READ—the following paper :—

Letter from R. G. GRIEVE, Esq., M.A., F.R.G.S., Acting Director of Public Instruction, to the Secretary to Government, Law (Education) Department, dated Madras, the 2nd June 1925, R.O.P. No. 14-A-13/25-26.

I have the honour to submit herewith for the information of Government a copy of my Proceedings R.O.P. No. 14-A-13/25-26, dated 22nd April 1925, reviewing the annual report on the working of the Teachers' College, Saidapet, during 1924-25.

ENCLOSURE.

Proceedings of the Director of Public Instruction R.O.P. No. 14-A-13/25-26, dated 22nd April 1925.

Read—the following paper :—

Letter from E. W. GREEN, Esq., B.A., Acting Principal, Teachers' College, Saidapet, to the Director of Public Instruction, Madras, dated 15th April 1925, R.O. No. 149 D/25.

[Subject.—Annual Report—Teachers' College, Saidapet—1924-25.]

I have the honour to submit my report on the working of the Teachers' College, Saidapet, during the year 1924-25.

Mr. R. G. Grieve, who was transferred as Acting Director of Public Instruction, Madras, in February last, was in charge of the college till I assumed charge on 11th March

2. The only change on the staff was the conversion of a temporary L.T. post to a permanent post.

3. *Annual repairs.*—The annual repairs to the several buildings attached to the college including the quarters of the Principal and of the Adviser to Government on Manual and Vocational Training and the hostel were carried out as usual by the Public Works Department.

4. *Classification of students.*—There were 174 students as against 184 in the previous year.

M.A.	..	..	..	2	T.S.L.C.	..	..	..	8
B.A. (Hons)	..	..	..	8	Holder of group certificates in drawing or drawing masters.	..	..	..	16
B.A.	..	..	..	95					
Intermediates	..	..	..	17					
S.S.L.C.	..	..	..	28					
					Total	..	..	..	174

Of these 174 students, 105 belonged to the Collegiate grade, 45 to the Secondary grade, 8 to the Manual Training section and 16 to the Vocational Training class.

One hundred and six students were admitted into the L.T. class at the beginning of the school year. One student withdrew in the course of the long term. One of the deputed students was relieved during the third week of March 1925.

The distribution according to classes is given below :—

Anglo-Indians	..	..	..	1	Brahmans	..	..	..	56
Indian Christians	..	..	..	21	Others (Coorg Hindus)	..	..	..	2
Muhammadans	..	..	..	3					
Non-Brahmans	..	..	..	22					
					Total	..	..	..	105

The distribution according to special subjects is as follows:—

Mathematics	30	Geography	14
Physical science	24	History	29
Natural science	4		
Kindergarten.. .. .	4	Total	105

The distribution according to districts is given below:—

	L.T.	Secondary, Manual and Vocational Training sections.		L.T.	Secondary, Manual and Vocational Training sections.
Bellary	1	2	Salem	4	..
Chingleput.. .. .	4	21	South Arcot	2	1
Chittoor	1	..	South Kanara	12	2
Coimbatore.. .. .	2	1	Tanjore	17	7
Ganjām	..	1	Tinnevely	10	3
Guntūr	..	2	Trichinopoly	1	1
Kistna	1	2	Vizagapatam	1	1
Madras	4	8	Coorg	2	..
Madura	5	5	Mysore	2	..
Malabar	27	2	Travancore.. .. .	3	..
Nellore	1	1			
North Arcot	4	6	Total	105	69
Ramnad	1	3			

Of the 105 L.T. students 79 were provincial stipendiaries, 8 were deputed by the Director of Public Instruction for a course of training, 14 were paid stipends from Local funds, 2 received stipends from Coorg funds, and 2 were non-stipendiaries.

The average number on the rolls and the average daily attendance of the four sections were as follows:—

L.T. section	105	98
Secondary Grade section	45	41
Manual Training section	8	7.5
Vocational Training section	16	15.4

5. *Secondary Training section.*—Thirty-seven were admitted and one withdrew in July. Of the remaining 36, 17 had either passed or appeared for the Intermediate examination and the rest were holders of Secondary School-Leaving Certificates. These 17 and 9 second year students appeared for the Training School-Leaving Certificate examination of March 1925 and were relieved on the 21st March 1925 after the examination was over.

6. (a) *Manual Training section.*—Eight special full-time students, 36 students of the Secondary grade training class, and 131 pupils of the Model High school received instruction in Manual training during the year.

(b) *Vocational Training class.*—This class which was opened in 1923 with a view to develop vocational education by providing a nucleus of trained Art-craft Instructors has been continued. The candidates trained during the year are as follows:—

Eleven full-time instructors in wood-carving, turning, elementary wood-work and design and drawing.

Five full-time instructors in engraving on wood and metal design and drawing.

(c) *Weaving class.*—Twelve Higher elementary grade teachers were selected by this college for a six-months (July–December) course of training in weaving at the Government Textile Institute, Madras.

