Duvvuri Subbarao at present

a student of the Lower/Probationary Subordinate

Class of the College of Engineering, Guindy :—

MOST RESPECTFULLY SHOWETH,

That your Excellency's Memorialist understands that in the recent Reorganisation of the Public Works Department, the Subordinate Engineer Service is to be recruited from students who undergo a three years' training in the Engineering College, finished with a practical training of one year on works.

(2) That the Memorialist at present is undergoing the Third/~~Second~~ year's course in College and that he is having the same course of study contemplated in G. O. No. 1284W of 21—8—1920, for the new Subordinate Service.

(3) That the Memorialist as such can qualify himself to be a Subordinate Engineer in case he is given one year's practical training on works which is not obtainable for the Lower Subordinate at present.

(4) That the Memorialist prays that he may be given the necessary practical training on works so as to enable him to qualify himself as a Subordinate Engineer.

For which act of kindness and benevolence the Memorialist will, as in duty bound, ever pray.

Your Excellency's humble Memorialist,

Duvvuri Subbarao

Karappal
P. 986.

Letter from the Director of Public Instruction, R.C. No. 5114 of 20, dated 12th March 1921.- *as*

as With reference to G.Os. No. 558, Home (Education), dated 7th May 1920 and No. 1208, Home (Education), dated 18th October 1920 and in continuation of this office letter R.C. No. 5114 of 1920, dated 4th January 1921, I have the honour to submit herewith the revised rules of the College of Engineering, as amended by the Board of visitors.

2. In regard to the memorials of Lower Subordinate and Probationary students, the Board of Visitors recommends that the students of these classes at present in the college should be given the option of continuing their training by undergoing a practical course to fit them for the new Subordinate service.

3. With respect to the students of the School of Engineering, Vizagapatam, the Board makes the same recommendation as that mentioned in para 2 above so far as those admitted in July last are concerned.

Engineering, Guindy.

Most respectfully sheweth,

Ab

That in November last the Memorialist made a representation to the Government requesting that he may be given training on practical works for a period of one year as it is going to be given to students of subordinate class hereafter.

(2) That the Government is not yet pleased to favour the Memorialist with reply.

(3) That the results of the Memorialist in the final examination are about to be published soon and the time for posting students for practical course is fast approaching.

Therefore the Memorialist prays that early and favourable orders may be passed relating the representation mentioned in para 1 supra.

Memorialist begs leave to subscribe

M. Sambrahamanathan.

Lower subordinate Class.

8th June 1921

Advance copy.

a student

Engineering,

Most respectfully sheweth, 97

That in November last the Memorialist made a representation to the Government requesting that he may be given training on practical works for a period of one year as it is going to be given to students of Subordinate Class hereafter.

(2) That the Government is not yet pleased to favour the Memorialist with a reply.

(3) That the results of the Memorialist in the final examination are ~~about to be~~ published soon and the time for posting students for practical course is fast approaching.

Therefore the Memorialist prays that early and favourable orders may be passed relating the representation mentioned in para 1 supra.

Memorialist begs leave to subscribe

Please see para II of the
Govt. of India, P.W.D. resolution No.
1922A, of 1-4-20 and para 16 of
the letter No. 2412A, of 16.7.20,
wherein the Govt. of India have
directed ~~that~~ the abolition of the
existing Upper and Lower Subordinate
services and the institution of a single
Subordinate Service instead. The P.W.D.
are taking action in regard to the
formation of the Subordinate Service. The
Govt. of India have also stated that

that the qualifications of subordinates for admission to this service should, so far as possible, approximate to those at present required in the Upper Subordinate Service, and the course of training at the engineering institutions should be revised, if necessary. A revised syllabus for the new subordinate course has been obtained from the D.P.D. and is under consideration separately. The length of the new subordinate course ~~is~~ will extend over a period of four years, three years being spent in the college and one year on practical training. ^{the} ~~this~~ question students, while under practical training will be paid stipends as is now done in the case of upper subordinates. This question has already been considered and accepted by his Govt. — Vide pages 22-23 of notes to G.O. no. 1164-65, Home (201), D/25-11-19. The ~~D.P.D.~~ ^{D.P.D.} has submitted draft alterations in the College rules and they are being dealt with separately.

②

2. In their memorials in the Cf the students of the Lower and Probationary Subordinate classes of the Engineering College request that, after their

para 3 of the D.P.D.'s letter.
Copy at page 94 cf.

(1)
In para 3 of the D.P.D.'s letter, Nos. 522, 523 & 418, the Govt. have directed that the best pupils in the School of Engg., Vizagapatam, should be eligible for promotion to the U.S. class of the Engg. College on the results of a common examn. held for the purpose.

