The humble appeal of the poor teachers of the Government Elementary schools for girls now transferred to local bodies praying for a motion in the next session of the Legislative council.

MOST RESPECTED AND HONOURED SIR,

We most respectfully beg to place before you the following grievances under which we have been struggling for the past few years, for a merciful consideration and for favour of espousing the cause of these humble servants, and bettering their condition before the expiry of your short and brilliant tenure of office.

1. We were formerly Government servants working in Government Elementary schools for girls and when these schools were handed over to local bodies in 1922 & 1924 we were also handed over to the management of local bodies, and still we are Government servants enjoying the benefits of pension from the Government at the end of our services even under these local bodies.

2. Most of us have put in from 15 to 25 years of service in Government employ and are just approaching retirement.

3. When all Government departments were reorganised on a Time Scale in 1921 and all the teachers in Elementary schools under Government were granted a Time Scale of pay of Rs. 20-1-30 for Lower Elementary Grade teachers, Rs. 25-1-50 for Higher Elementary Grade teachers and Rs. 30-30-2-50-1-60 for Secondary Grade teachers our cases were deferred for a future consideration.

4. When finally the transfer to local bodies was effected, our pay was neither reorganized on the same new Time Scales, nor the managers of local bodies requested to do so, nor any additional allotment sanctioned to local bodies in view of improvement of scales of pay of these poor teachers, who though remaining as Government servants having all their privileges, except unfortunately only the new scales of pay.

5. So all of us are now drawing the poor rate of pay that we drew 5 years ago and in some cases we have been asked to go to a lower rate of pay than that which we drew on 1st March 1921, even though several statements on our behalf were called for by the department with a view to sanction the new Time Scales of pay. f. e.

6. Under the existing circumstances we are half starved though responsible to carry on the arduous task of improving female education in this country which is an imperative need as you are all well aware even though there are some rules in the C. S. R. to the effect that the prospects of these teachers should not be prejudiced by the change to local bodies.

7. We have further put in a memorial to the Government recently, a copy of which is enclosed herewith for your kind perusal.

8. We therefore humbly pray that you will be pleased to place before the council the necessity for granting the new Time Scale of pay to these humble servants also with effect from 1st March 1921 or kindly put forward the proposal to grant additional allotments to such local bodies to grant Time Scales of pay as in the cases of all other teachers of the Elementary schools now existing under Government management.

9. We earnestly hope and pray that you will be pleased to take up our cause and kindly see that the disabilities of these poor servants are removed in the matter of their pay and prospects and sincerely believe that you will accomplish this object before the expiry of your tenure of office full of brilliant and popular actions

For which act of kindness we shall ever pray.

We beg to remain,
Most Respected & Honoured Sir,
Your most obedient Servants.

THE HONOURABLE SIR A. P. PATRO Kt., B.A., B.L., M. L. C.
MINISTER FOR EDUCATION,
Government of Madras.

The memorial of the permanent teachers of the Government Elementary schools for girls transferred to the local bodies

MOST HONOURED SIR,

The memorialists most humbly and respectfully beg to submit the following for your favourable consideration and benign orders.

1. The memorialists were all formerly Government servants working as teachers in Government Elementary schools for girls.

2. They were assured of all the benefits enjoyed by Government servants including the payment of pensions on completion of service when all the Government Girls' schools were handed over to local bodies, some in 1922 and some in 1924.

3. Article 804 of C. S. R. states that prospects of such teachers will not be prejudiced by the change, but the memorialists sincerely represent that it has not been so in their case. | Only as to pa

4. The memorialists have all been permanent teachers of not less than 15 years of faithful service, and devoted the best part of their lives to the noble cause of education of Girls, and worked under most trying conditions.

5. At the time of transfer of management of girls' schools to local bodies, the grant of time scale of pay to these teachers was under contemplation, as in the case of all other Government departments and subsequently time scales of pay were sanctioned to all Government servants in Educational department including the teachers of Elementary Girls' schools now existing under Government management but the unfortunate memorialists were left out.

6. The memorialists had to rest content with the past low pay that they were receiving, without any prospective increment while some newly appointed officers in the same schools in which the memorialists are working were started on a time scale of pay, rising gradually to a maximum, and the memorialists, some of them, had to go back to a lower pay without any increment. | ?

7. The memorialists are neither Government servants enjoying the benefits of a time scale of pay with prospective pension, nor fully servants of local bodies, enjoying higher pay and benefits of Provident Fund.

8. The memorialists fully believe that if these schools continued under Government management, they would have been granted the time scales of pay as in the cases of all the staffs of Government educational institutions, and would have started in the new time scales from 1st March 1921 as in their case.

9. The memorialists further represent that they form only a handful of officers in the Presidency, comprising a dozen or even less from each district, and the granting of time scales of pay to them, will not put the Government to any great expense, if the Government were pleased to extend the same favour to them also. The additional expense involved by granting this concession to them would continue only for a few years, as most of the

memorialists have put in about 20 years of service and even more in most cases, and as they have only a few years of service before them prior to retirement.

10. The memorialists, had they continued under Government management, would have by now, advanced far up the time scale, and earned 3 or 4 increments, and would have heen above want as in the case of all other teachers in Government schools.

