Department.

Sir,

I have the honour to state that the Correspondent, St. Francis Xavier's High School, Palamcottah, reports that classes in tailoring and book-binding have been working in the school for the past nearly 10 months and that 41 pupils of Form III and 44 pupils of Form II are receiving instruction in these subjects in 4 batches, each batch receiving 2 periods of instruction per week.

2. It is further reported that in tailoring 2 boys are receiving instruction for 5 hours daily.

C.No. 2194 B. From the Director of Public Instruction, R.C.No. E/25, dated 18-8-25.

Subject : - Grant for manual training classes in tailoring and book-binding in the St. Francis Xavier's High School, Palamcottah.

A.S.

The D.P.I. reports that manual training classes in tailoring and bookbinding have been working in the St Francis Xavier's High School for ten months. In all 85 pupils of Forms II and III are receiving instruction in the classes.

2. The Adviser to Government on Manual Training estimates the recurring and non-recurring charges of these two classes at Rs. 860 and Rs. 580 respectively, while the correspondent's estimates of the charges are Rs. 1,080 and Rs. 300 respectively. The Director recommends that Mr. Porrett's estimate may be accepted though somewhat higher than the correspondent's and that the half grant of Rs. 720 may be sanctioned for the scheme for during the current year. The D.P.I. suggests that the expenditure can be met from the savings in the Budget. The scheme is a new one and was not considered in connection with the budget for 1925-26. There is no specific provision for it. The remarks of Finance may be invited on D.P.I.'s proposals in the first instance.

Finance (Exp).

This is a scheme not contemplated in the current year's budget. It involves a recurring expenditure. The fact that there is a saving in the budget provision is not sufficient justification for introducing this scheme in the current year. The Law (Edn) Dept. may be requested to include this in the list of new schemes of manual training to be brought forward as part II schemes for 1926-27.

This matter upon Government would have been occasioned by the scrutiny of the scheme of the Advisor to Govt on Manual Training. The management as it is, suffers from the delay in being denied the help cost for running the scheme during the period which falls earlier than April 1925. If this the scheme is to be considered as a part II scheme for 1926-27, ^{as advised by Finance,} the school authorities will have to bear the cost during 1925-26 as well. It would obviously be inadvisable to discourage school authorities thus from giving manual training to their pupils. Besides as some of the schemes had to be dropped on account of the inability of the applicants to meet their half share of the cost there are some savings in the budget as D.P.O. suggests ^{that} they may be inclined to finance such schemes. This view appears reasonable particularly in this case for the reasons already stated. Finance department may be requested to reconsider their decision and to admit the scheme for aid during the current year itself.

If the school authorities were
really in need of Govt. aid they
should have obtained the previous
sanction of Govt. It should ^{not} have
been anticipated. There is no question
of discouraging the management.
This is a scheme of new expenditure not
contemplated in the current year's
budget & the expenditure ~~should not be~~
met by the exercise of the powers of
reappropriation from the savings in
the provision for other schemes. Submitted
that Finance should insist that such
schemes like this should be

With reference to the Finance department note above
it is submitted that in connection with ^(the discussion on) the giving of
aid under the Grant-in-Aid Code, to secondary schools
and colleges, The question is whether the D.P.I.
should be prohibited from admitting to aid new schools
and colleges or new classes in existing schools and
colleges before the funds required for paying the
grants were provided in the budget and voted in the
council was raised by the Finance and fully considered

D.P.I. It was then decided, and the decision was
accepted by the Finance department, that such a system
was unsuitable. It was pointed out then that the
proposed system would discourage private effort and
the private body would have to wait for about two
years before the funds required were provided in the
budget and the allotment voted by the Legislative Coun-
cil. It was also decided in that connection that
it would be sufficient to give to the Finance Committee
information as to additional provision required for
the new schemes of expansion as Part II Schemes for
the Budget with an explanation of the reasons for
increases proposed. No accurate details ~~are~~ of spe-
cific schemes ~~was also not~~ to be furnished. But only
a general account of the developments in view with
an approximate estimate of the expenditure involved.

