Allotment of funds

Reverting — for the
Construction of new college buildings, playground etc.

ENCLOSURES.

Reference No. 1173/G.C., of 19.

Station Salem., Dated the 28th October 1919

From (Name) M.R. Rv. R.M. Loganatha Mudalyar Avl.,
B.A.B.L.,

(Designation) Chairman Municipal Council,

Salem.

To The Secretary to the Government of Madras,

Local and Municipal ——— Department.

Sir,

Adverting to G.O.No.1151 Home Education, dated
6-9-17 requesting allotment of funds for the construction of New
buildings for the Salem College, I have the honour to approach you
once again in the matter. The institution, of late, has improved
both in strength and in efficiency demanding thereby additional
accommodation, the present building not being adequate. It has
also been the repeated comment of the Inspecting Officers and that
of the University Commission to provide the College with a new
suitable building. I enclose in this connection a copy of the

2
1079
remarks made in the Visitors' book by the Hon. Khan Bahadur
Md. Habeebullah Sahib Bahadur Mehari, Member of the Executive
Council on his visit to the College on 13--10--1919 and a copy
of the proceedings of a Special Meeting of the Municipal Council
held on that date. As was pointed out by the Hon. Member the
need for a building is keenly felt requiring immediate attention
of the Council. In these circumstances, I would request you,
in the interest of the Institution, to kindly make arrangements
for allotting funds and starting the construction this year so
that considerable progress may be made before 31--3--20 and --
finish the work at least early next official year.

2
Municipal play ground.

The next, but not the least important want pressing
the attention of the Council, is the provision for a play ground
for the College. At present very little is being done under
"Sports and games" for want of a suitable ground for the
purpose. In the matter of this, it is intended to acquire
sites near the proposed New College buildings. With this
plots of lands have been selected and await the approval
Director of Public Instruction who in this office letter 926/...
of 18, dated 21-8-19 was requested to arrange for a grant of --
Rs. 3,700. The Council at its present financial condition is
unable to proceed on the acquisition of lands without a grant-
in-aid from Government. Since the necessity for a play ground
is obvious, I would request you to kindly allot necessary funds
in this direction also.

3
There is a general grievance prevailing among the
staff of the College to the effect that they are under paid. To
remedy this proposals were already made to Government in this
Office Dis. 68/R., of 19, dated 13-3-19 and await sanction. In
the interest of the teaching staff, it is requested that early
sanction may kindly be accorded.

I have the honour to be,
S i r,

Your Most Obedient Servant.

Rin Lokanadhar
Chairman.

3
Copy of remarks made in the College Visitors' book by the Hon. Khan
Bahadur Muhammad Habibullah Sahib Bahadur Mehari, Member, Executive
Council, Madras.

" Visited the College on the 13th October 1919 and saw the College
and a few high school classes at work. I also went round the --
hostel. I must confess that it is a well maintained institution
and that the Principal evinces great interest, assisted as he --
evidently is by his devoted staff. The strength is already nearly
1,200. Unless a new building is soon constructed I fear it will
be necessary for the Principal to refuse the admissions of any
more boys as I find almost every class room already over-full. It
was brought to my notice that the staff is somewhat under paid
while the Municipal Council has no funds to remedy their legitimate
grievances. I hope the Dept. will kindly look into this matter.
There are other defections as well for an institution of that size
and status and it is rather impossible for the Council to attend to
them without a grant-in-aid. I am sure the Director of Public
Instruction if approached will do the needful in the interest of
an Institution which I was glad to learn was established several
decades back".

SALEM MUNICIPALITY.

*Proceedings of a Special Meeting of the Municipal Council of Salem held in the
Salem Town Hall at 3 P. M., on Monday the 13th October 1919.*

PRESENT:

Chairman.

M. R. Ry. R. M. Loganatha Mudaliyar Avl., B. A., B. L.

Official—Councillors.

M. R. Ry. K. N. Nagesvara Ayier Avl., B. A.

P. F. Mathias Esq. B. A. M. B. C. M.

H. F. Dawson Esq.

Non-Official—Councillors.

M. R. Ry. K. V. Subba Rao Avl., B. A., B. L.

S. K. I. Abdul Rahiman Sahib Bahadur.

Kazi Muhammad Sheriff Sahib Bahadur.

V. Seetharama Chettiar Avl.

N. S. Lakshminarasimha Chettiar Avl.

S. M. Thambuswami Pillai Avl.

T. K. Balakrishna Chettiar Avl., B. A., B. L.

D. P. Chennaikrishna Chettiar Avl.

U. S. Venkatrama Ayya Avl. B. A., B. L.

K. P. S. Arthanariswami Chettiar Avl.

All these propositions are proposed from the Chair.

WATER WORKS.