11. The memorialists further represent that since their schools have been handed over to local bodies, the Government may be pleased to grant additional subsidies to those bodies to enable them to introduce the time scales of pay for those permanent members on the staffs of the Government Elementary Schools for girls transferred to them so as to put them on a par with other Government Educational officers.

12. The memorialists earnestly pray for an early amelioration of their unfortunate position by granting the time scales of pay to them also according to the various grades of teachers, sanctioned in other schools and to give effect to it from 1st March 1921, enabling the memorialists to start in the time scale of pay at the stage at which the pay drawn by them on 1st March 1921, enters the new time scales of pay.

13. In conclusion the humble memorialists earnestly look forward for the restoration of equal treatment to them, as that shown to all other teachers of Government serv~~ants~~ice, and pray that this humble memorial may receive your early attention and be blessed with favourable orders.

We beg to remain,
Most Honoured Sir,
Your most humble memorialists,
The permanent teachers on the staffs of
Government Elementary Schools for

1. The memorialists were all formerly Government servants working as teachers in Government Elementary schools for girls.

2. They were assured of all the benefits enjoyed by Government servants including the payment of pensions on completion of service when all the Government Girls' schools were handed over to local bodies, some in 1922 and some in 1924.

3. Article 804 of C. S. R. states that prospects of such teachers will not be prejudiced by the change, but the memorialists sincerely represent that it has not been so in their case.

4. The memorialists have all been permanent teachers of not less than 15 years of faithful service, and devoted the best part of their lives to the noble cause of education of Girls, and worked under most trying conditions.

5. At the time of transfer of management of girls' schools to local bodies, the grant of time scale of pay to these teachers was under contemplation, as in the case of all other Government departments and subsequently time scales of pay were sanctioned to all Government servants in Educational department including the teachers of Elementary Girls' schools now existing under Government management but the unfortunate memorialists were left out.

6. The memorialists had to rest content with the past low pay that they were receiving, without any prospective increment while some newly appointed officers in the same schools in which the memorialists are working were started on a time scale of pay, rising gradually to a maximum, and the memorialists, some of them, had to go back to a lower pay without any increment.

7. The memorialists are neither Government servants enjoying the benefits of a time scale of pay with prospective pension, nor fully servants of local bodies, enjoying higher pay and benefits of Provident Fund.

8. The memorialists fully believe that if these schools continued under Government management, they would have been granted the time scales of pay as in the cases of all the staffs of Government educational institutions, and would have started in the new time scales from 1st March 1921 as in their case.

9. The memorialists further represent that they form only a handful of officers in the Presidency, comprising a dozen or even less from each district, and the granting of time scales of pay to them, will not put the Government to any great expense, if the Government were pleased to extend the same favour to them also. The additional expense involved by granting this concession to them would continue only for a few years, as most of the

memorialists have put in about 20 years of service and even more in most cases, and as they have only a few years of service before them prior to retirement.

10. The memorialists, bad they continued under Government management, would have by now, advanced far up the time scale, and earned 3 or 4 increments, and would have heen above want as in the case of all other teachers in Government schools.

11. The memorialists further represent that since their schools have been handed over to local bodies, the Government may be pleased to grant additional subsidies to those bodies to enable them to introduce the time scales of pay for those permanent members on the staffs of the Government Elementary Schools for girls transferred to them so as to put them on a par with other Government Educational officers.

12. The memorialists earnestly pray for an early amelioration of their unfortunate position by granting the time scales of pay to them also according to the various grades of teachers, sanctioned in other schools and to give effect to it from 1st March 1921, enabling the memorialists to start in the time scale of pay at the stage at which the pay drawn by them on 1st March 1921, enters the new time scales of pay.

13. In conclusion the humble memorialists earnestly look forward for the restoration of equal treatment to them, as that shown to all other teachers of Government servan~~ts~~ce, and pray that this humble memorial may receive your early attention and be blessed with favourable orders.

We beg to remain,
MOST HONOURED SIR,
Your most humble memorialists,
The permanent teachers on the staffs of

girls now transferred to local bodies.

To

M.R.Ry., N. Devendrudu Garu, M.L.C.,
Ellore.

The humble appeal of the poor teachers of the Government Elementary schools for girls now transferred to local bodies praying for a motion in the next session of the Legislative council.

MOST RESPECTED AND HONOURED SIR,

We most respectfully beg to place before you the following grievances under which we have been struggling for the past few years, for a merciful consideration and for favour of espousing the cause of these humble servants, and bettering their condition before the expiry of your short and brilliant tenure of office.

1. We were formerly Government servants working in Government Elementary schools for girls and when these schools were handed over to local bodies in 1922 & 1924 we were also handed over to the management of local bodies, and still we are Government servants enjoying the benefits of pension from the Government at the end of our services even under these local bodies.

2. Most of us have put in from 15 to 25 years of service in Government employ and are just approaching retirement.

3. When all Government departments were reorganised on a Time Scale in 1924 and all the teachers in Elementary schools under Government were granted a Time Scale of pay of Rs. 20-1-30 for Lower Elementary Grade teachers, Rs. 25-1-50 for Higher Elementary Grade teachers and Rs. 30-30-2-50-1-60 for Secondary Grade teachers our cases were deferred for a future consideration.

