CNo 2190 E/26

Subject:- Forecast of Europe Stores

The forecast of Europe ^{Stores} ~~Stores~~ for 1927-28 submitted by the Director calls for the following remarks:-

Revised Estimate for 1926-27

The revised estimate is less than the Budget Estimate for the current year by £.354. This is mainly due to the ~~fact~~ fact that the provision of £.151 for the Engineering School, Trichinopoly, was not utilised ~~for want of accommodation~~ and that the expenditure on equipment in the Presidency College, Madras, fell short of the budget provision. The revised estimate may be accepted.

Budget Estimate for 1927-28

The provision made for 1927-28 is less than that made for the current year, the decrease being due to the fact that no provision has been made for the purchase of stores for the Presidency College.

In the indent relating to the Engineering college a provision of £.1100 has been made for the purchase of laboratory equipment for the college.

In connection with part II schemes for 1926-27 the Director recommended that a provision of £.2956 might be made for the purchase of addl. laboratory ^{*} equipment for the Engineering College. It was decided that the expenditure should be spread over a period
