No. 662

Government of India,
Department of Education.

(Education)

Simla, the 11th May 1921.

From

Dr. Wali Mohammad, M.A., Ph.D.,

Asstt. Secretary to the Government of India,

To

The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

I am directed to forward, for information, a copy of the annual report on the Indian Government Scholars studying abroad for the year ending the 30th September 1920, together with the diaries in original of the scholars named below:-

S. R. Genshon
M. Karunen
V. S. Kolandavelu

I have the honour to be,

Sir,

Your most obedient servant,

Wali Mohammad

Asstt. Secretary to the Govt. of India.

C.M.

2

Report on Government Scholars
studying in the United Kingdom
during the year ended 30th
September, 1920.

③
11/8/21
8-1-17

Mohammed Abdul Azim, from Madras.

Mr. Azim continued in residence at Peterhouse, Cambridge, until June 1920. His scholarship expired on 8th January, 1920, but he was given permission to remain in this country at his own expense for a further period in order to enable him to complete his work for Part II. of the Law Tripos, and to be called to the Bar. He passed Part II. of the Law Tripos at Cambridge in June last, and will return to India as soon as he has passed the Bar Final Examination, which he hopes to do about the end of the year.

lo 367 ①
16-3-17

James Arthur Frost, from Madras.

Mr. Frost has continued in residence at Trinity College, Cambridge, throughout the year, and in June last was placed in the Second Division of the Second Class in Part II. of the Historical Tripos. His scholarship has been extended for a further year to enable him to take Part II. of the Law Tripos and complete his studies for the Bar. The Secretary to the Inter-Collegiate Indian Students Committee at Cambridge reports that he is not up to the usual intellectual standard of a Government Scholar, but is otherwise a most valuable member of the community. He has represented the University at Hockey, and is well-known as a Sportsman, not only, or chiefly, amongst Indians, but amongst English Graduates ~~xxxxxx~~ ~~xxxxxxxx~~ as well. His Tutor considers his Examination results to be satisfactory, if not distinguished.

Report on Government Scholars
studying in the United Kingdom
during the year ended 30th
September, 1920.

Mr. Asim continued in residence at Peterhouse,
Cambridge, until June 1920. His scholarship expired on
31st January, 1920, and he was given permission to remain
in this country at his own expense for a further period
in order to enable him to complete his work for Part II
of the Law Tripos, and so to be called to the Bar. He
passed Part II of the Law Tripos at Cambridge in June
last, and will return to India as soon as he has passed
the Bar Final examination, which he hopes to do about the
end of the year.

Mr. Frost has continued in residence at Trinity
College, Cambridge, throughout the year, and in June last
was placed in the second division of the Second Class in
Part II of the Historical Tripos. His scholarship has
been extended for a further year to enable him to take
Part II of the Law Tripos and complete his studies for
the Bar. The Secretary to the Inter-Collegiate Indian
Students Committee at Cambridge reports that he is not up
to the usual intellectual standard of a Government
Scholar, but is otherwise a most valuable member of the
community. He has represented the University at several
places, and is well-known as a debater, not only in official
amongst Indians, but amongst English University students.
His Latin and Sanskrit are well known, and his examination
results to be satisfactory, if not distinguished.

Samuel Rajahabdur Gershom, from Madras.

Mr. Gershom has continued his studies at the Leather-
sellers' Company's College throughout the year under
review. It was found quite impossible to provide
facilities for practical work during the Summer vacation,
for him, and arrangements were therefore made for him to
have tuition in Chemistry, in which he was somewhat weak.
The reports upon his work have been good, and show that
he has taken a keen interest in his studies.

Abdul Hamid, from Madras.

Mr. Hamid arrived in September 1919 and joined
Balliol College, Oxford to work for a degree in History.
The reports received about him have not been altogether
satisfactory, as they indicate that he does not always
devote himself so exclusively to his studies as could
be desired. The Master of his College reports that he
does not expect him to do better than a Third Class in
the Schools, although he is capable of rising on
occasions to a level of Second Class merit. Mr. Hamid's
attention has been drawn to the adverse reports received
about him, and he has been warned that he must do better
in future.

Muliyil Karuvu, from Madras.

Mr. Karuvu continued his training with the Electricity
Department of the Corporation of Bristol until March, 1920,
when he sailed for India. His work and conduct throughout
the tenure of his scholarship left nothing to be desired.
It is understood that he has now obtained an appointment
with the Andhra Valley Power Supply Company, Limited, of
Bombay.

Miss Cheruvari Kottieth Kausalya, from Madras.

Miss Kausalya arrived in October 1919, and joined
Bedford College for Women.

in Science, and the reports received about her work have been uniformly good.

Victor Samuel Kolandavelu, from Madras.

Mr. Kolandavelu continued his work in the Locomotive Shops of the Midland Railway Company at Plaistow until January 1920, when he was transferred to the Works of the Great Northern Railway Company at Doncaster. He has worked in the Machine Erecting, and Engine Repairing Shops, and his progress is reported to have been satisfactory.

H. Parameshwaran, from Madras.

Mr. Parameshwaran arrived in September 1919, and proceeded to Cambridge where he secured admission to Christ's College. Dr. F.H.A. Marshall the Tutor of the College, reports that he has made excellent progress in his Research Work during the year. He has read papers before the Cambridge Philosophical Society and the British Association, describing his Spectroscopic observations on Mercury and the rare Gases, and the Monatomic constituents of the Atmosphere. These papers have been published in the proceedings of the Philosophical Society and in the Philosophical Magazine. Mr. Parameshwaran has also made a Spectroscopic examination of the abnormal amount of Helium contained in Beryl. The Secretary to the Inter-Collegiate Indian Students Committee reports that he is, perhaps, the ablest of all the Indians now doing Scientific work at Cambridge. Being whole-heartedly devoted to his Laboratory work he does not take much share in the corporate life of his College, but being a man of great energy and ability and force of character, he is said to make himself felt in any circle which he touches.

Particulars relating to Indian Students to whom special grants have been made or continued during the year to the 30th. September, 1920.

K.A. Subramania Iyer, from Madras.

Mr. Iyer continued his studies for the M.A. degree of the University of London at the School of Oriental Studies and the special grant awarded to him in October, 1918, was extended until the end of December 1919, to enable him to sit for the examination. He obtained the degree of M.A. in Sanskrit and Pali in February 1920, and has since supported himself by giving lessons at the School of Oriental Studies, and by undertaking work for the Pali Text Society. As he was unable to pay for his own passage to India, he has now been granted a passage home at Government expense.

(with extracts relating to
messrs Gresham, Kennedys and
Co and deals with
their diaries in original)

note.

The report of ~~the~~ on Mr. Abdul
Hamid is not altogether satisfactory
and he has been warned by the India Office
that he must do better in future.
Attention is in this connection invited

to para 1 of G.O. No. 602 of 13-5-29
wherein it was stated that the
continuance of the scholarship
in the second and ^{the} third year
will be contingent on the receipt
of good reports as to his progress
in studies. The India Office,
apparently, do not consider that
the reports on the scholar's work
are so ~~unsatisfactory~~ unsatisfactory
as to discontinue the scholarship.
