Government of Madras

HOME DEPARTMENT (EDUCATION)

G.O. No. 447, 22nd March 1921

Subsidies

Opening of new elementary schools—Rs. 33,636—Distribution ordered.

Order—No. 447, Home (Education), dated 22nd March 1921.

The Government sanction the distribution of subsidies amounting to Rs. 33,152, among the local bodies mentioned in the annexure to these Proceedings for utilisation on the equipment of elementary schools for boys and girls to be newly opened by them in the next official year. The subsidies have been calculated at the rate of Rs. 74 for each school and the total number of boys' and girls' schools to be newly opened will be 65 and 383 respectively. Separate orders will issue in regard to the payment of subsidies to meet the recurring cost of these schools.

2. The Government also sanction the payment of a recurring subsidy of Rs. 484, to the Municipal Council, Ongole, to meet the cost of the additional teachers employed in the Thurpupalam school.

3. The Accountant-General is requested to place the sums specified in the annexure to these proceedings at the disposal of local bodies at a *very early* date.

4. The expenditure will be met from the lump provision of Rs. 3 lakhs under 22. E. Education—Government schools—General—Payment in support of local bodies—in the Civil Budget Estimate for the current year.

(By order of the Government, Ministry of Education)

(Designation) Ag: Director of Public Instruction,

Madras.

To The Secretary to the Government of Madras,

Home (Education)

Department.

Madras

Sir,

I have the honour to address Government on the subject of the opening of new elementary schools for girls, the strengthening of the existing ones and the opening of higher standards in them, out of the current year's lump provision of Rs.3 lakhs for opening new schools etc.

2. I would premise by inviting the attention of Government to the opening sentence of Mr. Duncan's letter embodied in G.O.No. 74 Home (Education) dated 20th January 1919 submitting proposals for opening new elementary schools etc.,

agreeably

W. 394 @
1.5.13.
Removed by
Home (Ed^y).
agreeably to the policy of the Government of India enunciated in their resolution dated 21st February 1913, and reaffirmed by their circular letter of the 2nd September 1918 to local Governments and Administrations.

3. All the proposals received from District Boards and Municipal Councils in response to my circular letter to them on the subject, as well as those remitted to me by Government for consideration have been taken into account in connection with the distribution of the budget grant. And, while I have either modified or disallowed after careful examination such of the proposals for new schools as appeared to be excessive partly with reference to the needs of the districts determined in the light of their backwardness, and partly with reference to the funds available, I have admitted almost in their entirety the applications of such of the existing schools as are in need of additional staff and have expressed their anxiety to open higher standards. I have done so because in the interest of education in general, and the schools concerned in particular, I consider it essential that schemes for the development of the existing schools on proper lines should have the first claim on the allotment. In the selection of new schools, my aim has also been to equalise, as far as possible, the number of public elementary schools in each district.

As in previous years, the proposals are tabulated under three heads, viz.,

- (1) opening of new elementary schools,
- (2) strengthening the staff of the existing schools,
- and (3) opening of higher standards. Separate statements marked A, B and C corresponding to the above three heads and consolidated statements marked D and E indicating the cost of the whole scheme and the amount required for the current year are enclosed.

9
4. My estimates have been prepared generally on the same lines as those adopted by Sir Henry Stone and Mr. Duncan and accepted by Government in their orders Nos. 1585 Home (Education) dated 15th December 1917 and 74 Home (Education) dated 20th January 1919, except in respect of the following items, and I deem it therefore necessary to offer a few words of explanation in justification of the modification.

(1) Scale of salary

Excluding the temporary allowance of Rs.4 sanctioned in G.O.No. 499 Fl., dated 1st June 1920, the present minimum pay of women teachers in elementary schools for girls under public management is Rs.13 but, I have taken it as Rs.16 for the purpose of my estimate in conformity with the proposal contained in my letter to Government R.C.No.3912/19 dated 4th October 1920 requesting sanction for the payment of a sum of Rs.3 per mensem to each teacher as compensation in lieu of the loss of capitation allowance. The above allowance of Rs.3 has also been taken into account in fixing the scale of remuneration of the additional staff included in statements B and C, though the payment of capitation allowance to such teachers was not hitherto regarded as a charge on Provincial funds. I submit that this course has been rendered necessary to avoid invidious distinction between teachers employed in the same school and in the old and new schools. Provision has also been made in all cases for the payment during the remaining portion of the current year only, of the special allowance of Rs.4 sanctioned in the G.O. quoted supra.

(2) Equipment

As a result of the rise in the price of timber etc., Rs.125 has been proposed for each school, against Rs.100 sanctioned in previous years.

5. Opening of new schools

405 schools in all are proposed to be opened, 69 in Municipalities and 336 in rural areas, and of these, 7 are intended

The statement is not specific for which class particular schools are intended as was the case in previous years

intended for Uriyas, one for the fishermen class, 29 for Muhammadans, 6 for Panchamas, and 362 for general classes and castes. In fact, all classes and castes are adequately represented in the allotment. The ultimate cost under this head comes to Rs. 2,16,240 the expenditure for the 2 months of the current year amounting to Rs. 93,145.

6. Strengthening the staff of the existing schools.

It is proposed to strengthen the staff of 94 schools, 14 in Municipalities and 80 in rural tracts. Only one additional teacher on the revised minimum pay has been allowed for each school. The recurring annual expenditure under this head comes to Rs. 18,912 the amount required for the 2 months of 1920-21 including the temporary allowances of Rs. 4 being Rs. 4004.

7. Opening of higher standards in existing schools.

In 17 of the existing schools, 4 in Municipalities and 13 under Local Boards, higher standards have been proposed to be opened. I have allowed for the opening of only one standard in each school. The cost of this part of the scheme is Rs. 4,572 the provision for the current year including the temporary extra allowance of Rs. 4 admissible under G.O. No. 499 Fl. dated 1st June 1920 amounting to Rs. 898.

