Resolution.

1. That this Association notes with regret the entire neglect on the part of the Municipality in the matter of laying out roads in the Maravaneri extension, causing no small inconvenience not only to the residents therein, but also to the general public who have to go to the Salem Town Railway station; and humbly request the Government to take immediate steps and direct the Municipality to carry out the improvements contemplated in the Town Planning

scheme

5/9/25.

at once, in as much as from the Maravaneri extension a large sum has been collected these years and the Municipality has not agent a single pie for this extension for any purpose.

2. That this Association strongly disapproves of the proposal of the Municipality to breach the "Chuckler's" tank for the purpose of constructing the College building thereon, as it is likely to considerably lower down the water-level of the surrounding and adjoining villages of Shevapet, Arisipalayam, Sivawampuram extension, Maravaneri extension, Salem Fort, Perambur, Padur etc., and it would immensely make the sufferings of the people of these places acute by making the wells dry and deepening useless.

3. That this Association strongly protests against the action of the Municipality in borrowing a large sum of money to acquire and breach the "Chuckler's" tank, while the College Hostel grounds are extensive and central, and would involve only a small cost.

Ed
15/12

The Chairman, M.C., Salem, has proposed that the building may be located on the bed of the Chuckler's tank (to be breached) by breaching the same instead of on the college hostel ground as originally proposed. An extract (para 2) of a Resolution passed by the Rate Payers' Association, Maravaneri Extension, Salem, protesting against the proposal is also enclosed.

2. The CE (R&B) is requested to submit as quickly as possible a report as to the suitability of the site for building purposes & the disposition of the Rate Payers' Association. The officer deputed to inspect the site should obtain from the C.E. any papers bearing on the subject.

**PROCEEDINGS
MEMORANDUM**

OF THE Chief Engineer, P.W.D.

Post Box No. 410 Telegraphic Address C.E.

Name W.G. Molesworth, Esq. Offg. Chief Engineer, P.W.D.,
Roads & Buildings.

No. 3995 Wks, dated 11th March 1926
25-2

Short title New Municipal College, Salem - Site proposed - Chuckler's
Tank Bed.

READ the following:—

From the Superintending Engineer, Coimbatore Circle, No.292W/
301-N, dated 25th February 1926.

From the copy of the letter No. 2283-M dated 6th November 1925
from the Executive Engineer, Salem, to the Chairman, Municipal Council
Salem, received with the Superintending Engineer's letter quoted above,
it is observed that the surplus works of the Maravaneri Tank lower
down the Chuckler's Tank need extension, even if the latter tank exists
as now and that the necessity for the extension arises all the more,
if the Chuckler's Tank bund be breached and its supply channel diverted
direct into the Maravaneri Tank, as proposed by the Executive Engineer.

Further it is noted that the tank under question is a 'Mittah'
tank and that the scheme needs investigation financially and compared
with other suitable sites, as the Municipal body is likely to apply
for a grant-in-aid for the acquisition of the site.

The Superintending Engineer is therefore requested to call for a
report from the Executive Engineer in consultation with the Revenue
and Municipal Departments on the following points:—

- (1) The extent of irrigable ayacut, if any, under the Chuckler's
tank,
- (2) The compensation likely to be claimed by the ayacutdars by the
conversion of their wet fields into dry lands and that for
other interests affected;
- (3) The approximate cost of acquisition of the portion of the bed
required, diversion of channel, proposed culverts, drains etc.
- and (4) Whether the owner of the Maravaneri Tank is prepared to finance
the extension of the surplus works therein, and, if not, what
provision there is to enforce it.

This reference should be treated as urgent.

Station Madras Dated the 26th July 1926. 192

From (Name) R.G. Grieve, Esq., M.A., F.R.G.S.,

(Designation) Ag. Director of Public Instruction

To The Secretary to the Government of Madras

Law (Education)

Department.

