Budget Estimate for 1925-26. Part II- Schemes
submitted.

With reference to paras 19 and 20 of G.O. No. 527, Finance
dated 17-7-24, I have the honour to submit herewith Part II of
the Budget Estimate of charges for 1925-26 relating to expendi-
ture on new schemes.

In previous years it was the practice to include provision
for Building and Equipment grants ~~for~~ in Part II. But in con-
nection with the estimates for 1925-26 the Finance Department
have instructed separately that for building and equipment g
grants which are already on the standing list provision for only
those schemes for which no payment of grant has been made in
previous years or is likely to be made in the current year will
have to be included in Part II Schemes for which Part Payment
has been made in previous years or is likely to be authorised
during the current year have to be shown in Part I. This dis-
tinction has been adopted in the preparation of the estimates
for 25-26.

Director's Remarks.

(a) In regard to schemes which are already on the standing list and for which payment of grants has been partially made or likely to be made, provision will be included in Part I of the budget as instructed by the Finance Department. The schemes in this part of the budget will provide separate annexure (22) for details - are only those which are under consideration and which are likely to mature hereafter. It may be observed here that as against the anticipated aggregate demand of Rs. 2.07 lakhs, only Rs. 52,000 has been suggested as provision for next year.

(d) It is expected that grants in respect of applications already ready in the approved list will all be paid in the current year and that there will be no fresh commitments in 1925-26 in respect of sanctions accorded in the current and previous years except what may be due to the Montford European School, Yercaud, after part-payment made to it in the current year. The balance of about Rs. 3,000 required for this school will therefore be included in Part I. It has, however, been gathered that applications involving grants amounting to Rs. 1,000 are

under correspondence in the office of the Inspector of European schools.

To provide for these schemes and for others that may be received here-
after a sum of Rs. 3,000 has been entered in this part of the budget.
It may be mentioned in this connection that the past actuals under this
head, amounted as much as Rs. 13,000.

(b) The only scheme that is likely to mature during 1925-26
is the additions to the buildings occupied by the Railway European
School, Madura. The total cost of the work is Rs. 16,513 and a ~~work~~
Half grant of Rs. 3,300 is inserted in this part of the budget. When
the scheme is ready for submission Government will be addressed. The
actuals of last year under 'building grants-primary' amounted to Rs. 7,175

(c) There is only one scheme in the approved list; but as it
already has received part payment, provision for the charge amounting to Rs.
21,200 will be included in part I.

(e) There are no commitments under the head. A small sum
of Rs. 2,000 (same as the current year's provision) is however proposed
for 1925-26 to meet the demands of schools which may be received here-

AS

The D.P.I.'s estimate for building and
furniture grants for European schools in Part II of
the Budget for next year is on ~~pp~~ 1 and 2 ante. In
connection with the budget estimate for the current
year Sir Charles Todhunter decided that the question
of providing funds for these grants should be treated
as a Part II scheme and that the Finance Committee
should enter in Class I the amount they considered
imperatively necessary and in Class II such further
sum as they considered desirable if funds were available.
~~The Finance Committee decided that a sum of Rs. 3 lakhs~~
In laying down the budget procedure for the year -
1925-26, the Finance Department has proposed that
schemes for which grants have already been paid in
part should be entered in Part I and that provision
for the other schemes should be made in Part II of the
Budget. The provision proposed by the Director in
Parts I and II of the Budget for next year is compared
below with the provision made in the budgets of the
last ^{year} and the current year: -

	Provision for 1923-24.	Provision for 1924-25	Provision proposed for 1925-26

Building grants

The procedure in regard to building grants for European schools is as follows. (This is taken from the Code of Regulations for European Schools 1912 edition - The Law Dept will, no doubt, verify if there has been any modification).

Applications have to be received by the Director before the 1st August. If the application is to be entertained, orders will issue by the 1st October.

The grant is usually half the cost but may be two-thirds in places where there is a small or poor European population.

Presumably grants over Rs 2,500 and below are sanctioned by the Director and those over Rs. 2,500 by Government.

It will be observed from the above that all grants admissible in 1925-26 for new schemes should have been considered and orders passed by the 1st October.

