FURTHER PAPERS.

From

M.R. Ry. Rao Bahadur Cruz Fernandez, M.L.C.,

Tuticorin.

The Director of Public Instruction,

Madras.

Dated Madras, 7th February 1925.

Sir,

I have the honour to inform you that there is one St. Aloysius Secondary School for girls in Tuticorin managed by the Roman Catholic Nuns of our Lady of Dolours under the direction of His Lordship the Bishop of Tuticorin. This is the only Secondary School for girls in Tuticorin and it is greatly appreciated by the public as girls of all the communities including Adi Dravidas attend this school and it is proposed shortly to raise it to a High School.

Although there is a big compound, a few buildings excepted, the main buildings were old and during the heavy rains in 1923 the students and teachers suffered so much on account of the damp state of the buildings that many of them fell ill and it was therefore decided to pull down the old buildings and put up a new one in order to accommodate the students. This was also a transitional period in which the management changed hands from the Bishop of Trichinopoly to the Bishop of Tuticorin who is the first Indian who was consecrated as a Bishop of the Latin rite. The management had therefore no time to go through the usual preliminaries laid down by the Educational rules to send plans and estimates for the proposed new school to the Educational authorities and apply for a building grant. Any one who might have visited the premises during rains would have been greatly moved at the sight of the sufferings of the poor students and teachers and I was one of those who often visited this school.

Feeling the urgency of giving a relief to the suffering students and teachers, I gave them my advice to start erecting the new buildings and promised the managers that I would represent the true state of affairs to the authorities concerned and get the management exempted as a special case from first sending the plans and estimates to the authorities before commencing the erection of buildings as no time was to be lost. Encouraged by my advice, the managers raised loans and completed the buildings, which have cost them more than Rs. 13,000.

As the teachers use the first floor for their residential purposes, only the second floor is used for the school. Plans and estimates were prepared by a competent Municipal Overseer for the second floor only and the cost of the buildings amounts to Rs. 7,650.

The formal application for the Government grant from the managers will be sent in a week's time. For your kind information I present herewith a copy of the plan and estimate.

Considering the urgency with which the buildings had to be put up for the proper accommodation of the students and teachers and also the changes which took place during the period of transition when the management changed hands resulting in unusually long delay, further, considering the immense advantages that are enjoyed by the school-going girls of all communities in the matter of education, I beg that Government will be pleased to take a sympathetic view of this case, condone the irregularity, and sanction a grant to the school and save the management from running into debt.

I have the honour to be,
Sir,
Your most obedient servant,

Sgt. B. Mander

Station Madras, Dated the 1-4-1925 192

From (Name) R.G. Grieve Esquire M.A.,
(Designation) Ag. Director of Public Instruction

To The Secretary to the Government of Madras,
Law (Education) Department.

Sir.

With reference to Memo No. 784 B-1 Law (Education) dated 19th March 1925 regarding building grant for the St. Aloysius Secondary school for girls, Tuticorin, I have the honour to submit the application for building grant together with a copy of letter dated 12-2-25 from the Correspondent of the school and to state that I do not recommend the application in view of the breach of rules in having completed the building without obtaining my previous approval for the construction and that the reasons given in paras 2, 3 and 4 of the Correspondent's letter cannot be regarded as sufficient grounds for condonation.

I have the honour to be, Sir,
Your most obedient Servant

for Director of Public Instruction.

G.M.1.4.25

P.T.O.

Copy of letter dated 12th February 1925 from the Correspondent,
St. Aloysius Middle School for girls, Tuticorin.

The St. Aloysius Middle School for Girls in Tuticorin, the only Secondary school for girls in a town that has a population of over 44,000 - was started in June 1921 and the classes were temporarily being held in the residence of the teachers belonging to the Religious Congregation of Our Lady of Dolours.

2. This building was old and unhealthy and the rains in 1923 did but increase these drawbacks and aggravate the unhealthy condition so that many of the students and teachers fell ill.

3. It was therefore very imperative that the old building should be forthwith pulled down and a new one better accommodated for school purposes be put up without any further delay.

4. It was, besides, a transitional period in which the management changed hands from the Bishop of Trichinopoly to the Bishop of Tuticorin, the first Indian consecrated as a Bishop of Latin rite, which event took place on the 23rd September 1923.