Bulletin No. 19 giving details of Vocational training for the upper forms of Secondary schools was prepared during the year and is at present in the press nearing completion.

7. *Model High school.*—There were 710 boys and 19 girls on the rolls on the 31st March 1925.

	1923-24.		1924-25.	
	Boys.	Girls.	Boys.	Girls.
Upper Secondary	227	..	194	..
Lower Secondary	260	3	272	3
Kindergarten Section	224	12	244	16
Total	711	15	710	19

The average number on the rolls and the average daily attendance during the year were 732 and 17 and 660 and 14 respectively.

8. *Public examinations*—(a) *L.T. Degree examination.*—Of the 108 students who appeared for the L.T. Degree examination of April 1924, three passed in the first class, 14 in the second class and 62 in the third class and in the examination held in September 1924, 17 passed in the third class.

(b) *Training School Leaving Certificate examination.*—Thirty-eight appeared for the examination of March 1924, of whom 34 passed.

(c) *Manual and Vocational Training and Weaving examination.*—

	Number examined.	Results.	
		Pass.	Fail.
Manual Training *	11	8	3
Vocational Training *	17	14	3
Weaving	13	8	5

* Includes three of the students who failed last year in the Manual training class and one who failed last year in the Vocational training class.

(d) *Secondary School Leaving Certificate examination.*—Sixty-nine pupils appeared for the examination of March 1924. Of the 69, six took commercial subjects. Out of the remaining 63, 15 were declared eligible for admission to the University Courses of study.

(e) *Physical Training examination.*—The examination for the L.T. and Secondary grade students under training was conducted by Dr. A. H. Noehren in March 1925 and his remarks are as follows:—

“With reference to your Instructor of physical training himself, I note first of all that he is not lacking in ability and that he enjoys the respect of the students he is engaged to teach, to a far greater degree than is usually the case under similar circumstances. But I am bound to say that the Instructor could capitalize this appreciative attitude to better advantage. In the first place he should greatly enlarge the amount and variety of the drill, for he has evidently confined himself to a very few movements. He could as well insist on a more enthusiastic response on the part of the students many of whom followed his exercises in a perfunctory way without due attention being paid to nicety of form and execution. He should, therefore, be advised to cover at least several exercises prescribed for all the six forms in the ‘Hand-book of Physical Activities for Indian Schools’ for two reasons: (1) to give them a knowledge of the syllabus that will enable them later on, as headmasters of schools, to co-operate more efficiently with the work of the Instructor of physical training attached to the school and (2) because of the effect on their own physical well-being. Some criticism can be directed against the work offered in games. The repertoire is far too limited and does not include hardly any games suitable to the more mature men whom he has to deal with. And even in those games which he had, presumably, taught to the men, these were not understood thoroughly and the real competitive spirit was lacking. Under these circumstances, the response of the men examined both in drill and games was mediocre and the undersigned will take an early opportunity of sending to Mr. Srinivasan a more detailed syllabus of work along these lines which he will be expected to teach thoroughly to the men taking this course next year.”

(f) *Drawing examination.*—The Drawing examination was conducted, as usual, by Mr. C. R. Porrett.

The results are given below:—

Sections.	Number present.	Number passed.	
		First class.	Second class.
L.T.	99	27	64
Secondary grade	26	8	17

Periodical examinations for the pupils of the Model High school were conducted during the year and promotions were made in July 1924.

9. *Library.*—The total number of volumes in the library on the 31st March 1925 was 9,439 as against 9,264 in the previous year. The number of books issued

from the general library during the year to the members of the staff and to the students was 472 and 3,882 respectively. The number of books issued from the special libraries in charge of the lecturers is given below:—

Mathematics	573	Geography	535
Physical science	305	Kindergarten	275
Natural science	235	Manual and vocational training sections.	96
History	736	Secondary training section	441

The books in the college and school libraries were duly checked at the end of each term. I strongly endorse my predecessor's reference in last year's report to the number of obsolete books in the library and the need for a special grant to bring the library up-to-date. I trust that it will be possible to obtain a sum that will permit me to commence the renovation this year.

10. *Teachers' Association.*—The Senior Association and the several sections attached to it did satisfactory work during the year. In all, 51 meetings were held. The College day and the Teachers' Association Anniversary were celebrated in February. The Hon'ble Sir A. P. Patro, Kt., Minister for Education, presided and delivered the address. Mr. R. G. Grieve, the Director of Public Instruction, was present. Exhibits of teaching appliances in the various subjects were prepared by the college staff on the occasion. The exhibitions were very popular and attracted a number of visitors including teachers and students of both sexes from the Madras schools and Training colleges. A physical demonstration was also held on that day.

11. *Games.*—The Model High school took part in the foot ball competition and the foot ball tournament conducted under the auspices of the Madras Schools Athletic Association, and won the Lord Pentland shield and the Diwan Bahadur Ramanujam Chetti's shield.

