R.C.No.1186-A/25.

Station Madras, Dated the 9th September, 1925.

From (Name) R.G.GRIEVE, Esq., M.A., F.R.G.S.,

(Designation) AG. DIRECTOR OF PUBLIC INSTRUCTION.

To The Secretary to the Government of Madras,

LAW (EDUCATION) Department.

Sir,

I have the honour to submit in connection with Part II schemes for the budget for 1926-27, the following proposals with regard to the most urgent requirements of the Presidency College, Madras.

(1) Equipment. - The Professor of Chemistry states that students taking the chemistry B.A. Honours or M.A. (Post Graduate) Course are required by the University Regulations to take one special subject out of the seven specified (vide Madras University Calender 1924 - Volume I Page 723). Since the institution of Honours Courses in 1911, the students of the Presidency College have been limited in their choice to one of ~~the~~ 3 subjects, viz.,

(P.T.O)

viz., (a) Electro-chemistry (b) Mineralogy and (c) Tinctorial Chemistry. These classes ~~are~~ now much increased in size: this year (1925-26) there are 22 in all, and next year the number will be 25 and it is very desirable that the choice ^{of the} *students* should be less limited. I would therefore recommend that provision for two more special subjects viz., Metallurgical Chemistry and Bio-Chemistry, may be made from next year onwards. For this a capital grant of Rs.4030/- will be necessary. The Professor of Chemistry states that no recurring expenditure is involved by the proposal.

(2) The Professor of Geology states that a sum of Rs.1500/- is required to enable him to replace worn out and useless microscopes.

(3) The additional Professor of Botany requires a special grant of Rs.6,000/- for the purchase of microscopes and other apparatus.

(4) A sum of Rs.1,000/- is required for equipping the Philosophy Honours library to meet the increasing demands of students and to bring it up to date. The demands made under items 2, 3 and 4 are necessitated by the large accession to the strength of the College in recent years. This increase is evidenced by the following figures, and I ^{therefore} support the proposals.-

Strength of the College on 31st March.	(1918 ...	560
	(1922 ...	809
	(1924 ...	905
	(1925 ...	963

II. STAFF.- The Professor of Geology states that consequent on the increase in the number of students studying Geology and the consequent increase of the work of the Geology Department, it is found very difficult to manage with one Attender and one Peon - vide enclosure to my letter No.R.O.C.2872-C/23 dated 5-1-24. The attender has to remain for most of his time in the microscope room which is situated far away from the rest of the department and he has to take care of the microscopes which are being constantly used by students. Besides he has other work

3

other work in the laboratory, cleaning or repairing other costly instruments. The peon takes care of all the specimens (Minerals, rocks, fossils and crystals models) which are kept in different places and he has to attend the lecture classes as well, in order to provide specimens whenever asked for by the Professor or Assistant Professor.

At the same time when the Geology classes are engaged in Chemical work, the peon has to be in attendance to supply chemicals and to keep the place clean. Consequently the appointment of a Museum-keeper to be in charge of the specimens and scientific apparatus, the approximate total of which is given below, is considered very necessary for this Department and I recommend the sanction of such an appointment.

Foreign Collection.			Rs.
Rocks ..	..	500	Rs. 4,500
Minerals ..	..	1000	
Crystals ..	..	500	
Fossils ..	..	1500	
Loose collections ..	..	1000	

Indian collections.-
Rocks, Minerals & Fossils.. 1000
Microscopes, Microsections))
and other optical apparatus) 2000
Crystals models .. 500
Scientific apparatus &c. .. 500
Chemicals & other extras (Cannot be specifically stated).

I recommend a scale of pay of Rs.40-40-1½-55-1-65 for the Museum-keeper of the Geology Department - a scale similar to that sanctioned for the laboratory Assistant in Geology and Herbarium-keeper of the Botany Departments - vide G.O. No.800 Law (Education) dated 3rd July 1922.

