C.No. 309/20
10-4-20.

Respected Sir, We the undersigned students of the Upper subordinate class 1st division of your College beg to bring to your kind consideration and recommendation the following request of ours:-

During the practical course each passed candidate of the Upper Subordinate Class is given an allowance of Rs.25/-

The prices of foodstuffs and other necessities of life have risen abnormally high now. The salaries committee too, has reported that they have risen by 1½ times more than what they were a few years before. Under the new regulations the minimum pay of a clerk in any Government service has accordingly been fixed at Rs 30/-.

Further the work of a student undergoing his practical course is more executive than indoor.

The average expenditure per student here in Madras excluding his college fees amounts to Rs.40/-. And it can be no less therefore in the case of the student during his practical course. In the college hostel where a number of students live together and therefore have to pay a comparatively low rent for their lodgings the average expenditure per student per mensem comes to Rs.25/-. This amount excludes that for his break fast which will be the more necessary and costly for one on executive work-

His expense on this item may be no less than Rs 8/ and for his lodgings he may have to pay Rs 2/ at least more, and including his sundry expenses he requires on an average Rs 40/ per mensem.

In fine, we beg to state that under these circumstances our present allowance is quite insufficient and request you Sir, therefore to champion our cause as the guardian of our interests by forwarding this request of ours to the authorities concerned with your own strong recommendations on it and win for us the necessary increase of allowance.

We beg to remain,

Respected sir,

Your most obedient Students.

C. No. 1711

DATE 17-4-20

Sir,

C No 345/20
17-4-20

We beg respectfully to request you to move Government to grant us an increase in the rate of subsistence allowance paid to Engineer students undergoing practical training.

2. The present rate is Rs.35 per mensem. It is quite insufficient in these days when prices have gone up by 200 or even 300 per cent to cover even a substantial portion of our expenses in the way of boarding lodging etc. The L.T. students, it is true, receive a lesser rate of stipend, but all of them live at Saidapet and run a common mess whereas we are posted in out of the way places where there are hotels. We are thus forced to engage a cook and maintain separate establishment. We would also respectfully urge in this connection that during our practical course the work we do is of considerable value to Government which would otherwise be done by an Upper Subordinate.

3. The rate of travelling allowance paid to us is a matter of some difficulty to us. We are given only double III class. In these days of overcrowded trains it is very inconvenient to travel in the III class compartments; further we would also represent that considering our position it is undesirable for us to do so.

4. We therefore beg to request you to move Government to increase our rate of stipend to fifty rupees per mensem and to grant us second class allowance.

We beg to remain,

Sir,

Your most obedient students,

Public Works Department,

Madras.

Through

The Principal,

College of Engineering,

G u i n d y.

Sir,

I beg to bring to your notice the fact that the subsistence allowance of Rs.35 per mensem given to us during the practical course is quite insufficient in these days of very high prices.

In last April, we, the Engineer students now undergoing practical course, then students of the final year engineer class, ^{sent} a joint petition sent to you through the Principal, College of Engineering, requesting you to sanction a substantial ~~increase~~ increment of the subsistence allowance.

It is not known how that petition has been disposed of.

You have been pleased to increase the pay of all P.W.D. Officers and servants recently in view of the rise in the cost of living.

I request you will ^{kindly} consider the fact that the rise in the cost of living affects all equally well and be pleased to sanction a stipend of Rs.50 per mensem as recommended by the Salaries Committee or at least pass orders allowing to draw from the date of my joining for practical course temporary allowances as sanctioned in G.O.No.700 of 2nd August 1920.

I beg to remain,

Sir,

Your most obedient servant,

S. Janardana Iyer.

Respected Sir,
I, most humbly beg to
state that along with my other class mates
submitted memorial early in April last for
your kind consideration, regarding an increase
of our stipend during our practical course.

We have therein stated our grievances
and shown clearly the necessity for such an increase
and our revered principal was kind enough to
recommend the same.

We feel very disappointed and sorry to see
that our request has not been granted even though
6 months have elapsed, since our memorial was
submitted. I further beg to state that the prices
of food stuffs and other necessaries have only gone
high since then. You are aware, most respected
Sir, of the recognition of the fact by the Govt. that
has been shown by the recent increments of pay given
to members of the various departments of the Govt.
My condition is no better than theirs and so I need
no further address.

In conclusion, I beg to request your most Respectful
kindly consideration and give me the necessary
relief, which I am badly in need of.

