From

M. R. Per. C. Sambasiva Chelliar Aul,

Chairman Municipal Council,

CONJEEVERAM.

To

The District Educational Officer,

Chingleput District,

MADRAS,

Sir,

Through the Deputy Inspector of Schools,

Conjeeveram Range.

With reference to your letter dated 1-12-24 and
G.O. No. 1755 Misd dated 14-11-24, I have the honour to furnish
the following information in seriatim on the working of the --
scheme of compulsory Education in this Municipality for the year
ending 31st March 1925.

I. The number of Boys school age within the Municipal limits
according to the latest enumeration and as it stood on 1-4-25
is 357 3571

II. a, b & c. The number of Boys school under instruction in
Elementary schools and Elementary Department of Secondary --
schools, deducting the number attending from outside the Muni-
cipal limits comes to 2785 (2196 + 653 - 63)

d) The number that yet remains to be brought under instruc-
tion as it stood on 1-4-25 is 785.

The opening of additional night schools for giving --
instruction to the boys working for wages during day time is
under contemplation.

2786

4
III a) N 1 1.

- b) Two sheds were erected one for the Hindu boys' school at Varadappa Mudali street, Olimahamudpet and the other for the night school, at the Railway station Chuklars' line.
- c) No new buildings have been constructed. The question of the grant for the construction of new buildings is under correspondence.
- d) Arrangements are being made to secure more suitable rented buildings.

IV. The number of trained and untrained teachers on the staff of the Municipal Elementary schools is 98 and 16 respectively 3 trained teachers have been employed during the year under review.

V. The Registers of Boys of school age are 3 in number, one is maintained in the office, and the other by the Headmasters of schools and the third by the Deputy Inspector of schools, Conjeeveram Range. The Registers are checked and verified by the Superintendent and the members of the attendance committee here and there by going through the streets of the wards. The dates of birth are verified as far as practicable

VI. Till now, no exemptions have been granted and no prosecutions have been launched in the case of Boys to be brought under instruction. But all possible persuasion has been resorted to, to bring the defaulters under instruction.

VII. The attendance committee met six times during the year. The following are its important observations:-

(1) Circular to be issued to teachers for proper and correct maintenance of census registers.

(2) Issue of printed pamphlets to the parents of the defaulters even threatening them under section 52 of the E.E. Act 1920.

8
3rd page
4/5
2070

- (3) Practical instructions imparted to the Education Superintendent to visit the houses of the children to be brought under instruction.
- (4) Pressure upon the Head^{masters} of the schools to get a written declaration as to the correct age of each pupil.

VIII. The Education Superintendent visits all the schools, and also the houses of the pupils with a view to secure good attendance of the new Boys; submits his daily diaries to the Chairman touching the various points which tend to the successful working of the compulsory Education scheme, and also maintains a consolidated diary for a week ending irrespective of the daily diary he submits. His diaries are reviewed by the Chairman and members of the attendance committee.

R.O. No. 2216-B/25.

Station Madras, Dated the 20th November 1925-192

From (Name) R. Littlehales, Esquire, M.A.,

(Designation) Director of Public Instruction
Madras.

To The Secretary to the Government of Madras,

Law (Education) Department.
Fort Saint George.

Sir.

In resubmitting herewith the papers referred to me for remarks in Government endorsement No. 3768 A-1 dated 9-10-1925, I have the honour to state that 2786 boys of school-age are under instruction out of 3571 boys of school age resident within the Municipality. The percentage of boys of school age under instruction has increased from 65.8 to 78 and the No. yet to be brought under instruction is nearly 22 per cent. But in fact there is not any considerable increase because the number of boys of school age resident within the Municipality, is only 3571 according to the recent census taken by the Municipality while the number last year was 4053 there being a fall in the number of boys of school age resident within the Municipality.

16 16/25
m

2. Compulsion has been introduced with effect from 1-9-1922 and and three years have passed. Still nearly 22 per cent of the boys of school-age are outside the fold of compulsion. It cannot therefore be said that the scheme has been effective within the municipality. It is also reported that 94 boys of school age are attending 6 pial schools. The Chairman, Municipal Council may be advised to institute an enquiry in consultation with the District Educational Officer to persuade the management of these pial schools to apply for recognition and aid. The recognition however should be granted only in special cases as otherwise there is room for a good deal of laxity in the standard of teaching and possible ~~expulsion~~ confusion in the working of the scheme.

① 3. In G.O. No. 1212 Law (Education) dated 8-9-1923 the opening of part-time ~~or~~ night schools was suggested with a view to provide educational facilities for the children of depressed and weaving classes. This question is reported to be still under the consideration of the council.

4. Some improvements are reported to have been made in regard to the provision of accommodation by constructing additional ~~schools~~ sheds. The two schools maintained for chuklers within the Municipal limits are housed in thatched sheds and they may be replaced by tiled ones in due course so as to avoid frequent repairs. The thatched shed constructed for the school at Kailesanadhur, Mettu street, is in a -- dilapidated condition and an adequate and substantial building in its place is imperative. A thatched shed with mud walls has been constructed for the school at Olimuhamadpet but it is not strong enough to stand against rainy weather. The District Educational Officer further reports that some of the schools are cramped for space and the attention of the Chairman was drawn to this by him when he visited the place. Since there is a very large number of boys of school-age yet to be

provided for, the Council should pay immediate attention to the question of providing extra accommodation. The building programme is said to be still under consideration.

5. The District Educational Officer reports that the appointment of a young and more active Superintendent who can use a cycle is a real necessity if the scheme is to be worked with vigour and greater control as is to be exercised on the teachers. It is further reported that the scheme will be more successful if the Deputy Inspector of schools is made the convener of the Attendance Committee and the Superintendent made to work under the direct supervision of the Deputy Inspector of schools.

I have the honour to be,
Sir,
Your most obedient servant,