The financial effect of this proposal is as follows

- i. Cost of one Museum Keeper in the scale) Rs.40 x 8 months
of Rs.40-65 at Rs.40 for 8 months from) = 320
July 26 - March 27.
- ii. The ultimate average annual recurring liability involved by the proposal is
Rs.52½ (Average pay) x 12 months
= Rs.630/-

iii. The proposals are summed up below.-

Non-recurring
1) Equipment-Chemistry Dept. .. Rs.4,030
(P.T.O)

Non-Recurring.	(1)	Equipment - Chemistry Dept.	..	Rs.4,030
	(2)	-do- Geology Dept.	..	1,500
	(3)	-do- Botany Dept.	..	6,000
	(4)	-do- Philosophy Dept.	..	1,000

Recurring.	(5)	Appointment of a Museum Keeper for the Geology Department	..	320
		Cost in 1926-27.	..	320

Total .. Rs.12,850

or Rs.12,900 in round figures.

I have the honour to be,

Sir,

Your most obedient servant,

for Director of Public Instruction.

M.R.P.11/9.

Books	..	300
Minerals	..	1000
Crystals	..	300
Fossils	..	1000
Geological collections	..	1000

Indian collections	..	1000
Books, Minerals & Fossils	..	1000
Microscopes (Microsections)	..	2000
and other optical apparatus	..	2000
Crystals models	..	300
Scientific apparatus &c.	..	300

Chemicals & other extras (cannot be specifically stated).

I recommend a scale of pay of Rs.40-45-10-15-20 for the

Museum-keeper of the Geology Department - a scale similar

to that sanctioned for the Laboratory Assistant in Geology

and Laboratory-keeper of the Botany Department - vide No. 1000

No. 1000 Law (Education) dated 27th July 1923.

The financial effect of this proposal is as follows

i. Cost of one Museum keeper in the scale (Rs.40 x 8 months

of Rs.40-45 for 8 months from) = 320

July 20 - March 23.

ii. The ultimate average annual recurring

liability involved by the proposal is

Rs.320 (Average pay) x 12 months

= Rs.3840

iii. The proposals are summed up below:-

Subject.

Equipment for the Presidency College

the employment of a

Museum-keeper in the

Geology Dept. of the College.

C. No. 2861 C, from the D.P.I., R.C. 11/6/25, 9/2/25

Finance (ET)

This section is concerned with the appointment of a Museum-keeper in B 40-65 to be in charge of the specimens & scientific apparatus in the Geology Dept. There are now 1 attendant & a peon for the Geology section. The peon is in charge of the specimens & he also attends to lecture classes & has to be in attendance to supply chemicals when the classes are engaged in chemical work. The attendant is in charge of the microscopes & has also other work in the laboratory. It appears from the D.P.I.'s letter that the work is too much for these two men and that another hand is required for the change of the specimens & apparatus. The scale recommended by the D.P.I. viz B 40-65, is however excessive.

It seems sufficient if an additional attendee
on Rs 23-35 is allowed for the Geology Deptt.

over
11.10.25

Thos Budget.

Finance, B.E. I.

The D.P.I. proposes the incurring of a
non-recurring expenditure of Rs.12,530 as shown
below:

- | | |
|--|-----------|
| (1) Cost of apparatus and materials for the chemistry department in connection with the provision of two more special subjects in that department, viz., Metallurgical Chemistry and Bio-Chemistry. .. | Rs. 4,030 |
| (2) Cost of replacing worn out and useless microscopes in the Geology department | 1,500 |
| (3) Cost of purchase of microscopes and other apparatus for the Botany department | 6,000 |
| (4) Cost of purchase of books for the philosophy Honours library to meet the increasing demands of students and to bring it up to date | 1,000 |

Rs. 12,530

4,030

1,500

6,000

1,000

Total 12,530

The D.P.I. states that the demands in items (2),

(3) and (4) are necessitated by the large
accession to the strength of the college in
recent years.

Replacement of microscopes
cannot be regarded as
Part II expenditure - but
the point need not be
pressed

2. Details for the above amounts have
not been given; if the Finance Committee want
detailed information, the D.P.I. or the Law (Edn).
department will, it is presumed, supply it.

