Sir,

I have the honour to request that Government will
be pleased to sanction, as a temporary measure for 6 months
from the 1st October 1921, the following proposal at a
cost of Rs.50 per mensem for giving private tuition in
Mathematics to the students of the Queen Mary's College
who attend the Presidency College for group 1 of their
Intermediate course,

2. There are now 17 students, 12 in the Junior
and

and 5 in the Senior Intermediate class, taking up group i of the Intermediate course. As women are almost universally weaker in Mathematics than their brothers, they require more and individual teaching in this subject to enable them to follow the lessons without difficulty and make satisfactory progress. Under the existing arrangement where these students are taught along with boys in the Presidency College, it is not possible for the -- lecturers to pay special and individual attention to women students who are consequently placed at a disadvantage so far as Mathematics is concerned. To give additional help to these women in Mathematics I propose to arrange for private tuition out of the college hours for 2 days in the week for each of the Junior and Senior classes by two of the assistant lecturers of the Presidency College and grant the latter an allowance of Rs.25 each per mensem.

3. The arrangement proposed herein is strictly temporary and will be continued only until provision is made in the college itself for instruction in group i and ii of the Intermediate course. In view of this fact and also in view of the great paucity of women teachers qualified to teach Mathematics, I recommend that Government will be ~~pleased~~ pleased to accord their early sanction to the proposal.

4. The extra expenditure of Rs.250 for 6 months in the current year can be met from the anticipated savings out of the provision of Rs.10000 made in the current year's budget for the opening of group i of the Intermediate course in the Government Muhammadan College, Madras.

I have the honour to be,
