Proposals for attaching training classes to existing schools - certain schemes - submitting to Government -

## ENCLOSURES.

No.

R.O.C.No. 2831-D/23.

Spare copies.

Station Madras. Dated the 1st October, 1924.

From (Name) R.LITTLEHAILES, Esq., M.A.,

(Designation) DIRECTOR OF PUBLIC INSTRUCTION.

To The Secretary to the Government of Madras,

LAW (EDUCATION) Department.

Sir,

With reference to para 2 of G.O.No.1685 Law (Education) dated 1-12-23, I have the honour to state that in response to my circular to the several District Secondary Education Boards, District Educational Councils and Inspecting Officers of the department on the subject of attaching training classes to existing schools, I have received the following proposals in respect of schools under the control of private managements, attaching of (1) Higher Elementary and Lower Elementary Training Classes to R.C.H.High School, Puthapur;

(2)

(P.T.O)

- (2) Secondary Training Class to A.E.L.M. Stall Girls' High School, Guntur;
- (3) Elementary Higher Training Class (Tamil) to St. Anne's Convent Girls' School, Royapuram;
- (4) Elementary Higher Training Class to A.A.M. Girls' High School, Madanapalle;
- (5) Lower Elementary Training Class to A.A.M. Girls' Higher Elementary School, Guindy;
- (6) Lower Elementary Training Class to M.M. Girls' Higher Elementary School, Chombala, Malabar;
- (7) Secondary Training Class to Diamond Jubilee High School, Gobichettipalayam; and
- (8) Secondary Training Class to High School, Srirangam.

Before commenting on each of the schemes detailed above, I would premise that these schemes should first be considered from the standpoint of saving of money, in accordance with the recommendations of the Retrenchment Committee on which the G.O. is based and then from the point of view of providing additional facilities for training of teachers. A saving of money would result only if the opening of the new training classes would allow of the closing down of some of the existing Government Training Schools or classes and provided the cost of running the new training classes is less than that involved by the maintenance of the existing Government Training Schools or Classes turning out the same number of trained teachers per annum. From the recommendations of the several Boards and Councils, I have received so far, it is however observed, that the majority of these bodies are averse to curtailing the existing facilities for training of teachers. On the other hand, they are in favour of improving the existing provision for the training of teachers. The schemes now submitted are therefore for giving additional facilities for the training of teachers and I have considered them only in that light.

SCHEME 1: Godavari district is already well supplied with Training Schools and the percentage of its trained teachers is 43 as compared with the Presidency average of 44. There thus appears to be no necessity for accepting the proposed scheme for Godavari district, the entire net cost of which is proposed to be met from provincial funds.

SCHEME 2: There is no need to consider the scheme attached to the A.E.L.M. Stall Girls' High School, Guntur, at present, since the management have abandoned it.

SCHEME 3: St. Anne's Convent School, Royapuram, need not be considered since satisfactory provision in Madras already exists; besides, the percentage of trained teachers in Madras is already above the presidency average.

SCHEME 4: A.A.M. Girls' High School, Madanapalle, may be left out of consideration. The Correspondent is going on leave shortly: besides there is already one aided training school for Mistresses in Chittoor, and the percentage of trained teachers in the district is very nearly the presidency average.

SCHEME 5: A.A.M. Girls' Higher Elementary School, Guindy, need not be considered. The percentage of trained teachers in Chingleput is above the average for the Presidency. Further, only a few students are to be admitted and it is reported that Christians have preferential treatment.

SCHEME 6: The proposal is to train Lower Elementary Women teachers only. Apart from the possibility of the existing Elementary Training classes for women in the Malabar District admitting of further expansion by training the full complement of students, I would on principle object to the scheme, as the class of teachers for whose training provision is sought to be made will have to be got rid of as soon as possible and he or she shall be got rid of by not opening additional Lower Elementary Schools or Classes.

SCHEME 7: Regarding the Diamond Jubilee High School, Gobichetti-palayam, Secondary Training Section, I may state that Coimbatore has already a Government Secondary Training School and I see therefore no need to give this district a second Secondary Training Class, while several other districts have not even a single Training class or school.