1. The council requests the Government may be pleased to make a grant of Rs. 20,500 as the Sanitary Engineer in his letter No. 1579 M., dated 30th September 1919 forwarding an estimate for Rs. 20,500 for widening the supply channel and for removing the head sluice altogether with the Chief Engineer's approval and sanction thereon, request, the council to make early arrangements for funds and suggests that the work may be done by the Municipal Engineer.

2. As large portion of the town is still left unserved with pipe water even though the water works had been in existence for the past 8 years and as there is no reasonable likelihood of the Council being able to spare the necessary cost from normal revenues the Council urges that the Government may be pleased to give an additional grant of money for extending the service.

3. The Council repeats its request that a grant may be given to meet the cost of improving and strengthening the bund of Panamarathupatty tank.

4. The Council desires to bring to the notice of the Government that both the bed of the river and of the supply channel are getting vastly silted up and that expert advice should be taken both to clear off the accumulated silt and to devise measures with a view to avoid further silting up.

5. The main line of steel pipes especially in the 1st mile from the town is hopelessly corroded as may be inferred from the fact that the number of leakages that had to be recently patched up is very high and as the Council pointed out to the Government long ago that if necessary to get iron pipes instead, the Council strongly urges that the Government would be pleased to replace the pipe for the 1st mile with cast iron pipes as early as practicable.

6. In view of the fact that the existing filter beds are insufficient for adequately supplying the necessary quantity of water to the town, the fourth filter bed as originally proposed in the scheme will have to be constructed. The Government is requested to make a grant for this purpose.

7. As the water works are situated far away from the Town great inconvenience is felt to get information promptly and as it is necessary for the efficient management that informations regarding accidents and other matters of importance should reach the chairman without delay, the council requests the Government may be pleased to make a grant for opening a Telephone communication between Salem and the Water works (Head works).

EDUCATION.

1. The Council requests that the construction of College building for the Salem College may be expedited as the strength of the institution is daily growing and the Council finds no accommodation for the boys.

2. A Municipal play ground for the boys of the town is urgently needed as the existing provision for play ground is very poor both in the College and in the Elementary Schools of the town. A piece of 20 acres just at the other side of the Hostel grounds where the new college premises are to be built may be acquired for this purpose. The Council requests that the Government be pleased to grant for this purpose.

3. The Government gave grant for the purpose of furnishing elementary schools of the town for one year and only 2 such schools are properly furnished with the aid of that grant. The Council requests that the grant may be renewed so that the remaining schools may also be similarly furnished.

4. The Council requires that the provincial grant given by the Government with a view to increase the salary and status of the teachers may be increased so that the proper sort of men may be entertained in the institution.

5. As the two secondary schools at Shevapet and Salem are housed in buildings that are incapable of improvement, the Council desires that both the buildings may be sold away and up to date buildings be put up instead, the Council also requests that the Government may be pleased to give a grant of half the cost of new buildings.

MEDICAL.

1. The opening of the new hospital has increased the cost of maintenance of the institution as both the in and out patient ward come in large numbers and the institution serves for the In-patient of the district as the only hospital available the Council is not able to meet the growing expenditure and it requires that a recurring grant may be made from the Provincial funds so that the institution may be efficiently maintained.

FINANCE.

1. The Council requires that its indebtedness to the Government Rs. 37,000 by way of borrowing unspent grant may be written off as these borrowings had to be made during bad years and the debt is a heavy drag on the Council especially when every year the Council had to find extra money with a view to repay a portion of the debt. This arrangement has necessarily curtails ordinary normal expenditure which is essential to the health and well being of the town.

POOR EXTENSION.

1. As the housing of the poor during plague season in rat proof houses is a problem that has got to be met, the Council requires that the Government may be pleased to approve the model houses for the poor should be put up for the purpose. In this Municipality a portion of site acquired for the extension of Erumapalayam which has been recently given up, may be utilized as building site and the remaining portion be sold and the proceeds utilized for putting up the dwellings. The Council also request that the Government be pleased to set apart a portion of the sanitary grant every year to towns particularly affected by plague or if the Government is unable to accept this suggestion at least to finance the scheme by the grant of a long term loan without or with nominal interest. The scheme may be worked out on the lines suggested by the Government in para 4 of G. O. No. 9 M. Mis. dated 5th January 1915.

Resolution:—All the propositions are carried unanimously except propositions about Finance and Medical which are passed by a majority of 8 against 2. Two neutral.

Re No. 11390/19

Station Ootacamund, Dated the 30th April 1920

From (Name) The Hon'ble Mr. R. Littlehales, M.A.

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,
Local and Municipal Department.

Sir,

In returning herewith the enclosures received with Government Memorandum No. 7073-1 M., dated 3rd December 1919 I have the honour to state that I visited Salem on the 20th April last and discussed the points raised in the enclosures with the Educational Sub-Committee of the Municipal Council.