I beg to remain,
Most Respectful Sir,
Your kind obedient servant,
K. Srinivasan

Sir,

1. I beg to bring to your notice the fact that the subsistence allowance of Rs. 35 per mensem given to us during the practical course is quite insufficient in these days of very high prices.

2. In last April, we, the Engineer students now undergoing practical course, then students of the final year engineer class, sent a joint petition to you through the Principal, College of Engineering, requesting you to sanction a substantial increment of the subsistence allowance.

3. It is not known how the petition has been disposed of.

4. You have been pleased to increase the pay of all Public Works Department officers and servants recently in view of the rise in the cost of living.

5. I request you would kindly consider the fact that the rise in the cost of living affects all equally well and be pleased to sanction a stipend of Rs. 50 per mensem as recommended by the Salary's Committee or at least pass orders allowing me to draw from the date of my joining for practical course temporary allowances as sanctioned in G.O. No. 700 of 2-8-1920.

I beg to remain,
Sir,

Yours most obediently.

Through

The Executive Engineer,

North Presidency Division,

Most Respected Sir,

I, most humbly beg to state that I along with my other class mates submitted a memorial early in April last for your kind consideration, regarding an increase of our stipend during our practical course.

We have therein stated our grievances and shown clearly the necessity for such an increase and our revered principal was kind enough to recommend the same.

1321 SE
3.12.20
We feel very disappointed and sorry to see that our request has not been granted even though 6 months have elapsed, since our memorial was submitted. I further beg to state that the prices of food stuff and other necessaries have only gone higher since then. You are aware, most respected Sir, of the recognition of this fact by the Govt. as has been shown by the recent increments of pay given to members of the various departments of the Govt. My condition is no better than theirs and so I need not impudently address.

In conclusion, I beg to request you, most Respected Sir, to kindly consider my grievance and give me the necessary increment, which I am badly in need of.

Home (Exl) Dept

(D)

Reference is solicited to the terms of the orders issued with G.O. 574 Home (Exl) d/1.5.1918 in regard to the provisional rates of subsistence allowances now granted to the Engineer and upper subordinate students of the College of Eng^t while under practical training. Last year the Engineer students and strain up men, came up again to Govt for increased rates of subsistence allowance and the Govt declined to increase the rates already sanctioned in G.O. no. 574 Home (Exl) d/1.5.1918.

Vide G.O. no 1036 (K) d/27.8.19

- Or - (K)

(D)

The present request for increased rates has emanated both from the Engineer students and the upper subordinate students. The contention ^{that the upper subordinate students is} that the minimum pay of clerks has been raised to Rs 30/- and ^{that} their scale of subsistence allowances should therefore be raised. ~~and acceptable for the~~ ~~as the~~ The students are not

para 3 p. 2 c.f.

p. 5-6 c.f. p. 2-3 c.f.

Compare rule at A in p. 34 Home Officers of Govt, and the endowment the rule 30. at (D)

Sanctioned is in the nature of a ¹⁰⁰⁰ scholarship. But there can be no gainsaying the fact that the increased cost of commodities prevailing now has much depreciated the value of the allowance of Rs 25/- sanctioned in 1918. ~~It is for~~ It is for consideration whether in that view of the situation the request of the students, both engineer and upper subordinates will be considered by the Govt. ^{The D.P.D. when last consulted} ~~was against the proposal to raise the rate of~~ ~~the allowance~~ ^{stipend (-pages 30 + 31 of from 10.26 to 27-8-19)} The question of revising the scale of travelling allowances of the engineer students has been rejected (vide G.O. No 574 H.S. of 1.5.18) and no fresh grounds have been adduced for reconsideration of that order.

^{Govt} 15-5-20 ⁴ The P.W.D. establishment is about to be reorganised and as a result of the reorganisation

The upper subordinate establishment will be abolished gradually and a new Provincial Engineering service constituted. Engineer students will be appointed to the new service and their initial salary will probably be Rs 25/- p.m. ^{The present rate of Rs}

Resolution of the Govt of India in the P.W.D. M 192 EA of 1-4-20 (3)

Page 5 of notes to Govt 574 1-5-18 (D)

Rs 35/- p.m. for engineer students will fix in 1918, having regard to the ~~fact that~~ ^{fact that} most of the engineer students entered service as Overseers on Rs 60/- or Rs 65/- and that the minimum pay of a clerk was then only Rs 30/- p.m. The minimum pay of a clerk has since been raised to Rs 30/- in the maffassal and Rs 35/- in Madras City and, as above pointed out, the prospects of engineer students on entering service will be considerably improved. Having regard to the enhanced status they would thereafter occupy as gazetted officers of a Provincial Engineer ^{and the abnormal increase in prices in recent years} ~~their~~ ^{their} prayer to be granted a subsistence allowance of Rs 50/- p.m. and second class travelling allowance which is strongly recommended by Mr James appears to be reasonable and may be supported in this depth.