Sir,

In G.O.No. 122 Law (Education) dated 27th January 1925 a subsidy not exceeding one half of the cost or Rs.122,000/- whichever is less was sanctioned on the post payment system towards the construction of a new building for the Municipal College, Salem. The construction of the building is being delayed on account of the question of site.

2. Recently I inspected the proposed new site in company with the Hon. the Minister for Education and the Chairman of the Municipality. There is a conflict of opinion in Salem itself regarding the site and it is understood that a small majority of the Municipal Council is in favour of reversion to the old site which was acquired

To the Secretary to the Government of Madras
Law Department
Subject: Municipal College, Salem
Construction of new building - question of site

13
for the college. The new site is in an open space - a tank bed - and comprises just over 30 acres. There are, however, complications. It will be necessary to breach the tank and to compensate the tenants under the ayacut. There is also the statement that the level

M of the wells in Salem town would be affected owing to the ceasing of percolation from the tank to the wells. It has to be remembered that there is great water scarcity in Salem and if the above statement is true it is a serious objection to the scheme. Again it is proposed

to purchase the new site by selling the previously acquired site for building purposes. To this proposal exception has been taken on the ground that the old site which is near the centre of the town should not be built upon except for college purposes and should be preserved as a lung for the city. Another point to be taken into account is that building operations would be much cheaper on the old site than on the new. The new site is mostly loose black cotton soil and the foundations would have to be dug very much deeper than on the old site. Further at either end of the old site extension would be possible.

3. Moreover the college hostel is at one side of the old site and consequently would be conveniently near the new college buildings. On the whole I am of opinion that the balance of advantage is in favour of the old site.

It is true that the old site is smaller since it has only 11 acres. But if the old market were included the site would be 16 acres and open for expansion on the northern and Southern sides. Objection has been taken to this site on the ground that the Cinema Theatre adjoins the site. But I do not think that this is necessarily a strong objection.

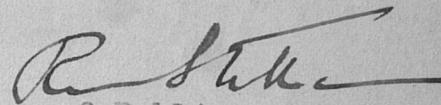

4. I may also state that keeping to the old site probably means that it will be possible to provide the new buildings at an earlier date than will otherwise be the case

14
3. because if the new site is taken there will be complications with the Revenue Department and also cases before the court in regard to the claims for compensation from the various cultivators under the ayacut.

I have the honour to be,

Sir,

Your most obedient servant,

for Director of Public Instruction.

MEMORANDUM.

No.3995 Wks/25-4, dated 5th August 1926. 9-AUG1926

Read:--

From the Superintending Engineer, Coimbatore Circle, No.1004W dated 20th July 1926.

Municipal College - Salem - Site proposed - Chuckler's Tank.

The plans received with his letter read above are returned herewith for furnishing the information required in the second para of this office Memorandum No. 3995Wks/25-2, dated 11th March 1926.

The G.O.No. 122 Law (Education), dated 27th January 1925 sanctioning the Municipal College Scheme for Rs. 2,44,000/- provides no compensation for land. It should be ascertained whether the site shown in plan C.A.No.19/1921 approved in the above G.O. is a Government paramboke and if not, whether it will not be cheaper to acquire same in view of the Chuckler's Tank site being very costly.

Other suitable sites should be examined as to their relative costs. Under Section (d) in Appendix VIII Rule 52 of the Grant-in-Aid Code, the cheapest suitable site should be chosen.

W.G.Molesworth,
Offg. Chief Engineer, P.W.D.
General, Roads and Buildings.

To the Superintending Engineer, Coimbatore Circle.

ENDORSEMENT No. 3995 Wks/25-5 dated 5th August 1926.

Copy of the above Memorandum submitted to Government for information with reference to Government Memorandum No. 7754 C-1 dated 15th December 1925 and in continuation of this Office No. 3995 Wks/25-3, dated 11th March 1926. The Superintending Engineer Coimbatore Circle, reports the cost of the Chuckler's Tank site to be approximately Rs. 76,000/- including compensation for the

Ayacutdars

Ayacutdars. He has been asked to examine and report on the suitability of other sites.

