Law (Education) Department.

Under rule 59 of the *Grant-in-aid* code, if a school is closed within five years from the date on which a grant for equipment is drawn, the Government may purchase the articles towards the supply of which the grant was given at a valuation made by an officer deputed for the purpose. Thus, the claims of Government in respect of equipment grants extend for five years; if an institution is granted only temporary recognition and if there is no reasonable prospect of the recognition being continued for at least five years, there may not be justification for sanctioning a grant for equipment to the school. *Furniture grant may not therefore be sanctioned to schools temporary recognition.* The D.P.I. may be consulted u.o. as to the reply to be given to the question.

Clause (a): Furniture grants are given to schools temporarily recognised if their ineligibility is due solely to defects in equipment and if there is a probability that the school will fulfil the conditions required for permanent recognition;

Clause (b): The departmental officers after local inspection have reported that the management of the school was unreliable, the work most irregular and unsatisfactory and that the school did not deserve recognition and financial support.

clause (a). the answer proposed by the D.P.S. may be accepted as amended in pencil.

clause (b). with reference to a similar question asked by the same M.E.C., the D.P.S. has proposed the reply that "the question of grant for equipment was deferred until the school was permanently recognised". It seems better to give this answer here also instead of the answer suggested at A above.
