Sir,

I am directed to address you regarding recruitment of officers for appointment to the Indian Educational Service.

2. The Secretary of State has recently impressed upon the Government of India the continued difficulty of finding suitable recruits in England. He has also suggested that further efforts be made in this country and that advertisements might be published regarding vacancies and the terms of the service. Attached to this letter will be found the heading of the advertisement issued by the Board of Education, South Kensington, which is suggested by the Secretary of State for adoption and would naturally be followed by a list of the vacancies for which candidates are invited. (Possibly it would be well to add some information about allowances to Principals and pensionary conditions). The Secretary of State suggests that this should serve for publication among both Indians and Europeans resident in India and he regards it as highly desirable that when the claims of members of the latter class are being examined the dearth of European candidates in England should be borne in mind. He has expressed a strong opinion that the possession of a war degree should not disqualify Europeans for appointment, since such a

decision would appear to penalise a man for his service during the war and since the best men at all the British Universities, if physically fit for service, interrupted their reading for honours in order to join the armed forces. He thinks such men deserve favourable consideration for appointment provided that their previous career gave promise of a high standard of academic attainment and that they are otherwise suitable.

3. The Government of India will be glad to hear of the results of the publication of such an advertisement or of such action as the local Government thinks fit to take. The names of suitable candidates after consideration by the Selection Committee should as heretofore be forwarded to the Government of India for addition to their consolidated list.

Regarding the Principalship of the
Kumbakonam College, I am
considering the desirability of
suggesting to Government later
the posting there of Mr. Brierley or
Mr. Green after the summer vacation.

I have no information yet
regarding Mr. Coulrey: & the question
of first grade Arts College postings
depends partly on whether he returns.