5. The Inspectress of Girls' Schools in her report dated 30th September 1921 makes the following remark about the accommodation.

"Rather limited. It is hoped a separate building will be erected shortly".

Again in the report dated 23rd January 1923, the Inspectress remarks as follows:-

"Accommodation limited. It is hoped with the increasing strength of the forms, the management will give its earnest attention to the erection of a special building".

6. The management had, owing to reasons mentioned above in paras (2), (3) and (4) no time to go through the usual procedure of submitting, in advance, to the Educational authorities the plans and estimates for the construction of the new building in order to get the sanction of a building - grant from the Government.

7. On the advice of and the hopes given by M.R. Ry Rao Bahadur Griz Fernandez Ayl., M.L.C., who promised to plead our cause with the authorities and to get us exempted from the usual procedure to be adopted before commencing the erection of buildings, we started work at once and the building was made sufficiently ready to

⑤ 11 6
accommodate the students in November 1924 although the whole edifice reached its completion only in February 1925.

8. The plans and estimates prepared by a competent Municipal Overseer for the second floor only which is used for the school (the first floor serving as residence for the teachers) are herewith enclosed.

9. Considering the urgency with which the buildings had to be put up and the immense advantages accruing from the school to this town which has no other Girls' secondary school, I trust you will be pleased to take a sympathetic view of our case and condoning the irregularity be pleased to sanction the half grant for the building.

(true copy)

CHAPTER VIII, RULE 52.

Application for aid towards the cost of building the

St. Aloysius Middle

School for girls at Tuticorin in the District
College of Trinervally

Number and date of the Proceedings or Memorandum recognizing the school under the Madras Educational Rules.

Brief history of the institution from the date of its establishment to the date of application tracing its growth and development and furnishing among other things an accurate account of its financial condition.

As in these days of progress in education, parents had advised a great desire that English should be taught to their girls as in a secondary school and as there was not in the whole of Tuticorin, even a single middle school for girls, attempts were made in the year 1921 to transform the higher standards of the already existing R.C. Higher Elementary School into those of a Middle School. Mrs. M.A. Shreenivasa, the then Inspector of Girls' schools in the Southern circle, inspected the school on 16-2-21, and wrote in her Report:- "The management wish to convert standard V upwards into a middle school. The idea is a laudable one".

Encouraged by this remark, the V class, I Form and II Form were definitely started on 7-6-21, with 41 girls, 30 girls and 11 girls respectively.

The transformed school came to be henceforth known as "St. Aloysius Middle School for girls, Tuticorin". As there was no special

building them in readiness to hold the classes, the school had to be located in the former convent hall measuring 67' x 18' with a veranda on each side 9 1/2' broad.

The Inspector of girls' schools inspected the school on 23-9-21 and examined the I Standard, I and II Forms in all the subjects. She expressed herself to be very much satisfied with the work already done in the school and wished to see a good III Form also, next year at the time of inspection.

On 12-11-21 was received 1490 W.B./21 dated 19-10-21, of the Director of Public Instruction, recognizing St. Aloysius Middle School for girls, Tuticorin as a Middle School with class I and Forms I and II, under the Madras Educational Rules. The III Form was opened on 9-6-22.

The school was recognized as a complete Middle School with class I and Forms I to III, under the Madras Educational Rules, in the Proceedings of the Director of Public Instruction, Dis. No 974/23, dated 3-3-23.

From the beginning of its establishment, the school has been turning out good and useful work as may be seen from the Inspecting Reports. In the Report for the year 1923-24, the Inspectress says: "Written work in the highest Form was distinctly fair... The institution also offers an opportunity for higher education to the girls of the fishing villages around." In the Report for 1922-23, the following remarks are found: "A most encouraging beginning has been made to establish this school on secondary lines;

the strength of the classes and the representative attendance justify the recognition of Form III. When the staff has been readjusted... the institution will naturally emerge into a High School."

In accordance with these remarks, the staff has been already readjusted as to fulfill the requirements of a secondary school and therefore the hope expressed by the Inspectress, that the institution will naturally emerge into a High School, may come to

be realized in the near future.

Financial Statement. As the Bishop of Tuticorin is the owner of the school, it is needless to remark that its financial condition is stable. The present Manager of the school is Rev. Father. J. Jagannathan, Bishop's House, Tuticorin.

