Resolution No. 122 / D. E. C. dated 15-2-23

Brief history of the institution from the date of its establishment to the date of
 application tracing its growth and development and furnishing among other things an
 accurate account of its financial condition.

This school was started on 15-9-1910 with one untrained
 teacher under the management of Mr. R. Ry. P. T. Rama-
 swamy Ayyangar of this town, when only ten pupils
 were admitted on that day, the school being located
 in a small hall in the house of one Selvaia Chetty
 in the Bazaar street, Mettupalaiyam. In the very next
 month, the strength of the school increased in numbers
 and consequently, three more teachers were appointed.
 The Manager applied then for the recognition of the
 school, but he did not succeed in his attempts in that
 direction. Sometime afterwards, under the increasing
 exertion of the then Manager, the school was visited
 on 19.8.1912 by Sir P. S. G. Sivaswamy Ayyar M.A., B.A.,
 then a member of the Governor's Executive Council,

who was kind enough to remark in the Visitors' Book that "This Institution supplies a real want." After this fortunate circumstance, the necessary application was made for recognition of the school which was recognised in the usual course as 3rd Grade Lower Elementary School in 1913. From that forwards, the school began to attract public attention and showed good progress in all directions, so much so, that more qualified and efficient teachers had to be appointed to the then-existing staff.

2. Then after a period of 7 years during which the institution was run satisfactorily by a single gentleman; its management was taken over on 28th May 1920 by a Committee known as "the Mettupalayam Mahajan School Committee with M. R. R. P. Samana Naidu as the Secretary of the Committee and Correspondent of the school. After attaining this status, the school has been found to be showing steady progress in all directions, so much so that at first the Vth standard was opened and recognised in the year 1918 and then the VIth, VIIth and VIIIth standards were year after year recognised in 1920-21, 1922 & 1923 respectively, all the classes being located in the present school building constructed, of course, with the help of the self sacrificing and philanthropic members of the Committee and other gentlemen of the town in whose hands the institution now is.

3. In this connection, it may be well to refer how this important and rising institution came into existence and

and was financed. The present school building was constructed at a cost of Rs 10,000, which was met by donations and subscriptions from the Committee members and other gentlemen of this town — the greatest donor contributing his mite to this school being the late Mr. Kasturi Iyer. Besides the cost of construction of the school premises as above, an additional expenditure of Rs 500, had to be incurred by the management towards its proper equipment in the shape of furniture, apparatus, books, maps etc. Further a well was sunk last year for the use of the school at a cost of Rs 200. It may be added in passing that all these items of expenditure were incurred by the management without applying for any aid from Government.

4. It may not be out of place to state that a school garden is being maintained by the spontaneous activities on the part of the pupils and teachers and that there is a spacious compound attached to the school, which is used as a play-ground by the pupils for playing foot ball and other games. Further a Boys' Association has been formed with a view to impart instructions in matters moral, religious to the boys out of school hours, the teachers and other local gentlemen taking special interest in the weekly meetings of the Association. Also

Also for the improvement of the teachers, there is a council of teachers in the school, who are also members of the Mettupalayam Teachers' association which was inaugurated by the present Deputy Inspector of Schools whose valuable presence, advice and instruction at its monthly meetings have gone a great way to improve their knowledge in every way and also to create much interest in their work. One other point deserves to be mentioned in this connection and that is, last year — the year of recognition of the VIIIth

Standard:— three pupils out of six, succeeded in getting admission into the Fourth Form in the Government College, Coimbatore.

Again it is also a matter of satisfaction to mention here, that out of five pupils appeared for the Free-Hand and Out-Line Drawing in the Elementary grade during the last examination, three pupils came out successful, two in the first class and one in the second class.

The Provident Fund System for Teachers sanctioned by Government has also been introduced from the current official year in this Institution, giving effect to from April 1923.

5. Now as the school has risen in strength and importance and as the present building is found to be insufficient to answer its "Crying need", additional accommodation is urgently required to be provided for as also observed by the Deputy Inspector of Schools in his recent inspection of the school — its present strength exceeding 300 pupils on its rolls, manned, of course, by a staff of 10 efficient teachers. To relieve the present congestion and as a temporary make-shift, the management has succeeded in getting a rented building in the bazaar street of the town, where the three higher standards have been located from 21st August 1922.