SCHEME 8: The management of the High Schools, Srirangam, to the institution propose to attach a Secondary Training Class for the training of 40 Secondary Grade teachers every year, and the District Secondary Education Board, District Educational Council and the District Educational Officer, Trichinopoly, are strongly in favour of the scheme. In view of these recommendations, in view of the absence of any Secondary Training class in the district at present and in view also of the easy accessibility of the place which is very near the district headquarters, I recommend that the scheme may be approved for the training of 20 Secondary Grade teachers per annum and that permission to open the Secondary Training Class with effect from July 1925 for a period of two years, in the first instance, may be accorded. The details of the scheme as finally modified by me are as follows:-

|                                                                        | Cost in the<br>1st Year.<br>Rs. | Ultimate<br>Cost.<br>Rs. |

|                                                                                                  | 1190                     | 540               |
| Stipends for 9 months for 20 students in the 1st year at Rs.12 per mensem each. ..               | 2160                     | -                 |
| Stipends for 10 Intermediates in the first year and 10 S.S.L.C's for 21 months at Rs.12 each. .. |                          | 3600              |
| <b>GRAND TOTAL ...</b>                                                                           | <b>4775</b>              | <b>6040</b>       |

I am including the provision necessary for the scheme under the head "31.D(b)(iii)-Education-Special-Direct Grants to non-Government Special Schools- "Subsidy to Secondary Schools" for Training" and "Stipendiary Grants in Training Schools for Masters", in Part II of the Budget for 1925-26.

I have the honour to be,

Sir,

Your most obedient servant,

*Rames*  
for Director of Public Instruction.

M.R.P.2/10.

Copy to 'A' and 'D' Sections.

M. *b*

C.NO. 2595 C- From the D.P.I., R.O.C. No. 2831 D-23,

dated 1-10-1924.

Subject:-- Opening a Secondary Training class - Sri-rangam High School.

In the circumstances stated, the proposal to attach a secondary training class to the aided secondary school at Srirangam is acceptable. The arrangement proposed is in consonance with the recommendation of the Retrenchment Committee and is a cheaper method of increasing the supply of trained teachers. In regard to the details on which the Director has based the amount of grant payable to the management of the secondary school, it may be observed that the expenditure under contingencies and stipends is almost always the same whether it is to be incurred in connection with a training class opened and maintained by Government or in respect of a training class attached to a school under private management. But substantial savings occur under 'establishment' in case the training, <sup>undertaken by a private management instead of</sup> is by the Government. So far as the present case is concerned, it is proposed to give a grant of Rs. 1,425 under 'staff' for the first year and of Rs. 1,900 in the following year. Normally speaking, if a secondary training class is to be attached to one of the Government institutions, a staff consisting of a head master and 2 L.T. assistants on the school assistants' cadre, a gymnastic instructor, a drawing master and a clerk on Rs. 35-60 each and a peon on Rs. 12-28 will have to be allowed. The average cost of this establishment works to Rs. 525-8-0 a month or Rs. 6,306 a year. By the arrangement proposed the cost to Government is reduced to the extent of Rs. Rs 4,406 a year and the expenditure on leave and pensionary charges is also avoided.

2. The proposal has ~~apparently~~ to be treated as a Part II scheme for the next year's budget. A note for the Finance Committee is submitted. If approved, it may be sent to the Finance Department for acceptance and for incorporating its portion of the note.

Finance (D.E.I.)

The proposal is for the grant of subsidy towards the opening of a secondary training class attached to the aided secondary school at Srinangam in the Trichinopoly Dt. It is in accordance with one of the recommendations of the Retrenchment Committee - Vide Committee's recommendation on page 1 of G.O. No. 1685, Law (S.D.), of 1.12.23, and also para 2 of the order. As pointed out by the D.P.D. himself, the proposal does not involve in the closing down of any of the existing training schools

B

(There is an L.T. training class and several elementary schools in the district).

6

schools maintained by Government. It is only for improving the existing facilities for the training of teachers. As there is at present no secondary training school or class in the Trichinopoly District, the proposal, which is more economic than the opening of a secondary training school by Government may be accepted in finance.

