Part II of Budget Estimates for 1926-27 -
Teaching and Stipendiary grants to Schools and
Colleges newly-admitted to aid.

Proposals of the D.P.I.

I t e m s	Budget Estimate for 1926-27	Ultimate cost
	Rs	Rs
<u>Teaching Grants</u>		
Arts Colleges (a)	15,000	15,000
Secondary schools (b)	500	4,500
Special schools (c)	7,600	8,900
Total	23,100	28,400

Stipendiary Grants

Special Schools (d)	3,200	5,200
Grand Total	26,300	33,600

Director's Remarks.

(a) Rs 15,000 has been proposed for three new first grade colleges, namely, Loyola College, Madras, St. Francis Xavier's College, Palamcottah, and Madura College, Madura, which have either been recognised by or affiliated to the University of Madras during 1925-26. The ultimate expenditure is also Rs 15,000. The requirements of a new institution are usually estimated at Rs 5,000 and the estimates relating to the three new institutions have been framed on this basis.

The net additional expenditure on the schemes will, however, be only Rs 11,000, as two of the institutions mentioned above which were second grade colleges hitherto were in receipt of an average annual grant of Rs 2,000 each, debitable to

secondary schools. However, for purposes of the estimates, Rs 15,000 has been shown under University, the difference between this and the net expenditure having been shown as a deduction against the total demand under Secondary.

(b) Rs 4,500 will be the probable requirements of three new secondary schools recognised by the Director and ^{the} estimate is based on the normal grants earned by institutions of similar size and strength. But only Rs 500 has been budgeted for, for the reasons given against the provision for teaching grants under University (a) above].

(c) The total estimate of Rs 7,600 for 1926-27 includes a provision of Rs 1,100 for two new higher elementary training classes (one for men and the other for women) under aided managements working on a grant-in-aid basis. These came into existence about the end of June last and their probable requirements have been fixed with reference to the size, staff and other circumstances relating to each institution, and on the basis of grants usually sanctioned in respect of similar ^{existing} classes. The ultimate cost is estimated at Rs 1,400 as the institutions will hereafter work for a full year.

The balance of the provision, Rs 6,500, is for ²⁷ new institutions inclusive of a new college for Oriental learning in the Andhra districts and for increased grants that may be earned by two advanced Sanskrit schools which enjoy the status of an Oriental college for the first time during the current year. The estimate has been framed on the basis of the normal grants sanctioned for similar institutions at present and on the advice of the Superintendent of Sanskrit Schools.

(d) The management of the C.B.M. Girls' Boarding School, Cocanada, have proposed to attach in 1926-27 a training department of both higher and lower elementary

$$\begin{aligned} 30 \times 10\frac{1}{2} &= 315 \\ 10 \times 8\frac{1}{2} &= 85 \\ 400 \times 8 &= 3200 \end{aligned}$$

grades and estimates for 1926-27 provide the grant required for 30 higher elementary and 10 lower elementary stipendiaries.

PTO

Up to the current year it has been usual to make provision in Part I of the budget for teaching and stipendiary grants to schools and colleges newly admitted to aid. It has recently been decided to adopt the following procedure in making provision for these grants:-

It is not necessary that the provision to be made for each new case of teaching grant should be treated as a Part II Scheme. It is desirable, however, to give the Finance Committee an idea of the rate at which teaching grants increase from year to year and an opportunity of deciding what funds should be devoted to development of secondary and collegiate education. The additional provision required under teaching grants for new schemes of expansion may therefore be shown as a Part II Scheme of the budget, with an explanation of the reasons for the increases proposed, it being understood that no accurate details of specific schemes can be furnished but only a general account of the developments in view with an approximate estimate of the expenditure involved.

2. The Director accordingly proposes that a provision of Rs 26,300 may be made in Part II of the budget ~~for next year~~ for the payment of teaching and stipendiary grants to institutions newly admitted to aid. The necessity for the provision has been explained by him and it may be ~~accepted~~ ^{admitted}.

3. A note for the Finance Committee is submitted. The case may be sent to Finance U.O.

P.T.O

Part II schemes for 1926-27: Teaching and stipendiary grants to schools and colleges newly admitted to aid.