3. A large portion of the apparatus
required is of a nature that should ordinarily
be obtained from England. ^{If any portion is to be got from England,}
~~the D.P.I. or the Law (Edn). department~~
the amount of expenditure proposed will have to
be split up into two categories, viz.,
(i) expenditure in India, and (ii) expenditure
in England, and details relating to each will
have to be given--e.g. Customs duty on stores,

A.

5

Freight charges and loss by exchange. The
Law (Edn.) department may be requested to
obtain further information from the D.P.I. on
the point and to take action as at ^{on page 2 ante.} ~~A above.~~

4. Subject to the above remarks, this
department may agree to the proposals being
placed before the Finance Committee.

D.P.I.

Subject:- Equipment for the Presidency College and the employment of a Museum Keeper in the Geology Department of the College.

The D.P.I. proposes the incurring of a non-recurring expenditure of Rs 12,530 as shown below-
Rs

(1) Cost of apparatus and materials for the Chemistry department in connection with the provision of two more special subjects in that department, Viz., Metallurgical Chemistry and Bio-Chemistry	4,030
(2) Cost of replacing worn out and useless microscopes in the Geology department	1,500
(3) Cost of purchase of microscopes and other apparatus for the Botany Department	6,000
(4) Cost of purchase of books for the philosophy Hons. library to meet the increasing demands of students and to bring it up to date	1,000
Total Rs	12,530

The D.P.I. is requested to furnish details for the above items in case they are required by the Finance Committee. It is presumed that detailed lists ^{are ready and} ~~which~~ can be sent for reference and return.

2. A large portion of the apparatus required seems to be of a nature that should ordinarily be obtained from England. If so, the expenditure on the articles to be obtained from England will have to be split up into two categories, viz., (i) expenditure in India and (ii) expenditure in England, and details relating to each will have to be given, e.g., Customs duty on stores, freight charges and loss by exchange. The D.P.I. may be requested to furnish the necessary details.

3. The menial staff of the Geology department consists of one attender and one peon. The D.P.I. proposes the employment of a Museum-Keeper on Rs 40-65 to be in continuous charge of the speci-

5
mens and scientific apparatus. This work can be attended to satisfactorily by an attender. The D.P.I. may be requested U.O. to say whether an attender on Rs 23-35 will not suffice.

U.O. Reply No. 1186-A/25 3/10/25

In the original letter of the Principal of the Presidency College to the D.P.I. which was dated 31st July 1925 full particulars for the proposed expenditure was given with regard only to Item No.1 above, viz., the cost of apparatus and materials for the Chemistry department in connection with the provision of two more special subjects, viz., Metallurgical Chemistry and Bio-Chemistry. I enclose for favour of reference and return pages 9 to 21 from the current file of my office. On page 19 will be found the total cost making provision now for the various detailed items, expenditure in England, expenditure in India, customs duty, freight charges and loss by exchange. The total amount is seen to be increased from Rs.4030 to Rs.5210.

2 Regarding the original request for Rs.1500 for the cost of replacing worn out and useless microscopes in the Geology department the Principal now informs me that the figure Rs.1500 is an error. He writes as follows:-

3 "The figure of Rs.1500 in the Professor of Geology's request was an error. It should have been Rs.1000 and would be the cost at current rate of exchange of one microscope landed in India. Fifteen are required to enable to replace 5 old ~~old~~ ones and supply microscopes to 10 students now without them. The total sum requested therefore is Rs.15,000. This includes packing, but not duty insurance and freight, which would be 15%. It is impossible to say what exactly would be the amount for freight and insurance. The whole amount would be spent in England".

I enclose page 5 of my note-file which gives details of the cost of what the Principal wants which

Slip (XIII)

made to sum 4
Rs 293 for books.

(E)

which amount in all to Rs.23,413 made up of the two totals Rs.16,960 and Rs.6453.

4 Regarding the cost of purchase of microscopes and other apparatus for the Botany Department I enclose page 7 of my note-file which gives a total proposed expenditure of Rs.6000/- as indicated in the original request. ^{now revised to Rs.7600/-} This sum of Rs.7600/- is made up of the two sums of Rs.5505 and Rs.2095 as stated in the enclosure regarding this proposed purchase.

