Manual Training Schemes - Budget provision for
1926 - 27 - Part II.

In Part II of the Budget Estimates for the next year the D.P.I. has proposed a provision of Rs 53,643 for new schemes of manual training. A list of the schemes furnished by him is in the current file. Of the schemes in the list a few have since been sanctioned by Government. A few others which are pending have not been included by the Director. A revised list of all the pending schemes has been prepared and is placed below. The schemes noted in the list have all been seen by Finance except the following:-

(1) Introduction of agriculture in the Board High School, Ramachandrapuram.

(2) Introduction of weaving in the Board Elementary School, Kadayanallur.

As regards the first of the schemes the President, District Board, has been asked to frame a more economical scheme and also to report what portion of the cost can be met by the District Board. Pending receipt of his reply provision may be made for a grant of one-half of the cost of the scheme.

As regards the Kadayanallur school the District Board, Tinnevely, has been asked to report whether it will meet one-half of the cost of the scheme. Provision for a half grant in this case also may be made in the next year's budget.

The total amount required for all the schemes in the list is Rs 34,940, non-recurring and Rs 7,800, recurring, or Rs 42,800 ~~roundly~~ on the whole.

2. In the current year's budget a sum of Rs 1.15 lakhs has been provided under the various

attached to the note for
the Fin. Committee

2
minor heads in the budget for new schemes of manual training. So far, schemes costing a sum of Rs 60,000 roughly, have been sanctioned. The amount required for the ~~pending~~ ^{still pending} schemes ~~not yet sanctioned~~ can be found from the balance of the budget provision. The Finance Department, however, objects to this and states that the pending schemes should be treated as Part II items for the next year. A note for the Finance Committee is accordingly submitted below.

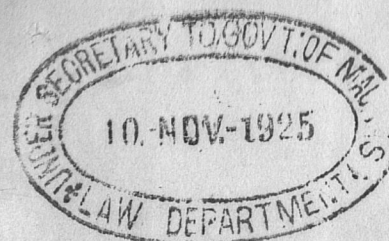

3. Of the schemes for which provision was proposed in the current year's budget one was the training of teachers for manual training in the P.W.D. workshops. The amount required for this scheme is Rs 9,000, non-recurring, and Rs 10,000, recurring. The D.P.I. has included this scheme in his list of schemes to be provided for in the next year's budget. The details relating to the scheme for the training of teachers in the P.W.D. workshops have not yet been ~~worked out~~ examined and the file on the subject is lying over pending orders on the P.W.D. ^{workshop} reorganisation Committee's Report. In the circumstances, it does not seem necessary to provide for the scheme in the next year's budget.

4. The file may be sent to the Finance Department.

Part II Scheme for 1926-27

Provision for new schemes of manual training.

---000---

Law (Education) propose to bring forward a Part II demand for 1926-27 of Rs 42,800 (made up of Rs 7,800 under recurring and Rs 35,000 under non-recurring) on account of new schemes of manual training. The draft note for the Finance Committee prepared in that department calls for the following remarks:-

(1) A small addition as shown in pencil has to be made in the description of the budget heads on page 3 of the draft.

(2) Law (Education) say that a provision of Rs 89,000 is made in Part I of the budget estimate for 1926-27 for the continuance in that year of schemes sanctioned in the current and previous years. The reference is apparently to that made by the Director of Public Instruction in his budget. If so, the point may be made clear. The exact provision to be made in Part I of the budget will be examined in this department on receipt of the Director of Public Instruction's budget and the recommendations of the Law (Edn.) Department. Special examination is needed in this department to ensure that none of the schemes for which provision was made in the budget for 1925-26 and which have since been dropped gets into Part I of the budget.

2. Subject to the above remarks, the draft note for the Finance Committee may be accepted, the note by the Finance Department being as follows:-

"The proposal may be placed before the Finance Committee as a Part II Scheme for 1926-27".

cmu
9.11.25

Law

The Finance Department has since suggested in two other cases that ~~the schemes~~ they should be brought forward as part II schemes for the next year. These have also been included in the list of schemes in the annexure. The total amount required has therefore been raised from Rs. 42,800 to Rs. 43,900. The necessary alterations have been made in the notes for the Finance Committee. =

2. With reference to the suggestion of the Finance Department in paragraph ~~xxx~~ 1 (2) ^{on the previous page} it has been made clear in the note for the Finance Committee that a provision of Rs. 89,000 is made by the D.P.I. in ~~the~~ part I of the budget. This amount does not include provision for any scheme which has not been sanctioned by Government.

3. The file may be submitted to H.Ms. M2 and C4.

Note for the Finance Committee.

Part II Schemes - 1926-27 - Provision for new schemes of Manual Training.

The Director of Public Instruction recommends that a provision of Rs.53,000/- may be made in the Budget Estimate for 1926-27 for new schemes of manual training.

Note by the Law (Education) Department.

The question of introducing manual training in schools imparting general education has engaged the attention of the Government for some time past. In the budget estimates of 1922-23 and 1923-24 lump allotments of Rs.1.50 lakhs and 1.15 lakhs, respectively, were provided for the introduction of manual training in schools. In the year 1924-25 no provision for this purpose was made. When the budget estimate for that year was under discussion in the Legislative Council, one of the non-official members moved that the provision made in the budget for the continuance of manual training schemes already sanctioned should be deleted. The motion was brought forward under the mistaken impression that the training was intended to turn out trained artisans. On behalf of Government it was pointed out in the course of the debate that the object of the manual training imparted in ordinary schools was to train the hand and eye of the pupils and to create a bias in their minds for industrial or technical training. It was also explained that the manual training classes were not intended to give the kind of training that could be had in industrial schools and workshops. The motion was finally put to vote and declared lost, only 9 voting for it against 62 in favour of the

6 / (15) 17

the retention of the provision for manual training. In the Budget Estimate for 1925-26 a provision of Rs.1.15 lakhs was made for new schemes which had been allowed to lie over for want of funds. Almost all the schemes which were pending last year have been sanctioned in the course of the current year. New schemes have, however, been received recently and a list of these is given in the annexure. These schemes are estimated to cost Rs.28,100/- non-recurring and Rs.6,400/- recurring. So far as the next year is concerned a sum of Rs.6,000/- will be required for the recurring expenditure on these schemes. In addition to this a provision of Rs.89,000/- is made by the Director of Public Instruction in Part I of the Budget Estimate for 1926-27 for the continuance in that year of schemes sanctioned in the current and previous years. The schemes noted in the annexure have been examined individually and the grants proposed represent ordinarily only one-half of the cost of the schemes. In special cases where the management concerned is unable to contribute its share of the cost of a grant in excess of one-half of the cost of the non-recurring items and of the recurring items for the first year of the introduction of the scheme is proposed. A sum of Rs.34,100/- may, therefore, be provided as detailed below in the Budget Estimate for the year 1926-27:-
