SUPERVISORS OF ELEMENTARY SCHOOLS.

I

Letter—from the Hon'ble Mr. R. LITTLEHAILES, M.A., Director of Public Instruction.
To—the Secretary to Government, Home (Education) Department.
Dated—Madras, the 12th March 1920.
No.—R.C. 1200.

I have the honour to submit herewith the memorials received from the supervisors of elementary schools and to remark that the question of improving the status of these officers may lie over for disposal until the memorials submitted by sub-assistant inspectors have been considered and orders of Government have been passed on the recommendations of the Salaries Committee regarding travelling allowance of the various kinds of itinerant officers. I beg to add that it is proposed to abolish this agency ultimately on the introduction of the scheme of reorganization of the Inspectorate.

RESPECTFULLY SHOWETH,

That Your Excellency's humble memorialist begs to bring to Your Excellency's sympathetic notice the several disabilities he has been suffering

from and the hardships he has been experiencing, hoping for immediate and adequate relief at the most generous hands of Your Excellency.

That under Local Boards there was, prior to 1909, a class of officers called "Inspecting School Masters" with salaries ranging from Rs. 25 to 40. Their duties were then confined only to improving the condition of Elementary Schools. In 1900 the Director of Public Instruction felt that the work of starting new schools and bringing indigenous schools under Departmental control—an important factor in the spreading of Elementary Education—has not been adequately considered. He, therefore constituted this class of Officers into a useful agency for doing pioneering work and administrative superintendence of Schools and designated them as "Supervisors". The Supervisors were thus enabled also to form the connecting link between the villagers and the department.

So long as the Supervisors were under the double control of the Department and the Local Boards, it was not possible for the Department to get fully useful work from them. Therefore in 1899, 1901, 1904, their provincialisation was repeatedly advocated by the Director of Public Instruction and it came into effect on the 1st March 1909 with salaries ranging from Rs. 30 to Rs. 50.

That this step improved the personnel of the establishment and made effective supervision of Elementary Schools possible, may be seen from the remarks of Messrs. Hart and Kurshaw, Inspectors (Vide Report of the quinquinium 06 to 07 to 11 to 12).

Considering the responsible and difficult nature of their duties and the hard conditions of living at the present day, Your Excellency's memorialist humbly and respectfully prays that this class of officers may kindly be given sufficient encouragement by the introduction of the following scale of salaries:—

1 First Grade Rs. 80—2—100
  Second Grade Rs. 60—2—80 } Annual.

2 Fixed Travelling Allowance at Rs. 25 per mensem.

3 Each Supervisor may be allowed a peon as the fixed contingency allowed is not sufficient to engage a man to carry his Diary, Reference Books, Stereoscope and such other things required for the efficient discharge of his

duties in camp and to bring tapals from the Post Office and post letters and to bring village officers, villagers or teachers, when enquiries are to be conducted and to bring bandies for the journey when necessary, and so forth and thus maintain the dignity of his post.

In this connection, Your Excellency's memorialist begs to submit that officers of the same grade with less jurisdiction in other departments such as Revenue Inspectors, Deputy Inspectors of Vaccination, Sub-overseers and Sanitory Inspectors etc., are given peons, in spite of the influence they, by virtue of their departments, command, evidently to perform the above duties and to enable the officers to maintain their status. In short, the hard lot of the supervisor can be better imagined than described.

Law (Edn) Deptt.

p. 6 of 8n. 21 Fin (W) 4.3.21

The Govt have decided to adopt a time scale of pay of Rs 50-5=75 for Supervisors of schools. In the memorial in the current file the Supervisors have also asked that the fixed travelling allowance drawn by them should be raised to Rs 25 per mensem and that each Supervisor should be allowed a peon. There appears to be no need to sanction the employment of a peon. As regards the fixed travelling allowance, the rate now in force are noted below:-

Pay 367 Salaries Committee's report.

	Per mensem
(a) Supervisors in the hill tracts of the Northern Circars.	Rs 25
(b) Supervisors in Malabar, S. Kanara & N. Coimbatore.	Rs 18 3/4.
(c) Supervisors in charge of Muhammadan elementary schools	Rs 15.
(d) Other Supervisors.	Rs 12 1/2.

