The case was discussed with the H.M. C.3.

It is understood that the Syndicate may be given a grant for the year as they ask for, by reappropriation and that Government may consider the question of future recurring grant under T.A. later on.

It is understood that the amount granted before the Act came into <sup>force</sup> is not adequate for the new bodies and a larger grant under this head is necessary what proportion or amount may be examined by the Secretariat. In the meanwhile, for necessary action under the first head the case may be proceeded with. urgent.

A.P.P.

A draft Memo to the D.P.I. asking if any reappropriation is possible is submitted for approval. It may be sent to Finance u.o. for perusal.

As the University is a self-governing body and whose minimum requirements the Government have agreed to provide, if they are legitimate, the proposal need not be placed before the Finance Committee unless the D.P.I. is unable to suggest an appropriation and a supplementary demand has to be moved.

My recollection of the discussion is not exactly the same as that of my Hon. Colleague.

I was prepared to agree to a special grant for the current year ( & I have no objection to making <sup>it</sup> Rs 20,000) if the money can be found by reappropriation.

I was not prepared to agree to a supplementary demand.

The understanding with regard to the future was that the University should be asked to make other arrangements for payment out of its own funds.

Orders regarding the payment of the grant to the University should be issued not later than the 25th instant. The Director has not yet submitted the reappropriation statement called for in Memo No. 3482 C/24 dated 17-3-25; but, from the list of surrenders which he sent recently, it is observed that there are large savings in the Education budget, from which the expenditure in the present case can be met. The Finance Department has already been requested to note the demand. As it may be too late for the issue of orders when the reappropriation statement is received from the Director, it is submitted that orders sanctioning the grant may be issued at once, a paragraph being added to the effect that orders sanctioning reappropriation of funds will be issued separately. A draft order is submitted.

It may be sent to Finance u.o. for acceptance.

[Issued as memo No. 421 of 24.3.25]

Additional grant to the University of Madras to enable that body to meet the travelling expenses of the members of the University authorities.

Under the new University Act the number of members on the Senate has been greatly increased and in place of the Senate and the Syndicate which were working under the old Act, we have the following bodies:-

- An enlarged Senate
- The Syndicate
- An Academic Council, and
- A Council of affiliated colleges.

Before the Madras University Act, 1923 came into force, the University had been in receipt of a

grant of Rs 20,000 from Government to meet the travelling expenses of Senate members and of University Commissions. This amount has proved totally inadequate under the altered conditions brought about by the Act. The University has on several occasions applied to the Government for an enhancement of the grant for travelling allowances. In July 1924 a calculation of the amount that would be required for expenditure on ~~the~~ of members was made and it was estimated that, in the first two years, the expenditure would come to Rs 40,000 a year and that, in subsequent years, it would amount to Rs 35,500. The amount of grant that should be given to the University in addition to the usual grant of Rs 20,000 would therefore be Rs 20,000 a year in 1924-25 and 1925-26 and Rs 15,500 a year from 1926-27 onwards. In the current year the Government have ordered the payment of an additional grant of Rs 20,000 and have reserved orders on the question of continuing the extra aid. The budget for 1925-26 does not provide for the additional grant. A sum of Rs 20,000 may therefore be provided for the purpose. In future years the amount may be reduced to Rs 16,000. Now that additional funds have become available, it may be possible to provide this amount. The file may be sent to Finance U.O.

The proposal was fully considered by Govt on three occasions but negatived. A special additional grant of Rs. 30,000 was however, sanctioned for 1924-25. In agreement to this Mr. 2. has remarked that the understanding came to, with Mr. 2. was that for the future the University should be asked to make other arrangements for payment out of its own funds. Perusal is also requested of Mr. 2's note dated 7.11.1924 on p. 12 of G.O. 1760 Law (Con.) dated 14.11.24. The intention, at the time of the consideration of the Madras University Bill by the Select Committee was that no T.A. was to be paid to the members. In the circumstances, Finance may advise against the proposal.

7.11.25

Law (Chd) seems to be of the opinion that the only issue is whether funds are now available owing to the revision of the contribution. That is not so; though the discussions for the past have been made against the waste of money on T.A., these protests have not lost their force. The position as far as Finance Dept is concerned is stated in C.2's note dated 16.3.25.

NOTE FOR THE FINANCE COMMITTEE

Subject:-Additional grant to the University towards the travelling expenses of the members of the new -- University authorities.

Proposals of the University of Madras

Before the passing of the Madras University Act, 1923, the Government were giving the University a sum of Rs.20,000 towards the travelling expenses of Fellows and <sup>m</sup>Members of the Boards of Studies and the expenses involved in the inspection of affiliated colleges. This sum is now merged in the obligatory contribution of Rs.85,500 a year due to the University from the Government under section 44(2)(a) of the Act.