Equipment grants

No time limit appears to be fixed for applications for these grants. Applications will therefore be received all through the year and a lump provision based on previous actuals seems necessary.

This rule is not followed in practice.

4 For equipment grants, the D.P.J. has proposed lump provisions for Part II schemes. Where this lump provision is reasonable or not is not ascertainable in Finance as the previous years' actuals were merged in a heading 'Special grants' which included grants for fee remissions. Law will therefore have to obtain figures from the D.P.J.

5 The proposals (including under building grants only sanctioned schemes) will stand as follows:

Paragraph 1 of the Finance Department note:- (page 4 ante)

The dates referred to for the receipt and disposal of applications for building grants are not enforced in practice nor is it possible to do so. When plans and estimates relating to a work for which a grant is applied for are received from the management, they are forwarded to the Special Consulting Architect for scrutiny. If the Architect so advises, the plans and estimates are returned to the management for revision. ^(after revision) the case is submitted to Government for approval and each work, as it is approved, is included in a list maintained for the purpose.

Paragraph 3 of the Finance Dept. note. (page 5 ante)

2. If the proposal of the Finance Department is adopted, there will be a provision of only Rs. 8,000 ^{for building grant} in Part II of the Budget against Rs. 55,300 proposed by the Director. It is submitted that the amount suggested by Finance will be very inadequate. The works shown in the Director's

list as being under consideration are likely to be approved in the course of the current year and some of the works may be started in the current year ^{or early in} the next year. A portion of the grants due in respect of them may become payable in the next year, and it will be unfair to ask the managements to wait till funds are provided in the year 1926-27. If all the works which are now under consideration are approved by Government an aggregate grant of Rs. 2.10 lakhs will have to be provided. Against this, the Director asks for only Rs. 55,300 ^{for} the next year. It is for consideration whether this amount may not be allowed.

If the provision proposed by the Director is to be accepted the notes for the Finance Committee placed ^(one for building grant + the other for equipment grant) below ~~is~~ for approval. ~~This~~ may be sent to Finance for the addition of that Department's note.

Finance noted that only schemes which mature and are approved before 1st November should be brought forward as Part II. Schemes for provision of funds. The Law Dept does not agree and states that provision should be entered

entered for all new schemes which are under consideration and may be approved before the end of the financial year current.

It has been pointed out in the Finance Note on Building grants for Non-Govt. colleges and secondary schools (transferred) that the Finance Dept's view is correct and the Law Dept's request inadmissible. The Law Dept. may therefore be requested to revise the note for the Finance Committee on building grants.

NOTE FOR THE FINANCE COMMITTEE

Provision in the Budget Estimate for 1925-26 for buildings grants to European schools

PROPOSALS OF THE DIRECTOR OF PUBLIC INSTRUCTION

The Director of Public Instruction proposes the following provision for building grants to European schools in the next year's budget.-

Secondary Schools	Rs 52,000
Primary schools	3,300
Special schools	nil

NOTE BY THE LAW (EDUCATION) DEPARTMENT

Building grants to European schools are sanctioned and disbursed in accordance with the rules in the Code of Regulations for European schools. Application for the grant is made to the Director of Public Instruction. The plans and estimates are scrutinized by the Public Works Department and each work, as it is approved, is included in a list maintained for the purpose. The grant sanctioned is actually disbursed after the completion of the work, though advances up to the Government share of the cost may be paid by the Director for portions of work completed. Out of the amounts provided for building grants in the budget, the Director sanctions the payment of grants for works in the approved list according to their order of urgency.

According to the budget procedure prescribed by Government, provision for building schemes for which a portion of the grant due has already been paid or is likely to be paid in the course of the current year should be entered in part I and provision for other schemes should be entered in part II of the Budget. The Director has accordingly entered in part I a sum of Rs 54,000 and in part II Rs 55300 for these grants. The following statement compares the figures of expenditure on building grants in the last three years and in the current year and the amounts proposed for the next year:-

Accounts	Accounts	Accounts	B.E.	R.E.	Budget Estimate 25-26

Special schools	-	-	-	-	15000	21100	-	21100	26,100
									73,900

The amount provided in Part I of the budget does not call for remarks. As regards the amount proposed in part II, the Director has sent a list showing the tentative distribution. Some of the works in the list have already been approved while others are under consideration. As already stated, these grants are given after the completion of the works. The commencement and completion of a work depend mainly on the funds available with the management and on the urgency of the scheme. It is difficult to forecast exactly which of the schemes will become ripe for payment in a particular year and what provision will be required for them. It is not therefore possible to earmark the budget provision finally for each individual scheme.