In view of the fact that daily allowances of officers of the second & third classes have been raised by 50 per cent and the rates of fixed travelling allowance of Sub asstt inspectors have also been raised by the same percentage, an increase in the rates allowed to supervisors seems

The Humble Memorial of C. Srinivasaiya.
Supervisor of Elementary Schools, Bhimavaram Sub Range

Respectfully Showeth,

That Your Excellency's humble memorialist begs to bring to Your Excellency's sympathetic notice the several disabilities he has been suffering

from and the hardships he has been experiencing, hoping for immediate and adequate relief at the most generous hands of Your Excellency.

That under Local Boards there was, prior to 1909, a class of officers called " Inspecting School Masters " with salaries ranging from Rs. 25 to 40. Their duties were then confined only to improving the condition of Elementary Schools. In 1900 the Director of Public Instruction felt that the work of starting new schools and bringing indigenous schools under Departmental control—an important factor in the spreading of Elementary Education—has not been adequately considered. The Supervisors were thus enabled also to form the connecting link between the villagers and the department.

So long as the Supervisors were under the double control of the Department and the Local Boards, it was not possible for the Department to get fully useful work from them. Therefore in 1899, 1901, 1904, their provincialisation was repeatedly advocated by the Director of Public Instruction and it came into effect on the 1st March 1909 with salaries ranging from Rs. 30 to Rs. 50.

That this step improved the personnel of the establishment and made effective supervision of Elementary Schools possible, may be seen from the remarks of Messrs. Hart and Kurshaw, Inspectors (Vide Report of the quinquinium 06 to 07 to 11 to 12).

Considering the responsible and difficult nature of their duties and the hard conditions of living at the present day, Your Excellency's memorialist humbly and respectfully prays that this class of officers may kindly be given sufficient encouragement by the introduction of the following scale of salaries:—

1 First Grade Rs. 80—2—100
Second Grade Rs. 60—2—80 } Annual.

2 Fixed Travelling Allowance at Rs. 25 per mensem.

3 Each Supervisor may be allowed a peon as the fixed contingency allowed is not sufficient to engage a man to carry his Diary, Reference Books, Stereoscope and such other things required for the efficient discharge of his

duties in camp and to bring tapals from the Post Office and post letters and to bring village officers, villagers or teachers, when enquiries are to be conducted and to bring bandies for the journey when necessary, and so forth and thus maintain the dignity of his post.

In this connection, Your Excellency's memorialist begs to submit that officers of the same grade with less jurisdiction in other departments such as Revenue Inspectors, Deputy Inspectors of Vaccination, Sub-overseers and Sanitory Inspectors etc., are given peons, in spite of the influence they, by virtue of their departments, command, evidently to perform the above duties and to enable the officers to maintain their status. In short, the hard lot of the supervisor can be better imagined than described.

Immediate relief may kindly be afforded by introducing the above deserving privileges with reference to the length of total service of each supervisor in that appointment.

Your Excellency's humble memorialist respectfully begs to subscribe himself.

SIR,

In submitting herewith the memorials received from some of the Supervisors of Elementary Schools in my Circle, praying for the improvement of their pay and status, I have the honour to state that until the number of Sub Assistant Inspectors of Schools is adequately increased so as to have at least one Officer for a hundred Elementary Schools the ~~existence~~ adoption of the agency of Supervisors will be highly necessary. If this is admitted, the question of the improvement of their status and salaries deserves early attention. The existing scale of salaries and travelling allowances of Supervisors was fixed 10 years ago and it is ~~but~~ just and proper that it be revised now in view of the altered conditions that subsequent events have ushered in. It is also highly desirable that each Supervisor should be allowed a pension Officers of similar standing in the Revenue, Public Works, and Sanitary Departments are allowed pensions, despite the fact that they can easily avail themselves of the term

The humble memorial of C. G. Swaminatha Sastri
Supervisor of Elementary Schools
Vellore Taluk

Respectfully Showeth,

That Your Excellency's humble memorialist begs to bring to Your Excellency's sympathetic notice the several disabilities he has been suffering from and the hardships he has been experiencing, hoping for immediate and adequate relief at the most generous hands of Your Excellency.