The school volley ball team was the runner-up in the volley ball tournament conducted by the Y.M.C.A.

Badminton was the chief game played by the students of the college. A few only were attracted by foot ball.

12. The Darbar day sports were held as usual, the students of the college, the pupils of the school and the staff taking part.

13. The periodicals subscribed for by the club were received during the year.

14. *Scouting.*—The number of scouts in the troop was 20. With few exceptions the number was composed of young recruits. They have been trained for the initial tests for a scout. The older few all belonged to the VI Form and did not devote themselves very seriously to scout training. The recruits have been passed through the initial stages and the elder boys have been trained in some of the items of first class test, e.g., ambulance, etc., in addition to their becoming second-class scouts. The scouts of the school helped in the collection of money for the Flood Relief Fund.

15. *College Hostel.*—Of the 174 students studying in the college, 95 resided in the hostel. The remainder resided outside either at Saidapet or at Madras. The average boarding and establishment charges for a student in the Brahman Hostel worked out at Rs. 10-13-10 and Rs. 3-5-1 per mensem respectively.

Section.	Total.	Brahman Hostel.	Non-Brahman Hostel.	Christian Hostel.	Outside.
L.T.	105	41	15	21	28
Manual Training	8	2	1	1	4
Vocational Training	16	5	3	1	7
Secondary grade	45	2	3	..	40
Total	174	50	22	23	79

A scheme for providing boarding facilities for non-Brahmans and Christians, as indicated in Director's Proceedings R.O.C. No. 190 A/25, dated 14th February 1925, is in course of preparation.

16. *Tutorial system.*—The system was continued during the year.

17. *History of students.*—The record is being maintained under the usual difficulties. Steps are being taken to recover the amount of stipends drawn by teachers who have not completed the terms of the bonds executed by them.

18. *Service books.*—The service books of the members of the staff were verified in January 1925.

19. *Finance.*—The receipts and charges of the College and Secondary Training section during the year 1924-25 were Rs. 17,842-3-8 and Rs. 1,46,590-14-3 as against 19,029-15-2 and Rs. 1,40,911-10-1 in the previous year. The net cost to Government of maintaining the college was Rs. 1,28,748-10-7 and the cost of educating each student was Rs. 740 as against Rs. 662 during the previous year.

Total	1,36,150	9	4	10,440	4	11

20. *General.*—(a) *Moral Instruction.*—The pupils of the Model High school were given instruction on the lines laid down in the Government syllabus.

(b) *Mental Intelligence Tests.*—As usual the adaptation of the Binet Simon Tests were conducted before any new admissions were made both at the beginning of the school year, and also during the year, and the children placed in such classes as their mental age fitted them for. The Chelsea tests of Dr. Ballard, adapted with his permission, were tried in the high school in forms III to VI. But we found that in spite of translation, and very much explanation, the language difficulty was so great, even in Form VI, that the experiment did not lead to any valuable result. Other

schools of the Presidency have been working the tests with their boys. A comparison of results should be interesting and profitable and it is hoped that a discussion with the Principals of the schools concerned will be possible in the coming year.

(c) *Excursions*.—About 20 excursions were undertaken during the year. In this connection the thanks of the College are due to the authorities of the Harbour, the King Institute, the Observatory and the Engineering College. But until the need for granting travelling allowances to lecturers and students is recognised, many useful excursions further afield cannot be undertaken.

(d) A course of general lectures on the scope and character of the courses in Mathematics, in Physical and Natural Science was delivered during the short term by the Lecturers for the benefit of the graduates in English and History, and on History and Geography for graduates in English, Science and Mathematics. Dr. Noehren delivered a course of special lectures on Physiology and School Hygiene. Arrangements were made for a course of lectures on the Teaching of the Mother Tongue.

(e) Instruction in the technique of photography and optical projection and in the making of lantern slides was again given to the Physical and Natural Science and Geography students.

(f) *Buildings*.—The construction of a compound wall between the Clerks' quarters and the Teachers' College, Saidapet, was sanctioned in Memo. No. 324 Wks.-B/24 C.P., dated 29th August 1924, but the work has not yet been carried out. It is hoped that it will be finished during the next official year. The construction of a Science and Mathematics block is, it is understood, under consideration and it is also hoped that funds will be provided in the next year's budget for their construction.

(g) *Water-supply*.—Part of the scheme has been sanctioned and the work is being carried out by the Public Works Department as far as the hostel. It is requested that the remainder of the scheme may be sanctioned and the work completed in the coming year.

(h) *Visits*.—His Excellency the Governor of Madras visited the college in March and saw the work of each section. Professional visits were paid during the year by members of the Mysore Educational Department and the University of Rangoon.

R.O.P. No. 14-A-13/25-26, dated 22nd April 1925.

Recorded.

