through the Accountant General, Madras

Sir,

Page 1 of 10. 5/11 (A)
7.4.24

In my letter R.O.C.No.2487 C-22 dated 7-9-23, I
submitted proposals for the reorganisation of the
Weaving and the Gardening sections in the Reformatory
and Senior Certified School, Chingleput, with effect
from 1924-25. But Government in their order No.511 Mis.,
Law (Education) dated 7-4-24 informed me that no provision
was made in the Budget Estimate for the year on account
of the re-organisation and requested me to bring forward
the proposals for consideration in connection with the
Budget Estimate for 1925-26.

2. In resubmitting the scheme for the reorganisation of the weaving and the Agricultural and gardening classes in the school during the current year, the Superintendent of the institution has also made two additional proposals, one for the reorganisation of the carpentry class and the other for the improvement of the metal work and the Blacksmithy section. Mr. Porrett, the Adviser to Government on Manual and Vocational Training, whom I consulted in the matter, considers that these classes should also be reorganised and placed on a better condition. I agree with Mr. Porrett and submit the following proposals for the sanction of the Government.

(i) Weaving section The necessity for the reorganisation of this section has already been explained in my letter referred to in para 1 above and I have only to add that the question of reorganisation in this regard should not be postponed any further. The Superintendent of the school estimates the extra expenditure on this account at Rs. 3440 as shown below:-

(1) 12 pit looms for weaving at Rs. 60 each	Rs. 720
(2) Healds, reeds, shuttles etc.,	120
(3) One 6 spindle upright bobbin winding machine	250
(4) One 12 spindle purn winding machine	450
(5) One warping mill	250
(6) One sizing machine	1200
(7) One beaming machine	150
(8) One twisting and drawing-in-machine	100
(9) Bobbins, purns and other sundries	200
Total ...	3440

Mr. Porrett who visited the school last month, disapproves of the proposal of the Superintendent to introduce costly and elaborate machinery in an institution containing boys, a large number of whom come from rural classes and reports that, what is required is only the simplest modern and up to-date implements such as those used in Cottage Industries. He therefore recommends the purchase of the following articles and implements only at a total cost of Rs. 960 as shown below:-

(i) 3 fly shuttle pit looms with accessories

Rs.
210

(ii) One 6 spindle upright bobbin winding machine	250
(iii) One 12 spindle purn winding machine	450
(iv) Other sundries	50
Total ...	960

Mr. Porrett considers that the other items are unnecessary and I support his recommendation.

(ii) Gardening

As stated in my letter referred to in para (1) above the gardening and agricultural class in the school is in charge of two maistries, one of whom is a peon. They teach the boys how to handle the implements etc., but no instruction of the kind that would train the boys to become professional gardeners and malis is given at present. A large number of the boys admitted into the school are from the Agricultural or ryot class and I therefore consider that it will be profitable to many of them if they are trained in agriculture to which occupation they in most cases go back on their discharge from the school. Both the Superintendent of the school and the Adviser to Government on Manual and Vocational Training recommend for this purpose the purchase of two pairs of bulls at a cost of Rs. 700 and the employment of a lower subordinate on Rs. 45-3-75 of the Agricultural Department with effect from 1-3-25. The bulls are intended for drawing water for the garden, which the boys can look after and thereby gain useful knowledge in the care and upkeep of cattle. With the entertainment of the instructor in Agriculture in the school it is proposed to abolish the post of peon attached to the above class.

(iii) Carpentry section

It has been found necessary to purchase fresh materials and tools for this section and the estimate of the Superintendent of the school for the necessary articles amounts to Rs. 2232. Mr. Porrett reports however that the indent submitted by the Superintendent provides tools and implements for every boy in the class. In view of that all the boys will not require the same tools at the same time and in view also of the fact that there are tools in the institution which are still serviceable

Mr. Porrett considers that the expenditure in this regard may considerably be reduced and proposes a sum of Rs. 950 only for the purchase of the necessary articles. I agree with Mr. Porrett and request that his estimate be accepted.

(iv) Blacksmithy and Metal work section. The tools and implements now in use in this section have most of them become old and out of date and it has therefore been found necessary to equip the section with new and up-to-date tools. The Superintendent of the school estimates the expenditure under this head at Rs. 1572 which is considered far too high by the Adviser to Government on Manual and Vocational Training. The latter considers that a sum of Rs. 800 will be quite sufficient for the present requirements and I support his estimate.

3. The extra expenditure involved by the proposal during 1925-26 will be Rs. 3806 as shown below:-

(a) Weaving section

Non recurring charges

Purchase of implements and tools

960

(b) Gardening section

Recurring charges

Salary of one Agricultural Lower Subordinate at Rs. 45 per mensem for 12 months

492

540

Deduct salary of one peon to be abolished 12 x 14 "

(C.No.3024-B) From the D.P.I., R.O.C.No.2487-C dated 17th October 1924.

Re-organisation of the industrial classes in the Reformatory School, Chingleput.

Last year, the D.P.I submitted proposals for the re-organisation of the weaving and garden-
ing sections in the Reformatory School, Chingleput. The proposals were placed before the Finance Committee who put it in class III. As class III schemes were not provided for in the final Budget, the scheme could not be introduced in the current year. The present proposals of the D.P.I for the improvement of the ~~weaving, gardening, carpentry & smithy~~ sections in the school may be accepted. A note for the Finance Committee is placed below. The file may be sent to Finance.

to G.O. No. 511, dated 7th April 1924, wherein the D.P.I. has explained the necessity for the employment of an Agricultural Instructor in the Reformatory School. The instructor will impart instruction in the rudiments of gardening and agriculture to the boys.

