From (Name) R. Littlehailes Esq., M.A.,

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,

LAW (EDUCATION) Department.

Sir,

With reference to your Memorandum No. 5535 A-5 dated 23rd April 1923 and in continuation of my letter R.C.No. 3677 D/22 dated 13th October 1923, I have the honour to state that the Superintending Engineering, -- Coimbatore Circle, sent me a revised design and an approximate estimate amounting to Rs 49400/- for constructing a new block for the Government College, Mangalore, in lieu of the one approved in G.O.No. 1315 W dated 12th September 1921. The Principal did not approve this revised design and suggested a new proposal to extend the existing science block in the direction of the Physics Laboratory. After examining the question in situ, I found that the proposals

of the Superintending Engineer were objectionable for the following reasons:-

- (1) The Laboratories were removed too far away from the present laboratories and gas producer house.
- (2) A combined lecture hall for both Physics and Chemistry is objectionable. and
- (3) A verandah around the whole building was provided and this is extravagant.

The Principal's proposal also was not sound as it is not advisable to join on the extensions to the existing buildings. The joining of a new building to an existing building causes at times the gradual disintegration of the old building since it has a tendency to leave over or be carried over towards the new building.

2. To obviate the objections pointed out above, I suggested to the Principal that the 'College extension' block where his room is now situated may be used for college Physics, that the three Central rooms in the main building may be used for school science, that the natural science class may be transferred to the present Physics laboratory room, *and that a new block* the science block on the site suggested by the Public Works Department may be constructed for providing accommodation for the junior and senior Intermediate classes, Commercial class, Mathematics class, IV form and teachers' room. A new scheme prepared on these lines is now submitted herewith for favour of approval, vide the enclosed plan marked "new enclosure No.2". A plan showing the present distribution of classes and laboratories is also submitted, vide "new enclosure No.1".

3. The revised design proposed by the Superintending Engineer contains a plinth area of 9844 Sq.ft and is estimated to cost Rs 49400 at the rate of Rs 5 per Sq.Ft. Calculating at the same plinth area rate, the design now proposed by me which contains a plinth area of 5733.Sq.Ft., will cost about Rs 29000/-

4. The three plans and the approximate estimate amounting

The D.P.D. may now be requested to obtain and submit rough plans and estimate for the scheme as modified by him in para 2 & 3 of his letter of 22.10.23.

It is submitted that after the receipt of the recommendation of the Finance Committee on 9.1.24, the decision of the Cabinet on Part I schemes was awaited. The decision of the Cabinet was known about 15th February. As this scheme was not included ~~among~~ among the schemes provided for in the budget for 1924-25, it was thought that this could be dealt with in April along with other schemes which are included in the special list as advised by Secretary. On former thought it was considered that this could be dealt with in advance and revised plans and estimates called for from the D.P.D. The error is very much regretted.
