It is observed that ⁽²⁾ *are likely to* large savings occur in the provision made in the current year's Budget Estimates for "subsidies to local bodies" as indicated below:-

I t e m s.	Provision for 1924-25. Rs	Amount of savings Rs
1. Subsidies for the maintenance of secondary schools	7,56,200	60,000
2. Subsidies for secondary school buildings	1,50,000	60,000
3. Subsidies for elementary school buildings	1,00,000	94,000

2. The following amounts have been provided ~~in~~ ^{first edition of the} in the next year's Budget Estimates for 'subsidies to local bodies':-

I t e m s	Provision for 1925-26. Rs
1. Subsidies for the maintenance of secondary schools	8,77,500
2. Subsidies for secondary school buildings	1,50,000
3. Subsidies for equipment of secondary schools	15,000
4. Subsidies for elementary school buildings	43,200

The D.P.I. may be requested u.o. to take the necessary steps to see that the full amounts as noted above are spent ⁱⁿ ~~over~~ the course of the next year. *As a preliminary he may be requested to* ^{also} *investigate the causes which have led to the* ^{cur} *expenditure in the current year and to* ^{8th} *report what steps he proposes to take* ^{27.2.25} *to prevent a recurrence of those causes.*

U.O. Reply No. 508 B/25

Causes which led to the surrenders in the ~~last~~ current year of subsidies for the maintenance of secondary schools and for secondary school buildings.

(1) Subsidies for the maintenance of secondary schools. Savings under this head amounted to Rs.60,000/- due to the increase in fee receipts during the year. The total increase in this respect for the previous year was Rs.66,141. Attention is invited to para 6 of the Director's letter R.C.No.1091 B/24 dated 18-12-24.

(2) Subsidies for secondary school buildings. If the sanctioned schemes had been completed ~~the~~ during the year the whole allotment would have been utilised. The actual payment of provincial subsidy depends upon how far the local bodies are able to find their own share of the cost of the buildings. Some local bodies on account of their financial position depend upon loans from Government for their share of the cost. If the loans are not sanctioned the work is not carried out. Further, dilatoriness on the part of local bodies has been answerable for failure to execute sanctioned works in time. At least one local body did not try to execute the work, ^{but} which sought to revise the sanctioned scheme.

(3) Steps proposed to be taken for utilisation in full of the current year's allotments.

The fixed subsidies already recommended to Government and the adjustment of net cost for 1924-25 roughly calculated at 25 per cent of the fixed subsidy will cover Rs.8 lakhs. The

balance

The balance of about Rs.70,000/- is required for the schemes included in Part II, for the schemes not so included but since recommended to Government and sanctioned by Government for which funds have to be found from anticipated savings. There are also a few schools for which subsidies have not yet been fixed. If after taking into account all these cases there is still any balance left under the above head further proposals will be submitted to Government.

Regarding the full utilisation of the current year's allotment for buildings it is submitted that the only action that can be taken by this office is to circularise the local bodies concerned urging them to carry out the work without delay so as to be eligible to receive the provincial subsidy before the close of the current year. I have already asked them about progress of works and local bodies will be reminded from time to time.

Under the head of equipment the provision for the current year is Rs.15,000/- only, while the cost of the schemes received so far exceeds Rs.24,000/-. The whole allotment will be utilised in the current year. The distribution statement will be submitted to Government shortly.

(4) Elementary Education. Subsidies for elementary ~~education~~ school buildings. Attention is invited to the D.P.I's letter R.C.No.636 B/24 dated 23-10-1924 and to G.O.No.2014 Press Law (Education) dated 27-12-24 sanctioning a sum of Rs.47,954. As the sanction was received late in the year and as the grants are to be paid on the post payment system an expenditure of Rs.6000 only was incurred out of the sanctioned grant.

As regards the utilisation of the current year's provision of Rs.43,200 the D.E.Os will be instructed to advise the local bodies to complete the buildings as early as possible so as to enable them to draw the grants sanctioned in the G.O. quoted above.

U.O. Note. No 585 B-2. D. 15. 6. 25

In some years the provision made in the budget for subsidies to local bodies for secondary and elementary ~~education~~ school buildings and for building grants for ~~aid~~ aided schools had not been fully utilised and large surrenders had occurred. For example, in the provision made in the year 1924-25 for subsidies for secondary and elementary school buildings, saving aggregating Rs.1,54,000 were left. The attention of the Director of ~~Public~~ ^{Public} Instruction was invited to this in this department U.O. note No: 585 B-1 dated 4-3-25 and he was requested to investigate the causes which led to the surrender and to take the necessary steps to prevent a recurrence of those causes.

2. The following amounts ^{have} been provided in the budget for 1925-26 for subsidies to Local Bodies for secondary and elementary school buildings and for building grants, for aided institutions.

U.O.Reply No. 508 B/25-8 13-7-25

The U.O. reference quoted in para 1 of the present Secretariat note was replied to in my U.O.No.508 B/25 dated 5th July 1925. As regards the expenditure so far incurred out of the allotments for the current year, nothing has been spent so far out of the allotment for buildings for Board and Municipal Secondary schools. As to the allotment of Rs.15,000 for payment of subsidies for equipment for Board and Municipal secondary schools, a sum of Rs.903 has already been spent and the distribution statement for the balance amount will shortly be submitted to Government.