Salem Municipal Office,

Dated 26th August 1925.

D.O.

Dear Sir,

The Government in their Order No.122 Law (Education), Department dated the 27th January 1925, have sanctioned the construction of a new building for the Salem College at an estimated cost of 2.44 lakhs. The site originally selected for the same is the College Hostel grounds. This site is now considered -- unsuitable for locating the College as many draw backs with regard to it are now brought to notice. Among these may be mentioned the following; lack of ample space for play grounds, crowded and noisy surroundings, nearness to localities frequently infected by plague. Some of the Councillors are of opinion that the new building may conveniently be put up in the bed of the Chuckler's tank by breaching the same. This site is well suited for the purpose being isolated and affording ample facilities for sports. It is also otherwise suitable for the purpose. An educational Institution like a College at a cost of 2.44 lakhs should be considered as one of the permanent and important improvements to the town. The cost of acquisition of this site together with all connected expenditure as estimated by the Municipal Engineer is roughly Rs 75,000 and it is not likely to exceed a lakh at the most. The Council would feel very grateful to Government if the Government will be pleased to undertake to bear the entire cost of changing the site to the tank bed. I therefore request you to kindly let me know whether Government would approve of this scheme at this stage and whether they would be prepared to meet the cost abovementioned so as to enable me to place the subject before the Council before approaching the Government in the regular course.

Yours sincerely,

Chairman
Chairman

To

The Hon. Rao Bahadur Sir A.P. Patro Kt.,

Minister for Education,

Madras.

U.O. Reply No. 19013/25, 8-10-25

L-923198 C

cf.

Looking at the matter from the educational point of view alone a more spacious site would certainly be desirable but the matter has to be considered from other points of view as well, i.e. from the engineering and financial point of view and in the light of the resolution passed at the meeting of the rate-payers' association. As to the engineering point of view, in the course of conversation Mr. Molesworth, the Chief Engineer, mentioned that he was shortly visiting Salem. I mentioned this question to him and he informed me that he would call for the papers and consider the point in situ. As to the financial question it will be observed that acceptance of the Chairman's new proposal would involve a material increase in cost and the Chairman apparently wishes Government to commit themselves to an approval of the scheme and to a promise that provincial funds will meet the additional cost.

association's letter this seems to be a matter on which the opinion of the Collector should be sought.

R 99
8/10/25.

Law (Edn)

The estimate for the Salem College buildings to be constructed on the college hostel grounds is 2.44 lakhs. The Government have agreed to meet half the cost (1.22 lakhs) vide G.O. No: 122 Ed, d/27.1.25. The college authorities have suggested in another connection that the accommodation provided in the plan is insufficient and that it will be necessary to provide for a few more rooms. Plans and estimates for the additional accommodation suggested have not been received yet. In any case the suggestion will involve additional expenditure and the Government will probably have to meet a moiety of the extra cost.

(D)

File in L.I.B.

p. 1 anti

The alleged drawbacks of the hostel grounds may be real. The Chairman's D.O. at page 1 ante shows that the ^{acquisition} ~~requisition~~ of the Chavakkal and travelling it up may cost 2 lakhs and

to be found by the Government. The question is whether the Government will be prepared to fund this expenditure of one lakh in addition to the 1.22 lakhs they have promised and in addition to the extra subsidy which may possibly have to be paid in the event of its being found necessary to provide for additional rooms. There is also the objection of the Rate-Payers Association to the Chavakkal bank being acquired for college purposes. The Director suggests that the Collector be consulted on the objection raised by the Association. There is little purpose in consulting the Collector before

q. para 2 - p. 2, et.

p. 2 anti.

- (i) An assurance is forthcoming as to the suitability of the bank site for building purposes; and
- (ii) The Govt. decide on the question of financing the scheme.

