Clause (1). In the form of application for admission to the Presidency College there is no column in which candidates are required to enter the name of the district to which they belong. There is, however, a column showing the school or college in which the applicant studied during the previous year. Statement 'A' attached furnishes particulars with regard to the students applying for admission to the Presidency College from institutions in the Ceded Districts.

Clauses (2), (3) and (4). The information required is contained in statements A, B and C attached.

Clauses (5) and (9). Two of the principles adopted by the Selection Committee were (1) ~~applicants~~ applicants coming from an institution affiliated in the particular branch which they wish to ~~join~~ join should not ordinarily be provided with seats in the Presidency College; and (2) if there was a college in the same or in the adjacent district where provision is made for the courses the applicant wished to take up their applications should not ordinarily be considered. These principles were applied to students from the

Ceded

5
Ceded Districts and some applicants were consequently not selected.

Clause (6). Information required is contained in statement 'F' attached.

Clause (7). The majority of colleges are under private control. I suggest that it be stated that Government do not propose to take any steps to ~~interfere~~ interfere with the admissions made into colleges under private control. Regarding admissions into Government colleges it should suffice if Government state that they have appointed a selection committee to make admissions.

Clause (8). Statements (e) and (d) attached give the required information.

Law (Education) Deptt.

^{draft}
The following answer is for approval:-

Clauses (1), (2) and (3).

Statement A gives particulars of students from institutions in the Ceded Districts that sought for and obtained admission to the Presidency College. The Government have no information as to the districts to which each of the students belonged.

Clauses (4), (6) and (8).

The information required is given in statements B and C, F, D and E.

Clauses (5) and (9).

Two of the principles adopted by the Selection Committee of the Presidency College were:

(1) that applicants coming from an institution affiliated in the particular branch which they wished to join should not ordinarily be provided with seats in the Presidency College, and

(2) that if there was a college in the same

6
or in the adjacent district where provision was made for the courses, the applicant wished to take up their applications ^{of such students} should not ordinarily be considered.

Applying these principles, some applicants from the institutions in the Ceded Districts were not selected.

Clause (7).

The majority of the colleges in Madras are under private management. The Government do not propose to take any steps ^{which would} ~~to~~ interfere with the admissions made into colleges under private ~~control~~ control. As regards Government colleges, the Government have appointed selection committees to make admission.