4. When finally the transfer to local bodies was effected, our pay was neither reorganised on the same new Time Scales, nor the managers of local bodies requested to do so, nor any additional allotment sanctioned to local bodies in view of improvement of scales of pay of these poor teachers, who though remaining as Government servants having all their privileges, except unfortunately only the new scales of pay.

5. So all of us are now drawing the poor rate of pay that we drew 5 years ago and in some cases we have been asked to go to a lower rate of pay than that which we drew on 1st March 1921, even though several statements on our behalf were called for by the department with a view to sanction the new Time Scales of pay.

6. Under the existing circumstances we are half starved though responsible to carry on the arduous task of improving female education in this country which is an imperative need as you are all well aware even though there are some rules in the C. S. R. to the effect that the prospects of these teachers should not be prejudiced by the change to local bodies.

7. We have further put in a memorial to the Government recently, a copy of which is enclosed herewith for your kind perusal.

8. We therefore humbly pray that you will be pleased to place before the council the necessity for granting the new Time Scale of pay to these humble servants also with effect from 1st March 1921 or kindly put forward the proposal to grant additional allotments to such local bodies to grant Time Scales of pay as in the cases of all other teachers of the Elementary schools now existing under Government management.

9. We earnestly hope and pray that you will be pleased to take up our cause and kindly see that the disabilities of these poor servants are removed in the matter of their pay and prospects and sincerely believe that you will accomplish this object before the expiry of your tenure of office full of brilliant and popular actions

For which act of kindness we shall ever pray.

We beg to remain,
Most Respected & Honoured Sir,
Your most obedient Servants.

4. The memorialists have all been permanent teachers of not less than 15 years of faithful service, and devoted the best part of their lives to the noble cause of education of Girls, and worked under most trying conditions.

5. At the time of transfer of management of girls' schools to local bodies, the grant of time scale of pay to these teachers was under contemplation, as in the case of all other Government departments and subsequently time scales of pay were sanctioned to all Government servants in Educational department including the teachers of Elementary Girls' schools now existing under Government management but the unfortunate memorialists were left out.

6. The memorialists had to rest content with the past low pay that they were receiving, without any prospective increment while some newly appointed officers in the same schools in which the memorialists are working were started on a time scale of pay, rising gradually to a maximum, and the memorialists, some of them, had to go back to a lower pay without any increment.

7. The memorialists are neither Government servants enjoying the benefits of a time scale of pay with prospective pension, nor fully servants of local bodies, enjoying higher pay and benefits of Provident Fund.

8. The memorialists fully believe that if these schools continued under Government management, they would have been granted the time scales of pay as in the cases of all the staffs of Government educational institutions, and would have started in the new time scales from 1st March 1921 as in their case.

9. The memorialists further represent that they form only a handful of officers in the Presidency, comprising a dozen or even less from each district, and the granting of time scales of pay to them, will not put the Government to any great expense, if the Government were pleased to extend the same favour to them also. The additional expense involved by granting this concession to them would continue only for a few years, as most of the

memorialists have put in about 20 years of service and even more in most cases, and as they have only a few years of service before them prior to retirement.

10. The memorialists, had they continued under Government management, would have by now, advanced far up the time scale, and earned 3 or 4 increments, and would have heen above want as in the case of all other teachers in Government schools.

11. The memorialists further represent that since their schools have been handed over to local bodies, the Government may be pleased to grant additional subsidies to those bodies to enable them to introduce the time scales of pay for those permanent members on the staffs of the Government Elementary Schools for girls transferred to them so as to put them on a par with other Government Educational officers.

12. The memorialists earnestly pray for an early amelioration of their unfortunate position by granting the time scales of pay to them also according to the various grades of teachers, sanctioned in other schools and to give effect to it from 1st March 1921, enabling the memorialists to start in the time scale of pay at the stage at which the pay drawn by them on 1st March 1921, enters the new time scales of pay.

13. In conclusion the humble memorialists earnestly look forward for the restoration of equal treatment to them, as that shown to all other teachers of Government serv~~ants~~ice, and pray that this humble memorial may receive your early attention and be blessed with favourable orders.

THE HONOURABLE SIR A. P. PATRO Kt., B.A., B.L., M. L. C.

MINISTER FOR EDUCATION,

Government of Madras.

The memorial of the permanent teachers of the Government Elementary schools for girls transferred to the local bodies

MOST HONOURED SIR,

The memorialists most humbly and respectfully beg to submit the following for your favourable consideration and benign orders.

1. The memorialists were all formerly Government servants working as teachers in Government Elementary schools for girls.

2. They were assured of all the benefits enjoyed by Government servants including the payment of pensions on completion of service when all the Government Girls' schools were handed over to local bodies, some in 1922 and some in 1924.

3. Article 804 of C. S. R. states that prospects of such teachers will not be prejudiced by the change, but the memorialists sincerely represent that it has not been so in their case.

4. The memorialists have all been permanent teachers of not less than 15 years of faithful service, and devoted the best part of their lives to the noble cause of education of Girls, and worked under most trying conditions.