2. The Principal of the College and the Educational Sub-Committee are agreed that the plan originally agreed upon is no longer suitable for the college which has grown considerably

considerably within recent years. Rough revised plans are I understand under preparation by the Principal of the College and the Engineer to the Municipality. Budget provision exists, I believe, in the

Public Works Department Budget for the construction of the College.

3. I am addressing Government separately if funds are available regarding the acquisition of lands for sports and games.

4. I have in a separate un-official reference to Government recommended a grant of a subsidy for the revision of the scales of pay of the establishment.

I have the honour to be,

Sir,

Your most obedient servant,

Director of Public Instruction.

Submitting for favourable consideration of Government a detailed report in regard to the proposals for the acquisition of certain plots of ground to serve as a play ground for the Municipal College, Salem.

ENCLOSURES.

No.

Spare copies

R.C. No. 8665/18

Station Madras, Dated the 8th October 1920. 191

From (Name) The Hon'ble Mr. R.C. Grieco. M.A.,

(Designation) As. Director of Public Instruction
Madras.

To The Secretary to the Government of Madras,

Home (Education) Department.

Sir,

With reference to the needs of non-Government colleges as regards play grounds - a subject that was taken up at the private conference held by His Excellency on the 18th July 1917 - I have the honour to submit the following report and recommendation in regard to the Municipal College, Salem.

2. As this department agreed with the Chairman of the Salem Municipal Council that the present provision of play ground was inadequate, definite proposals for providing additional accommodation were called for from the Chairman.

3. The Chairman proposed the acquisition of a plot of ground either in the Chukkeri Tank or in the Moravaneri Tank bed at a cost ranging between 5 and 6 thousand rupees. Mr. Littlehailos

15
visited Salem and did not approve of the Chairman's proposal and suggested that it might be possible to utilize some of the existing lands on the site for the proposed college buildings as play grounds and to acquire, if necessary, some land immediately adjoining them. The Chairman agreed to this suggestion and the Municipal Engineer, Salem who also thinks that the scheme is a feasible one, estimates the cost of carrying out at Rs 2,700/- and out of this the Municipality is prepared to meet Rs 750/-.

A 4. Mr. Littlehailos was convinced, and I agree with him, that the acquisitions and adaptation are desirable and I therefore recommend the scheme for the acceptance of Government. The expenditure of Rs 2,950 which would have to be met from Provincial funds may be met from the current year's provision of Rs 2.63 lakhs for building grants-Non-European schools- which in previous years used to include some provision for play grounds.

5. I beg to enclose herewith copy of letter No. 460 of the 10th August 1919 from the Principal, Salem College, explaining the details of the proposal and the plan referred to, therein and request that the plan after reference may be returned to me.

6. I suggest that plots 30, 32 and 36 be acquired by Government and loaned to the Salem Municipality for only so long as the college is under Municipal control and is used for educational purposes.

7. The Chairman reports that plots 30 and 32 only can be obtained by private negotiations and that plot 36 should be acquired under the Land Acquisition Act as the same is under a civil dispute.

I have the honour to be,

Sir,

Your most obedient servant,

Durabrahman Chell
For Director of Public Instruction.

n.v.s.

8/10/20

16
Copy of a letter from the Principal, Salem College, Salem to the Director of Public Instruction, Madras, No. 460 dated 10th August 1919.

10
With reference to your letter Ref on Cur No. 8665 of 1918 dated 17th July 1919, addressed to the Chairman, Municipal Council, Salem a copy of which was sent to me and about which I was asked to send detailed proposal I have the honour to submit the accompanying plan of the present hostel compound with the following remarks.

No. 34 is an old dilapidated building which can be raised to the ground.

When the Director of Public Instruction stated (vide Government Memorandum No. 6405 -1 M dated 7-1-1914) that the present grounds would be sufficient for prospective college building also he had included plot 36 in the ground proposed. I understand that the management made an attempt as recently as 1916 to purchase that plot but they had to give it up for want of funds. It is very necessary that this piece of ground should be acquired also. Plots 30 and 32 have also to be purchased to push the boundaries on that side to the Trichinopoly road and the stream which would then form a sort of natural boundaries to the entire plot. Herewith is appended the Municipal Engineer's estimate regarding acquisition and making the ground usable for sports.

1. Purchasing plot 36 which is an excellent house site.	Rs 2,500
2. Do. Do. 30 a small bit of land	Rs 150
3. Do. Do. 32 a larger bit of land -	Rs 300
4. Blasting rock to south east of 34	Rs 500
5. Plothing and levelling up the ground	Rs 250
Total	Rs 3,700

I understand the management would undertake items No. 4 and 5 if the Government be pleased to give sufficient grant to enable them to purchase the plots mentioned above.

19
Copy of letter No. 170 dated 20th May 1920 from the Principal
Salem College, Salem to the Director of Public Instruction,
Madras. ✓

" In continuation of the personal conversation I had with you
regarding the structural alterations to be made in the proposed
buildings for the Salem College, I have the honour to submit
the following proposal.