2. There has been a considerable increase in the number of non-Brahmans and Indian Christians with a corresponding decrease in the number of Brahmins.

3. The Principal may address the Director separately as regards a comparison of results in connection with Mental Intelligence Tests.

LAW (EDUCATION) DEPARTMENT

G.O. No. 998, 16th June 1925

College—Teachers'—Saidapet—Report—1924-25—Recorded.

READ—the following papers:—

Letter from R. G. GRIEVE, Esq., M.A., F.R.G.S., Acting Director of Public Instruction, to the Secretary to Government, Law (Education) Department, dated Madras, the 2nd June 1925, R.O.P. No. 14-A-13/25-26.

I have the honour to submit herewith for the information of Government a copy of my Proceedings R.O.P. No. 14-A-13/25-26, dated 22nd April 1925, reviewing the annual report on the working of the Teachers' College, Saidapet, during 1924-25.

Read the following papers:

Letter from E. W. GREEN, Esq., B.A., Acting Principal, Teachers' College, Saidapet, to the Director of Public Instruction, Madras, dated 15th April 1925, R.O. No. 149 D/25.

[Subject.—Annual Report—Teachers' College, Saidapet—1924-25.]

I have the honour to submit my report on the working of the Teachers' College, Saidapet, during the year 1924-25.

Mr. R. G. Grieve, who was transferred as Acting Director of Public Instruction, Madras, in February last, was in charge of the college till I assumed charge on 11th March.

2. The only change on the staff was the conversion of a temporary L.T. post to a permanent post.

3. *Annual repairs*.—The annual repairs to the several buildings attached to the college including the quarters of the Principal and of the Adviser to Government on Manual and Vocational Training and the hostel were carried out as usual by the Public Works Department.

4. *Classification of students*.—There were 174 students as against 134 in the previous year.

(e) *Physical Training examination.*—The examination for the L.T. and Secondary grade students under training was conducted by Dr. A. H. Noehren in March 1925 and his remarks are as follows:—

"With reference to your Instructor of physical training himself, I note first of all that he is not lacking in ability and that he enjoys the respect of the students he is engaged to teach, to a far greater degree than is usually the case under similar circumstances. But I am bound to say that the Instructor could capitalize this appreciative attitude to better advantage. In the first place he should greatly enlarge the amount and variety of the drill, for he has evidently confined himself to a very few movements. He could as well insist on a more enthusiastic response on the part of the students many of whom followed his exercises in a perfunctory way without due attention being paid to nicety of form and execution. He should, therefore, be advised to cover at least several exercises prescribed for all the six forms in the 'Hand-book of Physical Activities for Indian Schools' for two reasons: (1) to give them a knowledge of the syllabus that will enable them later on, as headmasters of schools, to co-operate more efficiently with the work of the Instructor of physical training attached to the school and (2) because of the effect on their own physical well-being. Same criticism can be directed against the work offered in games. The repertoire is far too limited and does not include hardly any games suitable to the more mature men whom he has to deal with. And even in those games which he had, presumably, taught to the men, these were not understood thoroughly and the real competitive spirit was lacking. Under these circumstances, the response of the men examined both in drill and games was mediocre and the undersigned will take an early opportunity of sending to Mr. Srinivasan a more detailed syllabus of work along these lines which he will be expected to teach thoroughly to the men taking this course next year."

(f) *Drawing examination.*—The Drawing examination was conducted, as usual, by Mr. C. R. Porrett.

The results are given below:—

Sections.	Number present.	Number passed.	
		First class.	Second class.
L.T. ..	99	27	64
Secondary grade ..	26	8	17

Periodical examinations for the pupils of the Model High school were conducted during the year and promotions were made in July 1924.

9. *Library.*—The total number of volumes in the library on the 31st March 1925 was 9,439 as against 9,264 in the previous year. The number of books issued

from the general library during the year to the members of the staff and to the students was 472 and 3,882 respectively. The number of books issued from the special libraries in charge of the lecturers is given below:—

Mathematics	573	Geography	535
Physical science	305	Kindergarten	275
Natural science	235	Manual and vocational training sections	96
History	736	Secondary training section	441

The books in the college and school libraries were duly checked at the end of each term. I strongly endorse my predecessor's reference in last year's report to the number of obsolete books in the library and the need for a special grant to bring the library up-to-date. I trust that it will be possible to obtain a sum that will permit me to commence the renovation this year.

10. *Teachers' Association*.—The Senior Association and the several sections attached to it did satisfactory work during the year. In all, 51 meetings were held. The College day and the Teachers' Association Anniversary were celebrated in February. The Hon'ble Sir A. P. Patro, Kt., Minister for Education, presided and delivered the address. Mr. R. G. Grieve, the Director of Public Instruction, was present. Exhibits of teaching appliances in the various subjects were prepared by the college staff on the occasion. The exhibitions were very popular and attracted a number of visitors including teachers and students of both sexes from the Madras schools and Training colleges. A physical demonstration was also held on that day.