NARSAPUR TALUK BOARD OFFICE
DEC 22 1925

To

The Honourable Sir A.P.Patro,Kt.,B.A.,B.L.,
Minister For Education,
Government of Madras.

3c 22/12/25 32

Through

The President,Taluk Board,
Narsapur.

Most Respected and Honoured Sir,

I most humbly and respectfully beg to lay before you the following few lines for your kind and benign -- consideration.

I have been working as a teacher in the Government Girls' Schools for the last twenty years. I am at present the Head Master of the Board (formerly Government) Girls' School,Narsapur. Just before I joined this Narsapur school last time I was working as Telugu Pandit in the Government Middle School for Girls,Berhampore on Rs. 40/-. The Government Girls' School,Narsapur was transferred to the control of the Taluk Board in March 1924.

Ever since I joined this department I threw myself with heart and soul into the work before me and by my earnest work and enthusiasm in the several schools I was working I am proud to say that I earned a name and fame which is unrivalled in the history of Girls' Elementary Education in the circars. In support of my -- above statement I beg to enclose herein copies of remarks(which I have at present with me) made in the visitors' books and inspection reports of the several schools where I was teaching by Inspecting Officers as well as many officials not belonging to this department.

h9-379

In the trial period from December 1920 to February 1921 my pay was Rs. 40/- and I was drawing this pay even prior to - December 1920 and subsequent to March 1921 till almost I was reverte to the Government Girls' School,Narsapur from the Government Middle

School,Berhampore. On my reversion I was to draw Rs. 30/- only even though my average emoluments for nearly four years prior to leaving Berhampore amounted to Rs. 43/- per mensem including capitation allowance (now compensatory~~s~~ allowance.)

33

It was decided that teachers of my qualifications were to draw Rs. 25-1-50 in the Time Scale when in Government - Service and similar scale was recommended to the schools under Local Bodies and as such I should have drawn Rs. 40/- at least on my reversion to Narsapur School. But no Time Scale Orders - were passed and the pay was Rs. 30/- till the school was taken over by the Taluk Board. Had I continued to render service in Government Girls' Schools, I would have drawn Rs. 42/- as the initial pay on 1-3-1921 and my pay now would have been Rs. 46/-. As I am now drawing Rs. 37/- I am a loser of Rs. 9/- per month which amounts to about Rs. 400/- in all these three years.

Article 804 of the C.S.R. states that prospects of such teachers as myself would not be prejudiced by the change to Local Bodies but I humbly represent that it has not been so in my case. I may state here that I am the only man effected by the -- orders of not giving effect to the Time Scale of pay,as I am drawing less than what I used to draw during the trial period as well as long before and after that period. Whereas some others in whose case Time Scale is given effect to are drawing more and some others are now drawing as much as they drew during the trial period and nobody is drawing less like myself. When I was working in the --- Berhampore School and till I was reverted to this school many statements were called for by the department,so as to give effect to the Time Scale in my case also.

I learn that all teachers working in the now existing Government Elementary Schools for Girls, and in the Elementary schoo attached to the Government Training Schools,and also some of the Elementary Schools teachers working in schools transferred to Local

Bodies, have been enjoying the benifits of Time Scale.

I am not paying anything to the Board towards the Provident Fund nor has the Board ever paid anything on my behalf to the Government as pensionary contribution. Therefore I am --- entirely a Government Servant enjoying all the rights of Government servants except unfortunately the benefits of the Time Scale.

I beg to state that if my services are placed at the disposal of the Local Board it is not due to any of my --- fault but entirely it is the result of the transferring of the Narsapur school to the management of the Local Board. By this act which proved so harmful to my progress, I should not be denied the previleges of enjoying the Time Scale. Teachers who donot possess even the qualifications which I do possess, and some others who -- have not put in as much service as I do , are drawing much more pay than myself simply because they had the fortune to continue in an institution which is still continuing under Government.

Therefore, I humbly request either to provide funds to the Board to start me in the Time Scale of pay and give effect to it from 1-3-1921 as in the case of all other Government officers of the Educational Department. Or I request that arrangements may be made to take me back to any of the Government Model Elementary Schools attached to the Government Training Schools or transfer me to any Elementary Girls' School which is still continuing under Government so that I may enjoy all the benefits of Time Scale with effect from 1-3-1921 as enjoyed by teachers now working in the --- Government Elementary Schools.

I place all my grievances before you for a kind consideration as my case is more pitiable because I shall be retiring in a few years with no substancial pension behind me. Ever since my joining this department I earnestly worked for the enlightenment of the girls even at the risk of my personal comforts and turned out work which was never surpassed by anybody at any time in the department. Thus I have suffered much and am paid considerably a less -----

amount than what I should have been paid if complete justice had been done. Therefore it would be a boon to me if in my case Time Scale of pay would be given effect to from 1-3-1921, as I duly and justly deserve.

I therefore humbly appeal to your justice to -- consider my case and favour me by starting me in the Time Scale of pay at the stage at which the pay drawn by me on 1st March 1921 enters the new Time Scale of pay . As my old age is fast approaching when I will have to depend -- entirely on my pension which is the result of my faithful, streanous and loyal work turned out by me for 30 years, I deserve to receive full justice from you, for which act of kindness, I shall, as in duty bound, ever pray for your long life and prosperity.

