NOTES CONNECTED WITH A RESOLUTION ON MATTERS
OF GENERAL PUBLIC INTEREST.

[For the meeting of the 12th October 1921 and subsequent days.]

[SUBJECT.—*Scheme of studies for Secondary school-leaving certificate to include training in industrial and technical subjects.*]

COUNCIL OFFICE.

Rao Bahadur A. S. KRISHNA RAO:—

172. That this Council recommends to the Government that the scheme of studies for the secondary school-leaving certificate should be modified as to afford training in industrial and technical subjects.

LAW (EDUCATION) DEPARTMENT.

Under paragraph IV of the scheme for the award of the secondary school-leaving certificate any one of the following subjects may be offered as an optional subject by a candidate appearing for the public examination:—

- (1) History of England and British India.
- (2) Algebra and Geometry.
- (3) Practical Mathematics.
- (4) Trigonometry.
- (5) Botany.
- (6) Physics.
- (7) Chemistry.
- (8) Music.
- (9) Agriculture.
- (10) Commercial Practice and Geography.
- (11) Book-keeping and commercial arithmetic.
- (12) Shorthand (English or vernacular).
- (13) Précis-writing and indexing.
- (14) Needle-work and dressmaking.
- (15) Lace work.
- (16) Physiology.
- (17) Domestic science.
- (18) Any other subjects within the secondary school course.

One of the above subjects have to be taught from the IV form upwards in order to render a pupil eligible for the certificate which takes into account the work done from the IV form up to the VI form—vide paragraph IV, page 39 of G.O. No. 427, Educational, dated 21st July 1909.

2. It will be observed from the list above that certain industrial and technical subjects have already been included in the scheme of studies for the secondary school-leaving certificate. The term "industrial and technical" is wide in scope and it would have been better if the resolution was more definite in terms. It may, however be noted that the subjects are now taught only in a few schools. Agriculture is taught only in two schools and there are only 99 secondary schools which offer instruction in technical subjects—paragraph 2 of the Director of Public Instruction's note on page 3 of the printed notes. Further the question of introducing vocational training in secondary schools is separately under consideration.

Legislative Council meeting

20-12-21

December 14, 1921 -

Resolution - S.S.L.C

Scheme - industrial

and technical

subjects - not moved

- notes recorded

3. In this connexion attention is solicited to the resolution proposed to be moved by Mr. Arpudaswami Udaiyar at the meeting of the Legislative Council recommending the inclusion of commercial and agricultural sciences in the secondary school-leaving certificate course. (Resolution was not moved—G.O. No. 1303, Law (Education), dated 14th September 1921.) The present resolution is akin to it. If the position is explained to the member, he may probably withdraw this resolution.

4. It does not seem necessary to send the case to the Director of Public Instruction for remarks. For orders as to circulation to the Hon'ble the Minister.

K.A.—24-8-21. T.K.—24-8-21.

The same member is to move another resolution at the meeting to the effect the steps should be taken "to enable local bodies to afford vocational training in industrial and technical subjects in the secondary schools under their control." (Resolution was not moved—G.O. No. 1316, Law (Education), dated 14th September 1921.) In that connexion the Honourable the Minister has, while issuing orders for calling for a scheme from the Director of Public Instruction stated that "the resolution is a general one and there is no objection to accept the policy of vocational training in secondary schools."

There can therefore be no difference in the attitude of Government towards this resolution.

Another matter has also to be mentioned in this connexion. The Senate has resolved "to remodel the intermediate courses in such a way as to provide for the completion of school education at the Intermediate stage with a view to technical training and commercial life and the like." . . . and to appoint a committee to work out the details. With reference to Mr. Ramalinga Chettiyar's resolution to appoint a committee to examine the proposals of the Sadler Commission, it has been decided to accept the resolution in a modified form, the Committee to be appointed being required to consider the Commission's report in the light of the recommendations of the University of Madras and to submit proposals to Government to give effect to its conclusions. This committee will therefore necessarily consider the question of the introduction of commercial and technical training in the secondary course.