If a definite sum is placed at the disposal of the Director as hitherto he will distribute it among the works which are completed in the course of the next year according to their order of urgency.

The maximum grant admissible for all the schemes included by the Director in part II of the budget is Rs 2.10 lakhs. Against this, the Director proposes to provide only Rs 55,300 in the next year's budget. This provision may be allowed.

V.T.Krishnama Achariyar,
30th October 1924.

NOTE BY THE FINANCE DEPARTMENT

The proposals may be placed before the Finance Committee

Proposals of the D.P.I.

The D.P.I. proposes the following provision for
equipment grants to aided European schools in the Budget
Estimate for 1925-26:-

	Rs.
Secondary schools.....	3,000
Primary Schools.....	2,000
Special schools.....	Nil.

Note by the Law(Education)Department.

Grants for the equipment of aided European schools are
sanctioned under the Code of Regulations for European schools.
Each application for grant, as it is approved, is included in
a list maintained for the purpose. The grants are disbursed
after the articles of equipment have been purchased and the
necessary vouchers produced. The actual distribution of the
amounts provided each year for these grants is made by the
Director in accordance with the urgency of the applications
in the approved list.

The following statement compares the figures of expendi-
ture under equipment grants in the last 3 years and in the
current year and the amount proposed for next year:-

In the year 1922-23 the payment of equipment grants was ~~practically~~ practically suspended on account of financial stringency. In the year 1923-24 the Director was asked to entertain applications for grants for science equipment only and not for furniture, books and maps. The embargo thus placed on these grants was removed only at the beginning of the current official year. It is therefore essential to provide adequate provision for equipment grants in the Budget Estimate for the next year. The provision proposed by the Director for the next year is practically the same as that allowed for the current year. It may be accepted.

In reducing the allotment applied for, the Finance Committee had gave as the reason that most of the schemes in Part II were "under Consideration" — which is a fact.

I think no objection need be taken in the present state of the finances.

C1

I do not agree. To speak of proposals for buying furniture for a school as "schemes under consideration" is I think somewhat of a misnomer and I do not think that we should apply to such a case the criterion which we set up in such matters as the erection of buildings which takes months if not years to complete. I can see no reason why this particular grant should be selected for a fifty per cent. reduction of the already inadequate grant in the current year which is, I understand, what the Committee's recommendation amounts to.

As regards building grants I should like to know how the building grants under Education (General) have been dealt with by the Finance Committee.

The following statement shows the information required at A above:

Building grants, non-European schools

Budget 1924-25	Budget, 1925-26.		Total prov. for 25-26 according to the recommendation of	
	Part I	Part II Proposed by this Dept. Recommended by Fin. Committee	this Dept.	Fin. Committee
Rs. 4,32,000	Rs. 2,54,500	Rs. 2,81,000	Rs. 1,00,000	Rs. 5,35,500
				Rs. 3,54,500

The Committee applies the same principle in this case as well.

Consider that the provision made

under Part I is sufficient. Is there

any Part I provision for equipment?

What is the amount & how does it

come to be in Part I at all?

Is the equipment grant for the

schools also included?

B above.

There is a provision of Rs. 3,100 in Part I of the next year's budget for equipment of European schools.

In connection with the budget procedure prescribed for the

(1925-26) year the Finance dept. issued instructions to the D.P.J. to the effect that provision for building and equipment schemes for which a portion of the grant due had already been paid or was likely to be paid in the course of the current year should be entered in Part I, and that provision for other schemes should be entered in Part II. In accordance with these instructions, a part of the provision has been entered in Part I ~~and the other part, entered in Part II~~. The provision of Rs. 2,100 entered in that part is for ~~the provision of the grant for~~ due to the Montford high school, and, for science equipment: the amount admissible ^(to this school) is Rs. 3,880 of which Rs. 774 has been paid this year.