I beg to remain,
Most Respected and Honoured Sir,
Your most obedient servant,
P. Satyanarayana,
Head Master.

"The school was started on the 7th November 1912; it --- contains at present 6 standards with 195 pupils on the rolls. P.Satyanarayana was appointed Headmaster; he has been working very hard to bring the school to a state of efficiency; he is enthusiastic in his working and devotes all his time and energies to the improvement of the school. The Assistants too -- have worked well under the guidance of the Headmaster. The dicipline and tone of the school are good; the children are - orderly and well behaved and they are also happy and interested in their work. The following were the results on the vernacular. Classes III,IV & V did very well on the whole. Reading of unseen passages was very fair, and answers were very fairly well expressed. Composition very fair; Recitation was well -- rendered with pleasing ragams.

It is already in a flourishing condition in spite of the fact that -- the accommodation is unsuitable and inadequate and the equipment poor at present. There were over 170 children present on both days."

" The work throught the school appears to be conducted on right lines. The dicipline is excellent, the tone good, the -- children are on affectionate terms with the masters. On every side there were indications of interest taken in the work by both masters and pupils."

The Headmaster is young and energitic and I was gratified to find there was hearty co-operation on the part of the subordinate teachers. The instruction appeared to me to be on the modern and up-to date lines.; and there was something on the whole --- atmosphere which indicates that the Govt. I have visited the school very casually and found the school in very satisfactory order, and the girls are under good discipline. The whole credit is due to the Headmaster P.Satyanarayana, who takes a very keen interest in the concern of the school. Visiting this school to witness the caronation day celebrations held there this day, I was very glad to find it is so very flourishing as it was. The tone and discipline maintained, I may note is on the whole very excellent. I have nothing to remark except that I have -- been pleased with what I have seen and heard.

Visited the Govt. Girls School, Ellore, this morning at ---- 8.A.M. It is indeed a very pleasing spectable, to find girls of different ages busy with their lessons and the school -- hall ringing with the music of Loyal Songs. The School is ---- kept neat and tidy. The Headmaster Mr.P.Satyanarayana is always conspicious with his presence, and he has a peculiar knack of keeping all school articles always spick and span and has a thorough mastery of his school~~x~~ discipline and control over the girls entrusted to his care. His method of training girls and his discipline are simply excellent . He is a typical Headmaster. Distinct credit is due to the Headmaster for the improvement made in the marale of the institution since he came here. One of the most interesting items that I have noticed -- during my inspection is the embroidary and lace-work done by -- some of the girls, which is very pleasing and reflects great -- credit on the Headmaster who has taken so much interest in the training of young girls to all the fine arts for which the suttle minds of the fair sex are easily susceptible.

I visited the Government Girls' School, Ellore, on the 14th July 1917, at the request of the Headmaster (P.Satyanarayana) who has been taking the best interest in the school. I may say that he devotes his attention heart and soul in the advancement of the girls in all directions. I am much pleased to hear the girls of IInd Form read and recite the verses of Nala charitra taught by their teacher, the Headmasterof the institution. They read in such a manner as to make the audience understand the meaning of the verse and with feeling so that one understands that they know the meaning well. I believe they attained such a stage of knowledge in Telugu prose as to understand any novel or newspaper article and they reached this stage by the sincere attention and care bestowed upon them by the Headmaster.

I am sorry to hear that he is a poor paid officer receiving the lowest salary of a newly entertained clerk just of his school. For the service he has put in this department, he would have been getting up after these 10 years service at least above R30 in any other department. I hope that educational authorities will be pleased to take this into their kind considerationand see -- that the Headmaster is given sufficient encouragement. I have heard very good reports of his character and ability.

Government of Madras.

NARSAPUR TALUK BOARD OFFICE
DEC 23 1925

Through

The Head Master,Board Girls School ,
NARSAPUR.

Sir,

I most humbly and respectfully beg to bring to your kind notice the following few lines for your benign consideration.

I have been working as a teacher in the Government Girls' Schools for the last 22 years. I am at present the 1st Assistant of the Board Girls' School(Formerly Government Girls' School) Narsapur. Just before I reverted as 1st assistant of this school,I was working as Headmaster of this same school on Rs. 30/- plus Capitation Allowance. The Government Girls' School, Narsapur was transferred to the control of the Taluk Board in March 1924.

Ever since I joined this department,I worked to the -- entire satisfaction of my superiors and the various Inspection Remarks of the various schools in which I worked bear testimony to my above statement.

In the Test Period from December 1920 to February 1921, I was drawing Rs. 30/- plus Capitation Allowance and I was ---- drawing this very pay till I was reverted as 1st assistant on 5-7-1922. On my reversion,I was to draw Rs. 21/- only even though my average emoluments for nearly two years prior to my reversion as 1st assistant amounted to Rs. 33/- including Capitation -- - Allowance.

It was decided that teachers of my qualification were to draw Rs. 20 - 1 - 30 in the Time Scale when in the Government Service and similar scale was recommended to the schools under Local Bodies and as such, I should have been drawing Rs. 36/- by this time.