2. The details of the expenditure involved in the proposal are given in para 3 of the draft note for the Finance Committee. The cost as summarised is as follows (For the present the scheme is only for two years 1925-26 and 1926-27)

|                                        | Average cost<br>p.a.<br>Rs<br>(In round hundreds) | Cost in 1925-26 for 9 months.<br>Rs   |
|----------------------------------------|---------------------------------------------------|---------------------------------------|
| Grant for teaching and clerical staff. | 1,900                                             | 1,400                                 |
| Contingencies                          | 500                                               | 1,200                                 |
|                                        |                                                   | (including 700 for initial equipment) |
| Stipends                               | 2,900                                             | 2,200                                 |
| Total                                  | 5,300                                             | 4,800                                 |

3. Under rule 45 of the Grant-in-aid Code read with appendix F, teaching grants and grants for equipment and contingencies on behalf of training schools due for a year are paid in the succeeding year. Under rule 49 of the Code read with appendix L, stipendiary grants are paid monthly, the grants due for a month being paid in the succeeding month. Provision should therefore be made in the budget estimate for 1925-26, for the payment <sup>only</sup> of stipendiary grants for eight months, ~~and~~ which is Rs 1900. roundly, and Finance may accept the scheme subject to this reduction in the next year's demand.

4. It is not, however, necessary to place this scheme before the Finance Committee individually. As

As this is a scheme which is on accepted lines of development -- there is a provision in the current year's budget for a subsidy of Rs 15,500 to Secondary Schools for training -- all that is necessary under para 19 of G.O. 527 Fin. dated 17th July 1924 is to prepare a consolidated note for all such new schemes, the cost of individual items being clearly set forth in the note and the provision entered in Part I for standing sanctions also being specified in it. The Law Department may be requested to include this in the consolidated note under new grants for training schools.

~~It has been said~~ The consolidated note referred to <sup>(at A)</sup> above is the one which the Finance Dept. had suggested to be written for grants-in-aid to schools newly admitted to aid. It has since been decided that provision for grants to such schools should go into Part I and not Part II of the budget. So there is not going to be

A

a consolidated note. The amount for grant to the Srisaigam High School on account of the proposed training class will therefore have to be included in Part I. This will be done on receipt of the budget under 'grants-in-aid' from the D.P.D. In the meanwhile, the Director may be asked with reference to paragraph 3 of the Finance Dept. note at p. 3 ante whether it will suffice to provide in the next year's budget the amount required for stipends only. This may not suffice as this case cannot be strictly brought under the Grant-in-aid code for the reason that the training class is to be opened at the instigation of Government. We may however see what the Director has to say.

It is not right to treat this matter entirely as an ordinary grant in aid scheme. The private management is not proposing it. The Govt. are proposing it. The ~~board~~ management helps Govt. Otherwise the Govt. will have to incur higher scale of expenditure. The proposal is made in its present form only to economise in expenditure. It is not

6/11

6/11

to the interests of the management  
 & incur expenditure in advance &  
 wait till next year for reimbursement.  
 This may be pointed out to Finance  
 & they may be asked to allow the  
 full provision proposed by the  
 D.P.O. to be made in Part I of  
 the budget. Except provision on account  
 of stipends for the month of March 26

Finance (BE-I)

[Finance noted last on pp 2-4 ante]

Fin. 169 B.S.I.  
6-11-24

The Law dept. suggest that  
 on the analogy of "teaching grants" for aided  
 schools which the D.P.O. is competent to sanction  
 under the grant in aid code without reference  
to Govt. and which under L.D. orders are to  
 be included in Part I though they are schemes  
 of new expenditure strictly, the present  
 proposal, namely, the opening of a secondary  
training section in Sourangan school in 25-26  
 may be included in Part I.

A on p.