6. In these circumstances ie owing to want of space, further admissions are not made freely. Hence the necessity has risen for submitting this application for grant from Government for additional accommodation.

The management has to meet more than Rs 300, a month for the proper and efficient running of the institution, the amount of school fees realized from the pupils being on an average only a little more than Rs 100 a month.

The present financial embarrassment of the management necessitates the submission of this application.

Inspecting officer's remarks about accommodation from his inspection reports for the two previous years.

Extracts from annual inspection report 1923 - Date of inspection 12.1.34.23

Accommodation. With a view to relieve the congestion in the schoolhouse the first floor of a house in the Bazaar street has been taken up for rent and three classes VII and VIII have been held here from 21.8.23. The latter building is about 3 feet long from the main building and the distance stands in the way of efficient supervision by the headmaster. It is hoped that this is only a temporary makeshift arrangement. I learnt from the Correspondent that the management intends extending the building in the near future. The room the school occupies the better. The garden that was laid out last year is being carefully looked after!!

Inspection for 22-23 (25 & 26th January 1923)

Accommodation. The school has far outgrown the accommodation that the school house provides. As a makeshift arrangement 3 classes are now being held in verandahs and when the monsoon sets in it may not be possible to hold the classes there. It can not be sufficiently urged on the management that the increase of accommodation is the great need of the school. A new garden has been laid out in the open courtyard and plots have been assigned to pupils who maintain garden diaries also.

Director's review of such remarks.

DECLARATION with regard to encumbrance, alienation and the conditions of recognition and aid.—“ On behalf of the management of the school, I hereby declare that the property is unencumbered and that it will not be alienated or encumbered without the consent of the District Educational Council within forty years and that Government the conditions of recognition and aid laid down in the Rules under the Madras Educational Rules and Madras Elementary Education Act, 1920 are being, and will continue to be, fully observed, excepting those rules from which the institution has been specially exempted by the District Educational Council's Order No. Director's Proceedings, dated , and that I am prepared to subject the institution together with its current, endowment and trust accounts, its establishment, time-table and registers to inspection and to furnish such returns as may be required by the Council ; and that I shall abide by the provisions of the rules under the Madras Elementary Education Act, 1920 rule 55 of the Grant-in-aid Code in the event of the building being diverted, prior to the lapse of forty years after the date of payment of grant, to other than educational purposes approved by the Council”.

Sir,

In resubmitting herewith Government endorsement
No. 4661 A-1, dated 24th December 1925, I have the honour
to state that the correspondent, Mettupalayam Mahajana
Elementary School, Coimbatore has submitted revised
plans and estimates countersigned by the Executive
Engineer, Coimbatore Division as the originals were
prepared by the drawing master of the school who was
found not competent under rule 3 of the building grant
rules issued under section 42 (2) of the Madras Ele-
mentary Education Act of 1920. The revised estimate
amounts to Rs 6445 as detailed in the margin.

2. The school has standards 1-8 with an aggregate
strength of 293 pupils. The average strength and the

average attendance for the last three years are reported to be 271 and 196 respectively. For want of accommodation in the school building standard 6 is held in a separate rented building at a distance of about one and a half furlongs and its location at a distant place is considered undesirable in the interest of the school. Further the pupils in the existing building are huddled up on account of inadequate accommodation. The District Educational Officer, Coimbatore and the Nilgiris therefore states that the proposed extensions are quite necessary.

3. The extensions to the building and the construction of a latrine are in accordance with the requirements specified in Appendix 24 of the rules framed under the Madras Elementary Education Act 1920.

4. In these circumstances, I recommend that a grant of one half of the total estimated cost may be sanctioned, payment being made by the District Educational Council, Coimbatore as funds become -- available.

5. The application together with the plans and estimates is enclosed.

A copy of the Executive Engineer's letter No. 2676 M dated 13th August 1925 is also enclosed herewith.

In returning herewith the plans and estimate received for the work mentioned above with the connected correspondence on the above. I forward herewith fresh plans and estimate amounting to Rs 6445 including the cost of constructing a latrine.

The fresh plans were drawn by the School Master under the instructions of the Supervisor, Kallar. They are fairly correct and may be accepted.

The rates provided in your original estimate are reasonable and have been adopted in the fresh estimate except for wood work for which current market rates are allowed.

The proposed extension will be similar in every detail to the existing building which is in good condition.