On the same analogy it appears unnecessary to
place each scheme for the introduction of manual
training in schools before the Finance Committee as
a Part II scheme ~~for the following year~~ as suggested
by the Finance department. It is also submitted that
all the new manual training ^{schemes} ~~schools~~ for 1925-26 were
dealt with together in this department last year in
one consolidated note for the Finance Committee and
only an approximate cost of each scheme was given
in the Appendix to the general note. They were not
placed before the Finance Committee individually. It
is submitted therefore that consistent with this
practice and with the policy now adopted in case of
grants under the Grant in aid code, it is unnecessary
to ~~hold over~~ ^{deal with} this scheme ~~as~~ as a Part II scheme for
1926-27. For consideration ~~on~~ its merits by the
Committee. In view of the delay and the discouragement
to the management of the school ^(and the fact that a scheme will not be placed before the Finance Committee) the aid may be grant-
ed ~~at~~ at once to it, and the fact noticed in the
joint note for the Finance Committee on manual train-
ing schemes for 1926-27. For orders. Finance Dept

2. Para 1. of Law (Edn) note on
pp. 4-5 ante - The decision referred
to did not authorise the sanctioning, in
the middle of a year, of a new Scheme
of manual training Committee work to
a recurring expenditure. It is true that
"no accurate details of specific Schemes"
need be furnished to the Finance Committee,
but in informing the Finance Committee
of the additional provision required for
new Schemes, details of such items
(viz. name of School, amount required
for recurring and non-recurring expenditure)
are furnished to them, so as to enable
them to recommend the provision to be
made for these Schemes. The reference
made by Law (Edn) to the procedure
to be adopted in regard to budget
provision for new Schemes does not seem

Law (Education) Department.

The Finance Department does not agree to a
grant being sanctioned in the present case from the
provision made in the current year's budget. In that
budget a sum of Rs 1.15 lakhs was provided for new

schemes of manual training to be introduced this year.

A list of sixty schemes which were pending at the time of the preparation of the budget was attached to the note

for the Finance Committee on this subject. Some of these schemes had not then been examined in detail. This has

now been done. As a result of such examination it has

been found that mostly owing to the inability of the manage-

ments to contribute their share of the cost of the

schemes, ~~13~~ 13 schemes have had to be dropped.

On the other hand, some other schemes have been received

from the Director in which the managements are prepared

to meet one-half of the cost of the schemes. This Dept.

has proposed that these schemes may be sanctioned in place

~~of~~ of those dropped. The Finance Department does not

agree to this. It is submitted that the Finance Com-

mittee and the Legislative Council have accepted a lia-

bility of Rs 1.15 lakhs (Rs 75,000 non-recurring, and Rs 40,000/-

recurring) under this head and, so long as this liability

is not exceeded it does not appear that any objection

can be taken to the proposal of this Department. Further,

each of the sixty schemes referred to in the annexure

to the note for the Finance Committee was not examined

by the Committee individually ~~in the~~ and as such,

it is immaterial from the point of view of the committee

whether a particular class is opened, say, at Russelkonda

or at Berhampur. In these circumstances the objection

raised by the Finance Department does not seem to be

valid. The file may be submitted to the Hon'ble the Minister

Finance is right in

so far that the scheme is a new

one and ~~old~~ was not in the

list approved before the budget.

But one important fact & he

reminded to that the sanction

in respect of certain ~~of~~

proposals and an allotment

was made thereunder. Therefore

if it is not possible to carry out

all the items, similar items may

be accepted by finance within

the sanctioned limit. In this

view of the question, proposals

which may be sanctioned by

finance may be allowed within

the allotment under the same

head.

There is another fact to be considered

& that in all the proposals made

the management is willing to pay

half the cost under the rules.

∴ the principle remains unaltered

Provided that this scheme
is definitely substituted for
a scheme or schemes ~~existing~~
The original list involving
an equivalent non-recurring
recurring expenditure I do not
object to the substitution.

But in that case there is
no standing sanction for the
schemes so dropped, & if
they are to be brought
forward next year it
must be as Part II schemes

If Law Dept. in its notes
has at first put its
proposals in this form
Finance Dept. & Secretary
would not have objected.