A on p 4 ante

The Law dept. admit that  
 this cannot be brought strictly under  
 the grant in aid code. The decision in  
 the other cases is not therefore applicable.  
 \* This

7/12

8

This is a case where the training section  
 is to be opened only in 925-26 and not  
 one opened in the current year with an  
 expectation of grant in 925-26 as in the  
 other cases. This is therefore a  
 Part II case

With reference to M on p. 6 ante,  
 what the Law dept. proposes in the  
 present case is payment of teaching  
 and equipment grants in the same  
 year. This is a ~~new~~ policy which  
 does not appear to have been followed  
 in other cases where such grants  
 for a particular year are paid only  
 in the following year. No special  
 ground has been shown for exceptional  
 treatment in this case. The  
 demand in 925-26 should therefore  
 be restricted to Rs. 1,900 for stipends  
 as noted in para 3, p. 3 ante.

Law (con) para

It is for orders whether the  
 scheme may be placed before

8/13

That the Scheme is one "on accepted lines of development" has been conveyed by Finance. When it is pointed out that the arrangement proposed in the file is not exactly one of State aid under the provisions of the Grant-in-aid Code to any institution which has already entered the field with the express object of training teachers, Finance says that the proposal should be referred to the Finance Committee. The ruling has apparently to be accepted.

2 In paragraph 2 of its note at page 7 ante Finance assumes that in the case of the <sup>new</sup> aided institutions that now perform a service to Govt. by training secondary grade teachers grants towards staff contingencies are paid in the year following that in which the expense is incurred. It says that a similar policy may be adopted in the case of the Srirangam School also. It may first be made clear what the practice is.

U. O. Note.

Opening of a secondary training class - Srirangam High School -

Reference: D.P.I.'s letter R.O.C. No. 2831 D/23 dated 1-10-1924.

In the proposal submitted by the Director of Public Instruction for the opening of a secondary training class attached to the high school, Srirangam, the following estimate of cost has been furnished:-

|                                        | Cost in<br>1925-26<br>for 9<br>months. | Cost<br>per<br>annum |
|----------------------------------------|----------------------------------------|----------------------|
|                                        | Rs.                                    | Rs.                  |
| Grant for teaching and clerical staff. | 1,425                                  | 1,900                |
| Contingencies                          | 1,190                                  | 540                  |
| Stipends                               | 2,160                                  | 3,600                |

2 Under rule 45 of the Grant -in-aid Code read with appendix F, teaching grants and grants for equipment and contingencies on behalf of training schools due for a year are paid in the succeeding year. Under rule 49 of the Code read with appendix L, stipendiary grants are paid monthly, the grants due for a month being paid in the succeeding month. Provision should therefore be made in the budget estimate for 1925-26, for the payment only of stipendiary grants for eight months, which is Rs. 1,900 roundly, and Finance may accept the scheme subject to this reduction in the next year's demand.

It appears therefore sufficient to provide in the next year's budget only for stipendiary grants for

eight months. The amount required under stipends for eight months is Rs. 1,900 in round figures. The Director may be requested to state if this will suffice. In many

also be requested to say whether in the case of the five aided institutions that now train teachers of the secondary grade grants in account of staff and contingents are disbursed in the year to which the expenditure relates or in the year following it.

D.P.D.

U.O. Reply No. 2216 D/24/19-11-24

I fear that the provision which I proposed cannot be altered. The class proposed to be attached to the Srirangam high school is worked on the net cost system the expenditure being paid from provincial funds to the management during the year in which the expenditure is incurred. If the <sup>class</sup> school is opened in 1925 the expenditure must appear in the budget for 1925-26.

Such is the practice with regard to the four secondary training <sup>classes</sup> schools attached to the Noble College, Masulipatam, the P.R. College, Cocanada, the S.P.G. High school, Nandyal and the Tirtapati high school, Ambasamudram. Private managements of schools are not prepared to incur expenditure of this nature and wait for a year before repayment of that expenditure. The classes have been opened at departmental request with a view to improving the supply of teachers more cheaply than if institutions or classes were opened under direct Government control.

Noble college, Masulipatam  
P. R. college, Cocanada  
S. P. G. High School, Nandyal  
Tirtapati High School,  
Ambasamudram  
R.C. Training School,  
Trichinopoly.

