The Govt have not received any complaints in regard to the difficulty in securing admissions in Madras colleges. ~~But~~ In 1918 Mr. Ajakut Hassan moved a resolution urging that the number of students admitted in Govt colleges should be doubled. The resolution was, after discussion, put to the vote & lost. Mr. C. V. R. Mudaliyar has given notice of a resolution for the ensuing meeting of the Legislative Council proposing that the ~~max~~ maximum number allowed ^{for each class} should be admitted in Govt colleges. Complaints ^{however} appear in the ^(news-) papers ~~that~~ about the difficulty of getting admission in Madras colleges. It is not known whether students have to give up studies on this account as stated by the H.C.C. If the Madras colleges are crowded, the mufassal colleges ~~may~~ ^{also} not ^{be} always so. It may not be possible for Govt to provide accommodation in Madras for all students who may choose to come to the city. For orders as to the reply to be given.

U.O. Reply No.

It is a fact that many students come to Madras to join colleges and cannot obtain admissions. There does not obtain in India the system which prevails in many other countries of students registering their names some years in advance for admission into colleges.

I have no information that students give up their studies for want of admission into Madras colleges but I do know that a really good student never finds any difficulty in obtaining admission in colleges either in Madras or in the muffasal. It is the border line applicant that is the one who just scrapes through his examinations who finds difficulty of admission.

I do not advise that Government take any steps to remedy this state of affairs. The admissions rest with the Principals of colleges and Principals of colleges frequently maintain that many of the persons admitted are not fit to receive a University education.

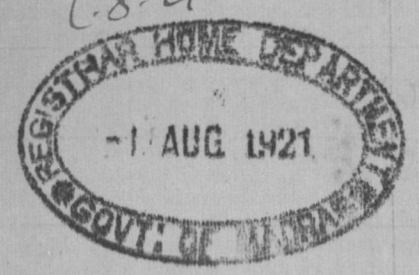

I suggest therefore the following answer:-

(a) The Government believe that the answer to the former part of the question is in the affirmative; ~~that~~ they have no information with regard to the latter portion of the question;

(b) none.