5 Rs.1000 is requested for the purchase of books for the Philosophy Honours Library. I enclose pages 13 and 15 of my note-file which gives the information furnished by the Principal approximating to Rs.1000 at the market rate of exchange probably prevailing on the date of payment.

6 Regarding the proposal to appoint an attender instead of a Geology Museum-Keeper, the Principal reports as follows:-

"The work to be done is skilled as it comprises the care of valuable instruments, maintenance of museum specimens, rocks, minerals, etc., properly labelled and named; and the preparation of transparent sections of rocks for microscopic examinations. An attender on Rs.23-35 could not be expected to do this work properly".

I am not prepared to state that the view of the Principal is exaggerated although it may be presumed from his note that an attender on Rs.23-35 can do the work but that it could not be done properly. It is for Government to decide whether it wishes the work done properly, improperly or not at all. I am personally inclined to the view that it is probably better not to have the work done at all than to have it done improperly.

7 It will be observed from the above that the request for a provision of Rs.12,530 has increased to a request for Rs.37,223. In view of this very large increase I am somewhat doubtful whether Government would be justified at the present time in spending such a large sum as Rs.23,413 on the Geology Department, a very small department of the college, which deals with a subject which is and can from the ~~large~~ geological nature of the earth in this presidency be of only secondary importance

importance

importance in a University course of studies.

I shall be glad to have the enclosure returned in due course.

Law (Ed. 2) Dept.

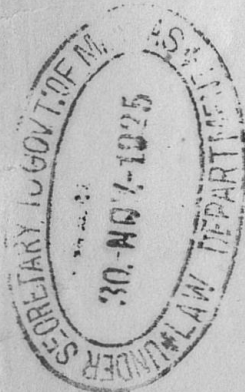

In view of the concluding portion of the Director's note on the previous page, the demand under "equipment for the Geological Laboratory" may be taken to have been withdrawn.

It has been stated that the Geology Dept. wants a museum keeper on Rs.40-65 as the work to be

"done is skilled" which cannot be attended to properly by an attender. The proposal may be supported.

The revised estimate of cost now furnished for additional equipment for the Chemistry & the Botany Laboratories may be accepted.

The note for the Finance Committee has been revised. It may be sent to Finance to be supplemented.

Appointment of a Museum-keeper on Rs.40--65.

The D.P.I. and Law (Education) do not agree to this dept.'s suggestion to employ an attender on Rs.23--35 in place of the proposed museum-keeper on Rs.40--65. In view of the D.P.I.'s remark on page 7 ante, this dept. need not press the point and may agree to the proposal being placed before the Finance Committee.

Parish on
page 7 ante

2. Expenditure on equipment and books: The revised proposals now made are as follows:

Rs.

(1) Cost of apparatus and materials and books for the Chemistry department:

Apparatus and materials	4917	
Books ..	293	
	-----	5,210

(2) Cost of purchase of microscopes and other apparatus for the Botany dept.

7,600

(3) Cost of purchase of books for the Philosophy Honours Library

1,000

Total .. 13,810

Law (Education) have withdrawn their proposals relating to the Geology dept. In regard to the other depts., this dept. may agree to the revised proposals being placed before the Finance Committee.

3. With reference to para 27 of the Budget Manual, the provision for customs duty should be shown in the estimates under the primary unit "Customs duty - Voted", under the minor or sub-head relating to the Chief Controlling officer. The provision of Rs.1,184 on account of customs duty in the present case should therefore be shown under

Para: 1 on
page 6 ante

Para: 4 on

10/12/25

Note for the Finance Committee.

Part II Scheme - Budget Estimate for 1926-27

Subject:- Equipment for the Presidency College and the employment of a Museum Keeper in the Geology Department of the College.

(Science Block of Rs.)

In connection with the Presidency College the D.P.I. submits the following proposals involving expenditure to be provided for in the budget for 1926-27.

I Equipment.

(a) Chemistry laboratory and library-Rs 5,210

The University Regulations allow students taking up Chemistry for the B.A. (Honours) Course to take one special subject out of the seven subjects specified below:-

- (i) Electro-Chemistry.
- (ii) Mineralogy and Elementary Crystallography.
- (iii) Elementary Crystallography and Stereo-Chemistry.
- (iv) Metallurgical Chemistry.
- (v) Tinctorial Chemistry.
- (vi) Bio-Chemistry.
- (vii) Chemistry of the rare earths and radio-elements.