That under Local Boards, there was, prior to 1909, a class of officers called "Inspecting School Masters" with salaries ranging fr Rs.25 to 40. Their duties were then confined only to improving t condition of Elementary Schools. In 1900 the Director of Public Instruction felt that the work of starting new schools and brin indigenous schools under Departmental control--an important

the spreading of Elementary Education--has not been adequately considered. He therefore constituted this class of Officers into a useful agency for doing pioneering work and administrative superintendence of schools and designated them as "Supervisors." The Supervisors were thus enabled also to form the connecting link between the villagers and the department.

So long as the Supervisors were under the double control of the Department and the Local Boards, it was not possible for the Department to get fully useful work from them. Therefore in 1899, 1901, 1904, their provincialisation was repeatedly advocated by the Director of Public Instruction and it came into effect on the 1st March 1909 with salaries ranging from Rs.30 to Rs.50.

That this step improved the personnel of the establishment and made effective supervision of Elementary Schools possible, may be seen from the remarks of Messrs. Hart and Kurshaw, Inspectors (Vide Report of the quinquinium 06 to 07 to 11 to 12).

Considering the responsible and difficult nature of their --- duties and the hard conditions of living at the present day, Your Excellency's memorialist humbly and respectfully prays that this class of officers may kindly be given sufficient encouragement by the introduction of the following scale of salaries:--

1. First Grade Rs.80--2--100)
   Second Grade Rs.60--2---80) Annual
2. Fixed Travelling Allowance at Rs.25 per mensem.

3. Each Supervisor may be allowed a peon as the fixed contingency allowed is not sufficient to engage a man to carry his Diary, Reference Books, Stereoscope and such other things required for the efficient discharge of his duties in camp and to bring tapals from the Post Office and post letters and to bring village officers, villagers or teachers, when enquiries are to be conducted and to bring bandies for the journey when necessary, and so forth and thus maintain

the dignity of his post.

In this connection, Your Excellency's memorialist begs to submit that officers of the same grade with less jurisdiction in other departments such as Revenue Inspectors, Deputy Inspectors of Vaccination, Sub-overseers and Sanitary Inspectors etc., are given peons, in spite of the influence they, by virtue of their departments, command, evidently to perform the above duties and to enable the officers to maintain their status. In short, the hard lot of the supervisor can better be imagined than described.

Immediate relief may kindly be afforded by introducing the above deserving privileges with reference to the length of total service of each supervisor in that appointment.

Your Excellency's humble memorialist respectfully begs to subscribe himself.

RESPECTFULLY SHOWETH,

That Your Excellency's humble memorialist begs to bring to Your Excellency's sympathetic notice the several disabilities he has been suffering

from and the hardships he has been experiencing, hoping for immediate and adequate relief at the most generous hands of Your Excellency.

That under Local Boards there was, prior to 1909, a class of officers called "Inspecting School Masters" with salaries ranging from Rs. 25 to 40. Their duties were then confined only to improving the condition of Elementary Schools. In 1900 the Director of Public Instruction felt that the work of starting new schools and bringing indigenous schools under Departmental control—an important factor in the spreading of Elementary Education—has not been adequately considered. He, therefore constituted this class of Officers into a useful agency for doing pioneering work and administrative superintendence of Schools and designated them as "Supervisors". The Supervisors were thus enabled also to form the connecting link between the villagers and the department.

So long as the Supervisors were under the double control of the Department and the Local Boards, it was not possible for the Department to get fully useful work from them. Therefore in 1899, 1901, 1904, their provincialisation was repeatedly advocated by the Director of Public Instruction and it came into effect on the 1st March 1909 with salaries ranging from Rs. 30 to Rs. 50.

That this step improved the personnel of the establishment and made effective supervision of Elementary Schools possible, may be seen from the remarks of Messrs. Hart and Kurshaw, Inspectors (Vide Report of the quinquinium 06 to 07 to 11 to 12).

