DEMAND XIX - EDUCATION (PROVISIONS)

Mr. A. Ranganatha Mudaliyar.

p.237

282

To reduce the allotment of Rs.1,07,900 for

xxxxx direction by

(To ask whether the same grant-in-aid code applies

to the European and the Indian Schools, and if

that is not so, to urge that it should be so).

Law (Education) Department.

Grants to Indian schools are awarded under the Grant-in-Aid Code, while those for European schools are sanctioned under the Code of Regulations for European schools. In the case of European schools, grants are given in the form of fixed grants, the main restriction being that the grant may not exceed the ordinary income of the institution from all sources other than Government grants. The system of aid in European schools is the same for all grades of schools, whether primary, middle or high. In the case of Indian schools, the system ~~app~~ applicable to secondary schools is that, subject to certain conditions, one-half of the net cost of maintaining the institution is paid from Provincial funds. The aid given to elementary schools is based on the number and qualifications of the teachers employed in them, subject to an increase ~~or~~ reduction according to the efficiency or otherwise of the school.

The question of the differentiation between the systems of aid applicable to the two classes of institutions, Indian and European, ~~xxxxxx~~ has formed the subject of discussion in the Legislative Council in recent years. In 1924, Sir Arthur Knapp promised to consider the question of bringing the two sets of schools under the same code. The D.P.I. was thereupon asked to examine the question and to submit proposals to Government in the matter. ~~He~~ (has recently) suggested modifications in the Code of Regulations for European schools.

so as to bring the rules in the Code in conformity with the rules in the Grant-in-Aid Code applicable to Indian schools. One of the main alterations proposed ^(by the D.P. 9) is to ^{him} ~~was~~ apply the half-net cost principle to European schools. As this (would) mean the increase of grants to schools which ^{do} not require them and a decrease in grants to schools which could not do without them and might have to close, the Government (have) found it difficult to accept the suggestion of the Director. No final orders have however yet been passed and the matter is still consideration.
