R. C. No. 826-A/25.

Station Madras , Dated the 3rd August, 1925.

From (Name) R. G. GRIEVE, Esq., M.A., F.R.G.S.,
(Designation) Ag: Director of Public Instruction.

To The Secretary to the Government of Madras,

LAW (EDUCATION) Department.

Sir.

I have the honour to address Government regarding
the entertainment of a combined Demonstrator in Physics and
Chemistry and a Gasman in the Government College, Coimbatore,
with effect from 1-9-25.

2. In 1924 in addition to the existing groups, viz.,
I & III of the Intermediate course, Group II was opened in
the College as also optional Physics and Chemistry in Form V
with in the High School department. Enclosure A gives the
present number of students taking Physics, Chemistry and
Natural Science in the Junior and Senior Intermediate classes.
The work of the College Lecturers in Physics, Chemistry and
Natural Science

(P.T.O.)

Natural Science is reported to be as follows:-

Chemistry Lecturer.-

Senior Intermediate Class.- 3 periods lectures and 6 periods practical work for each of two batches of students, each batch containing 23 students.

Junior -do- - 3 periods 4 Lectures and 6 Periods Practical work for each of two batches, each containing 30 students.

Total. 18 periods of work with correction of 212 note books (each student sends in 2 note books per week).

Physics Lecturer.- has similarly 18 periods of work with the correction of the same number of note books, viz., 212

Natural Science Lecturer.-

Senior Intermediate Class.- 3 periods Lectures and 2 periods Practical ~~work~~ work for a class, 11 strong.

Junior -do- - 3 periods Lectures and 2 Periods Practical work for a class 15 strong.

Total College work 10 periods and correction of 52 note books. The lecturer is given also 10 periods of work in the High School.

As the practical work of 23 students at a time in the Senior Intermediate class and of 30 students at a time in the Junior Intermediate Class requires more supervision than can at present be given, a Demonstrator in Physics and Chemistry is really needed. In addition to supervision work, the correction of note books of the Physics and Chemistry Lecturers is reported to be exceedingly heavy. Besides, they have considerable work to do in the Laboratories. All the apparatus has to be constantly seen to, chemicals &c., issued, the gas has to be prepared and the electric equipment has to be kept in order. The regular indents have to be prepared, invoices checked and articles entered and other miscellaneous items of work have to be ^{attended} altered to, if the Laboratory work is to be conducted efficiently.

3. I recommend therefore the appointment of a combined Demonstrator in Physics and Chemistry on Rs.65/- per mensem with effect from 1-9-1925.

The present

4. The present menial Laboratory staff of the College consists of three attenders on Rs.20- $\frac{1}{2}$ -25 for the Physics, Chemistry and Natural Science sections and a Mechanic on Rs.40-2-60. Besides the College students, the High School pupils also work in the Laboratories, as in the Coimbatore College there are not separate Laboratories for the College and High School. Enclosure B gives the number of High School pupils working in the Laboratories. The gas required for the Laboratories is reported to be prepared at present with the help of outside coolies, which does not appear to be an ideal arrangement. One attender for each Laboratory is reported to be insufficient. I request therefore that sanction may be accorded to ^{the appointment} appoint of a gas man on Rs.15 per mensem with effect from 1-9-25.

5. If the proposals are sanctioned by Government, the additional expenditure to be incurred works out as follows:-

During 1925-26.
(for 6 months from 1-9-25)

For a full year.

Demonstrator	..	Rs.65/-	Rs.65/-
Gas man	..	15/-	15/-
		<u>Rs. 80/-</u>	<u>Rs. 80/-</u>
		6	12
		-----	-----
Total ...	Rs.	480/-	Total.. Rs.960/-
		-----	-----

The extra charge during the current year can be met from anticipated savings under "31.A(b)-Education-University-Government Arts Colleges-Pay of Establishment-Voted" in the Civil Budget Estimate for 1925-26.

I have the honour to be,
Sir,
Your most obedient servant,

W. C. ...
for Director of Public Instruction.

C.No 2366/c

From the Director of Public Instruction, R.C.
No. 826 -A/25 dated 3rd August 1925.

Subject : Employment of a demonstrator and a
gasman in the Government College,
Chombatore.

The Director of Public Instruction proposes
that a demonstrator on Rs 65 a month and a gasman
on Rs 15 a month should be employed in the Govt.
College, Chombatore, with effect from 1st September
1925.

2. Demonstrator Convincing reasons have been
adduced in support of this proposal. The posts
of demonstrators in Govt. Colleges are on a tempo-
rary footing and once their sanction is accorded
by the Govt., the D.P.I. is competent to keep them
on from year to year without reference to the Govt.
According to the procedure followed in G.O. No.
1605 Law (Edn) dated 18th October 1924, wherein which
sanction was accorded to the employment of a demons-
trator in the Ceded Districts College, Anantapur,
the Govt. may at once sanction the employment of
a demonstrator in the Chombatore College also. It
is unnecessary to place this proposal before the
Finance Committee.

3. Gasman The menial staff in the laboratory
of the Chombatore College consists of three attend-
ers, one for each of the Physics, Chemistry and
Natural Science sections. In view of the fact that
this college has no separate laboratories for the
college and high school departments and in view
of the statement that as many as 218 students of

p. 2, c. f

q. also noted at pp 2 & 3
of G.O. 519 Ed. (H)
8.4.25

(The proposal relating to
the employment of a demonstrator in the Ceded
Districts College was not refer-
red to the Finance Committee)

p. 4, c. f

the high school department have to work in the laboratories ^{the need for a gasman} ~~as there is no separate~~ for the preparation of the gas required. ^{may be covered} The employment of a gasman on Rs ^{15 with effect from 1-9-25} ~~50~~ may also be sanctioned. As the expenditure involved is comparatively small it is ^{perhaps} unnecessary to refer the proposal to the Finance Committee.

4. The extra expenditure involved in the current year is proposed to be met out of the allotment in the current year's budget. A draft order is submitted. It may be sent to the Finance Department for acceptance.

16.8.25 *17.8.25* *18.8.25*
Fin 11.0
Finance (S.T.)

The proposal is to employ with effect from 1-9-1925, a combined demonstrator in

Physics and chemistry on Rs 65 per mensem and a gas man on Rs 15 per mensem in the Government College, Coimbatore.

It involves an ultimate extra cost of Rs 960 $(65+15) \times 12 = 960$ per annum. The extra expenditure of Rs 480 $(65+15) \times 6 = 480$

in the current year is proposed to be met

from the allotment in the current year's

budget.

para 5, p3 cf

Budget.

2. Demonstrator. The necessity for the employment of this officer has been explained in para 2 of the D.P.I.'s letter on pages 1-2 C.F. ~~submitted~~ that Finance may agree to the employment of a temporary demonstrator on Rs. 65 per mensem, which is the pay usually allowed for demonstrators, till the end of the College year.

3. Gasman. It is reported that besides the College students, the High School pupils also work in the laboratories and that the gas required at present is being prepared with the help of outside coolies. From G.O., No. 579, Law (Edn), dated 12-5-22 it is seen that the pay of gasmen in College ranges from Rs. 13-8-0 to Rs. 15-8-0, and that they are paid from contingencies. The proposal to employ a gasman on Rs. 15 is accepted subject to the understanding that the post is ~~non~~-pensionable and the pay is debited to contingencies.

3/9/25

The draft order is revised with reference to "A" and "B" above for approval.

At "A" above Finance suggests that the employment of the Demonstrator may be till the end of the College year. The D. P. I. wants him without any limit of time. The reasons advanced by the Director would seem to justify the appointment being continued in the coming year also. It was