Considering the responsible and difficult nature of their duties and the hard conditions of living at the present day, Your Excellency's memorialist humbly and respectfully prays that this class of officers may kindly be given sufficient encouragement by the introduction of the following scale of salaries:—

1 First Grade Rs. 80—2—100
Second Grade Rs. 60—2—80 } Annual.

2 Fixed Travelling Allowance at Rs. 25 per mensem.

3 Each Supervisor may be allowed a peon as the fixed contingency allowed is not sufficient to engage a man to carry his Diary, Reference Books, Stereoscope and such other things required for the efficient discharge of his

duties in camp and to bring tapals from the Post Office and post letters and to bring village officers, villagers or teachers, when enquiries are to be conducted and to bring bandies for the journey when necessary, and so forth and thus maintain the dignity of his post.

In this connection, Your Excellency's memorialist begs to submit that officers of the same grade with less jurisdiction in other departments such as Revenue Inspectors, Deputy Inspectors of Vaccination, Sub-overseers and Sanitory Inspectors etc., are given peons, in spite of the influence they, by virtue of their departments, command, evidently to perform the above duties and to enable the officers to maintain their status. In short, the hard lot of the supervisor can be better imagined than described.

Immediate relief may kindly be afforded by introducing the above deserving privileges with reference to the length of total service of each supervisor in that appointment.

Your Excellency's humble memorialist respectfully begs to subscribe himself.

RESPECTFULLY SHOWETH,

That Your Excellency's humble memorialist begs to bring to Your Excellency's sympathetic notice the several disabilities he has been suffering

from and the hardships he has been experiencing, hoping for immediate and adequate relief at the most generous hands of Your Excellency.

That under Local Boards there was, prior to 1909, a class of officers called "Inspecting School Masters" with salaries ranging from Rs. 25 to 40. Their duties were then confined only to improving the condition of Elementary Schools. In 1900 the Director of Public Instruction felt that the work of starting new schools and bringing indigenous schools under Departmental control—an important factor in the spreading of Elementary Education—has not been adequately considered. He, therefore constituted this class of Officers into a useful agency for doing pioneering work and administrative superintendence of Schools and designated them as "Supervisors". The Supervisors were thus enabled also to form the connecting link between the villagers and the department.

So long as the Supervisors were under the double control of the Department and the Local Boards, it was not possible for the Department to get fully useful work from them. Therefore in 1899, 1901, 1904, their provincialisation was repeatedly advocated by the Director of Public Instruction and it came into effect on the 1st March 1909 with salaries ranging from Rs. 30 to Rs. 50.

That this step improved the personnel of the establishment and made effective supervision of Elementary Schools possible, may be seen from the remarks of Messrs. Hart and Kershaw, Inspectors (Vide Report of the quinquinium 06 to 07 to 11 to 12).

Considering the responsible and difficult nature of their duties and the hard conditions of living at the present day, Your Excellency's memorialist humbly and respectfully prays that this class of officers may kindly be given sufficient encouragement by the introduction of the following scale of salaries:—

1 First Grade Rs. 80—2—100 } Annual.
Second Grade Rs. 60—2—80 }

2 Fixed Travelling Allowance at Rs. 25 per mensem.

3 Each Supervisor may be allowed a peon as the fixed contingency allowed is not sufficient to engage a man to carry his Diary, Reference Books, Stereoscope and such other things required for the efficient discharge of his

duties in camp and to bring tapals from the Post Office and post letters and to bring village officers, villagers or teachers, when enquiries are to be conducted and to bring bandies for the journey when necessary, and so forth and thus maintain the dignity of his post.

In this connection, Your Excellency's memorialist begs to submit that officers of the same grade with less jurisdiction in other departments such as Revenue Inspectors, Deputy Inspectors of Vaccination, Sub-overseers and Sanitory Inspectors etc., are given peons, in spite of the influence they, by virtue of their departments, command, evidently to perform the above duties and to enable the officers to maintain their status. In short, the hard lot of the supervisor can be better imagined than described.

Immediate relief may kindly be afforded by introducing the above deserving privileges with reference to the length of total service of each supervisor in that appointment.

The Humble memorial of

B. Vasista

Supervisor of Elementary Schools

Adoni Sub Range.

Respectfully Showeth,

That your Excellency's humble memorialist begs to bring to your Excellency's sympathetic notice the several disabilities he has been suffering from and the hardships he has been experiencing; hoping for immediate

and adequate relief at the most generous hands of your Excellency.

