The L. and M. conference, held in November 1923, passed a resolution to the effect that Muhammadan training schools for masters and mistresses may be opened at Nellore. In considering these suggestions it was noted that the training schools may be opened at Nellore. In considering these suggestions it was noted that the training schools may be opened at Nellore.

training places available in the existing schools ^{have} not been utilised to the maximum. It may be noted here that in elementary & training schools the period of training is two years and that normally the two batches of students under training in an institution might number as many as eighty at the rate of forty students for each batch. It is, therefore, doubtful whether the Government would straight away proceed to open additional schools without ^{further} ~~further~~ proof as to their need than the mere expression of ^a desire of a conference or a council.

Obviously if the Director is satisfied as to the existence of a real demand for additional training schools he will be submitting proposals to Government."

The Director also concurred in the opinion that the existing places available are not utilised to the maximum.

In 1925-26 the Government sanctioned the permanent retention of the training schools for Muhammadan ~~masters~~ ^{masters} at Bellary and Arcot. In submitting proposals in this behalf the Director hoped that with the progress of Muhammadan education in the Presidency it would be found possible to open higher elementary sections in connection with the schools and thus raise them to the status of the higher elementary grade.

2 It is not known what the M.L.C. means by additional facilities to training schools for Muhammadan girls. He will have to be heard as to the exact line of action he has in view.