Lambert 25-95 C-3  
17-11-24

The R.C. Training School, Trichinopoly, is not one of this kind and its name appeared in the budget last year erroneously. In the revised estimate for this year its name and expenditure appear under the correct head.

15.11.24

Law (Education) Deptt.

From the Director's note on page 10 <sup>supra</sup> it appears that <sup>the</sup> assumption of Finance at 'A' on page 7 <sup>ante</sup> is not correct and that provision for the whole amount proposed by the Director has to be made in the budget estimate for next year if the scheme is sanctioned. As the Finance Deptt. states that the scheme has to go before the Finance Committee the note already approved may be sent to them for acceptance and for incorporation of their portion of the note.

Note for the Finance Committee.

Budget Estimate - 1925-26 - Part II Schemes.  
Opening of a Secondary Training class attached to

the aided secondary school, Srirangam.

Proposals of the Director of Public Instruction.

*As a measure of Economy*

The Retrenchment Committee recommended that training classes might be attached to schools which provide for general education <sup>and</sup> that subsidies might be paid to meet the cost of maintenance of such classes. *(instead of opening separate training schools, which would be more expensive)* Agree-

ably to the suggestion, the Director circularised all District Secondary Education Boards, Dt. Educational Councils and Inspecting officers of the Department inviting proposals for attaching training classes to schools under private management. In response to this circular, the Director received eight schemes. He has rejected all except one, <sup>mainly</sup> ~~mostly~~ on the ground that facilities for training in the districts concerned <sup>are</sup> ~~are~~ fairly sufficient or that the percentage of trained teachers in the <sup>schools concerned</sup> ~~in the~~ is not below the presidency average.

2. The Director <sup>recommends for adoption</sup> ~~submits~~ one scheme, namely, that of attaching a secondary training class to the aided secondary school, Srirangam. It is stated that the management is prepared to undertake the maintenance of the class ~~on its being paid~~ <sup>if</sup> a suitable grant <sup>is made</sup> ~~is made~~ for the purpose. The opening of the class has been recommended by the District Secondary Education Board, The Dt. Educational Council and the Dt. Educational Officer, Trichinopoly. There is at present no secondary training class in the District. The Director therefore proposes that a class may be opened with the object of training 20 secondary grade teachers every year and that permission may be accorded to open the class with effect from July 1925 for a period

| Grand Total.                                                                                                        | 4,775 | 6,040 |

Note by the Law (Education) Dept.

The arrangement proposed by the Director is an economical method of providing facilities for training. Leaving aside the expenditure under contingencies

will be appreciable saving  
The normal scale of establishment

Substitute for [ ]  
The grant-in-aid for staff, establishment and contingencies for a year is disbursed in the following year and that for stipends is disbursed monthly in the succeeding month. The provision required for 925-26 is Rs. 1900 for stipends for 20 pupils for 9 months at Rs.12 each. This proposed to enter this amount in the BE for 925-26.

13  
Have to be incurred on the same scale and stipends which will almost be the same whether the work of training is undertaken by the Department or left to be provided for by a private management, it makes a very real difference under "establishment" if the training be entrusted to a private body instead of by the Dept. If a secondary training class is to be attached to one of the Government institutions the normal scale of establishment that will have to be allowed is as follows:--  
Would be:--  
1 Headmaster and 2 L.T. Assistants on the School Assistants' cadre pay Rs.75-250 (Average pay Rs. 1222/3-3/3) 4416  
1 Gymnastic Instructor, a drawing master and a clerk on Rs.35-60 each (Average pay Rs.47 1/2) 1,710  
1 Peon on Rs. 12-18 (Average pay Rs.15) 180  
Total. 6,306

As against the sum of Rs. 6,306 calculated above as grant-in-aid on this account in this case the staff is Rs. 1,900. In other words the expenditure to Government is reduced to the extent of Rs. 4,406. It is therefore recommended that the Director's proposal may be approved and a provision of Rs. 4,800 included in the next year's budget.

10.10.24  
Note by the Finance Department.

The proposal may be placed before the Finance Committee as a Part II scheme for 925-26.
