From (Name) R.G.Grieve Esq., M.A.,

(Designation) AE. Director of Public Instruction

To The Secretary to the Government of Madras,

LAW (EDUCATION)

Department.

Sir.

I have the honour to request that Government will be pleased to approve of the following proposals with regard to the creation of 2 special appointments outside the Public Works Department cadre for the Mechanical Engineering Section of the college of Engineering, Guindy, with effect from 1st November 1925 in the circumstances set forth below:-

2. Prior to the transfer of Mr. C.Kameswara Rao (a mechanical Engineer Graduate on the Public Works Department cadre) brought about by the abolition of one post of Assistant Instructor in G.O.No. Misc.26, Law (Education) dated 9th January 1925, the staff of this section of the college consisted of 4 qualified mechanical Engineers

(including the permanent Principal) one Civil Engineer and 1 Upper Subordinate. The present staff, excluding the permanent Principal who is on leave, consists of only 2 mechanical Engineers and two others mentioned above, who are not mechanical engineers. The Principal reports that in order to carry on instruction in mechanical engineering ^{efficiently, the} Civil Engineer and the Upper Subordinate borne on the Public Works Department cadre should be replaced by qualified mechanical Engineers: As, however, the chief Engineer to Government states that no suitable subordinates with Mechanical Engineering qualifications ^{are} available for being posted to the college, the Principal recommends the creation of 2 special appointments outside the cadre, on the following scales of pay, reverting the two Public Works Department officers in the mechanical engineering department, who are not mechanical engineers.

1 Assistant Instructor in Mechanical Engineering in the scale of 200-15-350

1. Second Assistant Instructor in Mechanical Engineering in the scale of 125-25/2-250

The Chief Engineer, who was consulted on the scales of pay recommended by the Principal, is of opinion that a scale of Rs 125-130-10-250 is sufficient and suitable for both the appointments in question, but when asked to state whether he could arrange to depute two mechanical engineers on the scale suggested by him, regrets his inability, as men with required qualifications are not available. I am however of opinion that it will not be possible to secure by direct recruitment of the right kind of men with sufficient practical experience in mechanical line, specially in view of the fact that the posts are not attached to any cadre, on the scale suggested by the Chief Engineer, unless the Public Works Department can arrange to depute two properly qualified men. I would therefore recommend the acceptance by Government, for one of the proposed posts, of the higher scale of pay suggested by the Principal, College of Engineering, Guindy.

There will be no extra expenditure during the current

current year on account of the above proposals as the pay of the 2 new posts can be met out of the anticipated savings under pay of establishment in the Civil Budget Estimate for 1925-26.

I request the favour of very early orders on this communication.

I have the honour to be,

Sir,

Your most obedient servant,

J. F. Chumappa 5.10.25

Finance (E.T.)

Instructors

The two Assistant ~~Instructors~~ referred to are now borne on the cadre of the P.W.D. Supervisors on Rs. 80--250. It is stated that men with mechanical engineering qualifications are not available in the P.W.D. cadre at present. The D.P.I. accordingly proposes to recruit two men with the required qualifications from outside the P.W.D. cadre. It is not necessary to create special posts for the purpose on enhanced rates of pay as the men will possess only qualifications similar to those of P.W.D. Supervisors. Besides, the difficulty of obtaining men with suitable qualifications is only temporary. It has not been stated that P.W.D. will not be able to supply men with the required qualifications in future. As the Engineering College turns out men with mechanical engineering qualifications, it should not be difficult to recruit men in the future on the ordinary scales of pay. All that seems necessary now is to ask the D.P.I. to recruit two men with the required qualifications and practical experience from outside the P.W.D. cadre on the existing scale of pay. The candidates actually selected may, if necessary, be given some higher starting pay with reference to their practical experience, for which the D.P.I. may submit proposals separately.

2. The Law Department's proposal involves

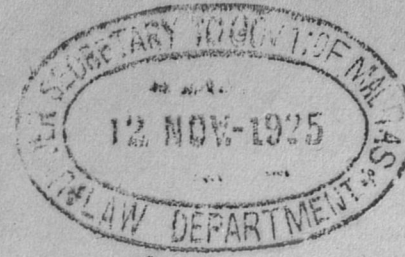

the the reduction of the P.W.D. cadre of Supervisors by two and the absorption of the two men who will be reverted from the college in existing vacancies.

provided the 2 existing instructors can be absorbed in permanent vacancies in the P.W.D.

