Copy of letter No. 75-10475, dated 6th December 1920
from the Surgeon-General with the Government of Madras, to the
Director of Public Instruction, Madras

I have the honour to inform you that I recently
made a detailed inspection of the methods of diet supplied at the
Reformatory School, Chingleput, with special reference to Government
Memorandum No. 535-B-1, dated 9th March 1920, I find that the new
diet is a great improvement on the old. The effect is already visible
both in the weight of the boys and in their physical aspects.
After consultation with Dr. Krishna Warriar however, I have come
to the conclusion that the diet scale requires a few changes.
Dholl may be reduced to 3 ounces on days on which mutton and fish
form part of the diet. The diet on Tuesdays, Thursdays and Sundays
seems to contain an unnecessary amount of nitrogenous food. Half
an ounce of curry powder for each boy has been found to be too
large a quantity as the curry becomes too pungent when the whole
quantity is added. It should be reduced to two-fifths of an
ounce for each boy and this will be sufficient for two curries
with a chutney for morning conjee.

2. Dr. Krishna Warriar has found that the rigidity of a diet
scale is not convenient in a Reformatory School where the boys
are constantly changed and where the health of the boys is liable
to be considerably interrupted by attacks of Malaria, Influenza
and other conditions. He therefore, has found it necessary to
frequently change after personal daily observation, the boys who
are to be classed on different scales of small, medium and large
and to reduce the boys from time to time from one to the other
or to raise them from one to the other. So long however, as the
health of the boys is improving it seems to me that the
Superintendent should have full power to vary the amount of food
given to any individual boy, the gauge being only his capacity to
digest the diet provided.

Ref. on Cur. No. 1259 of 1920.

Station Madras, Dated the 16th February 1921.

From (Name) R.C. Grievs, Esq., M.A.,

(Designation) G. Director of Public Instruction,
Madras.To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

In continuation of my letter R.C.No. 1259 of 1920 dated 3-3-1920 regarding the working of the revised scale of diet sanctioned in G.O.No. 128 Home(Education) dated 29-1-1919, I have the honour to submit herewith a copy of ^{the report received} ~~letter~~ from the Surgeon-General after his recent inspection of the methods of diet supplied to the Reformatory School, Chingleput, and to recommend for sanction the alterations in the diet scale suggested therein.

I have the honour to be,

Sir,

Your most obedient servant.

Dubrahmanthallu
for Director of Public Instruction.

sar.

I have the honour to invite a reference to G.O.No. 128 Home (Education) dated 29th January 1919, requiring the Director to submit a report on the working of the new scale of diet in the Reformatory School, Chingleput.

2. The Superintendent of the school in his letter R.C.No. 78 G1/18 dated 6th February 1920 a copy of which is herewith enclosed reports that the new diet scale has brought about some improvement in the health of the boys but that for want of ragi rice has been the general diet from 26th November 1919. He further states that the boys prefer rice diet to ragi and requests that rice may be made the usual diet in the institution, ragi cakes being given in the mornings instead of rice congee when ragi gets cheaper. I request that you will be so good as to obtain the orders of Government on the above proposal.

NOTES.

Law (Edn) Report
C. No. 553 B - From the D.P.D., D.O. No 1259/20
of 18th Jan'y 1921.
Subject - Report regarding the ^(new scale) diet
for the boys of the Reformatory
School at Chingleput.

(T) Attention is solicited to the
notes and orders in G.O. No. 128
Home (Edn) dated 29th Jan'y 1919
which led to the introduction
of the new scale of diet ^(proposed by the Surg Genl) for the boys
of the Reformatory school, Chingleput.
The Surgeon Genl was at the same
time requested to report at the end
of one year on the working of the
new scale. From the report of
the Surg Genl on page 7 of C.F. it will
appear that the new scale was
a great improvement on the old one
that the rigidity of a diet scale is
not suited to the boys. He therefore
recommended ^{certain alteration in the scale & suggested} that the Suptd should
have full power to vary the amount
of food given to any individual boy,
the gauge being only his capacity
to digest the diet proposed. The
D.P.D. also recommends the alteration
in

110
in the scale of diet suggested by
the S.G. The revised scale may
be approved and the D.D. may
be asked to submit ^(a draft of) the necessary
alterations in rule 20(1) of the
rules for the Reformatory School,
Chingleput issued in G.O No 158
Edl of 20th March 1907.

A draft order is subd for appl.