Note-(1) This need not be given if a reference to a history previously given can be furnished.

(2) The names and designations of the persons who form the committee of management should be specified.

The strength of the different classes or forms as it stood on the 31st March of every year for five years preceeding the year in which the application is submitted.

Note. The school was started only in June 1921.

Note.- If there any striking variations in the strength as shown above such variations should be accounted for.

Character of and necessity for the proposed work in detail.

Character of the Work :

The former building was old and unhealthy and insufficient to accommodate the students of the Middle School, with no separate arrangement for Museum or Library room. Besides, the rains in 1923 did havoc to the building and thus necessitated the demolition and rebuilding of the same with sufficient accommodation. A two-storied building has been now put up, in which the second floor is reserved for school purposes, with a separate room which is used as library and office-room. There are verandahs on three sides. The new building in which the classes are now held being more elevated than the old one is better ventilated and lighted and better suited for school purposes.

Necessity of the Work

(1) This Middle School has no building of its own, since the Teacher's Residence (or convent hall) was being used temporarily for the purposes of the school.

(2) That hall was old and unhealthy and insufficient.

(3) As above said, the rains in 1923 imposed upon us the necessity of making a better building without delay.

12 6.
(i) Is a sketch plan of the proposed site and building attached?

yes.
(ii) Does it show —

(a) The relation of the proposed building or extension to the existing buildings?

(b) Any alteration in existing buildings necessitated by it?

(c) The purpose to which the existing buildings are now put?

The existing building is used for school purposes.

(d) The purpose to which they will be put when the new building or extension is complete?

Vide (c)

Note.—Any notes that cannot be conveniently inserted in the plan may be given under each of the above headings.

7.
(a) Probable cost of the proposed work.

Rs 7650/-

(b) Whether the management has the necessary funds to complete the work in the event of the application being favourably considered.

(c) Whether the managing body has been registered under the Indian Companies Act of 1882 and, if so, whether attested copies of the Memorandum of Association and the Articles of Association are submitted.

(d) If the aid sought for is towards the cost of site, declaration that it is the cheapest suitable site.

(e) Declaration that the management is prepared to execute the prescribed deed if required by the Director to do so.

yes.

(f) If the property is not owned by the correspondent, declaration that the owner or his or her legal representative will execute the deed or will be made a party to the deed.

(g) In the case of mission institutions the name and address in full of the person who holds a power of attorney on behalf of the mission to execute the prescribed deed.

*Rev. Father. J. Jeganathan
Bishop's House, Tuticorin.*

(h) Name, designation and qualification of the person by whom detailed plans & estimates and specifications will be prepared.

K. Gopalakrishnan. P.W.O.

(i) Whether the title to the property is clear and in order and by whom the title-deeds were examined.

(j) The latest date on which the management wishes to (i) begin the work and (ii) complete the work.

(k) Is the declaration with regard to encumbrance, alienation and the conditions of recognition and aid attached?

yes.

- (1) Amount of building grants drawn by the institution in previous year, with the number and date of the sanction and the purposes for which given. (Particulars should be given for 20 years.)

nil

- (m) If the aid sought is towards the construction of the hostel declaration that the hostel will be managed according to rules approved by the Director of Public Instruction.

- (n) The treasury at which the grant if sanctioned is to be payable.

Sub. Treasury, Tuticorin.

- (o) The annual expenditure incurred in the upkeep of the institution and how much of it is met from--

Saint Aloysius Secondary
school for girls, Tuticuin

The above building
is reported to have been
Completed at a cost of
Rs 7650/-, and an application
for a grant-in-aid
has been received. The
Government want to have
a report from the P.W.D.
as to the value of the
new building constructed.
The S.E. Trichinopoly circle
is therefore requested to have
building examined in
detail, and to send in
a report as soon as
possible.

2. The S.E. is requested
to obtain the plans and
estimate connected with
the work, if necessary,
from the D.P.J. or the
school authorities.

Building grants--St. Aloysius Secondary school
for Girls, Tuticorin.

(C.No.784-B) From M.R.Ry. Rao Bahadur Cruz -
Fernandez, M.L.C dated 7-2-25

Memo to the D.P.I. No.784 B--1 dated
19-3-25.