Law (Education) Department

(Cuo 3159e)

From the D.P.2. R.O.C. no. 1114 A/25 dated 5-10-1925.

Subject:- College of Engineering, Guindy -
Creation of two special posts in the Mechanical Engineering section.

The D.P.2. proposes that two of the existing posts of Assistant Instructors on the Upper Subordinate Cadre of the P.W.D. may be replaced by two posts outside the cadre. The proposal involves the reduction of the P.W.D. cadre of Supervisors by two and the absorption of the two men who will be reverted from the College in existing vacancies in the P.W.D. ^{Cadre} Cadre.

2. The proposal is based on the ground that men with mechanical engineering qualifications are not available in the P.W.D. cadre. The difficulty of obtaining men with suitable qualifications inside the cadre is presumably temporary. As the Engineering College turns out men with these qualifications it may not be always difficult to recruit men on the ordinary scale of pay. It does not appear necessary to create special posts ~~for the purpose~~ on higher rates of pay as the men will possess only qualifications similar to those of the

P.W.D.

From the D.P.2. R.O.C. no. 1114 A/25 dated 5-10-1925.
Subject:- College of Engineering, Guindy -
Creation of two special posts in the Mechanical Engineering section.
The D.P.2. proposes that two of the existing posts of Assistant Instructors on the Upper Subordinate Cadre of the P.W.D. may be replaced by two posts outside the cadre. The proposal involves the reduction of the P.W.D. cadre of Supervisors by two and the absorption of the two men who will be reverted from the College in existing vacancies in the P.W.D. ^{Cadre} Cadre.
2. The proposal is based on the ground that men with mechanical engineering qualifications are not available in the P.W.D. cadre. The difficulty of obtaining men with suitable qualifications inside the cadre is presumably temporary. As the Engineering College turns out men with these qualifications it may not be always difficult to recruit men on the ordinary scale of pay. It does not appear necessary to create special posts ~~for the purpose~~ on higher rates of pay as the men will possess only qualifications similar to those of the

P.W.D. Supervisors. The D.P.I. may be requested u.o. to say whether it will not be possible to recruit suitable persons in the existing scale of pay (Rs 80-250), a higher initial pay being given if necessary. Besides being economical, this arrangement will help to keep the P.W.D. cadre unaffected. *Law No. 3159e.2*

P.W.D.
16.11.25
16.11.25
17/11
V.T.
18.11.

D.P.I. u.o.

U.O. Reply No. 1114-A/258/10-12-25

The above note appears to be based on the ~~assumption~~ assumption that suitable men are available in the P.W.D. or can be easily secured by recruitment in the P.W.D. on the lowest pay of P.W.D. Upper subordinate scale. The Chief Engineer, however, has specifically written as follows in a letter of July last addressed to the Principal of the College of Engineering, Guindy:—"I regret that there is no suitable subordinate with Mechanical Engineering qualifications (Mechanical Engineer Graduate of the college) who can be posted to the college in place of M.R.Ry.C. Kameswara Rao transferred". If the P.W.D. do have suitable persons I shall be glad to know of them but that is a matter for ^{primary} reference to the P.W.D. rather than ~~for reference~~ to the D.P.I.

Meantime, however, the position of this Department may be ^{supplemented} ~~simplified~~. It is undesirable to recruit raw men on Rs.125/- which the P.W.D. will probably do if called on and to give them teaching work. Mr. James, the former Principal of the College of Engineering in August 1918 wrote as follows:—"From our experience since the arrangement of transferring P.W.D. subordinates was introduced

ZE 40122
12 DEC-1925
DEPARTMENT

I have come to the conclusion that third grade overseers (Present pay Rs.80/-) are too inexperienced in practical work to be of much use in the college". He suggested the appointment of four first grade Supervisors on Rs.200 plus 40, and four of second grade on Rs.150 plus 30/-. The Board of Visitors consisting of Sir Francis Spring and Messrs. Murray and Biggs approved this proposal in the following terms:—"We consider also that Mr. James is right in saying that the grading of men nowadays ordinarily appointed is too low and we accept his recommendation as to the grading of men he is asking for".