As to (i) above, the Director says that the Chief Engineer has promised to go into the question on the spot. The Chief Engineer's report may be awaited. If it is not received by the 15th Nov. 1925 he may be reminded.

Acquisition of the site of the Chuckler's tank
for the construction of the new building for the
Municipal College, Salem.

.....

The Municipal Council, Salem, has proposed
that the site of the Chuckler's tank may be acquired
and levelled for the construction of ~~the~~ ^a new building
for the Municipal College. In offering his remarks
on the proposal the D. P. I. stated on the 8th October
1925 that it would be necessary to obtain the Chief
Engineer's views as to the suitability of the site and
that the Chief Engineer had promised to visit the
place shortly. The Chief Engineer may be requested
u.o. to say whether he ^{has} visited Salem and inspected
the site and if so, to furnish his remarks on the
suitability of the proposed site together with infor-
mation as to what it will cost approximately to ~~acquire~~
acquire the site and ~~the~~ level the ground.

Chief Eng. u.o.

I visited Salem but did not inspect
the site. There are no papers in my
office & on inquiry at Salem I
could find no correspondence connected
with this case in the Rtg. office

W.M.

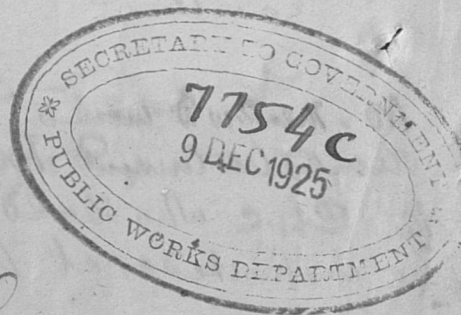

76
Chief Engineer's note on page 6 ante.

As the D.P.I. considers
that the question of acquiring
the brickers' tank for purpose
of the college buildings should

be examined from an engineering
point of view, the P.W.D.
may be requested to depute
an officer of that dept. to
inspect the site and offer his
remarks on its suitability.

The d. S. G. dept may be
requested to ask the Municipal
Council, Salem, to furnish the
officer with the papers
bearing on the subject.

Please see note of Law (Enr)
on the previous page. Orders have already
issued in P.W.D. that an officer should be
deputed to inspect the site and that
he should obtain the necessary papers
from the C.M.S. Salem. The previous
proposal having started on the Chairman's
own initiative there is no doubt that
he will render all possible assistance
to the S.P.L. office in the course of his
work. There is ^{therefore} no necessity for the
issue of any further instructions from the
Dept.

2. Meanwhile the financial aspect
of the question may be considered. The Chairman
is not aware about the cost of the acquisition.

plante.

Law and S.D. Dept

In Govt 122 of 27.1.25 the Government have promised the payment of a subsidy not exceeding Rs 1.22 lakhs towards the cost of construction of a new building for the Municipal College, Salem. In his DO on page 1 ante the Chairman stated that the site originally selected (College hotel ground) for the building was considered unsuitable and that some of the Councilors were of the opinion that the site known as the Chucker's tank bed was more suitable. The cost of acquisition of this site was estimated at Rs 75,000 and the Chairman wished to know whether the Govt would undertake to meet the entire additional cost before he placed the subject before the Council.

As the suitability of the site newly selected was in question, the Chief Engineer was asked to report on the subject. He has called for a report from the Superintending Engineer.

In the meanwhile the

along with the Honble the Minister and the Chairman has submitted a report on the subject. For the reasons stated in his letter he considers that the construction of the building on the site originally selected would be preferable.

In his letter on p. 15 of the Chairman states that the building Council ~~has~~ has resolved that the building should be constructed on the site originally selected and requests that further proceedings in regard to the acquisition of the Chucker's tank bed may be dropped.

The file may be sent to the S.P.D. for perusal of the Chairman's letter. On return the papers may be recorded after perusal by the S.D. and the Public Works Dept.