106 107 4
completing their third year course in the College, they may be given one year's practical training on works so as to enable them to qualify themselves as Subordinate Engineers and become eligible for appointment to the ^{new} Subordinate Service. The Board of Visitors of the College ~~also~~ supports the petitioners' request - vide para 2 of the D.P.D.'s letter No. 5114/20, of 12.3.21. The Board of Visitors also recommends that the students of the School of Engineering, Vizagapatam, so far as those admitted ~~in~~ in July 1920 are concerned, may be granted the same concession. As already pointed out in para 1 ~~ante~~ the Govt. of India have stated that the qualifications of Subordinates for admission to the Subordinate Service should, as far as possible, approximate to those at present required in the Upper Subordinate Service. The Chief Engineer, who is the President of the Board of Visitors, is apparently satisfied that the Lower and Probationary Subordinate Students at present in the College and the students in the School of Engineering, Vizagapatam, so far as those admitted in July 1920 are concerned, will be suitable for appointment to the new Subordinate Service, if they are allowed

allowed to undergo a year's practical training on completing their third year's course in the college or school. For order. Whether the Board's recommendation may be accepted. The payment of stipends during the practical course has been accepted already by the Govt. Vide pages 22-23 of the notes to G.O. No. 1464-65, of 25-11-19.

3. A draft order is submitted for consideration. If approved, it may be sent to the P.W.D. and the Finance Dept. for acceptance.

File 111

Finance Dept.

Encl 638A-3

Para 1 of the draft order. — Finance is not concerned. It is for the administrative Dept to decide whether the existing lower and probationary subordinate students will be fit for absorption in the new Subordinate Engineering Service ~~of them~~ by their undergoing a year's practical training on completion of their third year's Course.

2. Para 2 of the draft. It is presumed that the expenditure ^(immediately) now proposed to be incurred on subsistence allowances to the students in question is in addition to the expenditure usually incurred on this account in respect of the upper subordinate students. It is however doubtful whether there

cf. para 1 of the
draft order.

109 110
there is any justification for
this. The men are permitted
to undergo the practical training
"so as to enable them to qualify
themselves for the new subordinate
"Engineering service in the P.W.D."
In other words, the training is
more or less purely in the
personal interests of the students.
It is not clear why they should
be allowed the training at the
expense of govt. ^(enable them) ~~to~~ to earn
a better pay from govt. It
is also likely that the grant
of this concession to the present
set of students will provoke
similar claims from students
who have passed out of the
College in recent years; for
they too would be only "too
willing" to undergo the practical
Course for a year at the
expense of govt. and earn a
better pay. For order, whether
in these circumstances, the grant
of the subsistence allowances to
the students in question may not
be negatived.

A

L.H.
24/5/11

25/5/11

110

3 If, however, it is considered that some expenditure on this account is justified, it is for orders whether the grant of the allowances in any year may not be restricted to such candidates as are likely to be absorbed in the new service in the subsequent year.

4 Specific reappropriation of funds should be made before any extra expenditure is incurred.

18.6.21
18.6.21

Class of the College
As the Upper Subordinate, has recently been proposed to be increased from 30 to 50 by an increase of 10 in the College itself & an addition of 10 from the School of Engineering Vizag: the liability of Govt as regards practical training in the P.W.D. has already been increased. If the present proposal to train all the members of the existing Junior & Probationary Subordinate classes is approved there is no doubt that Govt will

no harm
in that but it is
impossible to
produce the
training now
for a class
which are
dying out

112
113
five practical training to a large
number who will not eventually
find employment in the I.W.D.

Provided fuel is prepared to
meet the cost of training men for
work outside the I.W.D. there is no
objection to the present proposal
& for the reasons given in the office
note on p 9 ante, we need not
anticipate any grievance on the
part of Sub. Officers who have
already passed out of the College.

Even if the latter did petition
for similar concession their claim
could not be given consideration
as men whose education has
been completed and who have
commenced their life's work cannot
expect to go back & obtain
any advantages which may
be introduced ^{subsequently} in the educational
system under which they were trained.

with refce to your personal instructions
the following further note is sent:-

The course of instruction prescribed
for the Lower Subordinate class extends over a
period of 3 years and is not followed by practi-
cal training. 150 appointments are guaranteed to
the students passing out of this class as in the
case of the students of the Engineer and upper
Subordinate classes. The prospects of appoint-
ment in the P.W.D. held out to ~~the students~~
qualified Lower Subordinates are those con-
tained in rule 76 of the College rules.