3 The establishment sanctioned in G.O.L.E., No.551 dated 5-5-1922 includes five instructors on Rs.200 plus 40 (Supervisors first grade) and 1 on Rs.150 plus 30 (Supervisor second grade)--all of them senior men. Against this there is now in the college only one on Rs.175 and even he holds only an Upper subordinate diploma and is not qualified to deal with Mechanical Engineering instruction.

4 The proposals made make it possible to get at least one man with experience, and as the only man in the P.W.D. who can do this advanced work is Mr. Kameswara Rao, who already draws Rs.250/- in the P.W.D. and who was reverted to the P.W.D. on account of a block in his promotions, it is unlikely ^{that} we can secure suitable men unless we offer sufficient inducement.

5 Moreover for want of a proper scale of pay with possible promotions men from the P.W.D. desire to revert to the P.W.D. at the first opportunity. While for this specialised work it is necessary to offer sufficient inducement to retain men who are fit for ~~the~~ teaching work.

Whether

Whether recruitment either directly or through the P.W.D. is ultimately decided on, I suggest the scale as proposed may be sanctioned. When men are recruited from the P.W.D. they may be allowed to draw a corresponding pay on this scale as is permissible under the Fundamental Rules while they hold these appointments.

One Asst. instructor
Mech. Engg. on Rs 200-15-350
and one Asst. arch. instructor
on Mech. Engg. on Rs 125-130-10-250

B

Law (for) Sept

The Director makes out that it is not possible to secure men with

the requisite qualifications on the existing scale of pay. ^{Before sending} the file

~~may be sent~~ to Finance ~~for~~ for reconsideration, the remarks of the P.W.D. may perhaps be invited

14.12.25

14.12.25

V.T.K.

Law Draw 3159C-3

15.12.25

P.W.D. no

P.W.D.

16.12.25

Please see The current file and notes from p 2 and 3. The D.P.I. states that two of the present Asst. instructors in Mechanical Engineering in the College of Engg. Gandy, are supervisors

of

of the P.W.D. holding only civil engineering and upper subordinate diplomas and are therefore unsuitable; and as the P.W.D. are unable to supply qualified mechanical engineering Supervisors for the purpose, he proposed to replace the two posts of Asst. instructors borne on the upper subordinate cadre of the P.W.D. by two posts outside that cadre - one on Rs 200-15-350, and the other on Rs 125-130-10-250. The Finance Dept. stated that the need of qualified mechanical engs in the supervised upper sub-estab. of the P.W.D. might be only temporary and therefore suggested

pp 2-3 and

p 3 and

pp 2-3 and

(1) that the Civil Engg. and upper sub-estab. in the College might be reverted to P.W.D. and absorbed in vacancies in the upper sub-estab. and (2) that the upper sub-estab. which provides for the two Asst. instructors, might remain unaltered and two outsiders might be appointed on the scale Rs 80-250 to fill the posts of Asst. instructors, counting against the two posts in the upper sub-estab.

pp 4-5 and

Vice pp 5-7 and

The D.P.I. who was consulted on the above suggestions, does not appear to have considered whether outsiders can be obtained to fill the posts on Rs 80-250, but states that raw recruits from the P.W.D. will not be suitable and that some experienced

in the P.W.D. is available for the college
 even on the highest pay in the scale 80-250.
 He therefore presses for sanction to his original
 proposals. The remarks of this Dept. are invited.
 3. In view of the C.E.'s remarks extracted at A
 on page 5 ante, no reference to the C.E. seems
 necessary. We may agree with the C.E.
 4. With regard to the Finance Dept. suggestion
 referred to in para 1 (2) on the previous page, it is
 submitted that there is no object in keeping
 the two appointments in the P.W.D. cadre
 while the men are recruited from outside
 the P.W.D. The posts may be abolished with
 effect from the dates on which the two men
 now in the college can be absorbed in vacancies
 in the P.W.D., and two posts outside the P.W.D.
 cadre may be sanctioned. When men from
 the P.W.D. are at any time appointed to these
 posts they may be allowed pay as suggested by
 the S.P.S. at B on page 2 ante.