It is doubtful if the boys will be able to raise the water required for agricultural operations. The Director states that the bulls will be looked after by the boys who will thus gain useful knowledge in the care and upkeep of cattle. He may, however, be consulted in regard to H.M.'s suggestion. A U.O. Note is submitted.

Subject.- Industrial classes in the Reformatory School, Chingleput - D.P.I's letter R.O.C. No. 2487, dated 17-10-24.

The Director states that the Superintendent of the Reformatory School and the Adviser to Government on manual training recommend the purchase of two pairs of bulls for drawing water for the garden in the school compound. The Director may be requested to state whether the boys may not raise the water required with a hand pump. He may be requested to treat this as "very urgent".

27/11

U.O. Reply No. 785 A/24 D/11-12-24

My official letter, I fear, did not contain all the reasons for employing bulls in the Reformatory school.

Ploughing, harrowing, care of cattle, etc. which will be possible when bulls are provided are very suitable forms of training for boys of this institution. The most important item of agricultural training is in fact ploughing and the preparation of the soil. Instruction in ploughing cannot be imparted without the aid of cattle. The majority of the boys will return to rural districts after discharge where hand-pumps are not generally used. The cost of installing two suitable hand-pumps is estimated at Rs.1700/-.

Finance Department.

The recommendation that gardening should be omitted is due to
(1) the fact that ordinary gardening is already provided for
(2) the item includes a recurring expenditure whereas the other items are non-recurring and by way of reduction in the cost of the scheme

NOTE FOR THE FINANCE COMMITTEE

Part II Scheme - 925-26

Subject:-Reformatory School-Chingleput-Re-organisation of the Industrial classes.

Proposals of the D.P.I.

The D.P.I submits proposals for the re-organisation of the weaving, gardening, carpentry and ~~black~~smithy and metal work sections in the Reformatory school, Chingleput.

(i) ~~Re~~ Weaving section

Page 2 of cf.
+ pages 1 + 2 of sp. 5-11 (A)
7.4.24

Mr.D.M.Amalsad, Textile Expert with Govt, who inspected this ~~Section~~ ^{Section} considers that a thorough ~~and immediate~~ re-organisation of the weaving class is called for both from the point of view of efficient instruction in the school and from ~~the point of view~~ ^{that} of its utility to the boys after they are discharged from the school. He is of opinion that instruction imparted with the aid of the present weaving machinery in the school which consist of frame-loom, and power looms is of no practical value to the boy and that the machinery should be replaced by improved looms of the pit-type. Mr.Porrett, the adviser to Govt.on manual training, also considers that the school should be provided with the simplest modern and up-to-date implements ~~now~~ ^{of the type} used in cottage industries. He recommends the purchase of the following three fly shuttle pit looms with accessories and a few other implements estimated to cost ^(on the whole) Rs.960. The Director supports this recommendation.

Page 2 of cf.

(ii) Gardening section.

This section is now in charge of two maistries one of whom is a peon. They teach the boys how to handle the implements etc. A large number of the boys admitted into the school are from the agricultural or ryot class and it will be of great use to many of them if they are trained in agriculture to which occupation they, in most cases, go back on their discharge from the school. Both the Superintendent of the school and the Adviser to Govt. on Manual Training recommend ~~for this purpose~~ the purchase of two pairs of bulls at a cost of Rs. 700 and the employment of a lower subordinate of the Agricultural department on Rs. 45-3-75 a month. The bulls are required for ploughing and for drawing water for the garden. They will be looked after by the boys who will thus gain useful knowledge in the care and upkeep of cattle. The Director supports the proposal and states that with the employment of the instructor in agriculture the post of peon attached to the gardening section may be abolished.

(iii) Carpentry section.

It has been found necessary to purchase fresh materials and tools for this section and the Director, in consultation with Mr. Porrett, recommends the provision of a sum of Rs. 950 for the purchase of the necessary articles.

(iv) Smithy and metal work section.

The tools and implements now in ~~the~~ use in this section have become old and out of date and it is therefore necessary to equip the section with new and up-to-date tools. Mr. Porrett considers that a sum of

Page 4 of C.F.

Rs. 800 will be required for this purpose and the Director supports the proposal. 11

The extra expenditure involved by the above proposals is shown below:--

	Non-recurring. Rs.	Recurring.	
		1925-26. Rs.	Ultimate Expre. Rs.
Weaving Section.	960	---	---
Gardening Section.	700	495 (500)	760 (800)
Carpentry Section.	950	---	---
Metal work and smithy section.	800	---	---
Total.	3,410	363	580
		Deduct pay of peon to be abolished 132	
		363 or Rs. 400	
		580 or Rs. 612	

Note by the Law (Education) Department.

The D.P.I. submitted proposals last year for the re-organisation of the weaving and the gardening sections in the school. They were placed before the Finance Committee who put it in class III. As class III schemes were not provided for in the Budget, the scheme could not be introduced in the current year. The Director considers that, in addition to the re-organisation of the weaving and gardening sections, the carpentry and metal work sections should also be improved. The proposals of the D.P.I. may be accepted and a provision of Rs. 3800 be made in the next year's budget.