©

The Govt of India, in para 16 of their letter
no 4415-A. & 16.7.1920 state that the qualifica-
tions ~~for admission~~ of subordinates for admission
to the new Single Sub^{le} service - which is to
be formed - should so far as possible ap-
proximate to those at present required in
the upper Subordinate service. From the
portion marked Z on page 3 ante, it
will be seen that the D.P.D. has submitted
a draft syllabus for the new Single Sub^{le}
Course providing for a course of instruc-
tion extending over 4 years - 3 years of
which are to be spent in the College and
the 4th year on practical training.

3// In connection with the question of the
formation

Rs 50-7-195.

formation of the New Single Subordinate Service the Govt have approved of the proposal that ^{only} the best of the existing Lower Subordinates may be appointed to ~~the~~ it and that the others should continue as Lower Subles on a revised time scale of pay.

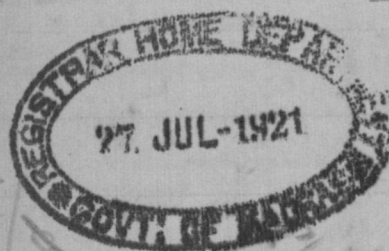

In view of the fact that the standard of training and qualifications of the students now in the lower sub^{le} class ~~are~~ are inferior to those proposed for the new Single Sub^{le} service, ⁽²⁾ that only the best among the existing lower Subles are to be appointed to the new service; ⁽³⁾ that the existing lower Subordinate Service will be continued on a revised time scale of pay, and ⁽⁴⁾ that ~~the~~ ~~proposed~~ ~~appointed~~ ~~and~~ ~~be~~ ~~to~~ ~~the~~ ~~qualified~~ ~~lower~~ ~~subles~~ that, under rule 76 of the ~~Engin~~ Engineering College Rules, all that the qualified lower subles could look to was appointment in the Prod. as sub owners and draftsmen as vacancies occurred, there seems, it is enem, to be no necessity now to permit ^{present} the students in the lower sub^{le} ~~class~~ and Probationary Sub^{le} classes to undergo a year's practical training with a view to qualify them for the new service. All that these

Students

students could legitimately claim is appointment as sub officers and draftsmen in the P.W.D. If Govt were to permit the appointment of these men in the above capacities in the ~~for~~ future also, the obligations laid on Govt on this behalf would have been fulfilled.

6. As is being done in another file in connection with the present students of the upper Subb Class, the question as to whether the present students of the Lower Subb Class should not also continue to be appointed ~~as~~ as Lower Subbles till all or such of them as may be required in the P.W.D., have been appointed, may, it is subm'd be taken up separately and submitted to Govt for orders.

6. With the Secy's remarks, the file may be returned to the Law (Econ) Dept. through the Finance Dept.

Total	2,500	Total	2,200
Grand Total	3,000	Grand Total	2,500

page 5 note

* vide para 4 of the note at p. 12 note

It will be seen from the above statement that the cause for the existing Lower Subordinate Service does not include Algebra and Geometry in Branch I and Hydraulic and Mechanical Engineering in Branch II. Otherwise the cause ^{more or less} is the same. The Chief Engineer who originally supported the ~~proposal~~ ^{proposal contained in the recommendation} has since changed his ^{opinion} ~~view~~ for the reasons given by him in his note at page 11-13 and ~~that the existing~~ ~~Lower Subordinate Service is to be~~ ~~discontinued~~. In view ~~of~~ of the fact that ~~the~~ the best way ~~the existing~~ Lower Subordinate men are to be drafted into the new Subordinate Service, it is in consideration whether ~~the students~~ ^{the students who have just completed their course or are still in the College} may not be given a chance of qualifying themselves ^{for such appointment}. They may at least be permitted to undergo the years practical training at their own expense.

2. In order

 MS
 13/8

The training proposed, whether the cost thereof is paid by the Govt. or by the students themselves is to fit them for employment in the new subordinate Engineering Service. Of the appointing

248/2

authorizing, the Chief Engineer, P.W.D., is not prepared to employ these students in the new service even after the proposed training, there is no use in arranging for it. What we are concerned with is that the prospects of the students, who joined the College & took the course with a definite purpose in view, are not seriously affected by the introduction of the new course. The Chief Engineer states P.W.D. states that what these students could legitimately expect to get will still be secured for them. In any case unless the P.W.D. are prepared to say that the training will be useful in improving their qualifications & prospects of appointment, we in E.D. can take no action.

18/8/21

Agree. ~~the training will be useful~~
~~the training will be useful~~