That under Local Boards there was, prior to 1909, a class of officers called "Inspecting School Masters" with salaries ranging from Rs 25 to Rs 40 Their duties were then confined only to improving the Condition of Elemantary Schools. In 1900 the Director of Public Instruction felt that the work of Starting new schools and bringing indigenous schools under Departmental Control — an important factor in the Spreading of Elementary Education — has not been adequately Considered. He, therefore Constituted this Class of officers into a useful agency for doing pioneering work and administrative Superintendence of Schools and designated them as "Supervisors". The Supervisors were thus enabled also to form the Connecting link between the Villagers and the department.

So long as the Supervisors were under the double control of the Department and the Local Boards, it was not possible for the Department to get fully useful work from them. Therefore in 1899, 1901, 1904 their provincialisation was repeatedly advocated by the Director of Public Instruction and it Came into effect on the 1st march 1909 with Salaries ranging from Rs 30 to Rs 50.

That this step improved the personnel of the establishment and made effective Supervision of Elementary Schools possible may be seen from the remarks of Messrs Hart and Kurphaw Inspectors (Vide Report of the quinquennium 06 to 07 to 11 to 12).

Considering the responsible and difficult nature of their duties and the hard Conditions of living at the present day, Your Excellency's memorialist humbly and respectfully prays that this Class of officers may kindly be given sufficient encouragement by the introduction of the following Scale of Salaries:—

1. First Grade Rs 80-2-100 } Annual
   Second grade Rs 60-2-80 }

2. Fixed ~~15~~ Travelling allowance at Rs 25 per mensem

3. Each Supervisor may be allowed a peon as the fixed Contingency allowed is not sufficient to engage man to Carry his Diary, Reference Books, Stereoscope and such other things required for the efficient discharge of his duties in Camp and to [illegible]ering [illegible]pals from the Post office and post [illegible]s and to bring Village officers, Villagers or Teachers when enquiries are to be Conducted and to [illegible]ering Lanterns or Lamps for the journey when necessary and so forth and thus maintain the dignity of his post.

In this Connection Your Excellency's Memorialist begs to submit that officers of the same grade with less jurisdiction in other departments such as Revenue Inspectors, Deputy Inspectors of Vaccination, Sub overseers and Sanitary Inspectors etc., are given peons inspite of the influence they by virtue of their Departments, Command evidently to perform the above duties and to enable the officers to maintain their Status. In short, the hard lot of the Supervisor Can be better imagined than described.

Immediate relief may kindly be afforded by introducing the above deserving privileges with reference to the length of total Service of each Supervisor in that appointment.

Office of the Sub-Asst. Inspector of Schools,

Submitted to the Assistant Inspector of schools,

2/ In the humble opinion of the Sub assistant Inspector the memorial seems to have been based on real grievances. The scales of pay were fixed about ten years ago when food stuffs and clothing were selling at decidedly lower rates. The scales of pay and of fixed Travelling allowances therefore need revision.

3/ As the Sub assistant Inspectors have wide jurisdictions with a large number of schools, what with inspection and travelling work and what with office work they have in many cases to depend largely upon the Supervisors for any solid work of expansion of education and also of improvement of efficiency. The Supervisors have a status to maintain to do this kind of work successfully. The nature of work they have to do the Sub assistant Inspector, thinks, hardly needs a reon.

4/ If in view of any Taluk Deputy Inspectors scheme, this Agency is to be abolished and merged among the newly created Deputy Inspectors posts, the sooner it is done, the better it would be for the efficient working of the department. In short, the Agency in the humble opinion of the Sub assistant Inspector may be mended or ended in the near future.

That under Local Boards there was, prior to 1909, a class of officers called "Inspecting School Masters" with salaries ranging from Rs. 25 to 40. Their duties were then confined only to improving the condition of Elementary Schools. In 1900 the Director of Public Instruction felt that the work of starting new schools and bringing indigenous schools under Departmental control—an important factor in the spreading of Elementary Education—has not been adequately considered. He, therefore constituted this class of Officers into a useful agency for doing pioneering work and administrative superintendence of Schools and designated them as "Supervisors". The Supervisors were thus enabled also to form the connecting link between the villagers and the department.