As pointed out in the Law (Edcn.) dept. note on page 4 ante, provision for teaching and stipendiary grants to schools and colleges newly admitted to aid was till now being included in Part I of the budget--please see the Hon. Mr. Graham's note on page 15 of G.O. 106, Law (Education), dated 24-1-25. From the current year, it is proposed to treat the provision required for such purposes as a Part II demand in order to give the Finance Committee an idea of the rate at which teaching grants increase from year to year.

2. Part I estimates for 1926-27 for teaching grants will be received from the D.P.I. only by the end of October or the beginning of November. The following statement shows the provision made for 'teaching and stipendiary grants' in past years to non-Government schools (omitting schools belonging to local bodies) and the provision proposed as a Part II demand for 1926-27:

	Accts. 23-24.	R.E. 24-25.	B.E. 25-26.	1926-27.	
				Part I.	Part II.
Arts colleges	1,28,539	1,28,200	1,49,000	Will be reported by D.P.I. later on.	15,000
Secondary schools	6,81,480	7,01,400	7,35,200		500
Special schools					7,600
--Teaching grants		1,56,100	1,76,800		3,200
Stipendiary grants.	1,65,459	2,71,400	2,85,000		
					26,300

Submitted that this dept. may agree to the proposed Part II demand going before the Finance Committee.

3. The only point for consideration is whether a list of colleges and schools newly admitted to aid need not be attached to the draft note as an annexure for the information of the Finance Committee members. It is likely that some of the Finance Committee members may require such information; while the joint note by the Secretaries, Law & Finance and the D.P.I., (extracted by Law (Education) on page 4 ante) does not seem to debar such a list being annexed to the draft note. Law (Education) dept. may be requested to consider the point.

4. Subject to the suggestion in para 3 above, the draft note for the Finance Committee may be accepted in Finance, the note by the Finance dept. being as follows:
"The proposal may be placed before the Finance Committee as a Part II scheme for 1926-27".

Law (Education) Department.

Note for the Finance Committee.

Subject:- Part II of Budget Estimates for 1926-27 - Teaching and stipendiary grants to schools and colleges newly admitted to aid.

Proposals of the Director of Public Instruction.

The Director of Public Instruction recommends that a provision of Rs. 26,300 may be made in Part II of the budget for 1926-27 for the payment of teaching and stipendiary grants to schools and colleges newly admitted to aid.

Note by the Law (Education) Department.

The policy of the Government in regard to the expansion of secondary and collegiate education is to rely mainly on private agencies and to encourage such agencies with grants from Provincial funds towards the cost of maintenance of institutions opened by them. This policy is embodied in the Grant-in-aid Code issued by the Government. The Code lays down the conditions on which schools and colleges opened by private individuals or associations will be admitted to departmental recognition and aid. When an institution satisfies these conditions, it is admitted to aid by the Director under the powers vested in him. It has been the practice hitherto to include provision in Part I of the budget estimates for grants to such institutions newly admitted to aid by the Director. In the current year, however, it has been decided that the additional provision required for grants to such new institutions may be treated as a Part II item, so that the Finance Committee may have an idea of the rate at which teaching grants increase from year to year. The annexed extract from the notes of the Director of Public Instruction explains the basis on which provision is proposed in the several cases. The institutions have been admitted to aid for the first time in the current year and accurate statistics relating to their receipts and charges will be available only in the next year. The grants proposed by the Director represent roughly one-half

13

Proposals of the Director of Public Instruction.

I t e m s.	Budget Esti- mate for 1926-27	Ultimate cost
	Rs.	Rs.
<u>Teaching grants.</u>		
Arts Colleges (a)	15,000	15,000
Secondary schools (b)	500	4,500
Special schools (c)	7,600	8,900
Total	23,100	28,400
<u>Stipendiary Grants</u>		
Special Schools (d)	5,200	5,200
Grand Total	26,300	33,600

Director's Remarks.

(a) Rs.15,000 has been proposed for three new first grade colleges, namely, Loyola College, Madras, St. Francis Xavier's College, Palmcottah, and Madura College, Madura, which have either been recognised by or affiliated to the University of Madras during 1925-26. The ultimate expenditure is also Rs.15,000. The requirements of a new institution are usually estimated at Rs.5,000 and the estimates relating to the three new institutions have been framed on this basis.