With regard to Elementary Education, subsidies to local bodies for buildings, attention is invited to para 4 of my U.O. reply quoted above. The provision ^{utilised} for equipment has been ~~utilised~~ in full towards the equipment of new schools opened in G.O.No.877 I.E., dated 23-5-1925.

As regards grants-in-aid for secondary school buildings, an expenditure of Rs.31,311 has been incurred so far and I anticipate that the allotment will be utilised in full. As regards equipment, expenditure of Rs.24,000 has already been incurred and the allotment under this head may be insufficient to meet the demands in full.

As regards Colleges, an expenditure of Rs.46,000 has been incurred so far and the allotment under this head will probably be insufficient to meet the demands in full this year. For equipment Rs.13,649 has so far been incurred and I anticipate that the allotment will be utilised in full.

For convenience I give a tabular statement to indicate the present position:-

Law (Education) department.

Reference was made to the D.P.I. on the following points : --

- (i) The causes that led to the large savings of funds provided for subsidies to local bodies in 1924-25;
- (ii) the steps he proposes to take to prevent a recurrence of these causes;
- (iii) the amounts ~~so far~~ ^{expended} ~~received~~ in the current year in the payments of subsidies.

The Director of Public Instruction has now submitted his replies to the above references and they are summarised below.

I Subsidies for the maintenance of secondary schools.
1924-25. - Savings - Rs. 60,000.

The Director of Public Instruction explains them to be due to the increase in fee receipts. As the subsidies are granted on the net cost system generally the D.P.I. was apparently unable to anticipate ~~them~~. From 1925-26 onwards it is proposed to introduce the fixed subsidy system, it is not likely therefore that this variable income from fees will affect it.

1925-26 Revised Rs. 8,77,500 — The remarks of the D.P.I. are : --

(a) Fixed subsidies, plus balance of net cost for 1924-25 would amount to Rs. 8 lakhs.

(b). Balance Rs. 70,000 is required for

- (1) Schemes included in Part II Viz. for the revision of salaries in secondary schools, the net cost of which is met by Govt. or towards the employment of addl. staff on the opening of higher forms.
- (2) Schemes not so included but since sanctioned by Govt. funds to be provided by reappropriation — the schemes sanctioned by Govt. have been included in the draft on fixed subsidies separately submitted.
- (3). Schools for which subsidies have yet to be fixed.

9
The D.P.I. has been asked to intimate the amounts for inclusion in the fixed subsidies.

(4). If any balance is still left the D.P.I. proposes to submit further proposals.

II Subsidies for Secondary School buildings - 1924-25

Savings - Rs. 60,000.

Causes of savings

Grant is disbursed on post payment system after the work is carried out.

(a) Financial inability of the local bodies to meet their share, some of them being dependant on loans from Govt. for the purpose;

(b) Dilatoriness in execution of the works.

1925-26 - Rs. 1,50,000

The D.P.I. considers that the only possible course is to circularise the local bodies to hasten the works. He has called for a progress report of the works.

The D.P.I. may be asked later on how far applications have been received for distribution of subsidies.

Nothing has been spent out of the allotment so far.

III Subsidies for equipment of secondary schools

1925-26 Rs. 15,000.

In Memo. No. 3000 B-3/24, dated 15-4-25 the D.P.I. was asked to consider all the applications for grants under this head and to submit proposals for sanction. D.P.I. now reports that applications for Rs. 24,000 have been received and a sum of Rs. 903 already spent. The D.P.I. promises to submit distribution statement for the balance shortly.

IV. Subsidies for elementary school buildings - 1924-25

- Savings - Rs. 94,000.

Reasons for lapse - sanction was received late in 1924-25 and only Rs. 6,000 could be distributed as the grant could be paid only on the post payment system.

1925-26

(i) School buildings - Rs. 42,200.

An expenditure of Rs. 4,225 has already been incurred out of this provision. Dist.Edl. Officers are also being instructed to advise local bodies to complete the buildings to enable them to draw the grants.

(ii) Equipment - Rs. 1,01,700

The amount has been spent in full.

V. Grants - Aided Secondary Schools.

(i) 1925-26 buildings - Rs. 2,02,100

An expenditure of Rs. 31,311 has been incurred so far and it is expected that the allotment will be utilised in full.

(ii) Equipment - Rs. 50,000.

A sum of Rs. 24,000 has been spent. The D.P.I. anticipates that the allotment will be insufficient.

VI Grants for aided colleges.

(i) 1925-26 - buildings - Rs. 1,57,800

A sum of Rs. 46,000 has already been spent and the D.P.I. doubts whether the provision will be sufficient.

(ii) Equipment Rs. 1,46,500

Expenditure so far amounts to Rs. 13,649

Balance is Rs. 1,32,851 It is expected that it will be fully utilised.

