GOVERNMENT OF INDIA.

DEPARTMENT OF EDUCATION.

EDUCATION.

To

THE RIGHT HONOURABLE LDWIN MONTAGU.

His Majesty's Secretary of State for India.

Delhi, the 25th November 1920.

SIR,

We have the honour to refer to paragraph 10 of our Education Despatch No. 15, dated the 14th October 1920, regarding the transfer of certain posts from the Provincial to the Indian Educational Service. In that paragraph we stated that we hoped shortly to address you with reference to the appointments to be made to the posts now being transferred to the Indian Educational Service.

2. We reported to you in that despatch that the existing cadre of the Indian Educational Service contains 277 posts and that we had sanctioned the transfer of 79 posts from the Provincial to the Indian Educational Service. The number of posts which under your orders it is permissible to transfer is 92 against 112 posts recommended for such treatment by the local Governments. We were doubtful about the propriety of transfer of some of the posts proposed and the recommendations of the local Governments were not always similar regarding posts of a similar nature. We therefore considered it prudent, in the first instance, to transfer those posts only regarding which we felt no doubt and to keep over for future consideration the question of transfer of others. For it is clear that the excessive number of posts proposed for transfer by the local Governments necessitates some discrimination and that the further question whether the six outside posts, which with your sanction we have transferred, should count towards the permissible total must be settled before a decision is reached regarding the transfer of the balance. In paragraph 9 below, we deprecate any immediate decision, based upon an arbitrary mathematical calculation, upon the question of the precise number of posts to be transferred.

3. In our circular letter No. 1092, dated the 27th August last, we requested the local Governments to expedite the lists of persons whom they considered suitable for holding the transferred posts. We have not yet received all replies. We should have preferred to send you complete proposals both as regards the small balance of posts which remains to be transferred and as regards the incumbents of all posts so transferred. In view however of the delay that is likely to arise from the difficulties which some local Governments may feel in coming to a decision on the question of personnel, we think that it is desirable to place our proposals in this respect before you as they are received. It is needless to emphasise the importance of arriving at the earliest possible decision upon these personal questions and convincing the public of the desire of the Government of India to carry out expeditiously this portion of the orders regarding the re-organisation of the Educational Service and the decisions which have been arrived at regarding the appointment of a large number of Indians to posts

included in the Imperial Service. Early announcement of such decision is, in our judgment, calculated to produce an excellent effect on educated India opinion.

4. In approaching this subject we have been faced with an initial difficulty namely, that the qualifications possessed by the incumbents of some of the transferred posts are not such as in the past would have been considered as qualifying their possessors for appointment to the Indian Educational Service. The insistence, however, which the Royal Commission laid upon the possession of European qualifications clearly applies to the case of direct recruits and we consider that paragraph 15 of Annexure IV to their report indicates that they do not consider such qualifications requisite in the case of indirect recruits. Where promotion from the Provincial to the Indian Educational Service is concerned, experience and a good record of service are of greater importance than initial qualifications. While preference would naturally be given to the possessor of European qualifications where two officers of equal experience and equally good record are concerned, cases are conceivable where third rate European qualifications might be held as less valuable than outstanding Indian qualifications coupled with superiority in the matter of experience and service record. Each case will have to be considered on its own merits.

5. We have very carefully considered this question with reference to the promotions immediately to be made. We admit that some of the officers recommended by local Governments are possessed of distinctly inferior qualifications. But in the initial filling up of these transferred posts we feel that, while warning the local Governments that greater discrimination will be used in future as regards qualifications, it would not be unreasonable to permit the promotion, even at the risk of a temporary lowering of the standard, of officers who have long been performing duties commensurate with those assigned to officers of the Indian Educational Service and possessed of long experience in their branches of education, whether professorial or administrative. Nor do we think that such a course will necessarily involve any lowering of the standard for admission in the future. Accordingly, after having considered and rejected various complicated plans for assessing qualifications, experience and service record, we have, without binding ourselves to similar acceptance of the recommendations of other local Governments or further recommendations made by the local Governments with which we deal in this despatch, decided to accept all the proposals made in the case of those provinces from which they have arrived in a more or less final form.