8. Financial aspect.

He in final (re-allocation of capital assets)

Of the three lakhs provided in the current year's budget under "22.E. Education Government Schools General - subsidies opening of new elementary schools under the management of Local Bodies etc.," Rs. 20,000 has been set apart to meet the immediate and prospective cost of the scheme submitted with my letter R.C. No. 3912/20 dated 4th October 1920. There is, therefore, a balance of Rs. 2,80,000 and this I propose to distribute together with the Provincial progressive increment of Rs. 2 lakhs for elementary education entered in the Budget Estimate for the next year, equally

equally among the boys' and girls' schools, as I consider that in the present backward state of female education, the above allocation of funds is imperative. Having thus arrived at the provision available for the expansion of elementary education for girls, I append below a statement showing the financial aspect of the present scheme.

Expenditure during 1920-21.

One half of the balance out of the current year's budget grant for opening new schools . . .	Rs. 1,40,000
Cost of the scheme for two months	Rs. 98,047
Balance available for utilisation	Rs. 41,953

Expenditure during 1921-22.

One half of the balance out of budget grant for 1920-21 for opening new schools . .	Rs. 1,40,000
One half of the annual provincial progressive increment of ^{Rs} 2 lakhs for expansion of elementary education . .	Rs. 1,00,000
	Rs. 2,40,000
Annual cost of the scheme . .	Rs. 2,39,724
Balance	Rs. 276

9. These proposals ^{from} in my opinion along with those sanctioned in G.O. No. 1585 Home (Education) dated 15th December 1917 and 74 Home (Education) dated 20th January 1919 part of the general scheme for the expansion of education and should Government approve of them I request that the amount shown in column 9 of the statements D and E may be placed at the disposal of the local bodies concerned with instructions to take prompt measures to give effect to the scheme from the 1st January next or as early as possible. Opportunity may be taken in this connection to impress on local bodies the need for opening the new schools intended for general

general classes and castes in places accessible to the depressed classes also.

10. In conclusion, I would bring to the notice of Government that, while the total number of schools proposed to be opened by Local Boards comes to 755, I have, for want of funds, disallowed as many as 350 schools appearing in the list marked F and if Government could see their way to find the necessary additional funds for next year amounting to Rs.1,85,892 the cost of the scheme during the current year amounting to Rs.80,364 can be met partly from the balance of Rs.41,953 mentioned above and partly from the anticipated savings in the budget provision for subsidies to local bodies. In this event, I request further that instructions on the lines suggested in para 9 supra may be issued to Local Bodies.

11. The proposals for opening boys' schools are being tabulated and Government will be addressed shortly on the subject.

I have the honour to be,

Sir,

Your most obedient servant,

For Director of Public Instruction *C. S. S. S. S.*

RC No. 4780/20

Station Madras, Dated the 5 1 1921

From (Name) R.G. Grieve Esquire, M.A.
(Designation) Ag. Director of Public Instruction.

To The Secretary to the Government of Madras,
HOME (EDUCATION) Department.

Sir,

In continuation of my letter R.G. No. 447 W.B. of 1920, dated 29th November 1920, I have the honour to address Government on the subject of the opening of new elementary schools for boys, the strengthening of existing elementary schools for boys and the opening of higher standards in them with the necessary additional staff out of the lump provision of Rupees 3 lakhs for the opening of elementary schools etc. in the current year's budget under '22. Education - Government Schools - General - payments in support of local bodies.

2. The proposals received from the District Boards

8

and Municipal Councils in reply to my circular letter to them on the subject comprise the opening of 1711 new elementary schools for boys (49 in Municipalities and 1662 in rural areas) and the strengthening and raising of the standards of 1470 of the existing schools (119 in Municipalities and 1351 in rural areas). As in the case of girls' schools - vide para 3 of my letter R.O. No. 447 W.B., dated 29th November 1920, I have given first consideration to the development of existing schools. Careful scrutiny of the proposals in this regard shows that the claims of 951 schools (73 in Municipalities and 878 in rural areas) either to be strengthened or raised in standard are imperative. These cases are accordingly included in my present proposals and the annual recurring cost of this part of the scheme amounts to Rs. 210,624/-. To this has to be added the probable annual recurring cost of Rs. 3,326/- which may have to be paid in connection with the proposal to take over the C.M.S. Higher Elementary School, Coonoor, under the management of the Municipal Council as sanctioned in G.O. No. 1538, Home (Education), dated 18th December 1920. The total thus comes to Rs. 213,950/-; and consequently out of the amount of Rs. 240,000/- available for the opening of elementary schools for boys etc. -- vide para 8 of my letter R.O. No. 447 W.B. of 1920, dated 29th November 1920 -- only a balance of Rs. 26,050/- remains for the opening of new elementary schools. It will clearly be impossible to open all the 1711 new schools asked for by the local bodies out of this balance. I therefore propose to distribute it as follows: -- first to give one school to each of the Municipalities that have not participated in the scheme for opening night schools for which proposals were submitted in my letter R.O. No. 4261 of 1920, dated 25th November 1920. and secondly to divide the balance still available among the District Boards according to their backwardness. To this principle, however, I have had to make one exception in favour of the Salem District

9
12

Board where the Sankeri Taluk Board had opened 18 elementary schools (17 for boys and 1 for girls) in places where they were urgently needed but without assuring themselves that they would be able to meet the cost involved and which they have reported they would have to close if provincial funds do not come to their relief. I have included all these 18 schools in my present proposals as a special case, as their continuance has been recommended by the Inspecting officers. The total number of new elementary schools that can be opened according to my present proposals is thus 107 (12 in Municipalities and 95 in District Board areas)..