 For Ed.
 P.W.D. NO. 7940A-1
 SECRETARY 10/6/25

Law (Hon) Sept

The Director's proposal is that
 two appointments outside the P.W.D.
 Cadre and carrying special
 rates of pay should be created
 in lieu of two posts of Asst.
 Inspectors borne on the upper subordi-
 nate cadre of the P.W.D., as men
 with sufficient qualifications
 in mechanical engineering are
 not available in the P.W.D.
 The ^{idea} object is evidently to recruit
 outsiders. The Finance Dept.
 suggested that outsiders might
 be recruited, ~~but~~ if necessary,
 but that they should be given
 some higher starting pay in
 the existing scale of pay
 (in the upper subordinate cadre)
 instead of new posts or
 special rates of pay being
 created.

p 1 of
 p 2 of

p 2 ante

p 5-6
 ante

The D.P.I. who was consulted
 states that, unless an attractive
 scale of pay is offered, men
 with the requisite qualifications
 cannot be had for the appoint-
 ments in question; and that
 the present scale of pay is not sufficiently
 attractive. As stated by the P.W.D.,
 there

there is no object in keeping the two appointments in the P.W.D. Cadre, while men have to be appointed from outside the Dept.

The suggestion of Mr. Dept. at

'K' in page 9 ante may be (Law G.O. no 3159C-4

25.12.25

24.12

Fin. U.O.

Finance (E.T.)

Please see the D.P.I.'s note on pp.5-7 supra.

The D.P.I. does not appear to have correctly understood the position taken up in the Finance note on pp.2-3 supra. Finance suggested that as the difficulty of getting instructors with mechanical Engineering qualifications was only temporary, two men with the required qualifications and experience might be recruited from outside the P.W.D. cadre and given suitable initial pay on the sanctioned scale. It was also stated that the posts might be retained in the P.W.D. cadre to afford scope for promotions to these instructors. As, however, the D.P.I. and the P.W.D. are against the retention of these posts in the P.W.D. cadre, Finance need not object to their being removed from that cadre.

2.

45891

26.12.25

p2CF

18.15/10

2. The D.P.I. suggests a higher scale of pay of Rs.200-15-350 for one of the posts and for the other the scale of Rs.125-130-10-250. admissible for passed Engineer students. The scale of Rs.200-15-350 seems rather high. As men with mechanical Engineering qualifications will be appointed to both the posts, ordinarily the scale of Rs. 125-130-10-250 should be sufficient for both the posts as suggested by the Chief Engineer. As, however, the posts are to be removed from the P.W.D. cadre and some inducement will be required to attract and retain the men, Finance may perhaps agree to a scale of Rs.200-10-300 for one of the posts instead of Rs.200-15-350 proposed by the D.P.I. The extra cost involved will be Rs. 768 per annum.

R200-10-300 may be tried. The experiment will prove whether suitable candidates will be attracted by the terms

19.1.26

3. It is presumed that there are vacancies in the P.W.D. cadre to absorb the two men who will be reverted from the college. The two posts may be created with effect from the date on which the permanent cadre of P.W.D. Supervisors is reduced by two.

U.O. Reply No. 1114-A/2583-3-26

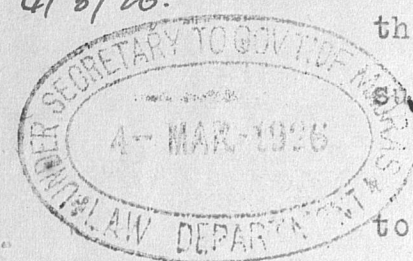

After mechanical Engineering was instituted as a separate course of study the College of Engineering has turned out about 135 graduates with mechanical engineering qualifications. Of these, excepting 7 or 8 who hold posts in the Indian service of Engineers, there are in the P.W.D. only 2 or 3 who are in employment as senior Supervisors and Assistant Engineers. The rest of them are apparently employed elsewhere than in the Public Works Department. Thus it is seen why the P.W.D. are unable to provide suitable instructors for the mechanical engineering section. The College draws for its assistant instructors upon the P.W.D., thus the College also cannot provide suitable assistant instructors for this branch.