I may state at the outset that in view of the long delay
that may be caused if any radical alterations are suggested,
I have confined myself to the irreducible minimum of changes -
necessary to make the building suit our present requirements.

I have in this plan provided for accommodati~~ng~~ only --
three divisions of each of the lower forms and about the same
number in the three upper forms. In a rapidly growing --
institution like this, necessity for ~~the~~ additional accommodation
will always be felt and I propose to cope with that difficulty
by dispensing with the lower forms as necessity arises. The
municipality might then be induced to open middle schools in thickly
populated centres of the town and thus relieve congestion in this
central institution.

I may add that in accordance with the suggestions contained in
your proceedings No. 4401 dated 24/4/20 I have even now recommended
the opening of a new middle school in the far off eastern portion
of the town.

The important alterations to be effected are the following .
The College Laboratory which according to the present plan is --
on the first floor (Rooms 28-31) is to be taken to the ground
floor rooms 11 to 14 which have to be ^{modified} accordingly. The
Municipal Engineer is of opinion that the difference in level of
1st floor and the head of water at Panamarathupatti reservoir (which
is the town supply) is insufficient and therefore we have to pump
up water if laboratory is to be located upstairs.

(ii) The High School Laboratory is proposed in the plan to be ~~located~~
located in room No. 20. It will facilitate the work of the Science
teachers very much if the High School store room No. 14 is also

Public Works Department,
M a d r a s.

Sir,

* Subject:- Plans and estimate for the proposed
Municipal College at Salem.

With reference to your Memo No. 2610 Wks., dated
22nd March 1922 I have the honour to forward herewith plans
and estimates amounting to Rs. 2,24,100, duly priced with
the current schedule of rates for the proposed Municipal
College, Salem.

2. Lump sum provision has been made for roads, gates
and drains.

3. The site plan C.A.No. 69/1922 received with your Number
quoted above is marked with spot levels.

4. The Executive Engineer suggests that the alternative
site marked by him in the site plan is the best one. The
position of the latrine is also changed from S.W. to N.W.
of the main building as the ground falls considerably --
towards South West, where all the drainage will pass ---
through.

PUBLIC WORKS DEPARTMENT.

Subject:--NEW MUNICIPAL COLLEGE AT SALEM.

MEMORANDUM.

No. 26/104403/6 dated 7-6-1923.

The drawings and estimates the latter amounting to Rs. 2,24,100/- for the construction of new buildings for the Municipal College at Salem, are returned to the Superintending Engineer, Coimbatore Circle for revision with reference to the following remarks and resubmission at an early date.

1. As the foundations are proposed to be taken down to about 3" to 6" into soft rocky stratum, concrete foundations should be omitted and masonry foundations provided instead. Provision should however be made for filling in the pockets in the rocky bed with concrete.

2. As the building is to be constructed on side long ground, provision should have been made in the estimate for different depths of basements to suit the country levels. In the item filling in basement different depths to suit the country levels should have been allowed in lieu of the uniform depth of 1½ feet allowed in the estimate. The slope of the ground should be marked on the sections, to estimate correctly the above items.

3. The Chief Engineer considers that the shifting of the position of the latrines as proposed by the Executive

7/6

1st reminder sent 24/5/23

31
Engineer, Salem Division, would ^{Cause} be a nuisance to the Police Head Quarter's Office which lies within 200 feet to the west of the new site. It does not therefore seem desirable to shift the position of the latrines from the site originally proposed.

4. ~~Irul~~ wood ^{which} is stated to be available at Salem, this variety should be used for the main building and Pillamarudu wood for the out-houses.

5. The sections of timber scantlings, as altered in this office with reference to the New Circular on 'Madras Timbers', should be adopted.

6. New British Standard Beams if available, should be used, in lieu of the old ones as the former is recognised to be stronger and lighter than the latter.

7. The provision of Rs. 600 made in the estimate for constructing drains should be increased to Rs. 1000/- and a lump sum of Rs. 500/- should be provided for service water pipe.

8. As there is no provision in the estimate for fencing or compound wall, the Superintending Engineer should report whether any compound wall ^{or fencing} already exists enclosing the Police Head Quarter's Offices near by, and if not, he should report the actual amount that will have to be provided for on this account.

9. The drawings and estimate should be countersigned by the Superintending Engineer Coimbatore Circle.

Sir,

ENCLOSURES _____

*Reference:--Your No. 2610 Wks.B-6, dated 7-6-1923.

New Municipal College, Salem.