In regard to the provision of Rs. 1.50 lakh in the current year's budget for the payment of subsidies to local bodies for the construction of secondary school buildings, the D.P.I considers that the only possible course to ensure the utilisation of the full amount is to circularise the local bodies to hasten the execution of the works. He has also called for a progress report of the works. As regards the provision of Rs. ^{43,200} ~~15,000~~ for the payment of subsidies for the ~~equipment~~ construction of elementary school buildings, the ^(D.P.I. says that) ~~Dt. Edl. Officers~~ ^{will be} ~~are~~ instructed to advise local bodies to complete the buildings to enable them to draw the grants. In circularising the local bodies, the Director may be asked to obtain definite information from them as to the amounts which they propose to spend in the current year on works for which provision has been made and the grants which they would expect from the Govt. ~~on those works.~~ ^(from the local bodies) He may also be asked to obtain ~~similar~~ ^{the expenditure they are likely to incur and the} information as regards the grants that may be required during the next year on works already started in the current year or ^{on} new works that may be taken up in the next year, and to submit definite proposals for inclusion of necessary provision for the purpose in Part II of the Budget Estimates for 1926-27.

2. As regards subsidies for the equipment

The Director may be requested to obtain similar information from managers of private schools as regard building grants.

12

of secondary schools, the D.P.I was asked in Memo: No.3000 B-2/24 dated 15-4-24 to consider all the applications under this head and to submit consolidated proposals for sanction. The Director now reports that applications for subsidies exceeding Rs.24,000 have been received and that a sum of Rs.903 has been already spent. He has promised to submit a distribution statement for the balance shortly. He may be requested to expedite it.

3. The Director may also be requested u.o. to submit about the 30th September next another progress report in respect of the expenditure expended up to that date out of the amounts provided in the current year's budget on account of the several items referred to in Govt.u.o. note No.585 B-2 dated 15-6-25.

Item	Provision in 1925-26	Amount spent up to 30-9-25	Amount required.
1.(a) Subsidies to local bodies for secondary school buildings-	1,50,000	nil	From the reports received from the local bodies, it is observed that a sum of Rs.57,000 will be required in 1925-26. This is exclusive of the amount required by the District Board, Malabar, which has already incurred an expenditure of Rs.19,770 but whose schemes have not been sanctioned yet by Govt.
(b) Subsidies to local bodies towards the equipment of secondary schools	15,000	903	Proposals have been submitted to Government in the D.P.I's letter R.C. No.1177 B/25 dated 2-9-25 for the utilisation of the entire balance.
2.(a) Subsidies to local bodies towards the construction of elementary school buildings.	70,940 including Rs.27,740, the supplement grant voted by the Legislative Council (G.O.No.1622 L.E. dated 16-9-25)	11,652	A sum of Rs.15,000 will be required towards the building schemes sanctioned in G.O.No.2014 L.E. dated 27-12-24. A few local bodies have reported their requirements. The progress of the building schemes sanctioned in G.O. No.1622 L.E., dated 16-9-25 cannot be gauged now.

2. Subsidies to local bodies for secondary school building

No amount has been spent up to 30-9-25 out of the current year's provision of Rs. 1.50 lakhs. It is observed that, so far as ^{can} ~~could~~ be foreseen at present, only Rs. 76,770 will be spent during this year. ^{If the orders} ~~are~~ are issued on some of the files allowed to lie over ~~the main budget of the~~ pending settlement of the general question, a portion ~~of the balance may be utilized. The files are~~ ^{separately.} ~~in 1924-25, about~~

Rs. 60,000 lapsed out of the provision of Rs. 1.50 lakhs. The D.P.O. has stated already that the only possible course to ensure the utilisation of the full provision is to circularise the local bodies to hasten the execution of the works. He has circularised them already; and if they do not take advantage of

Law (Edy)

From the statement on p. 21 ante, it will be observed that the progress of expenditure under "building and equipment grants to aided ^{Colleges} schools" and "equipment subsidies to local bodies for ^(secondary &) primary education" is ~~quite~~ satisfactory. Remarks are called for on the items relating to subsidies to local bodies for buildings for secondary and ^{for} elementary schools ~~buildings~~. The following statement compares the provision made and the expenditure ^{incurred} on account of these subsidies during the years 1924-25 and 1925-26 :-

Item	1924-25		1925-26			
	Provision Rs.	Expenditure (Actuals 24-25) Rs.	Provision (p. 21 ante) Rs.	Exp't to 30.9.25 (p. 14 ante) Rs.	Exp't to 1-1.26 (p. 21 ante) Rs.	Exp't to 31.3.26 (p. 21 ante) Rs.
(1) Secondary school buildings.	1,50,000	68,202	1,48,658	Nil	5,000	73,600
(2) Elementary school buildings	1,00,000	7,637	70,940	11,652	12,700	29,200

under instructions from Govt, the D.P.O. has ~~again and again~~ circularised local bodies and impressed upon them the necessity for the early execution of the work.

that they may draw
so ~~as to receive~~ the subsidy before the
close of the year. In spite of ~~this~~
this, ~~it should be noted that~~ ^(more than) one-
half of the provision made for these
~~the kind of~~ ^(for buildings) subsidies will remain
unspent at the close of the year.