Article 804 of the C.S.R. states that prospects of such teachers as myself should not be prejudiced by the change to Local Bodies. But I humbly represent that it has not been so in my case. I may state here that I am greatly effected by the orders of not giving effect to the Time Scale of Pay as I am drawing less than what I used to draw during the Trial Period as well as long before and after the Trial Peridd. Whereas ---- some others in whose case Time Scale is given effect to are ---- drawing more and some others are now drawing as much as they --- drew during the Trial Period and nobody is drawing less like --- myself.

I learn that the teachers working in the now existing Government Elementary Schools for Girls and in the Elementary Schools attached to the Government Training Schools and also --- some of the Elementary school teachers working in schools transferred to Local Bodies have been enjoying the benefits of Time Scale.

I am not paying anything to the Board towards the Provident Fund nor has the Board ever paid anything on my behalf to the Government as pensionary contribution. Therefore, I am entirely a Government Servant enjoying all the rights of Government Servants except unfortunately the benefits of the Time Scale.

I beg to state that if my services are placed at the disposal of the Local Board, it is not due to any of my -- fault but entirely it is the result of transferring of the ---- Narsapur school to the management of the Local Board. By this act which proved so harmful to my progress, I should not be -- denied the benefits of enjoying the Time Scale.

Therefore, I humbly request either to provide funds to the Board to start me in the Time Scale of pay and give effect to it from 1-3-1921 as in the case of all other Government -- officers of Educational Department or I request that arrangements may be made to take me back to any of the Government --- Model Elementary Schools attached to the Government Training -- Schools or transfer me to any Elementary Girls' School which is still continuing under Government so that I may enjoy all the benefits of Time Scale with effect from 1-3-1921 as enjoyed by teachers now working in the Government Elementary Schools.

I place all my grievances before you for a kind consideration as my case is more pitiable because I shall be retiring in a few years with no substantial pension behind me. Ever since my joining this department I earnestly worked to the satisfaction ofthe superiors.

I therefore humbly appeal to your justice to consider my case and favour me by starting me in the Time Scale of pay at the stage at which the pay drawn by me on 1-3-1921 enters the new Time Scale of pay. As my old age is fast approaching when I will have to depend entirely on my pension which is the result of my faithful, streanuous and loyal work turned out by me for thirty years and I deserve to receive full justice from you, for which act of kindness, I shall, as in duty bound, ever pray for your long life and prosperty.

I beg to remain,
Sir,
Your most obedient servant,

The humble representation of the permanent teachers of the Government Elementary Schools for Girls transferred to the Ellore Municipality.

Most Honoured Sir,

We most humbly and respectfully beg to submit the following for your kind and favourable consideration and benign orders.

1. We were all formerly Government servants working as -- teachers in Government Elementary schools for Girls.

2. We were assured of all the benefits enjoyed by Government servants including the payment of pensions on completion of service when all the Government Girls schools were handed over to local bodies in the year 1924.

3. Article 804 C.S.R. states that prospects of such teachers will not be prejudiced by the change, but we sincerely represent that it has not been so in this case.

4. We have all been permanent teachers of not less than 16 years and 25 also of faithful service, and devoted the best part of our lives to the noble cause of education of Girls, and worked under most trying conditions.

5. At the time of transfer of management of Girls schools to local bodies, the grant of time scale of pay to these teachers was under contemplation, as in the case of all other Government departments and subsequently time scales of pay were sanctioned to all Government servants in Educational department including the teachers of Elementary Girls Schools now existing under Government

and also to the Headmistress of this school, but we were left out.

6. These applicants had to rest content with the past low pay that they were receiving, without any prospective increment while some newly appointed officers in the same school were started on a time scale of pay, rising gradually to a maximum.

7. The applicants are neither Government servants enjoying the benefits of a time scale of pay with prospective pensions, nor fully servants of local bodies, enjoying higher pay and benefits of Provident fund.

8. The applicants fully believe that if these schools continued under Government management, they would have been granted time scales of pay as in the cases of all the staffs of Government Educational institutions, and would have started in the new time scales from 1--3--21 as in their case and would have now advanced far up the time scale and earned 3 or 4 increments as in the case of all other Government servants.

9. The applicants beg to represent to kindly favour them with the time scales of pay according to grade so as to put them on a par with other Government Educational officers.

In conclusion the humble applicants earnestly look forward for the restoration of equal treatments to them, as that shown - to all other teachers of Government service, and ~~pay~~ pray that this humble applicants may receive your early attention and be blessed with favourable orders.

The memorial of the permanent teacher of the Government Elementary School, Innispetta for girls transferred to the Municial Council - Rajahmundry.

Most Honoured Sir,

The memorialist most humbly and respectfully beg to submit the following for your favourable consideration and benign orders.

1. The memorialist was formerly Government servant working as teacher in Government Elementary Schools for girls.

2. He was assured of all the benefits enjoyed by Government servants including the payment of pensions on completion of service when all the Government Girl's -- schools were handed over to local bodies, some in 1922 and some in 1924.

3. Articles 804 of C.S.R states that prospects of such teachers will not be prejudiced by the change, but the memorialist sincerely represents that it has not been so in his case.