So long as the Supervisors were under the double control of the Department and the Local Boards, it was not possible for the Department to get fully useful work from them. Therefore in 1899, 1901, 1904, their provincialisation was repeatedly advocated by the Director of Public Instruction and it came into effect on the 1st March 1909 with salaries ranging from Rs. 30 to Rs. 50.

That this step improved the personnel of the establishment and made effective supervision of Elementary Schools possible, may be seen [illegible]om the remarks of Messrs. Hart and Kurshaw, Inspectors (Vide Rep[illegible]of the quinquinium 06 to 07 to 11 to 12).

Considering the responsible and difficult nature of their duties and the hard conditions of living at the present day, Your Excellency's memorialist humbly and respectfully prays that this class of officers may kindly be given sufficient encouragement by the introduction of the following scale of salaries:—

1 First Grade Rs. 80—2—100
Second Grade Rs. 60—2—80 } Annual.

2 Fixed Travelling Allowance at Rs. 25 per mensem.

3 Each Supervisor may be allowed a peon as the fixed contingency allowed is not sufficient to engage a man to carry his Diary, Reference Books, Stereoscope and such other things required for the efficient discharge of his

duties in camp and to bring tapals from the Post Office and post letters and to bring village officers, villagers or teachers, when enquiries are to be conducted and to bring bandies for the journey when necessary, and so forth and thus maintain the dignity of his post.

In this connection, Your Excellency's memorialist begs to submit that officers of the same grade with less jurisdiction in other departments such as Revenue Inspectors, Deputy Inspectors of Vaccination, Sub-overseers and Sanitory Inspectors etc., are given peons, in spite of the influence they, by virtue of their departments, command, evidently to perform the above duties and to enable the officers to maintain their status. In short, the hard lot of the supervisor can be better imagined than described.

Immediate relief may kindly be afforded by introducing the above deserving privileges with reference to the length of total service of each supervisor in that appointment.

Your Excellency's humble memorialist respectfully begs to subscribe himself.

Yours faithfully,

Supervisor of Elementary Schools,

The Assistant Inspector of Schools,
Ganjam District, and The Sub Assistant Inspector of Schools, Chatrapur Range.

The Humble Memorial of Bhubaneswara Misra, Supervisor of Elementary Schools, Purushottapur Sub Range, respectfully showeth,

That your Excellency's humble memorialist begs to bring to your Excellency's sympathetic notice the several disabilities he has been suffering from and the hardship

he

he has been experiencing, hoping for immediate and adequate relief at the most generous hands of your Excellency.

That under Local Boards there was, prior to 1909, a class of officers called "Inspecting School Masters" with salaries ranging from Rs 25 to 40. Their duties were then confined only to improving the condition of Elementary Schools. In 1900 the Director of Public Instruction felt that the work of starting new Schools and bringing indigenous Schools under Departmental Control – an important factor in the Spreading of Elementary Education – has not been adequately considered. He, therefore constituted this Class of Officers into a useful agency for doing pioneering work and administrative Superintendence of Schools and designated them as "Supervisors". The Supervisors were thus enabled also to form the connecting link between the villagers and the department.

So long as the Supervisors were under the double control of the Department and the Local Boards, it was not possible for the Department to get fully useful work from them. Therefore in 1899, 1901, 1904, their provincialisation was repeatedly advocated by the Director of Public Instruction, and it came into effect on the 1st March 1909 with salaries ranging from Rupees 30 to 50.

That this step improved the personnel of the establishment and made effective Supervision of Elementary Schools possible, may be seen from the remarks of Messrs. Hart and Kurshaw, Inspectors (Vide Report of the quinquinium 06 to 07 to 11 to 12).

Considering the responsible and difficult nature of their duties and the hard conditions of living at the present day, your excellency's memorialist humbly and respectfully prays that this class of Officers may kindly be given sufficient encouragement by the introduction of the following Scale of Salaries :–

1. First Grade Rs. 80—2—100
   Second Grade Rs 60—2—80 } Annual.

2. Fixed Travelling Allowance at Rs 25 per mensem.

3. Each Supervisor may be allowed a peon as the fixed Contingency allowed is not sufficient to engage a man to carry his Diary, Reference Books, Stereoscope and such other things required for the efficient discharge of his duties in Camp and to bring tapals from the Post Office and post letters and to bring village officers, villagers or teachers, when enquiries are to be conducted and to bring bandies for the journey when necessary, and so forth and thus maintain the dignity of his post.

