the Govt. Girls' School, Namakkal, on the lines of the scheme drawn up by Mr. Amalad of the Department of Industries — P. 11 of G.O. 1050 of 18.7.21.

3. It may also be

noted that the question of introducing weaving as a vocational training in some of the boys' schools under the management of local bodies is separately under consideration.

4. Perhaps the

answer may be — "The ^{introduction} ~~proposed~~ spinning weaving in suitable cases will be considered by the Govt."

U.O. Reply No.

The above answer will suffice. On the other hand I should prefer to state 'the answer is in the affirmative'.

There are objections to introducing spinning and weaving in all girls' schools under the management of Government. There is the cost, and there is the undesirable stereotyping of the course. There is the difficulty of obtaining competent teachers and there is the possible neglect of instruction in the three Rs. There are many objections. It is for Government to ~~decide~~ ^{decide} whether it is going to state explicitly that there are objections or whether it is going to ~~decide~~ ^{give} the answer suggested in the Secretariat note.