SPARE COPIES _____

In resubmitting herewith the plans and estimate amounting to Rs.2,46,000/- for the work referred to above, I have to state that

- 1 Randon rubble masonry is provided in place of the concrete in the foundations.
2. Longitudinal and cross sections are now furnished showing the different depths of basements. The items filling in and masonry in basement in the estimate have been revised to suit the different depths.
3. The building marked Head Quarters Police Office in the plan forms part of the Municipal College as Hostel and School. The building and the site are in charge of the Municipality.

The Executive Engineer still considers that the position of the latrines as marked is more suitable. I agree with him. The building of the latrines in the old position i.e., towards the south of the main buildings is not desirable as it is the direction of the prevailing wind.

4, 5 and 7. Have been attended to.

6. The new British Standard beams will be used during execution if available. The provision for

old

35
-2-
old beams is however left as it is for the present to avoid increase during execution in case new beams are not available then.

8. No compound wall or fence exists. A compound wall is required all round the site and a provision of Rs.10,600/- is included in the general estimate.

9. Attended to.

10. A provision of Rs.10,200/- is made for fluctuation in prices during execution and the estimate amounting to Rs.2,46,000/- as modified is submitted for favour of sanction.

Note by the Chief Engineer, P.W.D.

No. 2610 ⁴³/₇₈ / 21-7

20
dated ^{April} 7th January 1924.

Subject:--Proposed Municipal College Buildings at Salem.

Plans and estimates for the proposed municipal college at Salem submitted by the Superintending Engineer, Coimbatore Circle are recommended for sanction with the following remarks:--

(1) As the buildings will be founded on rock wider footings are not necessary and as random rubble is cheaper than brickwork, the footings below ground levels will be of random rubble as per revised sections furnished in plan.

(2) The pressure in piers between doors and windows is a little above the permissible limit and these should be built with selected bricks.

(3) The decomposed outer surface of the rock should be cleared and top stepped out to receive the masonry.

(4) The quantity for earthwork, excavation, may be revised in execution as per actual work done, as the estimate is not based on the existing ground levels.

(5) Compound Wall. The proposed 3 feet depth of random rubble in foundation seems massive and is not supported by trial pits to show sub-soil. The 3 feet depth may be made of 2 feet concrete and

and

37

and 1 foot brick footing, 1'-1½" and 1'-6" wide.
Soil and sub-soil should be examined during excavation and foundations carried to necessary depth.

(6) The cost of the work, as revised in Chief Engineer's office, is Rs.2,44,000/- as detailed below:-

Main Building		Rs.2,16,500/-
Tiffin Shed		6,100.
Latrine		500.
Compound wall and Gate		10,700.
For fluctuations of rate		10,200.
Total		Rs 2,44,000.

New building - Salem ml. college

Memo. 24352-Lm of 29.8.24

The estimates for a new building for the Salem ml. college as now revised by the Chief Engineer amount to Rs.2.44 lakhs. The Govt. will be prepared to sanction a half grant for the work on the postpayment system provided the ml. cl. finds the other half by raising a loan or otherwise. The cl. is requested to report at an early date whether it agreed to proceed with the scheme on the above condition and if so whether it will carry out the work itself or desires to have it carried out by the Public Works Department. In the latter case centage charges will be payable.

DESPATCHED.

24 NOV. 1924

S.M.S.26/11

We consider that we have got to report on the following

(1) Whether the Council would be prepared to accept the offer of the Chief Engineer Viz., Rs.2.44 lakhs for the reconstruction of the college buildings

We recommend that the estimate be accepted.

(2) Whether the Council will accept the offer of the Government to find half the cost by applying for a loan, the Government making a grant of the other half.

We recommend that this offer be accepted

(3) Whether the Council would accept the Government grant on the post-payment system.

This may also be accepted

(4) Whether the Council will carry out the work themselves or the D.P.W., will be asked to construct the building.

Our Engineer has got sufficient experience to be in charge of the buildings and we recommend that the Council do undertake the carrying out of the work themselves

We consider it necessary to report also as to the ways and means will have by which the loan to be repaid. A loan of Rs.1.22 lacs repayable in 30 years works out an yearly instalment of Rs.4066-10-8 and the interest in the average for the first 10 years is Rs.5,700 making a total of Rs.9,765.

We propose the following to meet this additional demand:—

(1) We anticipate a saving of Rs.1,000 per year by not providing for repairs to the present building for 2 years.

(2) We propose to get an additional income of Rs.500 per year by raising the fees in the 5th and 6th forms.

(3) We propose to levy a laboratory fee of Rs.6 per year from the boys using the laboratory thus getting an additional income of — Rs.500

(4) We propose to revise the concession rates granted to students saving a sum of Rs.1000 per year

42
-2-
(5) We recommend that the income from taxation of all sources — available by the extension of Municipal limits be earmarked for this purpose. This amount is expected to be nearly Rs. 5,000 per year.

We do not expect any difficulty in repayment of the loan — especially at the quinquennial revision to be made soon will bring in additional revenues.