If the posts are sanctioned, the proposal is to advertise the appointments and recruit direct. This means that the cadre of the P.W.D. will have to be reduced by 2.

If suitable ^{men} are available in the Public Works Department and if they are transferred to the College on the proposed scales of pay, they may be inclined to stay on in the Educational Department and in that case, the P.W.D. cadre will remain unaffected.

For the post of Assistant Instructor the candidate should preferably be a mechanical Engineer graduate (B.E) of the Madras University or should possess equivalent qualifications with at least three years' experience in Mechanical Engineering. The 2nd assistant instructor should hold the same degree and should have one or two years' experience.

Assistant Instructors in the Engineering College -

M-2 's note below.

p. 18 ante

p. 19 ante

intro

The new appointments proposed are presumably to be non-gazetted as they take the place of the present posts of assistant instructors, which are non-gazetted. Appointment to such posts in the Engineering college is usually made by the D.P.I. It is for consideration whether the Director may be asked to advertise the appointments and make the selection in consultation with the Chief Engineer, (Roads and Buildings).

2. It is presumed that, though ordinarily similar appointments are made by the Director, in this particular case, the names of the persons selected are to be submitted to the Government for approval.

3. If the suggestion in paragraph 1 above is approved, the following may be added as paragraph 3 of the draft order.

"The Director of Public Instruction is requested to advertise the appointments, select persons for the posts in consultation with the Chief Engineer, P.W.D. (Roads and Buildings) and submit the names of the persons selected for the approval of the Government".

To

Secy to Govt. Law Edn. (R)

Re: Gov. L.L. 1614 Law Edn. 26.8.26

Mr. K.V. Pasupathi Junior
Asst. Inspector College of Engineering
Guindy, whose appointment was
approved in the Gov. referred to above
died on 16.8.27. Please let me know
whether I can select the
vacancy myself or a recommen-
dation should be made to Govt.

17/10/27.

Law Edn

As

(P)

In Gov. 398 Law Edn. of 16.3.26
the Govt. sanctioned the proposal of
the D.P.I. that two assistant
instructors one on Rs 200-10-300
month and the other on Rs 125-130
10-250 a month should be employed
in the Mechanical Engineering

28/9/18
section of the College of Engineering
~~section~~ Gurnoj in place of two of the
assistant instructors on the upper
subordinate cadre of the P.W. Dept
~~now~~ then employed in the College
The Director of Public Instruction
was requested to advertise the
appointments, select persons for
the post in consultation with the
C.E. (P.W.D.) Roads & Rep. and
Buildings) and submit names of
the persons selected for the approval
of the Govt. In Go. 1614 Dron
of 25-8-26, the Govt. ^{approved} ~~sanctioned~~
the ^{appointment of persons recommended} ~~names selected~~ by the DPJ
~~and approved also to be recommended~~

Plaut

The D.P. I. brings to
the notice of the Govt. that one of
the men appointed by the Govt. died
on 16-8-27. and enquires whether
he can select a person for the
vacancy himself or a recommendation
should be made to the Govt.
On the former occasion, the
was asked to submit ~~names~~
~~the names~~ submit the names
persons selected for the approval
of the Govt. after certain pre-

Minutes laid down in paragraph
 3 of Go. 9 16. 3. 26. It is not
 clear why he should not follow
 this procedure in filling up the
 present vacancy. It may be
 pointed out in this case that
 though ordinarily similar appointments
 are made by the Director, in
 this particular case, the name
 of the person selected is to be
 submitted to the Govt. for
 approval. Please see routine
 note on page 23 of Go. ^{N. 398} 16. 3. 26.
 The ~~file~~ draft is
 submitted below for approval.

The late Minister (Sir A. P. Datta) Specially directed that the names of persons selected for the new posts should be submitted for the approval of Govt. But, for such direction, the appointments would have been made by the Director himself, as the posts in question are non-fazatted posts. On the last occasion, the Director's recommendations were approved by the Govt. for the holders of the posts should possess special technical qualifications and

and, in making the appointments, the Govt must necessarily be guided by the advice of the D O I and the Chief Engineer. There appears to be no special reasons why the appointments in question
