Bindigul Municipality.

For Boys only

I. Particulars regarding existing conditions

1. Schools and their strength:--

A statement in the prescribed form is prepared & submitted herewith.

(Note the above figures represent the strength as it stood in October 1924.)

(1). In the Bindigul Municipality there are at present 17 schools for boys - including the 2 Primary Departments attached to the two Secondary Schools. Besides there is a Model Elementary Department in the Government Training school.

2. Staff:--

(*) 30 teachers are now employed in the 3 Municipal boys' schools (7 day schools) & 1 Night school). All of them are trained men.

(Note.-In the 3 Municipal girls' schools 12 teachers all trained are now in service.)

3. Accommodation:--

(*) Details.- Begampore

6. School fees.--

(a). Education is free in all the Municipal schools - both for boys and girls since July 1922.

(b). The amount of school fees realizable in all the private aided Elementary schools at the rates specified in the Madras Educational rules is estimated at Rs.1,750.✓

11. Steps to be taken for introducing Compulsion.

7. Number of boys of school age to be provided for.---

If compulsion were to be introduced for boys the number of pupils who will have to be newly brought under instruction would come to (2148 - 1394) = 754 (Note vide items 4 & 1.

8. Maximum capacity of existing schools.---

(a). It is assumed that all the existing private aided -- schools would continue to educate the same number of boys as the do at present.

The present total strength of the 8 Municipal boys' schools is 691 for which 29 teachers are employed. 360 more boys can be accommodated in the existing 8 schools.

(b). New schools will be necessary for the remaining number of boys viz., (754 - 360) 394.

9. Exemption.---

(a). It is not proposed to exempt any class of persons from the operation of the Act.

(b). This question does not arise.

10. New schools.--

(a). 3 new schools are proposed to be opened to accommodate

the remaining boys who are affected by the notification. The night school will be held in one of the day schools.

(b). The additional schools required will be opened immediately as necessity arises.

(c). Provision is made for construction of new buildings to locate all the schools - existing and proposed. Pending construction the schools will be held in rented buildings. //

(d). The council proposes to construct 8 new buildings (5 existing plus 3 new) each to accommodate about 150 boys.

11. Cost of construction.---

Sir.

In submitting herewith the letter R.O.C.No.831 G1 of 23, dated 9- 1- 25, from the Chairman, Municipal Council, Dindigul, together with the Endorsement R.O.C.No.10 G/25 dated 28- 2- 25 of the President, District Educational Council, Madura, in regard to the introduction of compulsory Elementary Education for all boys of school-age resident within the municipality, with effect from 1-7-25, I have the honour to state that the additional number of boys of school-age to be newly brought under instruction on the introduction of compulsory compulsion is 754 as estimated by the council. On the introduction of compulsion, the council should provided for the education of

of 1392 boys of all ages in all, against 1,445 shown in the scheme. The present strength in the existing eight municipal Elementary Schools, including a night school is taken to be 691 in the scheme, and this ~~number~~ excludes 9 girls attending the boys schools. Since separate provision will be made in the scheme for the maintenance of the night school, the pupils attending the night school may be excluded for the purpose of calculating, the number of boys to be provided in the Municipal Elementary Schools for boys. Therefore the present strength in the Municipal Elementary day schools alone would be 638 (700 total strength in all the schools minus 62 pupils of the night school) and the total number to be provided for on the introduction of compulsion will be 1,392 (638 present strength plus 754 additional number to be brought under instruction)

2. At present there are seven municipal elementary day schools for boys, of which three are held in buildings owned by the council, and the remaining four in rented buildings, at an annual rental of Rs.408. It is stated in the council's scheme that 360 additional boys can be accommodated in the existing municipal elementary schools. It is observed from the District Educational Officers' report ~~[the District Educational Officers' report]~~ that all the municipal schools are overcrowded and no more can be accommodated in any of the existing municipal elementary day schools. The council's statement that 360 more boys could be taken in the existing municipal schools is based on the idea that each teacher could be made to teach 40 boys and was made without regard to the accommodation available. The council, therefore proposes to open three new schools only, to accommodate

14
accommodate the number of 394 boys (754 - 360). Since accommodation has to be found for all the additional number of boys (754 in ~~number~~ No) to be newly brought under instruction, three new schools will not be sufficient, unless each school is spacious enough to accommodate 250 pupils. Therefore the council may be advised to open 5 additional new schools with a view to accommodating at least 150 in each.

3. It is proposed to construct eight school buildings (5 old schools plus 3 new schools) at Rs.4000/- each. The five old schools include also the night school. A building at a cost of Rs.4,000 is not necessary for a night school and the council may be advised to consider the feasibility of locating the night school in any of the day schools in the adjoining locality. Since the number of new schools has been proposed to be raised to five, the total number of ~~new~~ buildings to be constructed would be nine (4 old schools including the night school plus 5 new schools) The council may be advised to formulate a building programme spread over a few years, in consultation with the District Educational Officer.

4. It is observed that the distribution and location of the existing and the proposed schools satisfy the conditions laid down in the explanation to Section 45 (2) (b) of the Madras Elementary Education Act of 20.

5. On the introduction of compulsion the council has to provide for the education of 1392 boys (1400 in round figures) in all the old and new schools together. The council has provided for 48 teachers at the rate of one teacher for every 30 pupils. In all schemes of compulsion it has been calculated at the rate of one teacher for every 35 pupils and there is not

15

not any special reason to deviate from the general principle in this particular case. Therefore 40 teachers will be sufficient for 1400 boys, at the rate of one teacher for every 35 pupils. The pay of the teacher in the day schools is reckoned at Rs.25 per mensem and in that of the night school, it is taken at Rs.20 per mensem as suggested by the District Educational Officer.

The council has provided for the post of a Common Drill and drawing master. The provision of this teacher does not appear to be psychologically correct. As the teacher has to go from school to school, drill and drawing have to be taken up when the boys in some of the schools are fresh and fit for intellectual work, instead of being reserved for the later periods of the day when the boys are fagged out. I therefore recommend that the provision may be deleted.

6. Provision is also made in the scheme for the entertainment of five peons, at the rate of one for every two schools. This system is not likely to work satisfactorily and I do not consider that peons are necessary for these elementary schools, most of which will have only the lower classes.

7. It is reported by the District Educational Officer that the amount provided for compensation towards loss of fee income to managers of aided schools has been fixed with reference to G.Os.Nos.1124 Law(Education) dated 23- 9- 22 and 787 Law(Education) dated 8- 6- 23.

8. It is observed from the financial statement

16

statement annexed to the letter, that there would be a balance of Rs.2,979 even after providing for a sum of Rs.2,540 towards equated payment. This amount (Rs.2,540) can be utilised for rent, till the loan is raised. The balance can be utilised towards any unforeseen charges connected with the working of the scheme.

9. Subject to the above remarks, I recommend, the acceptance of the proposals, under Section 45 of the Madras Elementary Education Act of 1920.

I have the honour to be,