107-1 = 106

As in previous years the proposals are tabulated under the following three heads :

- (1) Opening of new elementary schools -- Statement A.
- (2) The strengthening of the staff of existing elementary schools -- Statement B.
- (3) Opening of the higher standards in the existing schools with the necessary additional staff -- Statement C.

In addition to the above statements two consolidated statements, one showing the annual recurring subsidy and the subsidy for one month in the current year payable to the Municipalities on account of the scheme - marked D, and another giving similar particulars in respect of the District Boards - marked E, are also enclosed.

3. In the preparation of the estimate of the cost of my proposals, I have followed mutatis mutandis the same principles as those adopted in arriving at the cost of the proposals for opening elementary schools for girls etc. submitted in my letter R.O. No. 447 W.B. of 1920, dated 29th November 1920. I, however, submit below a brief explanation of the lines on which the calculations have been made.

(T) (i) Scale of salary.-- Government in their order No. 659, Home (Education), dated 21st May 1919 fixed Rs. 12/- as the minimum monthly pay of a trained teacher in an elementary school for boys under public management. In calculating the cost of the present proposals the minimum salary has been taken to be Rs. 12/- plus Rs. 3/- or Rs. 15/- per mensem, the additional Rs. 3/- representing the amount of allowances recommended in my letter R.C. No. 3912 of 1919, dated 4th October 1920 to be allowed to each trained teacher to compensate him for the loss involved in the abolition of capitation allowance. As in the case of the Girls' Schools the above allowance has been taken into account in fixing the scale of salary of the additional staff proposed in 'B' and 'C' statements also.

(J) Provision has been made in all cases for the payment, during the current year only, of the special allowance of Rs. 4/- per mensem to each teacher sanctioned in G.O. No. 499 Financial, dated 1st June 1920.

(ii) Equipment.-- As in the case of elementary schools for girls and for the same reason, Rs. 125/- has been proposed for each of the new schools for equipment as against Rs. 100/- sanctioned in the previous years.

4. Opening of new elementary schools (Statement A).-- As already indicated in para 2 supra, 107 new elementary schools (of which one is for girls, vide sub para 1 of para 2 supra) have been proposed to be opened. Of these, one is for Ooriyas and Telugus, 33 for Panchamas and other depressed classes, 17 for Muhammadans, and the remaining 56 for the general classes and castes. The ultimate annual cost under this head is Rs. 25,932/-, while the cost for one month including the temporary allowance of Rs. 4/- per mensem per teacher during the current year is Rs. 15,972/-.

5. Strengthening the staff of the schools (Statement B).-- It

is proposed to strengthen the staff of 593 schools - 43 in Municipalities and 550 in District Board areas. Only one additional teacher on the revised scale of pay has been allowed to each of the schools except in cases where more than one teacher has been found unavoidably necessary with reference to the actual strength of the schools. The recurring annual expenditure on this account is Rs. 112,464/- while the cost for one month including the special allowance of Rs. 4/- per mensem to each teacher is Rs. 11,784/-.

6. Opening of higher standards with the necessary additional staff (Statement C).-- It is proposed to open higher standards in 358 schools -- 30 in Municipalities and 328 in rural areas. The annual recurring cost involved is Rs. 98,160/-, the cost for one month of the current year including the temporary allowance of Rs. 4/- per mensem is Rs. 10,059/-.

7. Financial effect.-- As explained in para 8 of my letter R.C. No. 447 W.B. of 1920, dated 29th November 1920, the amount available for utilization for the opening of new elementary schools for boys etc. is Rs. 140,000/- in 1920-21 and Rs. 240,000/- in 1921-22. I append below a statement showing the financial aspect of the present scheme :-

Expenditure during 1920-1921.

One half of the balance of the current year's budget grant for the opening of new elementary schools - vide para 8 of my letter R.C. No. 447 W.B./20, dated 29th November 1920	140,000
Cost of the present proposals for one month	37,815
Expenditure during the current year on account of the taking over of the C.M.S. Higher Elementary School, Coonoor, under the management of the Municipal Council, Coonoor, sanctioned in G.O. No. 1538, Home (Education), dated 18th December 1920	3,526
Total	41,141
Balance available for utilization	98,859

112,464
98,160
210,624

(F)

Expenditure for 1921-1922.

One half of the balance out of the budget grant for 1920-21 for opening new elementary schools etc. 140,000

One half of the annual progressive increment of Rs. 2 lakhs for expansion of elementary education 100,000

Total available provision 240,000

Annual cost of the present scheme including the probable amount that may be payable to the Municipal Council, Coonoor, in regard to the proposal sanctioned in G.O. No. 1538, Home (Education), dated 18th December 1920 239,882

Balance 118

8. As I have stated in para 9 of my letter R.O. No. 447 W.B. of 1920, dated 29th November 1920, submitting proposals for the opening of new girls' schools, the proposals submitted herewith form a part of the general scheme for the expansion of elementary education which has been engaging the attention of the Government of India for some time past, and should Government approve of them, I request that the amounts shown in Column 10 of Statements D and E may be placed at the disposal of the local bodies concerned with instructions to take prompt measures to give effect to them from 1st February 1921 or as early as possible.

In the case of the Municipal Council, Ongole, I am proposing the grant of a subsidy for full twelve months of 1920-1921 towards the cost of the two additional teachers that have been working since 1st March 1919 in the Municipal School, Theorupalam. I have done so, because I am convinced that their employment before a subsidy was granted was really urgent. I request that this may be approved.