Order sanctioning
the subsidy have
been issued - Rs.
1139 Home (S)

30-9-20

It has been decided to
grant a subsidy of Rs 6360
to the Salem Municipal Council
for the revision of the Staff of
the College (vide linked file). The
revised plans & estimates for
the college building, which the
D. P. I. stated in his letter of
30th April 1920, to be under
preparation by the Princip-
al and the Engineer
may be awaited. As the
provision of Rs 5000 in the
current year's budget for the
College building has been
resumed it is for consideration
whether the Council may be
told to renew its applica-
tion after the estimates
have been prepared and
sanctioned. ~~So the draft below is~~

112 cf.

vide Edu. Dept. note
on p. 14 & 2 ante

48 (5) 35

As regards the question of grant for a man! play-ground, the Home (Eda) Dept may be requested to state if the communication on the subject promised by the D.P.I. para 3 in p 12 of has been received and whether a grant is likely to be ~~received~~ ^{allotted} to the Salem mun! Council for this purpose.

This file deals with the following three requests of the Salem Muni. Council :-

- (1) that the construction of the College building might be put in hand and the necessary funds (Prov.) be allotted for the work.
- (2) that a grant may be given for the acq. of a site for the acq. of lands for a playground for the College.

and

59 39
and (3) that early sanction may be given to the revision of the College establishment proposed by the Council.

2. In regard to (3), orders sanctioning the revision & a grant therefor have already been issued - vide G.O. 1236 M, dated 7-9-1920 & 1139 Home (Estt), dated 30-9-1920.

3. There remain now only requests (1) & (2) to be considered.

4. As regards (1), the proposal to construct a new building for the College at an approximate cost of Rs. 80,000 was approved so far back as 1913 and as a special case the Govt. consented to meet the entire cost of the building from Provincial funds - G.O. 1160 Estt., dated 6-12-1913. The estimates

were as revised in 1915 amounted to Rs. 1,30,000. A site for the building was selected & approved by Govt. in G.O. 1460 M, dated 15-9-15. But the work has not yet been put in hand. A provision of Rs. 5000 was entered in the P.W.D. budget for the current year for this work but it was later

CANo 7610, 7841- 180 of 1914

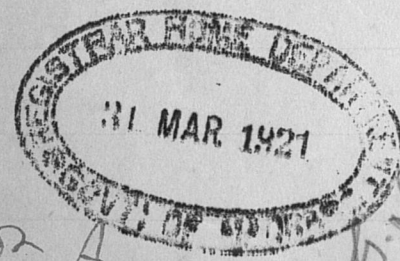

In G.O. No 1494 Wd 12.8.1915 detailed plans of estimate amounting to Rs 1,30,000 for the construction of new buildings for the Salem College were sanctioned. The Director of Public Instruction has now proposed some modifications in the designs appended by Govt. The modifications proposed are shown in red on prints CANo 7610/15. The above designs

The proposals as revised estimate to Govt. Rs 1,50,000

were prepared by late Mr Thomas Consulting Architect to Arch. The present CA (Mr. Nicholls) considers that the design is very unsuitable especially in the position in which it is proposed to place it. He has now prepared alternative designs - sketches CA No 17, 18 & 21 & site plan CA No 19/21 showing lines on which such a school might suitably be built and continue the building expansion becomes necessary. He says that if CA No 17 & 18 are approved in this preliminary stage he can make the building 'look well etc'.

The file may now be sent to the Home (Ed) dept for obtaining the remarks of DDI on the above proposal of CA.

60
estimated to cost Rs. 80,000 approximately.
In 1915 detailed plans and estimates
for Rs. 1,30,000 were, however, sanctioned.
The plans require alterations in
certain respects to suit the present
requirements of the college. If the
alterations are effected the estimates
amount to Rs. 1,50,000. But the
Consulting Architect is reported to
consider the original designs as
very unsuitable. The P.W. Dept.
therefore recommend fresh plans
and estimates for the new college
for Rs. 1,75,000. The revised designs
have been accepted by the
Law (Edu.) Dept. Submitted that
Finance may also accept the
revised proposals.

It has already been
decided that the entire cost of the
new college should be borne by
Govt., the amount being met from
the non-recurring Imperial grant
of 49 lakhs - G.O. No. 1160 Edu & 6.12.13.
The building after construction
will vest in the Govt., who will
it to the Municipality for use as
the college.

He

X 2. Item (ii) - Playground. The cost of acquisition of the sites alone is estimated at Rs. 2950. It is reported that one of the plots whose cost is put down at Rs. 2500 will have to be acquired under the Act; as Rs. 2500, presumably, represents charges exclusive of the solationum the total cost of the acquisition will go up to Rs. (2950 + 375) 3325.

