To The Secretary to the Government of Madras,

LAW (EDUCATION) Department.

Sir.

(E) With reference to para 2 of G.O.No. 415 Mis., Law (Education) dated 18-3-24, I have the honour to state that the recommendations of the majority of our officers, District Educational Councils and District Secondary Education Boards have not yet been received in this office but that from the recommendations received so far, it is seen that there is no uniformity in regard to the principles which are recommended for adoption in the distribution of boarding grants. The following are some of the recommendations made:-

(P.T.O)

(1) recommendations that a "liberal grant" be made,
 (2) recommendations of flat rate, the amount of the flat rate varying in different districts and even for different classes of people in the same district, the rates proposed varying from Re.1/- per mensem per head to Rs.6/- per mensem per head.

3. some of the recommendations are made based on the net cost of the working of the institution and proposals have been received to the effect that the whole net cost, one-half net cost or one-fourth net cost be met from provincial funds.

In view of the diversity of the recommendations made of the limited budget grant and of the large number of Orphan destitutes for whom some grant will have to be made, I would advise that the total budget provision be divided among the various suitable institutions in which the eligible destitute orphans are reading pro-rata, according to the number of eligible destitute orphans reading in each.

As. In the circumstances explained by the D.P.J. (pages 7-8 CF), it is for consideration whether — in any case so far as the current year is concerned — the Govt. may accept the advice of the D.P.J. and direct the distribution of the budget provision for boarding grants among the several ~~institutions~~ ^(in lump sums) according as to the number of destitute orphans in each who are eligible for the grant. It will be seen from the Director's letter that he has not yet received the recommendations of the majority of the officers. ^(and there is little chance of framing any rules in time for the distribution of this year's provision) While directing the distribution of the current year's provision as ~~was~~ above, the D.P.J. may also be asked to consider ^{again} the question of framing definite rules to regulate the payment of the grant after the recommendations of all the officers are received, and to address the Govt. again on the subject.

For a second time it is proposed to distribute the grant on an arbitrary basis. Though the D.P.J. was asked, as far back as March 1924, to submit his recommendations for the framing of definite rules, he has not yet done so. It is for consideration whether the proposal of Law (Exp.) on p. 6 ante may be agreed to.

I do not understand the phrase 'the number of destitute orphans in each who are eligible for the grant'. It is not the orphan but the institution that is eligible for the grant, I presume, and last year the distribution was in lump sums and the Director was permitted to adopt a uniform rate per head on the condition that that rate should not be specified in the order sanctioning the grants. This year I would suggest that the same wording should be adopted.

2. When a scheme is drawn up I should doubt the necessity of giving grants to institutions which support very small numbers of orphans. If they cannot be put to any very great expense and orphans would appear to be only an incident of their activities, I would suggest for consideration the omission of any institutions in which there were less than 12 destitute orphans.

A

Paragraph 1 of H.M's note above.

Submitted that the grants in question are paid to orphanages towards the boarding charges of orphans and destitute children in them. ^{Under} the Code of Regulations for European schools, these grants are calculated at Rs 15 a month for each child in the city and at Rs 12 in the mufassal. As regards Indian orphanages no such rates have yet been laid down. Pending consideration of general principles on which the grant should be distributed, the Director recommends that the allotment for the current year be distributed pro rata among the several orphanages according to the number of children in each eligible for

the grant. It is proposed to approve this proposal in the draft order.

The provision made in the last year's budget (Rs 15,000) was distributed in lump sums among the orphanages for the following reasons:-

- (1) that the grant, if reckoned, per head would be very small; and
- (2) that it was intended to utilise the sum on non-recurring objects of expenditure.

It does not appear that this year also the amount should be utilized for non-recurring objects. The object with which the system of boarding grants was instituted was that the grant should be utilized for meeting the boarding charges of destitute children in orphanages. It seems therefore desirable to approve the Director's proposal to base the grant for each institution on the number of children eligible for it in the institution. This is only for the purpose of calculation. The grant itself will be disbursed in lump sums.

2. Paragraph 2 of H.M's note.

Please see pages 13-15 of G.O.No.556, dated 11-4-24, which gives the number of boarders in each orphanage. There are a few orphanages in which the number is less than 12. It is for orders whether institutions containing less than 12 destitute orphans should be omitted. There is no such restriction under the Code of Regulations for European schools. But there is no

objection to laying down the criterion suggested by the Hon. the Finance Member to determine the character of the institution. This will prevent any arbitrary selection of institutions. The Department has applied the Department.