9. I would, however before concluding invite the attention of Government to the fact that as explained in para 2 supra it has not been possible to include in my proposals provision

for the opening of more than 107 new schools out of a total number of 1711 schools for which applications have been received. The schools which thus have had to be left out for want of funds number as many as 1604 and are shown in a separate statement marked F. If in view of the widespread and insistent demand for carrying elementary education as near as possible to the door of every school-going age in the country, Government can see their way to find the necessary additional funds for the next year amounting to Rs. 452,586/-, I would suggest that the proposals contained in all the Statements A, B, C and F be ordered to be given effect to from 1st March 1921, the balance of the portion of the current year's budget provision available

1. The portion of the budget grant allocated for boys' schools	Rs. 140,000	) for the opening of elementary schools for boys etc. viz.,
2. Amount paid to Municipal Council, Coonoor, under G.O. No. 1538, Home (Education), dated 18th December 1920	Rs. 3,326	) Rs. 136,674/-
Balance	Rs. 136,674	) being utilized for subsidising

the local bodies towards providing the 1711 new elementary schools that will be opened on 1st March 1921 with the necessary equipment. If this suggestion be approved, I would request Government to place at the disposal of the local bodies concerned the amounts noted in Column 6 of Statements G and H. The total amount required for this purpose is Rs. 115,944/- as against the available amount of Rs. 136,674/-. For lack of funds it has been impossible to allow the full amount of Rs. 125/- for equipment of schools in rural areas (Statement F, Column 13).

10. I beg to request that Government may be pleased to pass early orders on this communication, so that other proposals may be submitted for the utilization of the unspent balance out of the lump provision of Rupees Three lakhs in the event of the

8.

scheme in its entirety as outlined in para 9 supra not being approved by Government. In this event, it is suggested that Statement F. may be remitted to the District Education Councils for their consideration.

I have the honour to be,

ENCLOS RES.

No.

A.B.C.48

Ref. on Cur. No. 4780 of 1920

Spare copies

Station Madras, Dated the 9 March 1921.

From (Name) R. G. Grieve, Esq. M. A.,
(Designation) Ag. Director of Public Instruction,
Madras,

To The Secretary to the Government of Madras,

Law (Education) Department.

Sir,

I have the honour to solicit a reference to my letters R.C.No.447 W.B. of 1920 dated 29th November 1920 and R.C.No.4780 of 1920 dated 5th January 1921 submitting proposals for the opening of new elementary schools for boys and girls under the management of ^{the} local bodies and strengthening existing ones &c., It is now understood that Government are unable to sanction the entire scheme submitted therein though they would consider a proposal which would involve an ultimate recurring cost of Rs.280,000/- and an expenditure during the current year, of only Rs.37,000/- which is presumably the amount that could be spared out of the provision of ---- Rs.300,000/- made in the current years budget for the opening of new elementary schools &c under "22-E-Education-Government Schools

General-iii-payment in support of Local Bodies". I beg to recommend that the Rs.37,000/- available for utilisation during the current year be distributed as follows:-

- | | |
|--|-----------|
| i. Equipment for 65 new elementary schools for boys proposed to be opened with effect from 1st April 1920--(Annexure A. | Rs. 4,810 |
| ii. Equipment for 383 new elementary schools for girls proposed to be opened with effect from 1-4-1921. (Annexure--B) | 28,342 |
| iii. For the employment of the necessary staff to raise the standard of the Thirupalam school in the --- Ongole Municipality, (Annexure--C). | 484 |
| iv. For the maintenance of the C.M.S. Higher Elementary School, Coonoor, taken over by the Coonoor Municipal Council. | 3,326 |

Balance

Rs.36,962
Rs. 38

Rs.37,000

Of the four objects mentioned above Government have already passed orders on item-iv-in G.O.No.1538 Home (Education) dated 18th December 1920. Their orders are therefore now solicited on items i to iii.

2. The schools referred to in Annexures A & B (items i to iii supra) are the only ones proposed to be newly opened on 1st April 1921 and it will be observed from a reference to these annexures that only Rs.74/- is proposed for equipment to each of the schools as against Rs.125/- in my original proposals. This is because of the very limited sum available for distribution at present and I expect it to be possible to give each of these schools on this account early in April 1921 the balance of Rs.51/- out of the savings in the provision of 3 lakhs for opening new elementary schools &c in the Budget Estimate for 1921-22 which will accrue by the proposed new schools which will be opened on 1st April 1921 requiring provision during 1921-22 only for 11 months.

The circumstances under which a subsidy is proposed to be paid on behalf of the school referred to in Annexure C (item-iii) have been explained in para 8 of my letter R.C.No.4780 of 1920 dated 5th January 1921.

3. Annexure-D is a consolidated Abstract statement showing the amount to be paid to each Local Body on account of the proposals referred to

in para 1 supra and in case Government approve of them, I request that the Accountant-General may be authorised to place the amount immediately at the disposal of the Local Bodies concerned.

4. The proposal to open 63 new elementary schools for boys and 383 new elementary schools for girls referred to in items i to ii and those referred to in items iii and iv in para 1 supra are only a part of the scheme involving an annual recurring cost of Rs.280,000/- for which I am expected to send in proposals. The details of the whole scheme will be submitted to Government immediately on receipt of their orders on this communication.

I have the honour to be,

S i r,

Your most obedient servant.

N. N. Krishnan 9311
for Director of Public Instruction.

for Director of Public Instruction.

sar.

NOTES.

CR-3531A. From the D.P. I, Rs. 447/20 of

Subject. Opening new elementary schools
+ strengthening the staff of existing
schools under local bodies.

In the current year's budget estimate there
is a provision of Rs. 3 lakhs for opening
new elementary schools under local bodies
and for meeting the extra expenditure
in connection with the revision of the scale
of salaries of teachers in consequence of
the abolition of capitation allowance.
The D.P. I has separately submitted pro-
posals in regard to the revision of salaries
in lieu of capitation allowance and
they are expected to result in an addi-
tional expenditure of ^{about} Rs. 2,00,000. There
is, therefore, a balance of Rs. 2,80,000 out
of the provision of Rs. 3 lakhs, which
is available for utilization on the
opening of new schools &c. The D.P. I
proposes to divide this sum equally
between boys' + girls' schools and
submits proposals for the utilization
of the portion for girls' schools.