* 15 x 25 = 375

Para 7 in pag. 15 CF. Para 4 in p. 15 CF. The whole cost will also have to be met from Provincial funds. The municipality is willing to bear on such charges as are incidental upon converting the lands for use as a playground i.e. Rs. 750. Finance may accept the charges on account of the acquisition subject to the conditions mentioned in para. 6 of P. 15 CF. the D. P. I's letter of 8. x. 20.

3. Funds. There is no provision for this work in the P. W. budget for 1921-22. No expenditure should therefore, be incurred until funds are provided for this work.

The estimate referred to at p 19 ante was scrutinized by the C.E. and it was found that it did not provide for service water pipe and compound wall. Several other defects were also noticed and the estimate was therefore returned to the S.E. for revision and resubmission - vide memo at pp 30-31. The estimate was resubmitted by the SE after attending to the remarks of the CE. It was further examined by the CE, and his remarks will be found in his note at pp 36-37 CF. The amount of the ^{detailed} estimate stands at Rs 2,44,000 against the approximate estimate of Rs 1,75,000.

The file may now be sent to

Law (con) for necessary further action in regard to provision of funds and administrative approval to the scheme. 2613 Law (con) 6/4/24 27/3/24

The question of providing a new building to the Municipal College, Salem, has been under consideration for a long time past. The first definite sanction of Government for the construction of the building was accorded in G.O.No. 1160 Education, dated 6-12-13. In that order the Government undertook to construct at Government cost a new building then estimated to cost Rs 80,000 and lend it to the Municipal Council for the use of the College. The estimates were revised in 1915 and they amounted to Rs 1.30 lakhs (G.O. 1494 W. dated 12-8-15) A site for the building was also approved in G.O. 1460 M, dated 15-9-15. The original plans having later on been found to be unsuitable especially with reference to the expanding requirements of the college, the D.P.I. forwarded as early as October 1920 the suggestions of the college Principal indicating the alterations to be made in the original design and plans. The design having been condemned by the Consulting Architect, it ~~was~~ had to be completely altered. The revised design has also been accepted by the D.P.I. (page 15 ante).

2. Plans and estimates based on the revised design have now been got ready by the P.W.D. and the estimates as revised in the Chief Engineer's office comes to Rs 2.44 lakhs. The P.W.D. have sent the file to this department for consideration of the question of provision of funds and for according administrative approval to the estimates.

3. First as regards administrative approval to the scheme, there is admittedly need for the new building and it is unnecessary to labour the point at this stage. At one time the question of taking over this College under Government management was suggested but was not pressed owing chiefly to the prevailing limitations on provincial finances. The Municipal Council was also reluctant to give up the management of the institution - Vide page 8 of G.O.

386, Education, dated 31-3-22. It does not seem that the transfer of the College to State management is anywhere within the region of practical politics in the near future. The need for accommodation being undisputed, it seems that administrative approval may be accorded. The Finance Department have also accepted the proposal. It now remains to provide funds. The work has apparently to be treated as a new scheme and placed before the Finance Committee with a view to definite provision being made in the next year's budget. The Finance Department may be consulted as to whether they agree to a note being got up for the Finance Committee.

Finance u.o

P.T.G.

Construction of a new building for the Salem Municipal College--Estimated cost = 2.44 lakhs.

Please see notes beginning with Finance notes on p.16 ante. It is, no doubt, true that so long ago as 1913 the Government promised to bear the entire cost of a new building for the Salem Municipal College. But conditions have altered since. The building then proposed was estimated to cost only .80 lakh. The cost of the building as now proposed is estimated at 2.44 lakhs. It seems doubtful whether, in the present state of their finances, the Government can undertake a large liability like this. Submitted that the Law (Education) Department may be ~~requested~~ to postpone the scheme for the present. If, however, they press for it, Finance need not object to the scheme being brought forward as a Part II scheme for 1925-26.

2.

It seems necessary to consider another question of the scheme, viz., whether Government should stick to the promise made in 1913 to bear the entire cost. The present policy of Government is to restrict their commitments in respect of educational buildings to one half of the cost, the other half being met from the funds of the local body concerned. Exceptional treatment is accorded only in very few cases where the financial position is not satisfactory. It is for consideration whether Law (Education) may be requested to examine, in consultation with L.S.G., the question whether the Salem Municipal Council should not be asked to bear one-half of the cost.