11. *Games*.—The Model High school took part in the foot ball competition and the foot ball tournament conducted under the auspices of the Madras Schools Athletic Association, and won the Lord Pentland shield and the Diwan Bahadur Ramanujam Chetti's shield.

The school volley ball team was the runner-up in the volley ball tournament conducted by the Y.M.C.A.

Badminton was the chief game played by the students of the college. A few only were attracted by foot ball.

12. The Darbar day sports were held as usual, the student of the college, the pupils of the school and the staff taking part.

13. The periodicals subscribed for by the club were received during the year.

14. *Scouting*.—The number of scouts in the troop was 20. With few exceptions the number was composed of young recruits. They have been trained for the initial tests for a scout. The older few all belonged to the VI Form and did not devote themselves very seriously to scout training. The recruits have been passed through the initial stages and the elder boys have been trained in some of the items of first class test, e.g., ambulance, etc., in addition to their becoming second-class scouts. The scouts of the school helped in the collection of money for the Flood Relief Fund.

15. *College Hostel*.—Of the 174 students studying in the college, 95 resided in the hostel. The remainder resided outside either at Saidapet or at Madras. The average boarding and establishment charges for a student in the Brahman Hostel worked out at Rs. 10-13-10 and Rs. 3-5-1 per mensem respectively.

Section.	Total.	Brahman Hostel.	Non-Brahman Hostel.	Christian Hostel.	Outside.
L.T.	105	41	15	21	28
Manual Training	8	2	1	1	4
Vocational Training	16	5	3	1	7
Secondary grade	45	2	3	...	40
Total	174	50	22	23	79

A scheme for providing boarding facilities for non-Brahmans and Christians, as indicated, in Director's Proceedings R.O.C. No. 190 A/25, dated 14th February 1925, is in course of preparation.

16. *Tutorial system*.—The system was continued during the year.

17. *History of students*.—The record is being maintained under the usual difficulties. Steps are being taken to recover the amount of stipends drawn by teachers who have not completed the terms of the bonds executed by them.

18. *Service books*.—The service books of the members of the staff were verified in January 1925.

19. *Finance*.—The receipts and charges of the College and Secondary Training section during the year 1924-25 were Rs. 17,842-3-8 and Rs. 1,46,590-14-3 as against 19,029-15-2 and Rs. 1,40,911-10-1 in the previous year. The net cost to Government of maintaining the college was Rs. 1,28,748-10-7 and the cost of educating each student was Rs. 740 as against Rs. 662 during the previous year.

20. *General*—(a) *Moral Instruction*.—The pupils of the Model High school were given instruction of the lines laid down in the Government syllabus.

(b) *Mental Intelligence Tests*.—As usual the adaptation of the Binet Simon Tests were conducted before any new admissions were made both at the beginning of the school year, and also during the year, and the children placed in such classes as their mental age fitted them for. The Chelsea tests of Dr. Ballard, adapted with his permission, were tried in the high school in forms 3 to 6. But we found that in spite of translation, and very much explanation, the language difficulty was so great, even in Form VI, that the experiment did not lead to any valuable result. Other

schools of the Presidency have been working the tests with their boys. A comparison of results should be interesting and profitable and it is hoped that a discussion with the Principals of the schools concerned will be possible in the coming year.

(c) *Excursions*.—About 20 excursions were undertaken during the year. In this connection the thanks of the College are due to the authorities of the Harbour, the King Institute, the Observatory and the Engineering College. But until the need for granting travelling allowances to lecturers and students is recognised, many useful excursions further afield cannot be undertaken.

(d) A course of general lectures on the scope and character of the courses in Mathematics, in Physical and Natural Science was delivered during the short term by the Lecturers for the benefit of the graduates in English and History, and on History and Geography for graduates in English, Science and Mathematics. Dr. Noehren delivered a course of special lectures on Physiology and School Hygiene. Arrangements were made for a course of lectures on the Teaching of the Mother Tongue.

(e) Instruction in the technique of photography and optical projection and in the making of lantern slides was again given to the Physical and Natural Science and Geography students.

(f) *Buildings*.—The construction of a compound wall between the Clerks' quarters and the Teachers' College, Saidapet, was sanctioned in Memo. No. 324 Wks.-B/24 C.P., dated 29th August 1924, but the work has not yet been carried out. It is hoped that it will be finished during the next official year. The construction of a Science and Mathematics block is, it is understood, under consideration and it is also hoped that funds will be provided in the next year's budget for their construction.

(g) *Water-supply*.—Part of the scheme has been sanctioned and the work is being carried out by the Public Works Department as far as the hostel. It is requested that the remainder of the scheme may be sanctioned and the work completed in the coming year.

(h) *Visits*.—His Excellency the Governor of Madras visited the college in March and saw the work of each section. Professional visits were paid during the year by members of the Mysore Educational Department and the University of Rangoon.

