the above decision was communicated.

The Deputy Sanitary Engineer, Northern & Central Circles under whom the Draftsman is working speaks highly of his capacity for outdoor work and reports that in the Peddapuram Drainage work he was recently employed on, he was observed to be quick and accurate.

I would add, besides, as a strong argument in favour of the proposed exemption, that examination qualifications, indispensable as a general rule, should not by themselves be allowed to stand as a bar against due recognition and encouragement of well tried and capable men like the above draftsman of 10 years indoor and outdoor experience.

I have the honour to be,

Sir,

Your most obedient servant,

Offg. Sanitary Engineer to Govt.

Copy of letter No. 11 SE. dated 5/1/21 from S.D. Shroff Esq., Dy. Sanitary Engineer, Northern & Central Circles to the Sanitary Engineer to Govt.

With reference to your endorsement No. 2456 S dated 28-12-20 I have the honour to give below detailed reasons for recommending the permanent exemption of the draftsman M. Venkatachela Mudaliar from the Lower Subordinate Test as desired by the Chief Engineer in his memo: under reference.

(1) Mr. M. Venkatachela is a passed draftsman of the College of Engineering under the old curriculum and possesses a group certificate of the Intermediate grade in "Hydraulics and Irrigation" of the Government Technical ~~Examination~~ Examinations which makes his qualifications practically the same as that of a passed Lower Subordinate. (Designation)

(2) He has been doing good work in this department as a draftsman as well as an outdoor Surveyor for the past ten years and should prove a useful Provincial Surveyor. Even if a passed Lower Subordinate and for the matter of that even if a passed

Upper Subordinate be posted to this department which does a special class of work, he is not likely to prove of much use till he picks up the details of Sanitary ^{Scheme} ~~Scheme~~, and it is submitted that a man who has been learning work in this office for the last 10 years is likely to prove more useful as a Provincial Surveyor than an outsider with even better examination qualifications.

Copy of letter dated 1-10-20 from M. Venkatachalam to the Sanitary Engineer to Govt. through the Dy. Sanitary Engineer, N. & C. Circles and the Asst. Sanitary Engineer Northern Circles.

Having come to understand that a provincial Surveyor's place is vacant in this office, I beg to offer myself an applicant for the same.

I have joined this office in November 1910, and am at present the senior man, in the provincial temporary staff of the drawing section, except Mr. Latchumana Iyer. I humbly request that my claims may not be overlooked.

Further I have been serving in this office for the last two years as Sanitary Surveyor, which in every way is the same as the duties of a provincial Surveyor, discharging my duties to the entire satisfaction of my superiors.

Under the above circumstances, I humbly request that my claims may be favourably considered.

Endorsement No. 576/2-10-20.

Forwarded for favourable consideration. He was recently employed on Peddapuram drainage work and found him quick and accurate in his work. Reference is however solicited to Sanitary Engineer's no. 536 S dated 22-3-19. Sd/ S.D. Shroff, D.S.E.

The reasons for which the permanent exemption of the draftsman is recommended will be found in the Deputy Sanitary Engineer's letter, pp 4+5 cf. The draftsman is stated to be capable of doing outdoor work and to have gained experience in a "Special Class of work" which cannot be easily picked up by even lesser subordinates. The ^{permanent} exemption of the man may perhaps be recommended to the Law (Eon), Deptt, u.o., for sanction.

As will be seen from pp 4 & 5 of, the man has done good work as a Surveyor under the Sanitary Engineer & it is stated that he would prove a useful 'Provincial Surveyor.' As the work of ~~the~~ 'Surveyors' is usually in the P.W.D. is ~~it~~ apparently different from that of the ^{special} 'Surveyors' employed under the Sanitary Engineer the words "under the Sanitary Engr." may perhaps be substituted for the words "in the P.W. Dept" in the last line of the draft. With this alteration, the draft may be accepted in P.W.D. & the case returned to Law (Coln)