(File in File).

R

28

provision for the education of boys as well as girls, the allocation of the funds available as proposed by the D.P.I may be ~~accepted~~ ^{submitted by the Director} approved.

2. The proposals for the utilization of the amount available for girls' schools are summarised below:—

	<u>Cost per annum</u> Rs.	<u>Cost for two months in the current year</u> Rs.
(1) Opening of 405 new elementary schools for girls	2,16,240.	93,145.
(2) Strengthening the staff of 94 schools.	18,912.	4,004.
(3) Opening of higher standards in existing schools.	4,572.	898.
	<u>2,39,724</u>	<u>98,047</u>

It will be seen from the above that the annual recurring expenditure ~~of Rs 2.40 lakhs~~ involved by the present proposals is Rs 2.40 lakhs, is thus in excess of the current year's provision (1.40 lakhs) by Rs 1 lakh. The D.P.I proposes to meet this additional expenditure from the

para 8, p. 4 of c.f.

29

Provincial incremental grant of Rs 2 lathos ~~the same~~ for the next year the balance of that grant being utilized for boys' schools. In his budget estimate for 1921-22 the D.P. has accordingly proposed that the whole of the Prov. incremental grant of two lathos for that year should be utilized on the opening of new schools. Attention is solicited to the ~~note~~ budget note at (A) relating to this proposal. If the Financial Dept. agree to the retention of that provision as proposed by the D.P., the present proposal may be sanctioned. There is pressing need for ~~the~~ additional elementary schools it appears to be very desirable not to whittle down the Director's present proposal.

3. Opening of new elementary schools

Staff

para 40), p. 3 of c.p.

The D.P. allows two teachers for each new school on Rs 19 + 16 per mensem. When similar schools were opened in 1919 the salaries fixed for ^(a staff of) two teachers were Rs 16 +

13. In addition, a ~~capitation~~ allowance

Please see the girls' schools under N. Prov. D. Board on p. 3 of g. 2. No 74 d 20.1.19

(B)

(File in File.)

30

a sum of Rs 100 per annum was also allowed to each such school towards the payment of capitation allowance to teachers. It has since been decided to abolish the system of paying capitation allowance to teachers & to increase their salaries to compensate for the loss caused thereby. The D.P.S has ~~separately~~ submitted proposals for raising the pay of teachers by Rs 3 per mensem as compensation for the abolition of capitation allowance. His proposals are separately under consideration. In the meanwhile, the Director proposes to ~~adopt~~ give effect to the increase of Rs 3 in the case of the schools now to be opened. There appears to be no objection to this as capitation allowance ~~is not to be~~ ~~is not to be~~ is not to be allowed in these schools.

4. The Director proposes to allow the teachers of the schools now to be opened the temporary allowance of Rs 4 per mensem sanctioned for the current year.

(J) W. G. N. 479 File, dated 1st June 1920. This may be accepted.

57

31

5. Strengthening of existing schools
& opening of higher standards in
them.

The D.P. 9 proposes to allow the increase of Rs 3 in lieu of capitulation allowance to the new teachers proposed for existing schools & also for the teachers to be employed in connection with the ~~opening~~ ^(in existing schools) opening of higher standards. As stated by para 4(1), p. 3 of cf. the Director himself it has not been the practice to sanction capitulation allowance from Prov! funds for such teachers. But he explains that the increase of Rs 3 should be allowed in the case of these teachers so as to avoid invidious distinction between teachers employed in the same school and in the old & new schools. ~~It is proposed~~ ~~to do so~~ The proposal may be accepted.

6. The other items of expenditure do not call for remarks.

7. Besides the 405 new schools already referred to, the Director states that he has received proposal from

para 10, p. 6 of cf.

Statement F.

32 ✓ 6

local board for the opening of ~~500~~ 350 additional schools. He has ^{also} ~~also~~ submitted a statement showing the staffs, for these schools + the subsidy to be paid. They are expected to result in an additional recurring expenditure of Rs 1,85,892 per annum and the amount required for two months of the current year is Rs 80,364. He states that this latter sum ^{can} ~~may~~ be found from the savings in the current year's budget + enquires whether the Govt will be ~~able~~ prepared to find the necessary funds for next year. The Fin. Dept may be consulted on the point.

8. As usual, the Director has submitted detailed statements showing the villages where the new schools are to be opened + the schools ~~where~~ the staffs of which are to be strengthened. Last year Sir Alexander Gardew ~~suggested~~ ^{considered} that the existence of these lists denoted too ~~much centralization~~ ^{much centralization} ~~of the work~~ + that they could ~~be~~ not be of much use to Govt. The object of submitting these lists ~~was~~ that

p. 9 of note to go.
N. 748 20.1.19 (B)

33

Govt, while sanctioning the subsidies, should also accord the sanction required under the local self Govt Act to the entertainment of the necessary establishment for the schools. In order to dispense with the submission of the list to Govt the D.P. I was, in Lys. No 797 d, dated 24th June 1919, authorised to sanction the establishment required for local board + municipal elementary schools maintained wholly or partly from Govt funds. The list containing the ~~names~~ names of schools need not, therefore, be printed ^(with) the order that is to issue on this case as is ~~the~~ done in Lys. No 74, dated 20th January 1919, but may be returned to the D.P. I who may be asked to sanction the establishment for the schools ~~as~~ under Lys. No 797 d, dated 24th June 1919. The file may be sent to the L.H. + Finl. Dept for ~~any~~ early remarks.

Encl. Deptt

This Deptt. may agree generally to the proposals of
the D.P.S and the file passed on to Encl Deptt u.o.