4. The memorialist has been permanent teacher of not less than 23 years of faithful service and devoted the best part of his life to the noble cause of education of girls and worked under most trying conditions.

5. At the time of transfer of management of girl's schools to local bodies, the grant of time scale of pay to me was under contemplation, as in the case of all other Government departments and subsequently time scales of pay were sanctioned to all Government servants in Educational Department including the teachers in Elementary Girls' schools now existing under Government management but the unfortunate memorialist was left out.

6. The memorialist has to rest content with the past low pay that he was receiving, without any prospective increment.

7. The memorialist is neither a Government servant enjoying the benefits of a time scale of pay with prospective pension, nor fully servant of local bodies enjoying higher pay and benefits of provident fund.

8. The memorialist fully believes that if his school continued under Government management, he would have been granted the time scales of pay as in the case of all the staffs of Government educational institutions and would have started in the new time scales from Ist March 1921 as in their case.

9. The memorialist further represents that teachers like him form only a handful of men teachers in the presidency comprising a dozen or even less from each district and the granting of time scales of pay to them will not put the Government to any great expense, if the Government were pleased to extend the same favour

to them also. The additional expense involved by granting this concession to them would continue only for a few years, as most of such teachers have put in about 20 years of service and even more in most cases, and as they have only a few years of service before them prior to retirement.

10. The memorialist had he continued under Government management, would have by now, advanced far up to the time scale, and earned 3 or 4 increments, and would have been above want as in the case of all other teachers in Government schools.

11. The memorialist further represents that since his school has been handed over to the council (R. M. C.) the Government may be pleased to grant additional subsidy to the council to enable R. M. C. to introduce the time scale of pay for me only a permanent member on the staff of the Government Elementary School of Girls Innispetta transferred to them so as to put me on a par with other Government Educational staff.

12. The memorialist earnestly prays for an early amelioration for his unfortunate position by granting the time scale of pay to him also according to the various grades of teachers, sanctioned in other Government schools and to give effect to it from Ist March 1921 enabling the memorialist to start in the time scale of pay at the stage at which the pay drawn by him on 1st March 1921 enters the new time scales of pay.

13. In conclusion the humble memorialist earnestly looks forward for the restoration of equal treatment to him as that shown to all other teachers of Government service, and prays that this humble memorial may receive

for girls excepting the schools in the Agency tracts and

p.1 of G.O. 1132 L&E 23.9.22 (E)

In his letter No. 434 C. dated 4-5-1922, the D.P.I. addressed the Govt. as follows in regard to the transfer to the control of local bodies of Government elementary schools for girls : -

" 2. With the introduction of the Madras Elementary Education Act of 1920 and the creation of the District Educational Councils I consider it desirable fo Government to withdraw so far as is possible from the direct control of elementary schools. The elementary schools in the Agency, the model schools attached to training institutions and such of the girls' schools as are likely to be converted into secondary schools or to form model sections of new training schools will have to be retained under Government control, but the remaining schools may be transferred to the local bodies, Government paying to these bodies annually subsidies which wil be approximately equal to the annual recurring cost of maintenance of these schools which is now borne by Govt".

"4. I have deferred the submission of proposition statements for the revision of pay of teachers in elementary schools for girls pending the settlement of the question of their transferto local bodies, and as soon as final orders of Government are passed on this proposal, I shall submit proposition statements in respect of those schools which will be retained under Government control".

2. Accordingly in G.O.No. 1132 Law (Education) dated 23rd September 1922 and subsequent orders , sanction was accorded to the transfer to the control of local bodies of a number of Government elementary schoo for girls excepting the schools in the Agency tracts an

a few schools in the plains which are to be developed ultimately into secondary schools for girls. Subsidies approximately equal to the annual recurring expenditure incurred from provincial funds are being paid to local bodies towards the maintenance of the schools. The teachers on the permanent establishments transferred with the schools are servants of local bodies, except for the fact that they continue to render ~~XXXX~~ service qualifying for pension from the general revenues.

3. Memorials similar to those in the current file have already been received by the Government and dealt with. In forwarding the memorials with his letter No. 2303-B dated 2nd November 1925 the D.P.I. observed as follows : -

The request of these teachers cannot now be con-"sidered, as it would throw extra cost on provincial "funds.".

The local bodies under whom the memorialists serve were accordingly informed that the Government were unable to sanction any additional subsidy towards the revision of the pay of the teachers, but that it ~~[illegible]~~ would be open to the local bodies to revise the pay of the teachers and ~~that~~ meet the additional expenditure from their own funds.

4. The memorialists state that some of them are paid a lower rate of pay than that drawn by them in March 1921. The D.P.I. may be asked u.o to investigate whether there has been any reduction in the permanent pay of the teachers and if so, to ask the local bodies to restore the full pay admissible to the teachers at the time of transfer of the schools.

