The extensions to which the Member refers are intended for the accommodation of the Mathematics and Science sections of the Teachers' College, Saidapet. The Director submitted plans and estimates for the work so early as 1922. In view of the financial stringency, however, he was asked to renew his proposals later. He again brought forward the question in connection with the budget for 1923-1924. The scheme was not then considered as plans and estimates had not been received in time, nor could it be considered in 1924-1925 owing to the financial stringency. The scheme was placed before the Finance Committee in connection with the budget for 1925-1926. The Committee placed the scheme in class III. As class III schemes were not provided for in the budget, the work had to be postponed. The Director again brought forward the scheme in connection with Part II schemes for 1926-1927. This has been approved by the Finance Committee and a provision of Rs. 25,000 has been entered in the Civil Works budget for 1926-1927 against the total estimated cost of Rs. 64,000.

2. In submitting the proposal the Director has pointed out that the strength of all the classes in the Science section has increased since the extension was contemplated and that in the case of Form VI, group, Physics practical work cannot be conducted even in two batches. The laboratories now provide accommodation only for 16 students in Physics, and

to provide for accommodation for 24 students  
in each of the branches. ~~the~~
