Station Ootacamund Dated the 17th March 1926

From (Name) Lieut-Col. J.P. Cameron, C.I.E., I.M.S.,

(Designation) Inspector-General of Reformatory Schools.

To The Secretary to the Government of Madras

Law (General) Department.

Sir,

Fort St. George, Madras.

I have the honour to state that as a result of the suggestion thrown out by the Inspector of Industrial Schools in his inspection report dated the 17th December 1925 copy enclosed - the Superintendent, Reformatory School, Chingleput, and the Director of Public Instruction consider that facilities for the higher education of the pupils should be provided in the Reformatory School, Chingleput, and that it would be sufficient for the present to open the 6th standard. I support their recommendation and request that Government may be pleased to sanction the appointment of an additional teacher on Rs.35-60 for the new sixth standard class to be opened from 1st April 1926.

MP-3-4 mpa

Lieut-Col, I.M.S.
Inspector-General of Reformatory
Schools.

Reformatory and Senior Certified School, Chingleput.

Metal work and blacksmith classes - Inspected on 17th Decr. 1925.

• • • • •

1. I visited the school on 17th December 1925, saw these two classes at work and examined in particular the work of the senior boys.

2. There is an improvement in the work of both classes since my last visit some years ago, but when these lads leave school, it will take a year or more in a commercial workshop to supplement the training they have received before they can be considered -- self-supporting workmen. They will be worth employing when they leave the school, but must be prepared to accept comparatively low wages until they gain experience and speed in their work.

3. I noted that some of the boys have passed the highest standard in the literary section of the school and have still some years to serve. I consider that something should be done to provide facilities for these lads to study up to the middle school standard if they are likely to remain long enough in the school, and not to cut their education short at the primary stage as at present. The provision of such facilities would insure that a larger proportion of the lads would not lapse into illiteracy after leaving school and would give the more intelligent an opportunity of acquiring sufficient education to enable them to rise to posts of minor responsibility in their several trades. If possible, the facilities should be provided by adding these classes to the school itself, but for the present it might be possible to arrange for a few boys to attend the local lower -- secondary or upper elementary school. I particularly noticed a lad, Prasanna Rao, No. 694, who has still about three years to serve, has already passed Standard IV, knows Tamil and Telugu and who seems more than sufficiently intelligent to profit by further literary instruction.

4. I understand that the Superintendent has difficulty some-times in placing his boys in suitable posts when they leave the school. In this connection, I notice that No. 558, Munusamy Achari, a blacksmith and lock repairer, has only a short term to

29-3-26.

From the inspection report at p.3 C.F. it will be seen that there are some lads in the literary section of the Reformatory school Chingleput who have passed the highest standard of the school and who have some years to serve. The I.G. of Reformatory schools proposes to provide for their higher education by opening higher classes in the school up to middle school standard in due course; and to open the VI Standard from 1-4-26. The Law Deptt. support the proposal.

2. There is no information in the file

re: the number of pupils in the literary section, the number of teachers

(4) -3-

employed in this section, and whether there are a sufficient number of lads who are fit for promotion to the VI standard; and why it is not possible to arrange for a few boys to attend the local lower secondary or upper elementary school. In the absence of the above information it is not possible to state whether the extra expenditure would be justified. The Law deptt. may therefore be requested to obtain the above information.

Returned.

2. A copy of letter No. 1250/25, dated the 30th April 1926, of the Superintendent, Reformatory School, Chingleput is submitted for the information of Government, I agree with the Superintendent and strongly recommend the appointment of an additional teacher on Rs. 35-35-1 1/2-50-1-60 and the opening of the VI standard in the Reformatory School, Chingleput.

M. C.

Lieut-Col, I.M.S.,
Inspector-General of Ref. Schools.

To,

The Secretary to Government,
Law (General) Department,

1

The fees charged in the two High Schools for the VI standard are Rs. 25-12-0 yearly or nearly Rs. 2-1-0 a month. A special report may be necessary and would involve an additional expenditure of Rs. 12/- or more per annum. On the whole I am of opinion that it would be more convenient and desirable in every way to open the VI standard in this school and employ for the purpose an additional teacher on Rs. 35-1-0-1-30-1-30 per annum.

(True Copy)

For Inspector-General of Ref. Schools

Copy of letter No.1256/25 dated 30th April 1926 from the Superintendent, Reformatory School, Chingleput

In reply to your Memo No.3799, dated the 15th April 1926, I have the honour to state that there are now 220 boys in the literary section of this school. The following comprise the teaching staff.

