4. It is observed that the entire amount of the councils contribution from the municipal revenues for 1925-26 is proposed to be utilised for 'capital' expenditure. Provision has been made in the scheme for the introduction of compulsory Elementary Education for raising a loan for capital expenditure, but in view of the fact that there is still a large balance of Rs.9341 to the credit of the council under ordinary receipts, even after appropriating the entire contribution towards capital expenditure, the provision made under 'capital' so far as it relates to buildings, may be approved as a special case.

5. The remarks of the District Educational Council together with a copy of the Deputy Inspectors Endorsement may be forwarded and commended to the consideration of the Municipal Council.

6. It is observed that on the debit side under 'capital' provision has been made for Rs.3040/- towards furniture and tools and other implements for teaching industries in schools. The council may be advised to obtain the previous permission of the District Educational Council in regard to the introduction of these subjects in the Municipal Elementary Schools.

following note of the President.

" (i) Separate drill master is quite unnecessary.

(ii) Taking over the trader's indigenous elementary school

latter school increases in strength and staff.

(iii) Increase of Rs.10/- may be paid to existing night
schools also; the municipality having introduced compulsory
education, should see that night schools are intended only
for adults, if necessity is found."

R.O. No. 166 E of 1925

Dated 4th May 1925.

Resubmitted.

2. A budget estimate of Elementary education of the Erode Municipality was prepared in this office and forwarded to the Chairman, Municipal Council on 30-12-24. A copy of the same is herewith submitted. This estimate was prepared on the basis of the actual expenditure incurred by the Municipality during the first 8 months of the year 1924-25.

3. Attention is invited to the following points in the budget estimate prepared by the Chairman, Municipal Council and forwarded to me by you for remarks. The budget includes the amount intended to be spent on girls' schools also. My remarks will be confined only to items relating to boys' schools.

(a) A provision of Rs 200 is made towards payment of stipends of Teachers sent for training. In his letter G.O. No. 246/25, dated 28-3-25, the Chairman Municipal Council has written by way of reply to my query that no amount has been provided for payment of stipends. Perhaps, this amount is meant for women teachers going up for training.

(b) Provision is made in the budget for the appointment of a combined drawing and drill teacher on a salary of Rs 25-1-30 with a cycle allowance of Rs 5. There is no need for a separate drawing and drill instructor for Elementary schools. On a former occasion when a similar proposal emanated from the Chairman, Municipal Council, Erode, at the time of introduction of compulsory education in the Municipality, the Director of Public Instruction has, in para 5 of his R.O.C. No. 1320 B 722, dated 9.9.22, observed as follows:- "The Council has provided a sum of Rs 720 for 2 combined drill and drawing masters. Since all trained teachers are competent to teach drill and drawing, the provision may be deleted." Circumstances have not in any way altered since then to justify the appointment of the combined drill and drawing master.

(c) There is a proposal to take over by the Municipality, a boys' school now under private management. This school, I understand, is the Indigenous Traders' school in Cutcherry street. There is no need for opening a new school here, as this school could be amalgamated with the newly opened Municipal school in South

Gk... within a furlong, the school proposed to be taken over by the Municipality. There is another objection to this school being taken over and run by the Municipality as a Municipal school in its present locality. L. No. Central Primary school, (No. 871 in the list) which is a school of long standing, is only about a stone's throw from here. This new school if taken over by the Municipality, will adversely affect the strength of the Mission school. This is likely to lead to unhealthy rivalry and is therefore not desirable. The staff of the Municipal school in South Gkkilizar street could be strengthened and accommodation ~~can~~ found for all the children in this indigenous school, should it be decided to take it over.

(d) Three new night schools are proposed to be opened. It is not possible to pronounce an opinion on their need or utility, as it is not known where the schools are to be located. Provision is made for 3 teachers each of whom is to be paid Rs 10 p.m. But it may be pointed out that in the two existing Municipal Night schools, the Teachers are paid only Rs 7-8-0 p.m. To secure uniform

to avoid heart
the pay for all of them may either be raised
to Rs 10 p.m. or reduced to Rs 7-8-0 p.m.