5 The upper subordinate class in the College of Engineering is to be gradually abolished but for some years there will also be students of this class undergoing practical training. They too have been hard hit by the rise in prices and even if their stipend cannot be raised from Rs 25/- to Rs 40/- p.m. as prayed for, they may at least be allowed the minimum pay of a clerk in

4570
R 301-^{while undergoing training} in the ~~Thiruvallur~~ ^{Madras City} and R 357-
Madras City

U.O. Reply No. Camp 156/20 8 21-5-20

The case of the students of the College of Engineering of the Upper Subordinate Class and of the Engineer class who are undergoing their final year of training is analogous to that of students undergoing training in a Training school or college with the object of becoming teachers. Theoretically the stipend is meant to supplement the resources of the students but practically the resources of the students are very small and some of them have little if anything upon which to live apart from their stipends.

The Upper Subordinate student was originally a holder of a completed Secondary School Leaving Certificate. He has spent two years in the probationary subordinate class and two years in the Upper Subordinate class and is now spending a fifth year on works. He corresponds roughly to a ^{pass B.A.} student undergoing training in a Teachers' College. The ordinary rate of provincial stipend for such a person

who has had no
experience in teaching

32
person is Rs.15, vide Rule 118 of the Madras Educational Rules but in a note which I wrote on the 4th of April last on the salaries of teachers and stipends to teachers under training and handed over to the Member in charge of Finance I recommended that the stipend for college students be raised to Rs.30 per mensem. If my proposal to raise the stipend of college students to Rs.30 per mensem is accepted I should favour the grant of an increased stipend to the Upper Subordinate Students of the College to the same figure. If however the stipend to L.T. students is not to be raised to Rs.30 per mensem ^{since} I do not see that any ^{valid} ground can be brought forward for raising the stipend of Upper Subordinate students which are not applicable to the case of collegiate students, ~~and~~ I should not favour any increase.

Students of the Engineer class have spent four years in College after passing the Intermediate degree examination of the University and correspond roughly speaking to Honours students who have taken a pass degree before taking an Honours degree and who are now ^{before having any experience in teaching} undergoing training to become teachers. Under the Madras Educational Rules these students receive Rs.5 per mensem higher than students who have only taken a pass degree and who are undergoing training as teachers. I do not however favour

any

any differentiation in the amount of stipend between pass and honours students. They do practically the same work ^{they} eat the same quantity of rice and of ghee and they are not drawn from a scale of society which has more expensive habits than the pass student. They (the Engineer student) already receive Rs.35/- per mensem and I am unable to support any increase.

Compare Chief Insp.
note on p. 4 of the
with Co. 574 (D)
T.S. 18

2 The statement of the D.P.D. that the cases of the Engineer students and the Upper subordinate students are analogous to ^{that of students} ~~those~~ and going L.T. and ~~secondary~~ training is subject to this difference viz, that while the ^{gains by} ~~State~~ ~~work~~ ~~turned out by the~~ ~~Upper subordinate and~~ ~~Engineer students~~ ^{in money value} while they undergo training there is no such return in the case of students undergoing training for the teaching profession.

B. The D.P.D. recommends the grant of a subsistence allowance of Rs 30/ p.m. to the Upper subordinates under training and that is to be contingent on the grant of

33 187
for similar amount as stipend for the students under L.T. training. He would not increase the rate of subsistence allowance of the Engineer students.

4 The arguments for the increase of the rates of subsistence allowance ^{in some cases} are stated on pages 3-4 ante.

ab. (I) Orders have since been passed in
 for No. 246, 2, 10-2-21 ~~not~~ negating
 the D.P.D.'s proposals for the increase
 in the rates of stipends granted to
 teachers undergoing training.
 Attention is invited to the D.P.D.'s note
 on pages 5-7 ante wherein he
 recommended an increase in the subsistence
 allowance of Upper Subordinate Students
 from Rs. 25 to 30 if his proposals to
 raise the stipend of Collegiate ^{grade} teachers
 to Rs. 30/- were approved. He did not
 recommend any increase in the
 subsistence allowance of Engr. Students.

For orders whether the petitioners
 may be informed that ^{for increase of subsistence allow.} their requests cannot
 be complied with. As regards the Engineer
 Students' request for the grant of Second