- 1 Headmaster
- 5 Assistant Masters
- 1 Drawing Master
- 1 Hindustani Munshi

There are now 31 boys in the V Standard. The majority - if not the whole - of them are likely to obtain Elementary School Leaving Certificate in December next and will be fit for promotion to the VI Standard in January next.

For the reason set out in para 3 of my Endorsement No.1256/25, dated 28-1-26, it will not be convenient to send these boys to one of the local schools. Of the two local High Schools, one the Native High School is situated about a mile from the Reformatory School. In the other the U.F.C.M. High School which is within easy distance religious instruction in the Christian doctrine is made compulsory for all pupils irrespective of caste or religion. It will not on that account be possible to send our boys to that school.

The fees charged in the two High Schools for the VI Standard are Rs.23-12-0 a year or nearly Rs.2/- a month. A special peon as escort may be necessary and would involve an additional expenditure of Rs.12/- or more per mensem. On the whole I am of opinion that it would be more convenient and desirable in every way to open a VI Standard in this school and employ for the purpose an additional teacher on Rs.35-12-50-1-60 per mensem.

For Inspector-General of Reformatory Schools.

Law (Edn) Dept

The Superintendent of the Reformatory School has furnished the information desired by Finance. In the Superintendent's letter it is stated ^{that} the boys now in the fifth standard will be fit for promotion in January next. It ^{will} then suffice if the sixth standard is opened from January 1927. In his letter in the current file, the I.G., however, stated that the additional standard should be opened from 1st April 1926. He may be requested ^{to} specify the date from which the new teacher will be required.

p. 3 CF

p. 7 ante

Z p. 3 ante

p. 6 ante

The proposal is to provide facilities for the higher education of pupils in the Reformatory School up to the middle school standard. The sixth standard is to be opened this year as there are 12 boys fit for promotion to the vi standard. This involves the employment of an additional teacher am Rs 35-60 in the school.

2. With reference to the suggestion to send the boys to some of the local schools, the Supot. of the Reformatory School states that it will not be convenient to send the boys to one of the local schools. The I. G. has not forwarded the Supot's letter explaining his reasons for this. Of the two High Schools, one is reported to be a mile off and in the other religious instruction in the Christian doctrine is made compulsory for all pupils. The fees for each pupil are reported to be Rs 23. 12. 0 a year and a peon is stated to be necessary to escort the pupil to and from the school.

3. If it is considered necessary to provide facilities for the higher education of these pupils, two courses are open - to send them to one of the local High Schools or. to open the higher standards in the Reformatory School.

the average extra cost of appointing a teacher on Rs 35-60 is Rs 570 per annum.

The cost of granting scholarships for 12 boys ^{to cover the fees} and the cost of a person (assuming this is necessary) will be Rs 465 per annum.

The number of boys in the V Standard is reported to be 31 at present. Consequently, more boys will be fit for promotion to the VI standard hereafter.

As the J. G. and the Law depts. recommend the proposal to open the VI Standard in the Reformatory School itself, it is for consideration whether Finance may agree to the proposal. If so, the additional teacher may be sanctioned on a temporary basis for the present.

4. The scheme is an item of new expenditure not provided in the current year's budget and would ultimately involve the opening of standards vi to viii. It should therefore be placed before the Finance Committee. The Law dept. may be requested to prepare the necessary note for the Committee.

The proposal may be accepted in Finance; but for reasons

given in para 4 above it should be placed before the Finance Committee. 27.6.26

Scheme for introduction in the current year
by reappropriation.

Subject: Opening of the sixth standard in the Refor-
matory School, Chingleput

Note by the Education Department

Item of expenditure	Ultimate cost per annum.	cost during the year 1926-27
	Rs.	Rs.
Employment of an additional teacher on Rs.35-60 in the school.	570.	245

2. The Reformatory School, Chingleput, has at present classes up to and inclusive of the fifth standard of an elementary school. It often happens that boys in the school who have completed the course in the fifth standard have to remain in the school for some years to complete their period of detention. The Director of Public Instruction and the Inspector-General of Reformatory Schools consider that facilities should be provided in the school for the further education of such boys and that for the present the sixth standard may be opened in the school. This will necessitate the employment of an additional trained teacher of the secondary grade (i.e. S.S.L.C. trained) on Rs.35-60. As there are 12 boys at present who are fit for promotion to the sixth standard, the additional teacher may be employed from the 1st August 1926. The extra expenditure on this account during the current year can be met ~~from~~ ^{by} re-appropriation.