R.O.P. No. 14-A-13/25-26, dated 22nd April 1925.

Recorded.

2. There has been a considerable increase in the number of non-Brahmins and Indian Christians with a corresponding decrease in the number of Brahmins.

3. The Principal may address the Director separately as regards a comparison of results in connection with Mental Intelligence Tests.

Proceedings of the Director of Public Instruction

R.O.P. No. 14-A-13/25-26, dated 22nd April 1925.

[Subject.—Teachers' College, Saidapet—Annual Report—1924-25—Reviewed.]

READ—the following paper :—

Letter from E. W. GREEN, Esq., B.A., Acting Principal, Teachers' College, Saidapet, to the Director of Public Instruction, Madras, dated 15th April 1925, R.O. No. 149 D/25.

[Subject.—Annual Report—Teachers' College, Saidapet—1924-25.]

I have the honour to submit my report on the working of the Teachers' College, Saidapet, during the year 1924-25.

Mr. R. G. Grieve, who was transferred as Acting Director of Public Instruction, Madras, in February last, was in charge of the college till I assumed charge on 11th March.

2. The only change on the staff was the conversion of a temporary L.T. post to a permanent post.

3. *Annual repairs.*—The annual repairs to the several buildings attached to the college including the quarters of the Principal and of the Adviser to Government on Manual and Vocational Training and the hostel were carried out as usual by the Public Works Department.

4. *Classification of students.*—There were 174 students as against 184 in the previous year.

M.A.	..	..	..	2	T.S.L.C.	..	..	..	8
B.A. (Hons.)	..	..	..	8	Holder of group certificates in draw-				
B.A.	..	..	..	95	ing or drawing masters.				16
Intermediates	..	..	..	17					
S.S.L.O.	..	..	..	28				Total ..	174

Of these 174 students, 105 belonged to the Collegiate grade, 45 to the Secondary grade, 8 to the Manual Training section and 16 to the Vocational Training class.

One hundred and six students were admitted into the L.T. class at the beginning of the school year. One student withdrew in the course of the long term. One of the deputed students was relieved during the third week of March 1925.

The distribution according to classes is given below :—

Anglo-Indians	..	..	..	1	Brahmans	..	..	..	56
Indian Christians	..	..	..	21	Others (Coorg Hindus)	..	..	..	2
Muhammadans	..	..	..	3					
Non-Brahmans	..	..	..	22				Total ..	105

The distribution according to special subjects is as follows :—

Mathematics	..	..	..	30	Geography	..	..	..	14
Physical science	..	..	..	24	History	..	..	..	29
Natural science	..	..	..	4					
Kindergarten	..	..	..	4				Total ..	105

The distribution according to districts is given below :—

	L.T.	Secondary, Manual and Vocational Training sections.		L.T.	Secondary, Manual and Vocational Training sections.
Bellary	1	2	Salem	4	..
Chingleput ..	4	21	South Arcot ..	2	1
Chittoor	1	..	South Kanara ..	12	2
Coimbatore ..	2	1	Tanjore	17	7
Ganjām	..	1	Tinnevely	10	3
Guntūr	..	2	Trichinopoly ..	1	1
Kistna	1	2	Vizagapatam ..	1	1
Madras	4	8	Coorg	2	..
Madura	5	5	Mysore	2	..
Malabar	27	2	Travancore ..	3	..
Nellore	1	1			
North Arcot ..	4	6	Total	105	69
Ramnad	1	3			

Of the 105 L.T. students 79 were provincial stipendiaries, 8 were deputed by the Director of Public Instruction for a course of training, 14 were paid stipends from Local funds, 2 received stipends from Coorg funds, and 2 were non-stipendiaries.

The average number on the rolls and the average daily attendance of the four sections were as follows :—

L.T. section	105	98
Secondary Grade section	45	41
Manual Training section	8	7.5
Vocational Training section	16	15.4

5. *Secondary Training section.*—Thirty-seven were admitted and one withdrew in July. Of the remaining 36, 17 had either passed or appeared for the Intermediate examination and the rest were holders of Secondary School Leaving Certificates. These 17 and 9 second year students appeared for the Training School Leaving Certificate examination of March 1925 and were relieved on the 21st March 1925 after the examination was over.

6. (a) *Manual Training section.*—Eight special full-time students, 36 students of the Secondary grade training class, and 131 pupils of the Model High school received instruction in the Manual training during the year.

(b) *Vocational Training class.*—This class which was opened in 1923 with a view to develop vocational education by providing a nucleus of trained Art craft Instructors has been continued. The candidates trained during the year are as follows :—

Eleven full-time instructors in wood-carving, turning, elementary wood-work and design and drawing.

Five full-time instructors in engraving on wood and metal design and drawing.