Under the Indian Universities Act, 1904, there were only two bodies, the Senate and the Syndicate and the total number of members was 112. Under the Act of 1923, there are four authorities, the Senate, the Academic Council, the Council of Affiliated Colleges and the Syndicate. The total number of members is about 410 or nearly four times <sup>the number</sup> ~~as much as~~ <sup>though some of the members may be members of more than one authority</sup> under the old Act. The Boards of Studies ~~will~~ continue to function as before. There are also <sup>besides</sup> Faculties in various branches of learning. Though the University has reduced considerably the rates of travelling allowance, the Government contribution of Rs.20,000 has proved totally inadequate to meet the expenditure connected with the travelling expenses of the members

of these enlarged bodies. An additional grant is, therefore, required.

As the University Act is a creation of the Government, it is the duty of Government to provide the funds necessary for the meetings of the authorities. If sufficient funds are not provided, the mufassal colleges will be placed at a serious disadvantage, as it will not be possible for their representatives to attend meetings of University authorities unless travelling allowances are given.

Note by the Law (Education) Department

In December 1924, the Vice-Chancellor represented to the Government that the sum of Rs.20,000 placed at the disposal of the University was insufficient to meet the travelling expenses of members of the University authorities and requested that an additional grant of Rs.20,000 might be sanctioned. The Government sanctioned a special grant of Rs.20,000 for the year 1924-25 and reserved for further consideration the question of the additional grant to be given in future years.

It has now been ascertained from the University that the cost in 1925-26 on account of travelling allowances to members of the University authorities and inspection of colleges is estimated at Rs.53,500. In future years the cost is estimated at Rs.49,000. Deducting the usual grant of Rs.20,000, the additional amount required is Rs.33,500 in 1925-26 and Rs.29,000 in future years. Of this it is proposed to meet two-thirds from provincial funds. The grant payable to the University is Rs.22,333 in the current year, and Rs.19,333 in future years.

Under the Indian Universities Act, 1904, there were only two University bodies, namely, the Senate and the Syndicate; the total number of members was 112. Under the Madras University Act, 1923, there are four authorities, viz., the Senate, the Academic Council, the Council of Affiliated Colleges and the Syndicate. The total number of members is about 410. The Boards of Studies continue to function as before. It has been represented that the annual Government grant of Rs. 20,000 which the Madras University has been receiving for the payment of travelling expenses to members of the University authorities is inadequate. It is estimated that the amount required for the payment of travelling allowance will be about Rs. 49,000 a year. Deducting the usual grant of Rs. 20,000, the additional amount required by the University is Rs. 29,000. It is proposed to meet two-thirds of this from Provincial funds.

(b) The financial resources of the University Library are insufficient for its proper maintenance and development. At its meeting held on the 5th December 1924, the Legislative Council voted a supplementary grant of Rs. 20,000 (Rs. 10,000 recurring and Rs. 10,000 non-recurring) for payment to the University to be expended on the Library.

The University Library Committee has urged that the non-recurring grant is inadequate. A further sum of Rs. 29,000 is required for the purchase of earlier volumes of periodicals and rare works. Works costing about Rs. 13,000 are said to be immediately available. As there is the risk of the earlier volumes of periodicals, etc., not being available if they are not purchased now, it is proposed to sanction a non-recurring grant of Rs. 13,000 in the current year.

2. Appointment of a District Educational Officer in the Madras Educational Service consequent on the bifurcation of the Kistna district, Rs. 4,500.—The Revenue district of Kistna has been split up recently into two administrative units. The district is found to be too heavy for a single District Educational Officer. It is therefore proposed to split it into two districts for educational purposes as well and to employ, with effect from the 1st September 1925, an additional District Educational Officer in the Madras Educational Service (pay Rs. 250-25-500-50-800) with the necessary establishment. The sum of Rs. 4,500 represents the charges on account of the pay of the officer and the establishment for six months and the provision for contingencies and travelling allowance.

3. The employment of a Personal Assistant to the Principal of the Law College, Madras, Rs. 2,400.—The Committee that reported recently on the reorganization of the Law College, Madras, emphasised the importance of Library work among students. The Government agreed with the Committee. With a view to making instruction during Library hours more effective and real, the Principal proposes to arrange for definite and regular Library classes and to increase the facilities for the

issue and lending of books. These changes are expected to entail additional work on the library staff of the College. To cope with the increased work in the library it is proposed to appoint with effect from the 1st September 1925 a part-time librarian who will also act as Personal Assistant to the Principal. The sum of Rs. 2,400 represents the officer's pay for six months at Rs. 400 a month.

4. *Grant to village panchayats for the maintenance of libraries, Rs. 8,000.*—It has been recognized that village libraries constitute a useful agency for the dissemination of mass education and for keeping literacy alive in villages. It is proposed to distribute a grant of Rs. 8,000 among selected village panchayats to enable them to organize libraries in their respective areas. Two of the conditions on which the grant will be based are—

(i) that the panchayat should provide the building, the furniture, and the staff required for the library and contribute from its own funds or from subscriptions a sum not less than the amount of the Government grant ; and

(ii) that the library should be open to all classes of the population.
