Station Madras, Dated the 28th July 1921. 191From (Name) Lieut. Col. T.H. Symons, O.B.E., I.M.S.(Designation) Offg. Surgeon-General with the Government of Madras.

To The Secretary to the Government of Madras,

Local Self Government (Public Health) Department.

Sir,

With reference to Government memorandum No.14928-1 P.H., dated the 23rd July 1921 (received here on the 27th) I have the honour to state that satisfactory arrangements could not be made for the opening of the final year class at Calicut hitherto as the Municipal Council, Calicut objected to the proposal of the Superintendent, Medical School, to give the final year students clinical instructions in Midwifery and Gynaecology at the local Women and Children Hospital maintained by the Municipality. The Women and Children Hospital, Calicut has since been taken over by Government and there will be no difficulty in the imparting of clinical instructions in midwifery and Gynaecology to the final year pupils now. But General Giffard wanted to visit the place and see for

L 28 (P4) Dyk

Question 248.

Draft answer to clause (a)

(a) The question of adding the final year class to the Medical School at Calicut will be considered by the Surgeon General after a personal inspection of the place.

As regards the permanent location of the school, the Govt have after mature deliberation decided upon Coimbatore as a more suitable centre. New buildings for the school are approaching completion. In the circumstances the Govt are unable to reconsider their decision, but it is likely that the school at Calicut may be retained as a continuation school for third & fourth year pupils.

himself whether arrangements can be made for the opening of the 4th year class from next year. The matter is therefore awaiting his visit to Calicut.

2. The Medical School at Calicut is only temporary, as Government have approved of its transfer to Coimbatore when the new school buildings there are completed; but it is likely the School at Calicut may be retained as a continuation school for 3rd and 4th year pupils of the Coimbatore School vide last sentence of Surgeon-General's letter No. 21 B1/1016 dated 21st October 1919.

not immediately available

3. As regards the medical inspection of pupils in Girls Schools by lady doctors, it is pointed out that medical inspectors are nominated by the Correspondents or managers of Schools subject to the approval of the Director of Public Instruction and the Surgeon-General. In view of the dearth of qualified lady doctors available for the medical inspection of girls schools and girls it is not always possible to appoint only lady doctors to conduct the medical inspection of such schools. The matter will however, be borne in mind and when such appointments are approved of by this office, but it is a question for the consideration of the Director of Public Instruction as the proposals originate from him and appointments are made by him.

I have the honour to be, Sir,

Your most obedient servant,

(Signature)

Major, I.M.S.,

For Offg. Surgeon-General with the Government of Madras.

No instances of the kind referred to in clause (b) have been brought to my notice. As Government is aware we are making arrangements in the Queen Mary's College and in the hostels attached to the Secondary and Training School, Triplicane, for medical inspection to be conducted by women.

I suggest the following reply:-

(b) Government are not aware that medical inspection of girls in institutions specifically intended for them is conducted by men;

(c) The answer is in the affirmative in the case of institutions under Government control wherever women doctors are available.

Medical school at Calicut.

419 Q.—MR. A. D. M. BAVOTTI SAHIB Bahadur: To ask the Hon'ble the Minister for Local Self-Government—

(a) whether, considering the large number of west coast students who seek admission into medical schools and the comparatively brilliant results produced by the Medical school, Calicut, the Government propose to add the final year class also to the existing Medical school at Calicut and make that institution permanent;

(b) whether it is a fact that in many educational institutions intended for girls the medical inspection of the pupils is conducted by medical men and this practice is offensive to Indian sentiment; and

(c) whether the Government propose to arrange that pupils in such institutions should always be examined by lady doctors.

A.—(a) The question of adding the final year class to the medical school at Calicut will be considered by the Surgeon-General after a personal inspection of the place.

As regards the permanent location of the school, the Government have after mature deliberation decided upon Coimbatore as a more suitable centre. New buildings for the school are approaching completion. In the circumstances the Government are unable to reconsider their decision, but it is likely that the school at Calicut may be retained as a continuation school for third and fourth year pupils.

(b) Government are not aware that medical inspection of girls in institutions specifically intended for them is conducted by men.

(c) The answer is in the affirmative in the case of institutions under Government control wherever women doctors are available.