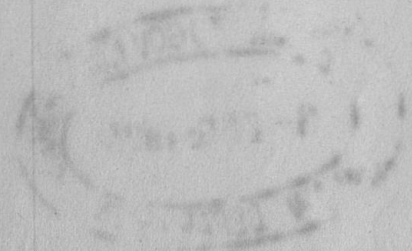

Since the institution of the Honours Course in 1911, the students of the Presidency College have been limited in their choice to one of the three subjects numbered (i), (ii) and (v) above. It is considered necessary that in the model college provision should be made for the teaching of two more special subjects, namely, Metallurgical Chemistry and Bio-Chemistry - Nos. (iv) and (vi) above. The Professor of Chemistry reports that an expenditure of Rs 4,917 will be required for providing the necessary equipment in the laboratory for giving instruction in the additional subjects specified

(21)

Please take

the note
8/11/12

12/11/12
12/12

12/11/12

2.
above. A sum of Rs 293 is also asked for for the purchase of books of reference.

(b) Botanical laboratory. - Rs 7,600 required

The amount is said to be required for purchasing microscopes and other apparatus for the laboratory.

(c) Philosophy Library. - Rs 1,000.

The expenditure is required for purchasing additional books for the library in order to bring it up to date.

The demands under items (b) and (c) above are also necessitated by the large accession to the strength of the college in recent years. The following figures show that the strength has been steadily increasing:-

Year	Total strength	Strength in Botany sections	Strength in Philosophy and Logic classes.
1917-1918	560	60	121
1921-1922	673	68	79
1923-1924	809	128	137
1924-1925	904	142	151

II. Employment of a Museum keeper in the Geology Department.

The Geology Department has only one attender and one peon. It is stated that owing to the increase in the number of students taking this subject the work in the department has increased and that it is found difficult to manage with one attender and ~~one~~ one peon. The attender has to remain for most of his time in the microscope room which is ~~very~~ far away from the rest of the department and ~~he~~ has to take care of the microscopes which are in constant use by students. He has also other work in the laboratory such as cleaning or repairing costly instruments. The peon takes care of the specimens (minerals, rocks, fossils, and crystal models) which are stocked in different places. The peon has also to be in attendance

proposes that a Museum keeper on Rs 40-40-1 $\frac{1}{2}$ -55-1-65 may be sanctioned and

3.
at the lecture classes in order to fetch specimens whenever asked for by the Professor or Assistant Professor. Neither the peon nor the attender has the time to be in continuous charge of the ^{specimens} ~~specimens~~ and scientific apparatus. The approximate value of the specimens and apparatus is Rs 8,500 exclusive of chemicals etc. the value of which cannot be definitely mentioned. The Principal of the College, therefore reports as follows:-

"The work to be done is skilled as it comprises the care of valuable instruments, maintenance of museum specimens, rocks, minerals, etc., properly labelled and ~~marked~~ and the preparation of transparent sections of rocks for microscopic examinations. An attender on Rs 23-35 could not be expected to do this work properly".

The scale of pay suggested for the Museum keeper is the same as that sanctioned for the Laboratory Assistant in the Geology Department and for the Herbarium keeper in the Botany Department.

Noted by the Law (Education) Department.

The Director's proposals are recommended for acceptance. The expenditure under equipment amounting in all to Rs 13,810 is non-recurring, while the expenditure involved in the employment of a museum keeper for the Geology Department is recurring. The expenditure required on account of the employment of the Museum keeper is Rs 320 in 1926-27 and the ultimate expenditure based on the average pay of the appointment comes to Rs 630 a year.

2. The expenditure may be provided for in the budget for 1926-27 as follows:-

Recurring

Non-recurring

"31 A.B. Education University - Govt. Arts Colleges - Men - Pay of establishment - voted one museum assistant (Rs 40-65) Rs 320

- Do - Non-contract contingencies Voted - Books and Periodicals 1294

- Do - Customs duty 1184