16/12/20

I confess I do not fully under-
stand the policy, and have no
data for forming a comprehensive
view of the state of elementary
education for girls in this Pre-
siding. I had hoped that effort
of funds be directed more to
raising higher standards, & to
increase of the "school life" of girls
than to opening new schools, but
I have no objection to the issue of
the draft

Lom u.o. No. 9899-1

Encl 6532B
20/12/20

Ful

18/12

Finance Department.

The proposals in the present file relate to the opening of new Elementary schools for ²girls, strengthening of the existing ^{ones} conditions and the opening of higher standards in them. Similar proposals for boys schools are stated to be under preparation. The total estimated cost of the two proposals taken together amounts to 4.80 lakhs (3.40 lakhs each for the boys and girls schools. It is proposed to meet the cost (the full cost will have to be borne from 1931-33 onwards) as follows:-

	Lakhs.
(1) From the current years budget provision of 3 lakhs for opening of new Elementary Schools under Local bodies.	3.80
(2) From the Provision ^{nsial} progressive increment of 3 lakhs for Elementary Education in 1931-33.	3.00
	4.80

2. Item (1). The current year's budget provision is 3 lakhs of which a sum of Rs. 20,000 is proposed to be set apart for the scheme for the abolition of Capitation allowance and the substitution of increases of pay ^{therefor} ~~the same~~. It has been suggested in this department that the scheme should be so worked out as not to involve the grant to local bodies of a provincial subsidy for its adoption. The sum of Rs. 20,000 will thus be set free and may be resumed.

As regards the balance, only a small expenditure will be incurred as the scheme for the opening of new schools is to be introduced only hereafter. The unutilised balance may be resumed.

3. As regards the proposals generally it PTD

note

Rey K

cf. go. 3946(0)
1.5.13

3. As regards the proposals generally, it is sought to commit Government to a recurring expenditure of 4.80 lakhs from 1921-22 onwards. Please see Sections: 34 - 37 of the Elementary Education Act especially Section 37. It will be seen that Government should contribute to the Elementary Education fund a sum not less than the proceeds of the taxation levied by local bodies for the purposes of the fund, and that such ^{contribution} shall be in addition to and not in lieu of the amount of recurring expenditure incurred from Provincial funds during the financial year before the coming into force of the act. If therefore a local body imposes the Education cess say in April next, Government will have to contribute to it an equal amount and also bear the recurring liability it has undertaken during the current year. It therefore seems necessary to limit provincial liability to the budget grant in the current year in view of the prospective commitment under the Elementary Education act. Accordingly the utmost this department can accept is an ultimate liability on the scheme upto 3.80 lakhs for both boys and girls schools ^{representing} regarding the budget grant for the current year. It may in this connection be mentioned that this is a year in which all possible economies have to be made and in recent cases this department has resisted the imposition of new liability. But perhaps the present scheme stands on a different footing and cannot well be postponed as it is in pursuance of a general policy for the expansion of Elementary Education.

p 10 ante

note

37
If the proposal at ~~4~~ above is accepted, the case may be returned to the Education department for revision of the scheme so as to keep the ultimate cost within the budget grant for the current year.

4. The details of the scheme are ^{examined} ~~explained~~ below:-

(a) Pay of staff: Please see para: 3 of Education note on pages 3-4 ante. The proposal is to fix the pay of ^{the} two teachers for each new school at Rs. 19 and 16 per mensem. The rates represent pays of Rs. 16 and 15 per mensem accepted in 1919, plus Rs. 3 in substitution of Capitation allowance. The principle of abolition of Capitation allowance having been accepted, there is no objection to the rates proposed which only seek to merge capitation allowance into pay.

p 4 cf.

(b) Temporary allowance :- The proposal to allow the new teachers to draw temporary allowance during the current year only is in order and may be accepted.

(c) Pay of staff in existing schools which are to be strengthened :- Please see para: 5 of Education note on page 5 ante. In the circumstances stated, the proposal to allow an increase of Rs. 3 in lieu of capitation allowance may be accepted.

5. Additional schools :- It is also suggested that more schools than those now proposed may be opened if funds could be provided for them -- vide para 7 of Education note and para :10 of the letter from the Director of Public Instruction ; letter at page 6 C.G.F. In the circumstances stated in para :3 x above this proposal is not feasible.

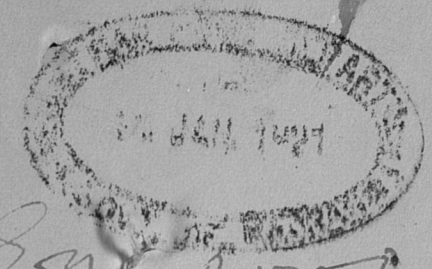

With the foregoing remarks the case may be returned to Education Department.

A draft no. note to the D. P. D is sent for approval.

Ans
15.1.21
MK
17/1/21

The elementary education Act is ~~not~~ to be brought into force not earlier than the 1st of April 1921. It is extremely unlikely that any local body will come up with proposals for additional taxation to provide for expansion of education. ~~At least~~ Even should there be any such inclination on the part of a local body, the preliminaries in respect of the levy and realization of taxes have to be determined yet and a lot of time will ~~be~~ elapse before taxes are actually levied and collected. It ~~is~~ may ^{not} be taken for granted that no contribution will become payable during 1921-22. ~~to~~ supplement local taxation. ~~It is~~ In the absence of need for such contribution the usual incremental allotment of two lakhs for elementary education

SS. 34, 35, 36 +
56(2)(g) of the Act.

may be made available. In this view it will be needless to cut down the present proposals.

In any case there is no justification to cut out ~~proposals~~ proposals to the extent of Rs. 20000, which the Finl. Departt contemplate resuming. The resumption is only for the current year. So long as financial will not allow the amount to be diverted for payment of increased pay in lieu of capitation allowance, the sum ~~will~~ will be available for use in the expansion of education in future years if not in the current year.