(c) *Weaving class.*—Twelve Higher elementary grade teachers were selected by this college for a six-months (July-December) course of training in weaving at the Government Textile Institute, Madras.

Bulletin No. 19 giving details of Vocational training for the upper forms of Secondary schools was prepared during the year and is at present in the press nearing completion.

7. *Model High school.*—There were 710 boys and 19 girls on the rolls on the 31st March 1925.

	1923-24.		1924-25	
	Boys.	Girls.	Boys.	Girls.
Upper Secondary	227	..	154	..
Lower Secondary	260	3	272	3
Kindergarten Section ..	224	12	244	16
Total	711	15	710	19

The average number on the rolls and the average daily attendance during the year were 732 and 17 and 660 and 14 respectively.

8. *Public examinations.*—(a) *L.T. Degree examination.*—Of the 108 students who appeared for the L.T. Degree examination of April 1924, 3 passed in the first class, 14 in the second class and 62 in the third class and in the examination held in September 1924, 17 passed in the third class.

(b) *Training School Leaving Certificate examination.*—Thirty-eight appeared for the examination of March 1924, of whom 34 passed.

(c) *Manual and Vocational Training and Weaving examination.*—

	Number examined.	Results.	
		Pass.	Fail.
Manual Training*	11	8	3
Vocational Training* ..	17	14	3
Weaving	13	8	5

* Includes three of the students who failed last year in the Manual training class and one who failed last year in the Vocational training class.

(d) *Secondary School Leaving Certificate examination.*—Sixty-nine pupils appeared for the examination of March 1924. Of the 69, 6 took commercial subjects. Out of the remaining 63, 15 were declared eligible for admission to the University Courses of study.

(e) *Physical Training examination.*—The examination for the L.T. and Secondary grade students under training was conducted by Dr. A. H. Noehren in March 1925 and his remarks are as follows :—

“With reference to your Instructor of physical training himself, I note first of all that he is not lacking in ability and that he enjoys the respect of the students he is engaged to teach, to a far greater degree than is usually the case under similar circumstances. But I am bound to say that the Instructor could capitalize this appreciative attitude to better advantage. In the first place he should greatly enlarge the amount and variety of the drill, for he has evidently confined himself to a very few movements. He could as well insist on a more enthusiastic response on the part of the students many of whom followed his exercises in a perfunctory way without due attention being paid to nicety of form and execution. He should, therefore, be advised to cover at least several exercises prescribed for all the six forms in the ‘Hand-book of Physical Activities for Indian Schools’ for two reasons: (1) to give them a knowledge of the syllabus that will enable them later on, as headmasters of schools, to co-operate more efficiently with the work of the Instructor of physical training attached to the school and (2) because of the effect on their own physical well-being. Some criticism can be directed against the work offered in games. The repertoire is far too limited and does not include hardly any games suitable to the more mature men whom he has to deal with. And even in those games which he had, presumably, taught to the men, these were not understood thoroughly and the real competitive spirit was lacking. Under these circumstances, the response of the men examined both in drill and games was mediocre and the undersigned will take an early opportunity of sending to Mr. Srinivasan a more detailed syllabus of work along these lines which he will be expected to teach thoroughly to the men taking this course next year.”

(f) *Drawing examination.*—The Drawing examination was conducted, as usual, by Mr. C. R. Porrett.

The results are given below :—

Sections.	Number present.	Number passed.	
		First class.	Second class.
L.T.	99	27	64
Secondary grade	26	8	17

Periodical examinations for the pupils of the Model High school were conducted during the year and promotions were made in July 1924.

9. *Library.*—The total number of volumes in the library on the 31st March 1925 was 9,439 as against 9,264 in the previous year. The number of books issued from the general library during the year to the members of the staff and to the students was 472 and 3,882 respectively. The number of books issued from the special libraries in charge of the lecturers is given below :—

Mathematics	573	Geography	535
Physical science	305	Kindergarten	275
Natural science	235	Manual and vocational training sections.	96
History	736	Secondary training section	441

The books in the college and school libraries were duly checked at the end of each term. I strongly endorse my predecessor's reference in last year's report to the number of obsolete books in the library and the need for a special grant to bring the library up-to-date. I trust that it will be possible to obtain a sum that will permit me to commence the renovation this year.

10. *Teachers' Association.*—The Senior Association and the several sections attached to it did satisfactory work during the year. In all, 51 meetings were held. The College day and the Teachers' Association Anniversary were celebrated in February. The Hon'ble Sir A. P. Patro, Kt., Minister for Education, presided and delivered the address. Mr. R. G. Grieve, the Director of Public Instruction, was present. Exhibits of teaching appliances in the various subjects were prepared by the college staff on the occasion. The exhibitions were very popular and attracted a number of visitors including teachers and students of both sexes from the Madras schools and Training colleges. A physical demonstration was also held on that day.

