No. 2111²

Station Chepauk, Madras., Dated the 6th July. 1911.

From (Name) L. Manshaw, Esq., A.M.I.E.E.,

(Designation) Electrical Engineer, Public Works Department.

To The Chief Engineer,
Public Works Department,
Chepauk.

Sir,

With reference to para 2 of G.O. No. Mis. 402 W dated 23-3-21, I have the honour to report as follows:--

(1) As the permanent mains between the Power House and the various residential quarters attached to the College have since been run and the temporary ones originally put up by the College staff completely removed, full normal rent has been claimed for the various quarters with the effect from 10-6-21 - the date from which the permanent mains have been brought into beneficial use.

(2) In one case only, viz., the Principal's quarters it has been possible to raise the rent to accord with the -- further progress of work and this has been done with effect from

To be

from 1-2-21.

2. As regards para 2 (3) of the above G.O., I request that, as I am not in charge of the actual running of the Power plant, the Principal of the College may be asked to take the necessary action with regard to recovery of current charges. Meters will be fixed by this Division and the rent thereon recovered from -- the various occupants.

I have the honour to be,

Sir,

Your most obedient servant,

Station Chepauk, Madras., Dated the 11th August 1921.

From (Name) J. Hanahaw, Esq., A.M.I.Mech.E.,

(Designation) Electrical Engineer, Public Works
Department.To The Chief Engineer,
Public Works Department,
Chepauk.

Sir,

With reference to your memorandum No. 2340 Accts.-1 dated 18th July 1921, I have the honour to propose that a tentative rate of 5 annas per unit be charged for the current supplied to the residences attached to the New Engineering College, Guindy as in the case of the quarters attached to the Teachers' College, Saidapet - (vide para 2 of G.O. No. 975 W dated 30-6-20). Both Colleges are supplied from the same generating plant.

2. In this connection, I would invite a reference to para 2 of my letter No. 4015 E dated 23-9-20, and request that, as I am not in charge of the actual running of the

power

at H. 11-2-20 to 16/10/20

Copy of letter R.C.No.1685 of 1921 dated 9th November 1921
of the Principal, College of Engineering, Guindy.

With reference to your Procs. 10581 of 1921 dated 8th November 1921 I have the honour to state that under existing conditions and with the temporary plant and lack of instruments, it is not -- possible to obtain the requisite information. The matter, however, will not be lost sight of, and as soon as we have our permanent power Station Plant in running order and the necessary meters -- installed, arrangements will be made to take the figures over six months and report will be made as directed.

R.C. No. 2055 D of 22

24.7.22

Station Madras, Dated the 17th July 1922. 191

From (Name) R. Littlehales Esq. M.A., M.I.C.,

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,

Law (Education) Department.

Sir,

With reference to your Memorandum No. 2470 A-1 dated
9th June 1922 in connection with rate of rent for the supply
of electric energy to residential quarters in the College
of Engineering, Guindy, I have the honour to submit herewith
a copy of the letter R.C. No. 1685 of 21 dated 4th July '22
of the Principal stating that the report regarding the rate
of rent cannot be expected at the earliest before about the
end of this session.

I have the honour to be,
Sir,
Your most obedient servant.

for Director of Public Instruction.

G.M.18.7.22

19/7/22

P.T.O.

Copy of letter R.C. No. 1685 of 21 dated 4th July 1922
from the Principal, College of Engineering, Guindy, to the
Director of Public Instruction, Madras.

In reply to your Ref. On. Cur. No. 82 A of 22 dated
June 22nd ¹⁹²² and further to this office letter R.C. No. 1685
of 21 dated 19th November 1921, I have the honour to state
that the position now is that the erection of the engines
in the power station is approaching completion and may
be possible to have trial runs in the course of a few weeks.
With the exception of placing in position the battery room
exhaust fan we are nearly ready to start on the erection
and forming of the battery. The stands have been made, the
acid procured, and the water distilling apparatus set up
and in working order. I shall address you shortly in ---
regard to the services of the battery expert.

2. The power station Switchboard is rather elaborate
and will take some time to complete, but it will not take
long to make the necessary connections for the running of
the power station plant and to fix up the necessary meters.

3. All this work will obviously take some months and
allowing for a period of at least six months for normal --
working in order to obtain the running costs it is evident
that the report cannot be expected at the earliest before
about the end of the session. What delay there has been
was due to some extent to lack of funds last session for
pushing on with the work.