6. In one matter we think that the local Governments have not paid full attention to the recommendations of the Public Services Commission and of ourselves. In paragraph 14 of Annexure IV to their Report the Commission laid stress upon due representation of the various communities on the administrative side of the proposed Class II. In paragraph 11 of our circular letter No. 371, dated the 23rd March 1920, of which a copy was forwarded to you with our Educational Secretary's letter No. 9, dated the 25th March 1920, we emphasised the desirability of maintaining the fair representation of the different Indian communities, provided that suitable recruits from those communities were forthcoming. We consider that the recommendation of the Commission is applicable not only to those officers who, under its proposals, would have been included on the administrative side of Class II of the service but that it is also applicable, so far as is compatible with efficiency, to the Indian Educational Service as now re-organised. These considerations are being pointed out to the local Governments for future guidance.

7. The provinces with which we deal in the present despatch are Bombay, the United Provinces, the Punjab, Burma, the Central Provinces, Assam and the North-West Frontier Province. The statements appended to this despatch show for each province the total number of its appointments in the Indian Educational Service, the number of posts in the Provincial Service which it is proposed to transfer and the number of such posts whose transfer we have sanctioned together with the names and brief description of the officers whose promotion is now proposed. In certain cases local Governments desire, for the

present, to leave transferred posts vacant by reason of the fact that the incumbents are not fully qualified.

In two cases proposals for promotion have been made on the strength of the qualifications of an individual officer. The Government of the United Provinces proposes the transfer of Mr. A. C. Mukharji. The proposal, however, is to appoint him not to one of the transferred posts but to the already existing post of Professor of English in the Muir Central College, Allahabad. His case, therefore, does not form part of the main proposal with which this despatch is concerned. We take the opportunity, however, of informing you of his qualifications and recommending his appointment to the post in question. He does not possess European qualifications but his academic career in India was of an exceptional nature and he has officiated for no less than nine years in the Indian Educational Service. The second case is that of Sardar Sahib Sardar Bishen Singh. He holds the post of Inspector of Training Institutions in the Punjab, which is one of the posts regarding the transfer of which we felt doubt. By reason of his experience, however, the local Government considers him more suitable for promotion than Sheikh Nur Ilahi, who holds the transferred post of Inspector of Vernacular Education. We accept the recommendation of the local Government so far as the promotion of Sardar Sahib Sardar Bishen Singh is concerned but we are doubtful whether this can best be brought about in the method suggested by the local Government, namely, the substitution of the name of Sardar Sahib Sardar Bishen Singh for that of Sheikh Nur Ilahi for the post of Inspector of Vernacular Education. We shall suggest to the local Government that it might be more suitable to promote him against a vacancy either in an already existing post or in some other post which is being transferred but which is unlikely to be filled for some considerable time.

8. We have received from the local Governments full particulars, as required in the forms of application for the Indian Educational Service, regarding each one of the officers whose names are entered in the statement, and we have examined them. In view, however, of the precedent afforded by our despatch No. 19, dated the 23rd January 1919, and of the inadvisability of burdening the press with the reproduction of the very voluminous statements and correspondence which have been received on this subject we trust that you will find the annexed statements sufficient for forming an opinion regarding the names which we now place before you.

A third short statement contains the qualifications of Mr. A. C. Mukharji. Since he will fill an already existing post and not one of the transferred posts, it would be inappropriate to include his name and qualifications in the second statement.

9. We desire to include in this despatch some observations regarding the number of posts to be transferred. At the time of transfer the number of posts in the Indian Educational Service was 277. The number of posts to be transferred, therefore, will be limited to one-third of the strength of the Indian Educational Service at the time when the bulk of the transfers were carried out, that is, the 1st September 1920. The posts which in the ordinary course are hereafter added to the Indian Educational Service will not increase this total for the purpose of calculating the number of Provincial Educational Service posts which are to be transferred. It will, however, be observed that in our proposals for transfer and likewise in our present proposals for the promotion of officers we have included six posts (five of which are held in the Bombay Presidency and one in the United Provinces) which are outside the Provincial Service. We had already stated in paragraph 3 (ii) of our Education Despatch No. 15, dated the 14th October 1920, that the question whether these and such other posts should count towards the maximum of transfers permissible would be a matter for subsequent consideration. In view of the fact that the proportion of one-third was really an arbitrary figure, we propose to postpone this consideration till we have decided on the merits of those posts regarding which we have further addressed local Governments. Should it ultimately be decided that the transfer of these six posts should not be regarded as an integral part of the present proposals, there will remain 19 posts available for transfer. But we should prefer to regard the transfer of posts from the Provincial Educational

Service on the merits of each individual case rather than to consider ourselves bound by any hard and fast figure. We shall accordingly address you further on this subject when the question of the outstanding posts has been considered in the light of the replies of local Governments.