(C.No.941-B) From the D.P.I. No.573 B/25 dated
1-4-25.

Under the rules relating to building grants
in the Grant-in-Aid Code, no building operations
shall commence until after the issue of favourable
orders on the suitability of the design and the
reasonableness of the estimates and until the
necessary permission to start the work is -
accorded by the Govt. or the D.P.I. Failure to
~~observe~~ ^{accept} these conditions will, strictly speaking,
entail the loss of any grant which would otherwise
be admissible. In the present case, the manage-
ment commenced the work and completed it without
giving any previous intimation to the Education
Department. The reasons for this are stated by
the management to be-

- (1) that the original building of the school
was old and unhealthy and was much
affected by the rains of 1923 and that
it had therefore to be pulled down
immediately and the new building put
up without further delay;
- & (2) that the above took place during a transi-
tional period in which the management
of the school changed hands from the
Bishop of Trichinopoly to the Bishop
of Tuticorin.

The management now request that their irregular
action may be condoned and that a grant may be
sanctioned in respect of the building. The
D.P.I. does not recommend the application as
he considers that the grounds adduced by the

Paragraphs 2-4, p. 5 CF

Page 4 CF

management are not strong. There have recently been several cases in which managements of schools and colleges commenced and completed buildings without giving previous intimation to the Educational Department and thereafter applied for building grants. A list of these cases is given below:-

<u>Name of school or college</u>	<u>Orders issued by Govt.</u>
(1) Campbell Memorial School, Jammalamadugu	half grant sanctioned. (H) Rs. 200 (I) 6.2.23
(2) C.B.M. Higher Elementary school for girls, Bobbili	(not put up) One-third grant sanctioned Rs. 243 (I) 26.2.23
(3) St Antony's High School, Tanjore	(not put up) grant refused Rs. 437 (Q) 21.3.24
(4) Hindu High school, Triplicane	half grant sanctioned based on a valuation of the buildings made by the P.W.D. Rs. 730 (R) 9.5.24
(5) St. Xavier's college, Palamcottah	One-fourth grant sanctioned Rs. 1402 (E) 25.8.24
(6) Women's Christian college, Madras	half grant sanctioned Rs. 144 (J) 30.1.25

It will be seen from the above that the Govt. have in the majority of cases condoned the breach of rules by the management. The present case would seem to be ~~that~~ similar to the Hindu High School, Triplicane, as in both of these cases the old building had to be pulled down all on a sudden and a new building put up very emergently. It is for consideration whether the irregularity in the present case may ~~not~~ be condoned and a grant allowed for the work. The building has already been completed and if a grant is to be sanctioned it may be based on a valuation to be made by the P.W.D. and the rate of grant may

perhaps be reduced from half to one-fourth or one-third to indicate that the reasons are not strong -
 6.4.25 V.T.K. 7.4

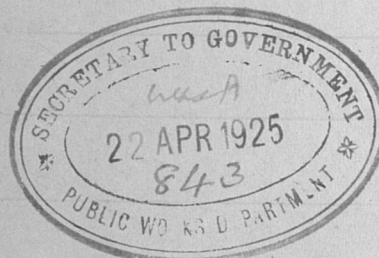

I think one fourth grant may be sanctioned V.T.K.

This is a convent school on the basis of the grant sanctioned for the school 9/4.

Grant.

Building -

82 Aloysius Secondary School for girls

Duhicomi

List of approved works - Included.

(7840)

Read the following papers.

ORDER:- No. 992 dated 15-6-25

The Government sanction the inclusion, in
 the list of approved works maintained in pursuance
 of G.O. No. 572 Law (Education), dated 10th May 1922
~~746 Law (Education) dated 17th June 1922~~
 of the construction of a building for the
 Aloysius Secondary School for girls, Duhicomi

at an estimated cost of Rs. 7650 While this
 approval does not convey any guarantee of grant,
 it will render the work eligible for a grant under
 the provisions of the Grant-in-Aid Code
~~Code of Regulations for European~~
 schools
 if and when funds become available, provided that
 all the conditions prescribed in the code are duly
 complied with.

The Management of the School should have
 been informed that its action in having commenced
 and completed the building before the plans and
 estimates were approved was highly irregular and
 that it should have complied with the rules in the
 Grant-in-Aid Code.