11. *Games.*—The Model High school took part in the foot ball competition and the foot ball tournament conducted under the auspices of the Madras Schools Athletic Association, and won the Lord Pentland shield and the Diwan Bahadur Ramanujam Chetti's shield.

The school volley ball team was the runner-up in the volley ball tournament conducted by the Y.M.C.A.

Badminton was the chief game played by the students of the college. A few only were attracted by foot ball.

12. The Darbar day sports were held as usual, the student of the college, the pupils of the school and the staff taking part.

13. The periodicals subscribed for by the club were received during the year.

14. *Scouting.*—The number of scouts in the troop was 20. With few exceptions the number was composed of young recruits. They have been trained for the initial tests for a scout. The older few all belonged to the VI Form and did not devote themselves very seriously to scout training. The recruits have been passed through the initial stages and the elder boys have been trained in some of the items of first class test, e.g., ambulance, etc., in addition to their becoming second-class scouts. The scouts of the school helped in the collection of money for the Flood Relief Fund.

15. *College Hostel.*—Of the 174 students studying in the college, 95 resided in the hostel. The remainder resided outside either at Saidapet or at Madras. The average boarding and establishment charges for a student in the Brahman Hostel worked out at Rs 10-13-10 and Rs. 3-5-1 per mensem respectively.

Section.	Total.	Brahman Hostel.	Non-Brahman Hostel.	Christian Hostel.	Outside.

(b) *Mental Intelligence Tests.*—As usual the adaptation of the Binet Simon Tests were conducted before any new admissions were made both at the beginning of the school year, and also during the year, and the children placed in such classes as their mental age fitted them for. The Chelsea tests of Dr. Ballard, adapted with his permission, were tried in the high school in forms 3 to 6. But we found that in spite of translation, and very much explanation, the language difficulty was so great, even in Form VI, that the experiment did not lead to any valuable result. Other schools of the Presidency have been working the tests with their boys. A comparison of results should be interesting and profitable and it is hoped that a discussion with the Principals of the schools concerned will be possible in the coming year.

(c) *Excursions*.—About 20 excursions were undertaken during the year. In this connection the thanks of the College are due to the authorities of the Harbour, the King Institute, the Observatory and the Engineering College. But until the need for granting travelling allowances to lecturers and students is recognised, many useful excursions further afield cannot be undertaken.

(d) A course of general lectures on the scope and character of the courses in Mathematics, in Physical and Natural Science was delivered during the short term by the Lecturers for the benefit of the graduates in English and History, and on History and Geography for graduates in English, Science and Mathematics. Dr. Noehren delivered a course of special lectures on Physiology and School Hygiene. Arrangements were made for a course of lectures on the Teaching of the Mother Tongue.

(e) Instruction in the technique of photography and optical projection and in the making of lantern slides was again given to the Physical and Natural Science and Geography students.

(f) *Buildings*.—The construction of a compound wall between the Clerks' quarters and the Teachers' College, Saidapet, was sanctioned in Memo. No. 324 Wks.-B/24 C.P., dated 29th August 1924, but the work has not yet been carried out. It is hoped that it will be finished during the next official year. The construction of a Science and Mathematics block is, it is understood, under consideration and it is also hoped that funds will be provided in the next year's budget for their construction.

(g) *Water-supply*.—Part of the scheme has been sanctioned and the work is being carried out by the Public Works Department as far as the hostel. It is requested that the remainder of the scheme may be sanctioned and the work completed in the coming year.

(h) *Visits*.—His Excellency the Governor of Madras visited the college in March and saw the work of each section. Professional visits were paid during the year by members of the Mysore Educational Department and the University of Rangoon.

R.O.P. No. 14-A-13/25-26, dated 22nd April 1925.

Recorded.

2. There has been a considerable increase in the number of non-Brahmins and Indian Christians with a corresponding decrease in the number of Brahmans.

3. The Principal may address the Director separately as regards a comparison of results in connection with Mental Intelligence Tests.

INSTRUCTIONS FOR THE SECRETARIAT.

(a) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(b) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(b¹) For rules regarding printing of notes, see rule 315 of the office Manual.

(c) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(d) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for one week, and larger papers for two weeks only. The type of notes and of all confidential papers is distributed immediately after striking.

(e) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(a) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Registrar with a remark to that effect.

(b) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Registrar any instance of incomplete or careless editing.

(c) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(d) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(e) The names of the Secretary and Members should be printed in full when they occur on the right hand side, only the first time when they appear on the left side, the initials alone being printed later.

TO PRESS, MADRAS OOTY.

A	B	C
Please send proof in duplicate. The papers have been carefully edited. Referencer. Clerk. Supt.	Proof returned corrected. Please strike off and send number of copies as indicated. Type may be released after usual interval at once. Referencer. Clerk. Supt.	As the matter is clear manuscript and has been carefully edited, (b) proof need not be sent. Please print and supply number of copies as indicated. Type may be released after usual interval. 28/11/15 156 Referencer. Clerk.