We have the honour to be,

SIR,

Your most obedient, humble Servants,

(Signed) CHELMSFORD.

No. 1 of 1921.

GOVERNMENT OF INDIA.

DEPARTMENT OF EDUCATION.

EDUCATION.

To

THE RIGHT HONOURABLE EDWIN MONTAGU,

His Majesty's Secretary of State for India.

Delhi, the 6th January 1921.

SIR,

We have the honour to refer to our Education despatch no. 17, dated the 25th November 1920, on the subject of the appointments to be made to the posts recently transferred to the Indian Educational Service. In that despatch, while dealing with certain points of principle, we submitted for your orders proposals for the filling up of the posts in Bombay, the United Provinces, the Punjab, Burma, the Central Provinces, Assam and the North-West Frontier Province, and we promised a further communication as soon as the recommendations from the remaining provinces of Madras, Bengal and Bihar and Orissa were received.

2. These outstanding recommendations have now been received. In the case of the Professorship of Botany, Ravenshaw College, Cuttack, we have not been furnished with the full particulars of Mr. P. K. Parija, who has been recommended for appointment. In this connection, however, we invite your attention to the correspondence ending with our Education Department telegram no. 750, dated the 16th June 1920. As Mr. Parija is in England, we shall be glad if you will kindly have him interviewed and, if found suitable, he may be appointed to this Professorship. The date from which he should be appointed will be intimated later.

3. We have received no recommendation from the Bihar and Orissa Government for the filling up of the Agency Inspectorship of Schools for the Feudatory States of Orissa. But, as pointed out in paragraph 3 of our despatch of the 25th November 1920, it is desirable to arrive at the earliest possible decision on the question of personnel. Hence we deem it inadvisable to defer consideration of the other recommendations on this account. We shall accordingly address you later regarding this post.

4. In considering these recommendations we have been guided by the suggestions made in our previous despatch and append a statement showing the names and a brief description of the qualifications, etc., of the officers whose promotion is now proposed. We accept the recommendations made by the local Governments, and in supporting them for your favourable consideration we trust that the information contained in the statement will be sufficient to enable you to form an opinion of the officers concerned.

5. In view of the political expediency of arriving at the earliest possible decision on the question of personnel, we request that your final orders on the proposals now placed before you as well as on those submitted in our Educational despatch of the 25th November 1920, may be communicated to us by telegram.

We have the honour to be,

SIR,

Your most obedient, humble Servants,

CHELMSFORD.

Office of the Director of Public Instruction,
Old College, Nungambakkam, Madras,
Madras, Dated the 11th March 1921.

Dear Mr. Ramachandra Rao,

I noticed in the papers a few days ago a statement to the effect that certain officers had been confirmed in the Indian Educational Service. I request that you will be so good as to send me when available a copy of the order confirming these officers, if the report in the paper is correct. I should also like to know whether in making confirmations any conditions are attached for example in my D.O. No. (Camp) 533/20 dated 21st September 1920 I wrote regarding inspectorate that Mr. Guruswamy Reddy should be on probation only.

Yours sincerely,

Ratnave

The S. of. 9. letter conveying the orders refd. to is subd. In para 3 of letter No. 1286 Ed. n, d/3 dt. Nov. 1920 the S. of. 9. were definitely told that Mr. Guruswami Reddy should undergo the usual period of probation (2 years) or attachment to

(D)

Though the G. of. S. letter does not specifically say this, all officers appointed to the P. & S. have to enter into an agreement which provides for two years' probation (cf. latest form of agreement printed with G.O. No. 1550

(1) Ed., d/ 12.12.19) and Mr. Guruswami Reddiyar who has been directly appointed to the P. & S. will ~~be~~ ^{be} on probation for two years from the 23rd Feb. 1921 ~~no probation for two years~~ provided he is certified to be physically fit

As regards the other officers, they are all men of long experience and proved merit and promoted on those considerations. In their case therefore it is needless to insist on probation ^{and the passing of the Vennalar test} Vide G. of. S. letter printed in

(W) G.O. No. 86 Ed., d/ 19.1.21. The Govt. of India's sanction may be applied for to be ² A draft order is subd.

B 15.3.21 It is proposed to notify forthwith the ~~appt.~~ of all officers except Mr. Guruswami Reddiyar. His appt. will have to be notified only on receipt of the Medical case called for in para 2 of the draft.
