Law (Education) Department.

Sir,

With reference to paragraph 3 of G.O.No. 1946 W. Public Works dated 21st December 1925 requesting the Director to explain why the estimate for the construction of masonry tank and channel for the Hydraulic Laboratory in the Engineering College, Guindy, was split up into two portions, I have the honour to inform Government that the different objects of the expenditure were not considered either by the Principal of the Engineering College or by the Director to form one single project representing a unity of intention as defined in Article 125 (V) of the Audit Code. The equipment of the whole laboratory included several items, for example, pumps, water meter, accumulator. Turbines etc., different pieces of apparatus being used