C. RAMANUJA ACHARIYAR—24-8-21.

The resolution need not be opposed. It is our intention to modify the course of studies in the manner suggested. It may be explained how the matter is under consideration.

P. C. DUTT—25-8-21.

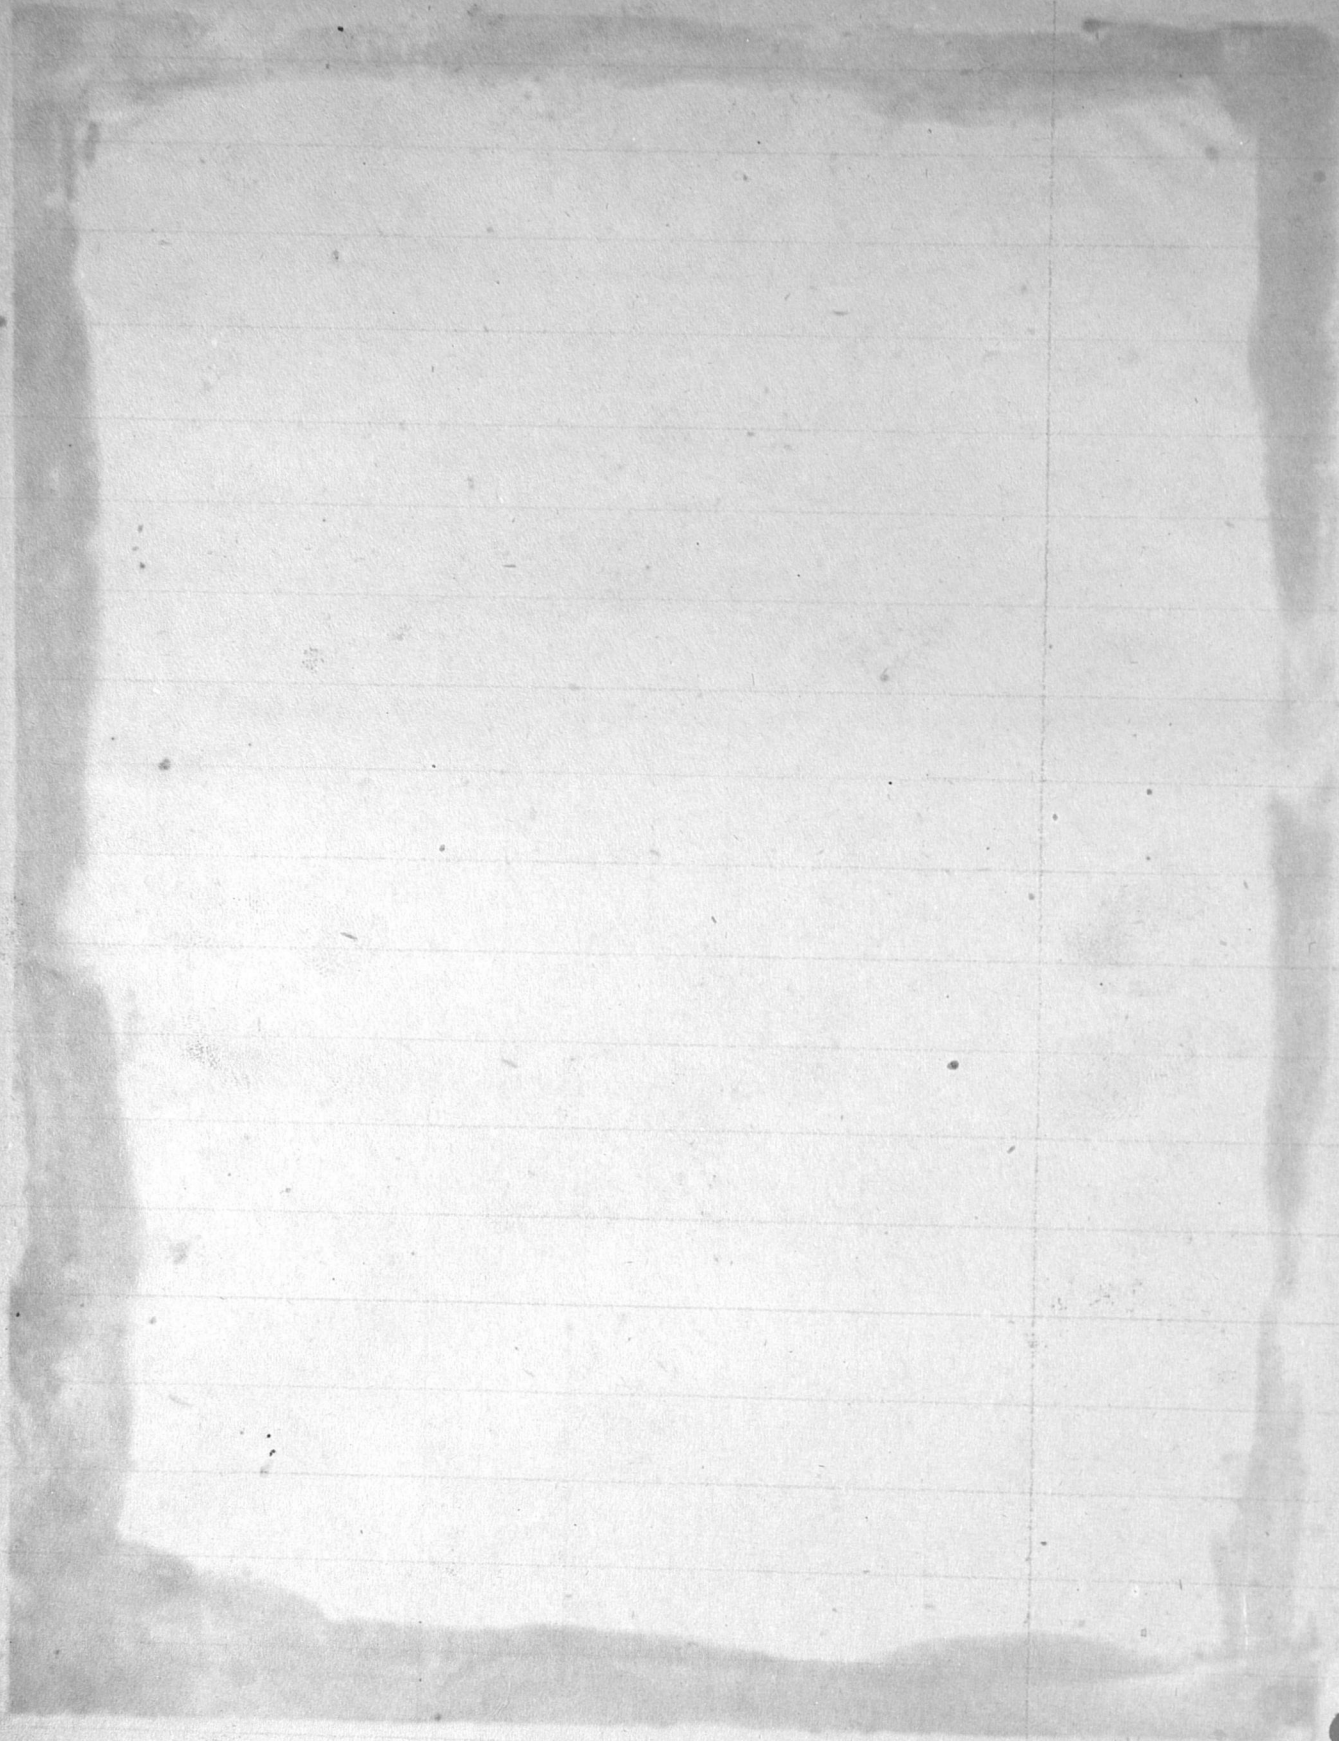

Yes, it is so.

A. P. P[ATRO]—25-8-21.

Senate resolution at (A)

Resolution since accepted and the committee is being appointed