The net additional expenditure on the schemes will, however, be only Rs.11,000, as two of the institutions mentioned above which were second grade colleges hitherto were in receipt of an average annual grant of Rs.2,000 each, debitable to secondary schools. However, for purposes of the estimates, Rs.15,000 has been shown under University the difference between this and the net expenditure having been shown as a deduction against the total demand under Secondary.

(12) 15

2.

(b) Rs.4,500/- will be the probable requirements of three new secondary schools recognised by the Director and the estimate is based on the normal grants earned by institutions of similar size and strength. But only Rs.500/- has been budgeted for, for the reasons given against the provision for teaching grants under University [(a) above]

(c) The total estimate of Rs.7,600/- for 1926-27 includes a provision of Rs.1,100/- for two new higher elementary training classes (one for men and the other for women) under aided managements working on a grant-in-aid basis. These came into existence about the end of June last and their probable requirements have been fixed with reference to the size, staff and other circumstances relating to each institution, and on the basis of grants usually sanctioned in respect of similar existing classes. The ultimate cost is estimated at Rs.1,400/- as the institutions will hereafter work for a full year.

The balance of the provision, Rs.6,500/-, is for 27 new institutions inclusive of a new college for Oriental learning in the Andhra districts and for increased grants that may be earned by two advanced Sanskrit schools which enjoy the status of an Oriental college for the first time during the current year. The estimate has been framed on the basis of the normal grants sanctioned for similar institutions at present and on the advice of the Superintendent of Sanskrit Schools.

(d) The management of the C.B.M. Girls' Boarding School, Cocanada, have proposed to attach in 1926-27 a training department of both higher and lower elementary grades and estimates for 1926-27 provide the grant required for 30 higher elementary and 10 lower elementary stipendiaries.

Note for the Finance Committee.

Subject:- Part II of Budget Estimates for 1926-27
Teaching and stipendiary grants to schools
and colleges newly admitted to aid.

Proposals of the D.P.I.

The D.P.I. recommends that a provision of Rs 26,300 may be made in Part II of the budget for 1926-27 for the payment of teaching and stipendiary grants to schools and colleges newly admitted to aid.

Note by the Law (Education) Department.

The policy of the Government is regard to the expansion of secondary and collegiate education is to rely mainly on ~~aided~~ private agencies and to encourage such agencies with grants from Provincial funds towards the cost of maintenance of institutions opened by them. This policy is embodied in the Grant-in-aid Code issued by the Government. The Code lays down the conditions on which schools and colleges opened by private individuals or associations will be admitted to departmental recognition and aid. When an institution satisfies these conditions, it is admitted to aid by the Director under the powers vested in him. It has been the practice hitherto to include provision in Part I of the budget estimates for grants to such institutions newly admitted to aid by the Director. In the current year, however, it has been decided that the additional provision

CEB

p. 1 nt

required for grants to such new institutions may be treated as a Part II item, so that the Finance Committee may have an idea of the rate at which teaching grant/ increase from year to year. *He annexed Extract from the new institutions with the grants required therefor in the next year is annexed to this note. The D.P.I. has explained the basis on which provision is proposed in the several cases. The institutions have been admitted to aid for the first time in the current year and accurate statistics relating to their receipts and charges will be available only in the next year. As the institutions are under private management, it is not possible to obtain accurate details as regards the expenditure incurred on staff, contingencies etc. The grants proposed by the Director represent roughly one-half of the estimated net cost of the institutions and the provision required for them - Rs 26,300-may be made in the budget estimate for 1926-27 as shown below:-*

31 A.c. - University - Direct grants to non-Government Arts Colleges - Grants-in-aid - Voted - recurring - teaching. -----	Rs 15,000
31 B.b. Secondary - Direct grants to non-Government Secondary schools - Grants-in-aid - Voted - Recurring - Teaching. -----	500
31 D.b. Special - Direct grants to non-Government special schools - Grants-in-aid - Voted - recurring - teaching. -----	7,600
„ „ - Stipendiary. -----	3,200
Total. -----	26,300
