Law, Educational Department,

Stone House Hill, Ooty.

Thro'

The Director of Public Instruction,

M A D R A S.

and

The Principal, Ceded District College,

Anantapur.

Sir,

As I understand that several M.E.S. vacancies are likely to occur now owing to the Provincialisation of subordinate posts, I request that my name may be considered when filling up those posts preferably those in the Presidency College, Madras, so that I may be able to resume my Research work.

I am an honours Graduate in Chemistry with a brilliant College course and won the Jagirdar of Arni Gold Medal of the University. I took First class in the Intermediate and a high second class in the degree Examination. I specialised in Electro-Chemistry and possess a good knowledge of Physical Chemistry.

I worked as research student of the Madras University for 2 years, on Colloidal Chemistry. I studied on several occasions various research problems in Oil Technology, Bio-Chemistry and Bacteriology under Dr. G. J. Fowler D.Sc., F.I.C. and Dr. H.E. Watson D.Sc., F.I.C. of the Bangalore Institute. I

read a paper on "Liesegang Rings" in the Indian Science Congress and it is published by the Asiatic Society, Bengal.

I possess three years of teaching experience giving complete satisfaction to the Principals concerned

I am at present employed as Asst. Lecturer in Chemistry, Ceded District College, Anantapur on Rs.165/ per mensem.

I am a Hindu, Non-Brahmin, Mudaliar belonging to a respectable family of a Backward Community, born 1st October 1897.

I may add that I applied on 5-12-1921 for a post in the M.E.S. which I hope has been very favourably received by the members of the Selection Committee and upon which, I believe, the Government have been pleased to pass generous orders.

I enclose copies of the testimonials given to me.

Hoping this application will receive the best sympathetic and generous consideration of Government,

I beg to remain,

Sir,

Your most obedient servant,

L. Namachivayam

COPIES OF TESTIMONIALS.

I have pleasure in stating that Mr. D. Namasivayam, M. A., spent about a month here during the summer vacation of 1922 studying particularly the methods of examination of water and sewage, both chemical and bacteriological. This work enabled him to get a good idea of the methods employed in a bio-chemical laboratory.

This summer he has again come to work here and is making a careful study of the bio-chemical changes taking place during malting of grain.

I can fully confirm what is stated in the other testimonials submitted by Mr. Namasivayam, that he is an exceptionally intelligent student, who is thorough and painstaking in his work and of pleasant and courteous address.

INDIAN INSTITUTE OF SCIENCE, } (Sd.) GILBERT J. FOWLER, D.Sc., F.I.C.,
BANGALORE, 30-5-1923. } *Professor of Biochemistry.*

Mr. D. Namasivayam, B. A., (Hons., Chemistry) has been working under me on various research problems in Colloidal Chemistry, chiefly Adsorption, for a year from July 1921 and again, after a short break due to illness, from November 1922 up to now when Mr. Namasivayam is leaving to take up a Lecturer's post in Government Service at Anantapur. During this time Mr. Namasivayam has been enjoying a Madras University Studentship of Rs. 100 p. m.

Mr. Namasivayam has fully justified the award of his studentship. He is well equipped on the theoretical side, with a good knowledge of Mathematics and Electro-Chemistry; and he is a resourceful experimenter. I can confidently recommend him for any post involving research in Physical Chemistry.

PRESIDENCY COLLEGE, MADRAS, } (Sd.) W. ERLAM SMITH, M. A., (Oxon.)
30-8-1923. } *Professor of Chemistry.*

Mr. D. Namasivayya read Chemistry under me at the Presidency College, Madras, for the four years 1916-20. He took his honors degree in 1920 gaining a good second.

He read Mathematics supplementarily in which he showed unusual promise, and took Physical (Electro) Chemistry as his special subject.

His work was characterised by extreme thoroughness and intelligence. His theory was sound and extensive; and his practical work, careful, accurate, neat, and thoroughly and intelligently understood.

He has a very sound and thorough knowledge of his subject and is well fitted and equipped to continue in the work in any capacity.

He is a gentlemanly, quiet and well-behaved youth; and I wish him every success.

12, WILLOUGHBY ROAD,
HAMPSTEAD, LONDON, N. W. 3, }

Professor of Chemistry,
Presidency College, Madras.

5

Mr. D. Namasivayam has been Lecturer in Chemistry in this College for the past six months and will remain until the end of the academic year. His work has been in every way satisfactory. He is a keen and earnest teacher and the discipline in his classes is good. Already there are signs of improvement in the classes of which he has charge.

Much as I should like to retain his services I feel that his qualifications demand a wider scope than that offered by this institution.

WESLEY COLLEGE, MADRAS, }
3-1-1921.

(Sd.) [Rev.] J. E. NEILL,
Principal.