As regards the memorials the scale of pay drawn by the permanent teachers at the time of transfer and taken into account in fixing the subsidy payable towards the maintenance of each school has alone to be reckoned. It is observed from the reports received from the Inspectresses that there has been a slight reduction in the permanent pay in the case of three teachers, one under the Taluk Board Dhone and the other two under the Taluk Board Ghumsur, subsequent to the transfer of schools to local bodies. In the case of the Taluk Board Dhone, the teacher was drawing Rs.22½ per mensem at the time of the transfer, but the pay has been reduced to Rs.22 per mensem subsequent to the transfer. It is reported that this question of reduction is under correspondence between the Inspectress and the President, Taluk Board. The pay drawn by the two teachers in the late Government Hindu Girls' School, Russelkonda transferred to the Taluk Board, Ghumsur was Rs.21 and Rs.16 per mensem each respectively, while the pay drawn subsequent to the transfer is only Rs.15½ per mensem and Rs.12 per mensem respectively besides an allowance of Rs.3 per mensem in lieu of Capitation allowance. No reason has been assigned for this reduction and the Inspectress will be asked to ascertain and report the circumstances under which the pay has been reduced.

2. While transferring the Government Girls' schools to Local Bodies, a sum of Rs.3 per mensem per

82

per teacher was taken into account in fixing the subsidy payable towards the maintenance of each school, for the payment of Capitation Allowance. Since the system of the payment of Capitation Allowance was abolished with effect from 1-4-23, the local bodies should utilise this amount in full towards the payment of Compensatory Allowance in lieu of Capitation Allowance or for the enhancement of the pay of teachers so as to compensate them for the loss of Capitation Allowance. It is observed from the reports received from the Inspectresses that many local bodies are paying the Compensatory allowance at a rate less than Rs.3 per mensem and a few local bodies viz., the Municipal Councils of Vellore, and the Taluk Boards, Tindivanam, Vriddhachalam and Chatrapur are not paying any Compensatory allowance. Such cases have also been brought to the notice of Government - please see Government Memorandum No. 1724 A-1 dated 2-6-'26 and Memorandum No.3611 A-1 dated 5-10-'25.

It is requested that Government will issue the necessary orders in this connection.

With reference to paragraph 1 of the D.P.I.'s letter on p. 3 ante, it is submitted that the taluk boards of Dhone and Ghumsur may be asked to report to Govt. at an early date the circumstances in which the substantive pay of the three teachers in question was reduced.

2. With reference to paragraph 2 on pages 3-4 ante it is for consideration whether a circular may be issued to all local bodies requesting them to pay the compensatory allowance in lieu of the capitation allowance at Rs 3 p.m to all the permanent teachers whose services ~~were~~ have been transferred to the local bodies. Subject to approval a draft order is submitted.

3. The file may be circulated to the Hon'ble M2 and H.E.

The D.P.I is enquiring into the circumstances for reducing the salary of teachers - The Dept may therefore await D.P.I.'s enquiries & report, instead of directly addressing the local bodies -
9/7/26

I think my hon. colleague has not realized that the D.P.I. is enquiring into one matter & is asking for orders of Govt. as to the other.

I should advise that the draft to Local Bodies be issued if my h.c. agrees.

My point is that the Govt. should not directly address the ~~D.P.I.~~ Local Bodies & my suggestion relates to the form of the ~~letter~~ Correspondence. This file was not circulated to L.S.G., it is therefore not regular. But the D.P.I. may ascertain & report the circumstances to Govt. – instead of Govt asking the local bodies to report on the circumstances.

With reference to His Excellency's remarks on p.6 ante, it is submitted that the two questions under discussion in this file are:--

(1) the reduction in the pay of three of the permanent teachers in Government elementary schools since transferred to the management of local bodies, and

(2) the non-payment of the compensatory allowance in lieu of capitation allowance or the payment thereof at reduced rates to some of the teachers.

2. Submitted that the D.P.I. is investigating question (1) above and asks for orders on question No.2. As regards the former, it is submitted that paragraph 2 of the draft has been amended by the Hon'ble M.2. He wants the investigation to be made by the D.P.I. who has already taken action in the matter - vide his note on p.5 ante, while H.E. would prefer the investigation to be made by the Local Bodies.

As regards the second question, it will be seen that paragraph 1 of the draft is in accordance with the instructions of H.E. the Governor on p.6 ante.

3. Submitted for orders whether the draft may issue as amended by the Hon'ble M.2.

Please see note of the Edn. dept on p. 7 ante which explains the position. No remarks are called for in regard to the second question relating to the non payment of compensatory allowance. Para 1 of the draft which deals with the is in accordance with the instructions of H.E. the Governor on p. 6 ante.

2. As regards the first question, the complaint is that certain local bodies have reduced the pay of some of the teachers subsequent to their transfer from Govt. control. What is now proposed is to call for a report of the circumstances under which their pay was reduced. The [illegible] therefore whether local bodies are asked to send their report or the D.P.I.? While para 1 of the draft is addressed to local bodies there is no harm in addressing para 2 also to them. But in as much as the D.P.I. is already taking steps in the matter the local bodies may perhaps be asked to send their reports through the D.P.I. This will also serve as a medium between the two courses suggested by the Hon'ble M

and His Excellency the Governor.
With these remarks the file may be returned to the Edn. department.

26.7.26
26.7.26

If the Local bodies are addressed directly in regard to both the paragraphs it is likely they would forward their reports promptly. If their reports are called for through the D P I it would obviate the necessity of referring them to the D P I for his departmental remarks and save time.