In this connection, Your Excellency's memorialist begs to submit that officers of the same grade with less jurisdiction in other departments such as Revenue Inspectors, Deputy Inspectors of Vaccination, Sub-overseers and Sanitory Inspectors etc., are given peons, in spite of the influence they, by virtue of their departments,

command, evidently to perform the above duties and to enable the officers to maintain their status. In short, the hard lot of the Supervisor can be better imagined than described.

Immediate relief may kindly be afforded by introducing the above deserving privileges with reference to the length of total service of each Supervisor in that appointment.

Your Excellency's humble memorialist respectfully begs to subscribe himself.

Fixed Travelling allowance of Rs 12½/- may be raised to Rs 50, 60 and Rs 75/- with an annual increment of one Rupee from 2nd Grade to 1st Grade and Rs 1½ from the Second Grade and Rs 1½ from the Second Grade to the first grade and the Travelling Allowance to Rs 25/- respectively in view of the abnormal rise in the price of food stuffs.

It is also suggested that the fixed conveyance may be raised from Rs 2½ to Rs 5 (five) per mensem if no peon be sanctioned.

Respectfully Showeth,

That your Excellency's humble Memorialist begs to bring to your Excellency's Sympathetic notice the several disabilities he has been suffering from and the hardships he has been experiencing, hoping for immediate and adequate relief at the most generous hands of your Excellency.

That, under Local Boards there was, prior to 1909, a class of officers called "Inspecting School Masters" with salaries ranging from Rs 25 to 40. Their duties were then confined only to improving the conditions of Elementary schools. In 1900, the Director of Public Instruction felt that the work of starting new schools and bringing indigenous schools under Departmental Control - an important factor in the spreading of Elementary Education - has not been adequately Considered. He, therefore constituted this class of officers into a useful agency for doing pioneering work and administrative superintendence of schools and desi-gnated them as "Supervisors". The Supervisors were thus enabled also to form the Connecting link between the villagers and the department.

So long as the Supervisors were under the double Control of the Department and the Local Boards, it was not possible for the Department to get fully use-ful work from them. Therefore in 1899, 1901, 1904, their provincialisation was repeatedly advocated by the Director of Public Instruction and it came into effect on the 1st March 1909 with salaries ranging from Rs 30 to Rs 50.

That this step improved the personnel of the establishment and made effective Supervision of Elementary schools possible, may be seen from the remarks of Messrs Hart and Kershaw, Inspectors (vide Report of the quinquinium 06 to 07 to 11 to 12).

Considering the responsible and difficult nature of their duties and the hard conditions of living at the present day, your Excellency's memorialist humbly and respectfully prays that this class of officers may kindly be given sufficient encouragement by the introduction

following
of the scale of salaries:-

1. First Grade Rs 80-2-100
   Second Grade Rs 60-2-80
   Third Grade Rs 50-1-60
   } Annual.

2. Fixed Travelling allowance at Rs 25 per mensem.

3. Each Supervisor may be allowed a peon as the fixed Contingency allowed is not sufficient to engage a man to carry his Diary, Reference Books, Stereoscope and such other things re-quired for the efficient discharge of his duties in camp and to bring Tapals from the Post office, and Post letters and to bring village officers, villagers, or teachers, when enquiries are to be conducted and to bring bandies for the journey when necessary, and so forth, and thus maintain the dignity of his post.

In this connection, your Excellency's memorial-list begs to submit that officers of the same grade with less jurisdiction, in other depart-ments, such as Revenue Inspectors, Deputy Inspectors of vaccination, Sub-overseers and Sanitary Inspectors etc, are given peons, in spite of the influence they, by virtue of their departments, command, evidently to perform the above duties, and to enable the officers to maintain their status. In short, the hard lot of the Supervisor, can be better imagined than described.