Mr. D. Namasivayam has been working in this College as Lecturer in Chemistry since last September. He struck me with his great ability for efficiently organising the laboratory and with his resourcefulness. He kept good discipline in his classes, and his teaching was efficient. He has a love for his subject and a desire to advance it. His character and conduct were excellent.

CEDED DISTRICTS COLLEGE, }
ANANTAPUR, 24-4-1924. }

(Sd.) A. ARULANANTHAM,
Principal.

Mr. D. Namasivayam was a student of this College for nearly five years. He passed the Intermediate Examination in 1916, getting a first class and distinction in Mathematics and Chemistry. He then joined the Honours Class in Chemistry and passed in the B. A. Hon's Examination of 1920, getting a second class and winning the Arni Gold Medal which is awarded for distinguished merit in Chemistry. Thus he had a fairly good career as a student.

Mr. Namasivayam has impressed me as a very industrious, capable young man. I feel sure that he will put any opportunity to advance his knowledge to good account. He showed a keen appreciation of the fundamentals and the intricacies of the subject of his study and mostly in the field of Physical Chemistry. I wish him every success.

PRESIDENCY COLLEGE, }
MADRAS, 27-12-1920. }

(Sd.) M. DAMODARA KINI, M.A., L.T.,
Ag. Addl. Professor of Chemistry.

Mr. D. Namasivayam was a student of the Intermediate Classes between 1914 and 1916, and attended my lectures and classes in English.

He impressed me as a very intelligent and painstaking student, and his class work in English was much the average.

He took a First Class in the Intermediate Examination in Arts in 1916 and an Honours Degree in Chemistry in 1920.

He is a young man of excellent character and I feel sure that he has a very bright future before him.

Station M a d r a s, Dated the 13th June 1925 192From (Name) R.G. Grieve Esquire, M.A.,(Designation) Ag. Director of Public Instruction.

To The Secretary to the Government of Madras,

LAW (EDUCATION)

Department.

SirSubmitted to Government, Law (Education) Department,
with the following remarks :-

In January 1921 the petitioner applied for a post in the higher services of the educational department but he was informed that Government were unable to entertain his application for direct appointment to the higher branches of the Educational Service -- vide G.O. No. 25, Home (Education), dated 4th February 1921. Again in December 1921 he applied for a post in the Madras Educational Service and the Government requested the Director to propose the petitioner's name for appointment to the Subordinate Educational Service on a higher initial pay. He was accordingly

N

vide D.O. on
1.12.21 of G.O. 1180
2.1.8.23

M

7
appointed as officiating Assistant Lecturer in the Ceded Districts College, Anantapur, on a pay of Rs. 160/- per mensem -- vide G.O. No. 1180, Law (Education), dated 21st August 1923.

(M)
The petitioner requests that his name may be considered for a post in the Madras Educational Service when filling up certain posts which are to be provincialised. The post of Assistant Lecturer in Chemistry in the Arts College, Rajahmundry, is proposed to be converted into M.E.S. There are already certain senior officers in the department and they should be given preference. The petitioner further requests that he may be given a post in the Madras Educational Service preferably in the Presidency College so that he may resume Research Work. There is no M.E.S. post in the Presidency College for Chemistry nor is there provision for one in the Director's proposals for the conversion of certain Subordinate Educational Service posts into Madras Educational Service.

It is recommended that the petition of M.R.Ry. D. Namasivayam may be recorded.

A Rama Ray

for Director of Public Instruction.

7/15
17/6/25

Law (Education) Department

(C.No.2140-A) From the D.P.I.No.999-C dated the 13th June 1925.

Subject:-Application of M.R.Ry.D.Namasivayam for promotion to the M.E.S.

M.R.Ry.D.Namasivayam, Assistant Lecturer, Ceded Districts College, Anantapur, requests that he may be promoted to the M.E.S. when certain posts are transferred from the S.E.S. to M.E.S. M.R.Ry. Namasivayam was, as a special case, started on an initial pay of Rs. 160 per mensem in the S.E.S. (collegiate branch)

2. The post of Assistant Lecturer in Chemistry in the Arts College, Rajahmundry, is one of the posts to be transferred to the M.E.S. The D.P.I. states that there are senior officers in the department who should be given preference for promotion to the M.E.S. The D.P.I. recommends that the petition of M.R.Ry.D.Namasivayam may be recorded.

3. Attention is solicited to the Hon. the Minister's note on pp.11,14 & 15 of notes to G.O. No.1180 dated 21st August 1923. For orders whether the Director's recommendation may be accepted.

7/15
17/6/25
The whole file relating to Cumesani of the S.E.S. posts to M.E.S. will lie in the current file even after the D.P.I. has been issued. These are selection appointments, the selected out of the list are not regulated by mere seniority.
