From (Name) R G Grieve Esquire, M.A., F.R.G.S.,

(Designation) Ag. Director of Public Instruction

To The Secretary to the Government of Madras,

Law (Education) Department.

Sir, Through the Superintendent of Stationery, Madras.

I have the honour to request that Government will be pleased to sanction the supply to this office of a Gestetner ~~Rotary~~ Rotary Duplicator, No. 6, self-feeding, in the circumstances detailed below:--

It is frequently necessary in this office to take a large number of copies of circulars and the like, but experience shows that it is not possible to take more than 200 copies by means of the two R R R Duplicators now in use as the stencil papers gets dirty with ink very soon and is often badly torn before the required number of copies is taken. Moreover, there is a certain amount of wastage of paper as many as 6 or 7 copies sometimes being spoiled before a uniform spread of ink is obtained on the duplicator. Further, the rate of production on the duplicator is

limited if thin paper has to be used. In this case only about 5 copies can be taken in a minute. In the case of the Gestetner machine, however, there are no limitations as to the number of copies that can be taken, there is no wastage of paper and any kind of paper can be used for taking copies without affecting the rate of production. There are other advantages also possessed by the Gestetner machine over the R R R Duplicators. The ink feed is automatic, thus providing for a uniform and economical flow of ink and avoiding thereby not only uneven and imperfect impressions but also dripping, accumulations or clogging of ink on several parts of the plate and soiled edges. The Gestetner machine is thus much more satisfactory and in addition requires very little attention as regards cleaning. It also possesses the advantage of enabling the office to take copies of manuscripts of any Vernacular, tabulated lists plans, drawings, etc.,

3. I may point out that if my office is supplied with a Gestetner machine it will be used also by the office of the Commissioner for Government Examinations. It will be of great value in that office, especially in connection with the S.S.L.C. and other examinations for which a large number of circulars have to be sent out to heads of institutions Superintendents of Examinations, Examiners and Assistant Examiners.

4. In case a Gestetner machine is supplied to this office the two R R R Duplicators now in use will no longer be necessary and it will be possible to transfer them to some other office.

5. If, in consideration of the above facts, Government is pleased to sanction the supply of a Gestetner Rotary Duplicator (self-feeding No. 6) to this office, I beg to suggest that the cost thereof, viz., Rs. 635, may be met from

from the Superintendent's of Stationery's budget allotment during the current year.

I have the honour to be,

Sir,

Your most obedient servant,

Rane
for Director of Public Instruction

S.V. 27-4.

No. Co.1.269-25.

Stationery Office,
Madras,
Dated 25th May '25.

Messrs. D.Gestetner's Rotary Model No.6 foolscap

self-feeding costs Rs.635/- and stencil paper of the cheapest variety that can be used with it costs Rs.100/- per ream. Roneo No.10 Model foolscap is also self-feeding and self-inking just like Gestetner's Model No.6 and it costs only Rs.195/- and stencil paper for the same costs only Rs.56/- per ream. The Director of Public Instruction on being asked to state whether the Roneo will not suffice for his office has withdrawn his indent for Gestetner's Model No.6 and applied to me for two Roneo No.10 Model machines costing Rs.390/- in the aggregate. He states also that the two R.R.R. No.11 duplicators now in use with him can be surrendered by him. His request may be complied with.