B.4

837C

The Finance Dept. in giving its ~~advice~~ assent to the scheme being considered as a "Part II Scheme" for the budget of 1925-26, has now raised two ~~main~~ issues, one whether the ~~undertaking~~ undertaking given in 1913 need be adhered to and whether the finances of the municipal council are such as will not enable it to shoulder the task of finding at least one-half of the ^{present} estimated cost of the buildings, ~~according to present calculations~~. As regards the first issue, it is respectfully submitted that it seems rather awkward to think of going back on the promise of 1913. The Finance Department itself was ready so late as September 1921 to approve an approximate estimate of Rs 1.75 lakhs and find the whole of that amount from Provincial funds - Vide its note at p. ¹⁷ ante. Attention is also solicited to the answer to an interpellation at the meeting of Leg. Council held in August 1921 in which the Govt. were asked if they intended to take steps to retrieve their promise in connection with the Salem College. The Govt. answered on that occasion that revised plans and estimates for the college building were under ^{preparation} preparation. It does not appear that circumstances have so completely altered since 1921 as to necessitate a reconsideration of the situation. The statement in the Finance Dept. note that the recent policy is to restrict the Govt. liability in respect of educational buildings to half the estimated cost has greater reference to aided schools than to those managed by local bodies. In any case to invoke it in the case of the Salem college which has been kept in expectation of a building at Govt. cost all these years seems inappropriate. ^{The original decision was arrived at in view of the fact that the College was formerly a Govt. institution, & it was only after the transfer of the College to the Municipal Council that the question of the further consideration of the question should be made to hinge on the second issue raised by Finance viz., the ability of the Salem Municipal Council to find one-half of the cost of the scheme, L.S.G. may be requested to examine the financial position of the Council.}

Ans
25.7.24

The budget is framed on the assumption that 90 p.c. of taxes and 80 p.c. of other revenues will be realized while the past record of the Council in this respect has been very poor; it collected 55 p.c. of taxes & 77 of other revenues in 1921-22 and in 1922-23. The percentages were 56 & 75 resp. The normal surplus of the Council will not be as high as Rs 56,000 & may be taken as about Rs 20,000.

2. The cost of the building is estimated at Rs 2.44 lakhs. If the Council is asked to find Rs half of the cost, it will have to take a loan of the sum Rs 1.22 lakhs. The annuity for a loan of this sum

68 26
 repayable in 20 years with
 interest at 6% per annum
 amounts to Rs 10636. The
 Council can ~~with~~ meet this
 sum from the ~~sur~~ normal
 surplus. This is however subject
 to the condition that the Council
 collects it ~~for~~ a fair per-
 centage of its revenues.

30/7/24
 This Sept. may agree with the
 notes ~~extract~~ of Law (Edu) Dept
~~note~~ on p 4 ante & state that it
 will be inappropriate for Govt.
 to go back from the promise of a
 full grant already made to the
 cl. ~~Though it would seem that~~
 the cl. is able to take a loan
 for half the amount of the cost
 a full grant as already promised
 may be made.

Law (cont) Dept.

837c

The L.S.G. and Finance Dept. have agreed to the Govt. meeting only half of the cost of constructing new buildings for the Salem Municipal College, the Municipal Council being required to meet the other half. It is now for consideration whether the buildings should be constructed by Govt., the Municipal Council meeting half the cost or whether it may be left to the Municipal Council to construct the buildings receiving half the cost from Govt. as subsidy. ^{on the post-payment system} The Municipal Council has to be consulted on the point. L.S.G. Dept. may be requested to ascertain the views of the Council in the matter.

C.no. 33981 from the C.M.C. Salem
139cf. no. 214 sup/24 of 25.11.24

The M.C. has accepted the estimate of P.W.D. for a new college building & also the offer of half grant for the work. It requests that the grant may be given in parts as ^{as} after expenditure is incurred. This is.

730

the usual procedure under the postpayment system & may be agreed to.

700a
15/12/24

2 For meeting its share of the cost the cl. requests loan from the Govt. The loan to be advanced will be $\frac{1}{2}$ the cost of the building i.e. Rs. 1.22 lakhs. ~~plus~~ ^{ie.} ~~carriage charges~~ from the sub-committee's report it appears that the cl. wants 30 years to repay the loan. The annual instalment for repaying Rs. 1.22 lakhs in 30 yrs at $5\frac{3}{4}\%$ the current rate, ~~will be Rs.~~ works out to Rs. 8,627. The cl. itself states that it can easily find the annual instalments & from the financial position as examined in office it may be seen that it will be in a position to do so. ~~provision~~ Govt. may also agree to advance the loan by instalments as each year's requirements are known. Provision for loan has not been recommended for inclusion in the next year's budget but it may

12/12/24

The only doubtful point is the period of repayment of the loan. The Council asks for 30 years while the usual period is 20 years. The Council's finances will allow of repayment in 20 years. The ~~period~~ ^{currency} of loan may be fixed at 20 years.

Food 15-11-24
16.12.24

The municipal council agrees to meet one-half of the cost of the work. The Government will have to pay a subsidy equivalent to the other half, namely, Rs. 1.22 lakhs. It is too late to make a provision for the work in the next year's budget. We have also no idea as to what amount the Government will be called upon to pay next year against the stipulated subsidy. It will depend on when the council takes up the execution of the work and also on the rapidity with which the work progresses. We may consider the question on receipt of further reports from the council after the work is started.

Draft below may go to Finance and L. S. G. for acceptance.