Ch
17.1.21
5

The policy is to have a normal expansion year after year. Any additional grant in 1921-22 need not be included in the estimate at A on p 10. Vide § 37 of the Act.

2/ So the only possible additional obligation would be (1) if any local body levies taxation (2) if the amount of proceeds of the tax is less than the aliquot part of the adol grant

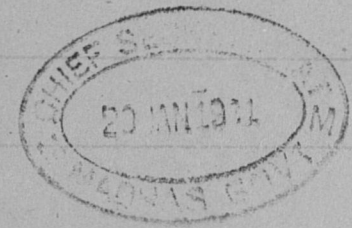

Spent in that area and (3) if the difference if any cannot be met by lapses elsewhere - the Treasury. The contingency for over allotment is so remote that I think that it can be fairly faced.

The proposals have been put forward after mature consideration & great whittling down of the original proposals. The prospect of elementary education will receive a setback unless these modest proposals are passed.

Kindly reconsider?

Law Secy

20.1.21

Finance Dept.

[Finance dept. notes are on pages 9-12 ante]

In para: 2 of his note above, the Law Secretary states that the Contingency of over allotment is remote & that any excess allotment needed may be met by savings elsewhere. It is not clear how Savings can be relied on.

This only supplementary...

Presumably it is contemplated that if a local body taxes itself next year & if the proceeds of the taxation together with the Equivalent Govt Contribution & the amount of the recurring grant promised in the current year exceeds the cost of maintaining the school opened, during next year then there will be a saving to be utilised elsewhere. The local body is not likely to surmise this saving but will naturally ask that more schools should be opened.

Apart from the above it seems doubtful whether even after the introduction of the Elementary Education Act there is need for providing the usual progressively increased Provincial grant of 2 lakhs. It was necessary at a time when full subsidies for opening new schools were given ^(for the expansion of education) from Prov. funds and there was no local endeavour. The Act enjoins on local body the duty of taxing itself to provide for the expansion of education & guarantees an equivalent grant. The Govt grant thus only supplementary & is

will be no inducement on the part of local bodies to tax themselves if they knew they had the Provincial increment of 2 lakhs to fall back upon for the expansion of education.

In the circumstances it does not appear that Govt should commit themselves to more than the budget allotment for the current year.

[Faint handwritten notes, mostly illegible]

42

for it in the next year's budget also. In view of the fact that in the next year there is no likelihood of any call on Prov. funds to supplement receipts from educational cess & that that year's transactions will only be of the normal year, it is for consideration whether the incremental grant of two lakhs should not be in the ordinary course repeated in the next year. As it will be an

Expenditure in the next year, it will not ^{affect} the requirements of Section 37 of the Elementary Education Act not to diminish ~~the~~ ^{the} income. As the expenditure on Elementary Education in the special year preceding the introduction of the Act - viz: 1. 4. 21.

2. If however, the incremental grant of two lakhs is not to be allowed, the next question is whether any reduction should be made for the Rs 20,000 referred to in the note on p. 13 above.

3. The next point is whether the proposals now submitted by the D.P.D. should be revised to be brought within the au

In para. 9 of his forth letter to India No. 1640 of 19.12.18, it was stated that when the Bill comes into force the incremental grant would be replaced by the statutory contribution provided in Sec. 37. Until the contribution becomes payable, the grant should apparently be continued. As there is no likelihood of the contribution being wanted the incremental grant may be provided in 1921-22 also.

available. The D.P.D considers that the proposals for the development of existing schools should have first claim. The existing proposals are tabulated below:-

	New Schools n	Strengthening existing schools n	Opening higher standards in existing schools n	
Girls Schools	St. Bids	177,408	16,152	3456
	Munkhs	38,832	2,760	1,116
	Total (100)	216,240	18,912	4,572 = 239,724
Boys Schools	St. Bids	22,416	103,956	89,136
	Munkhs	3,516	8,508	9,024
	Total (107)	25,932	112,464	98,160 = 236,556
<u>Grand Total</u>		<u>242,172</u>	<u>131,376</u>	<u>102,732</u> = 247,280

+ 3226
(for taking four corners
C.M.S. Higher S.S. School)

If the strengthening of existing schools & the opening of higher standards have the first claim 2.34 lakhs will be swallowed up, leaving very little for new schools. If however the ^{entire} scheme relating to girls schools is given preference the D.P.D will have to be asked which of the proposals relating to boys' schools he would choose for action the balance ~~rebalanced~~.

Office of the Director of Public Instruction,
The Old College, Nungambakkam, Madras,

D.O.No. 57/21

4th February 1921.

Dear Mr. Subbarayulu Reddiar,

I promised when I saw you yesterday to give you some definite information regarding the amount which will be required in the current year out of the balance of Rs.2.8 lakhs out of the lump allotment of Rs.3 lakhs in the current year's budget estimate for the opening of new schools etc. Obviously the schools cannot now be opened, even if sanction is accorded, so as to require any recurring expenditure during the current year. Assuming that Rs.2.8 lakhs will be available in 1921-22 I have ready in the office modified proposals for an ultimate recurring expenditure of that amount. Non-recurring expenditure required for this year (inclusive of two small special recurring items) totals Rs.59,810. The details are appended:-

Amount required for expenditure during 1920-21.		Rs.
1. Equipment of 65 new ^{Boys} Schools (Elementary) proposed to be opened with financial effect from 1st April 1921.		8,125
2. Subsidy to the Municipal Council, Coonoor, in connection with the taking over of the C.M.S. Higher Elementary School under the management of the Council from 1st April 1920--Vide G.O.No.1538 H/E dated 18-12-20		3,326
3. For raising the standard with necessary staff of the Thurpupalam School in the Ongole Municipality--Vide para 8 of my letter to Government R.C.4780 of 20 dated 5-1-21		484
		11,935
Cost of equipment to be incurred in 1920-21 for ^{Girls' schools}		
No of schools 383		
Cost per school Rs.125.		
Total cost		47,875
	Total	59,810

The amounts for equipment have been calculated in accordance with the proposals contained in my letter to Government R.C.No.4780 of 1920 pp-7-14, dated 5-1-1921. The balance of Rs.2.8 lakhs may be resumed by e + Financial.

