Ref On C. No. 959/20
W.B.Station Madras, Dated the 23rd November 1920From (Name) The Hon'ble Mr. R. G. Grieve, M.A.,(Designation) Ag: Director of Public Instruction,Madras.

To The Secretary to the Government of Madras,

Home (Education) Department.

Sir,

I have the honour to address Government regarding the calculation of allowances to conductresses with a view to secure uniformity of procedure throughout the Presidency.

2. According to item 1-B on page 37 of Volume II of the Madras Treasury Manual, the allowance to conductresses should be calculated at one anna per pupil putting in 15 full attendances in a month and on the average of the two preceeding months during authorized vacations. This rule does

does not take into account cases in which the number of working days in a month is less than 15. Consequently, when a reference was made by the Accountant General in 1911, he was informed that if a school is closed for some days in a month and the number of working days falls short of 15, the allowance should be calculated on the average of the two previous months. Incidentally, it was also stated that if there be 15 and more working days in a month the allowance is to be calculated as the average of that month. The Inspectresses were also informed of the above procedure for their guidance.

3. It is, however, learnt that while in the case of months in which the number of working days is less than 15, the procedure adopted is uniform, the calculation in regard to months with more than 15 working days is made in either of the two ways mentioned in para 2 supra. As the procedure decided upon in 1911 is likely to act as an incentive to increased attendance, I request that in the interests of girls' education, Government may be pleased to accord their approval to the calculation of the conductress's allowance on the average attendance for the ~~month~~ number in all cases where the number of working days is fifteen and over.

I have the honour to be,

Sir,

Your most obedient servant,

For Director of Public Instruction

FORT ST. GEORGE,

Dated the 16th December 1920

From

THE ACCOUNTANT-GENERAL, MADRAS,

To

THE SECRETARY TO THE GOVERNMENT OF MADRAS

Home (Education) Department, Madras

SIR,

In returning herewith letter R.O.C. No. 959/20/W.B. dated the 23rd November 1920 from the Director of Public Instruction referred to this office for remarks with Government endorsement No. 2399 B-1 dated the 1st December 1920, I have the honour to state that there is no audit objection to Government in the Financial Department sanctioning the proposal of the Director of Public Instruction to calculate the Conductress's allowance on the average attendance for the month in all cases, whether the number of working days is or is not less than 15.

I have the honour to be,
Sir,
Your most obedient servant,

M. Srinivasan
Deputy Accountant General.

With reference to the Finance Secretary's
remarks on p. 2 ante it is subd that the wording
the draft on p. 1 ante follows closely the A.G.'s letter
on p. 4 C.F. As this is an account matter it was
thought advisable to follow the A.G.'s wording.
If the words enclosed within brackets in the draft
are omitted the intention of the draft becomes clear.
The A.G. will apparently have no objection to the
amendment. If approved Financial may see the
draft as amended

25/1/21

18-1-21

In cases where there are
less than 15 working days, the
average of the two previous
months is uniformly adopted
& there is no difficulty in regard
to it so far.

As regards cases with & with more
than 15 working days two different
methods of calculation are now
in vogue, viz:

- (i) - One Anna per pupil putting in
15 full days' working attendance
in the month, irrespective of the
number of working days in it, and
- (ii) - One Anna per pupil calculated
on the average monthly attendance
per month.

These methods will be better understood

4
X
of the practical illustration below.

no. of pupils	attendance in that month. i.e. no. of working days put in by the pupils	Total
15	20	
5	16	
3	15	
1	5	
24		

Under the first method, as there have been 23 pupils (15+5+3) attending the school for ~~15~~ 15 working days & more in the month, the conductors will get 23 annas that month.

Under the second method, the average attendance will be calculated at 19 ¹¹/₂₂ as shown in the margin. ~~and the conductors will get Re 1-3-6 that month.~~

The D. P. T. prefers the latter method ^(as adopted in all cases) and the A. G. also agrees to it. There is, I submit, no difference bet. the proposals of the two officers. The basis of calculation, viz. the average attendance in the month is expected to furnish an inducement to the conductors to bring in more pupils every day & do her duty properly.

A. Amplify Draft
29.1.21
28/1/21

$$\begin{array}{r}
 15 \times 21 = 300 \\
 5 \times 16 = 80 \\
 3 \times 15 = 45 \\
 1 \times 5 = 5 \\
 \hline
 430
 \end{array}$$

Taking 22 as the total no. of working days the average attendance will come to $\frac{430}{22} = 19 \frac{11}{22}$

No. 411, dated 12/3 1921

Mei

The Govt. approve the proposal of the D.P.J. that in all cases where a month contains 15 or more working days, the allowances to conductresses should in future be always fixed at one anna per pupil calculated on the average attendance for the month. In the case of months in which the number of working days is less than 15, the allowance should be calculated on the average of ~~the allowance earned by the conductresses during~~ the two previous months.