I trust this makes the position clear.

Yours sincerely,

To The Hon. Diwan Bahadur A. Subbarayalu Reddiar Garu,
Minister of Education, Fort St. George. 4/2/21

46
Kindly see me with the papers relating to 3 lakhs grant for opening Elementary schools.

A. S. 5-2

Registrar.

P a p e r s.

Please see D.P.I's d.o. ^{on p. 19 supra} ~~below~~.

M.1 wishes that sanction for current years' expenditure should issue urgently,

R.R.R. 5-2-21

p. 19.
A draft d.o to the D.P.I calling for proposals for the distribution of Rs.59,810 - mentioned by the D.P.I in his d.o. to the Hon'ble the Minister is submitted below for approval.

The original proposals of the D.P.I related

- (1) to the opening of 512 ^{new} schools .
- (2) to the strengthening of existing schools.
- & (3) to the opening of higher standards in existing schools.

p. 19 ante
The D.P.I's d.o. of the 4th instant refers to 448 new schools in connection with his revised proposals. It is not known whether the latter will include provision for strengthening existing schools and for opening higher standards in them. The sanctioning of a distribution of Rs.59,810 towards ^{the} equipment of 448 new schools presupposes the sanction of recurring expenditure ^(in respect of all of them) from 1921-22 onwards. If these are sanctioned there will be very little left for the strengthening of, and opening of higher standards in, existing schools,

Page 2089 cf.

which was stated by the D.P.I to demand the first claim on funds available for distribution. It is not known whether the D.P.I has changed his mind since. It is also presumed that the D.P.I is at the same time to be asked to send revised proposals, limiting their ultimate cost to 2.80 lakhs, for the distribution of subsidies for ~~recurrent~~ ^{recurrent} expenditure on elementary schools under local bodies.

After issue of the d.o, the file may be sent to ^{the} Financial department for taking action for the resumption of the balance of 3 lakhs left over in the current years provision.

D.O.No. 81/A-2 dated 7th Feby 21.

Dear Mr. Grieve,

With reference to your d.o No.57 of the 4th instant to the - Hon'ble the Minister, I am to ask you to submit, at a very early date proposals for the distribution in the current year to local bodies of - the sum of Rs.59,810 referred to - therein. I am also to request you to ~~submit revised proposals for the opening of new schools etc, limiting the expenditure to 2.80 lakhs.~~ ^{in April 1921}

To
R.G. Grieve Esq., M.A., M.L.C.,
Director of Public Instruction

by 5 lakhs. The D.P.I. was as
for details as to the items and
which the reduction ^{ordered} ~~proposed~~
be effected. One of the items prop
to be reduced was the provision
opening new elementary school
The D.P.I. stated that a sum of
Rs 3000 was sufficient to meet
probable expenditure during the
remaining portion of the current
year. This figure was accordingly
adopted in the R-2 & reported to the
in the 2nd Edition of the Revised Estimate
The present proposal for sanction
an expenditure of Rs 59,810 will
have the effect of reducing the
balances.

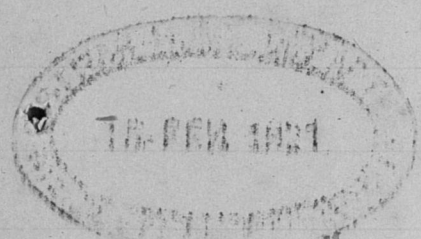

3. It has been agreed to
in this depth that there is no
objection to the scheme if the ultimate
cost is ^{kept} within the budget grant for
the current year viz. 2.80 lakhs.
- vide top of page 14 anti. From the
D.P.I.'s D.O. at page 19 anti it

next year but there will be a saving of roughly $\frac{1}{12} \times 2.80 = .23$ lakh. If some of the payment included in the estimate of Rs 59.810 could be postponed to 1921-22 then it will suffice to sanction in the current year only a sum of $.60 - .23 = .37$ lakh. If this is accepted, then the balance out of the lump provision of 3 lakhs viz 2.63 lakhs may be resumed.

Finance Dept

Re
Please Finance notes on pages 22-24 anti.

The D.P.1 has submitted proposals for the distribution of ^(a non-recurring subsidy) ~~the~~ Rs 37,000 available for utilization in the current year out of the provision of 3 lakhs in the current year's budget for opening new schools etc. A sum of Rs 33,152 is to be distributed among local bodies for the equipment of 65 boys' elementary schools and 383 girls' schools to be newly opened by them in 1921-22. The annual recurring

ES. C. No. 1260 A
18.3.21

Cost of these new schools is estimated at Rs 2,80,000. This is the limit of cost already agreed to in this dept. for the whole scheme. The D.P.I. proposes to submit details of the scheme later. Meantime his proposal to distribute the non-recurring subsidy for the equipment of the schools may be accepted.

2. The Director's proposal to grant a recurring subsidy of Rs 484 per annum to the Municipal Council, Bangalore, to meet the cost of the two additional teachers employed in the Thuruppalam school from 1.3.19 may also be accepted. The additional teachers were employed when Form V was opened in the school. The pay proposed for the two additional teachers (viz Rs 18 and Rs 15) calls for no remarks. It includes a sum of Rs 3 each in lieu of Capitation allowance, which is to be abolished.

3. The balance of the provision of 3 lakhs in the Current year's budget may be resumed. A draft order resuming the amount will be put up separately. Other surrenders have also been received from the D.P.I.

4. The draft order may be accepted.
