Government of Madras

LAW (EDUCATION) DEPARTMENT

G.O. No. 739, 30th April 1926

Subsidy—for elementary school buildings—to certain local bodies—sanctioned.

Order—No. 739, Law (Education), dated 30th April 1926.

The Government are pleased to sanction subsidies not exceeding one-half of the actual cost of construction of buildings for elementary schools under the control of local bodies mentioned in the annexure to these proceedings, subject to the maximum amounts specified in the last column of the annexure.

2. The subsidies will be disbursed on the postpayment system. Such portion of the subsidy as is not disbursed in the current official year will be paid next year or when funds become available.

3. The local bodies concerned are requested to start the works at once and to report the fact of their completion with the amount of expenditure incurred on the works. A certificate that the expenditure has been actually incurred and that the work has been properly executed should be forwarded with each report. The certificate should be signed in the case of a local fund work by the President of the Local Board and in the case of a municipal work by the Chairman of the Municipal Council.

4. On receipt of the reports, the Accountant-General will be requested to disburse to the local bodies the grants which the Government will be able to sanction in the current year.

5. Reports received after the 7th March 1927 will not be considered in the current official year.

To The Secretary to the Government of Madras,

LAW (EDUCATION) *Department.*

Sir,

I have the honour to state that the President, Taluk Board, Kaikalur applies for a grant of Rs 5400/- towards the construction of building for the marginally

1. Kaikalur Girls noted six schools under the
2. Satenapalli
3. Pedagonur boards management.
4. Vedavalli
5. Pulapparu
6. Venkatapuram

2. The necessity for providing these schools with suitable accommodation has been explained by both the President, Taluk Board, Kaikalur and the District Educational Officer, Kistna.

The estimated cost of the 6 buildings proposed to be constructed is stated to be Rs 12000/- Of this, the Taluk Board expects a sum of Rs 1200/- as contribution from the Villagers. The Taluk Board has agreed to accept

the grant on the post payment system and is prepared to meet one half of the expenditure after deducting the amount promised by the villagers. The President states that the plans and estimates are ready in all the cases and that they are under scrutiny with the District Board Engineer. The subsidy of Rs 5400 applied for represents one half of the net expenditure to the Board.

Total estimated cost	12000
Contribution by the villagers.....	1200
	10800
Half grant applied for	5400

I recommend that the subsidy applied for be sanctioned on the postpayment system.

3. Necessary provision has been made for the purpose tentatively in part II of the Civil Budget Estimate 1926-27.

4. As the president enquires whether he can take up the construction of the buildings in time in expectation of the grant, I request that early orders may be passed.

5. A copy of letter R.C.No. 34 G1/25, dated 20th July 1925 from the President, Taluk Board, Kaikalur together with a copy of the statement showing the estimated cost etc is enclosed.

I have the honour to be,

Sir,

Your most obedient servant,

Copy of letter R.C.No 34 G1/25, dated 20th July 1925 of the President, Taluk Board, Kaikalur to the Director of Public Instruction.

I have the honour to state that I have today submitted in a separate communication a copy of the Taluk Board Resolution No.130 dated 14th July 1925 agreeing to the postpayment system of funds for the construction of school buildings. No lump sum provision will be made in the estimate and paid for during the execution of work. Lump sum payments will not even in general also be made to contractors in any work unless measured.

2, A statement showing the particulars called for in respect of the proposed new school buildings as required in para 2 of your letter is herein enclosed.

3. As the distribution of grant would be made later on only after the completion of the construction, I request that I may be informed if I can take up the construction of the buildings expecting the grant shown in the enclosed statement. This is the best season for the collection of materials by boats as the canals are full. I therefore request the favour of early orders on the subject.

Sir,

Subject:- Ellore Municipality--Elementary schools--Building grant--Applied for.

I have the honour to inform you that the Council maintains an Elementary School for weavers and other labourers at Fathebada, a suburb of this Town, with the aid of Provincial Funds. Its building raised in a private site has fallen down as a result of the recent Cyclone. It is therefore proposed ~~proposed~~ to purchase the site and provide the school with a suitable building at a cost of Rs. 850/- the details of which are furnished in the margin. The owner is willing to hand over the site without the acquisition proceedings being

resorted to. The requisite estimate and plan are kept ready for execution duly sanctioned by the Council. The school is at present located on a pial in a private building and the pupils are put to much inconvenience. On account of the urgency of the affair, the construction of the building is proposed to be commenced in anticipation of the receipt of grant. I, therefore, request you to be good enough to obtain the sanction of the Government for a grant of one half of the cost from Provincial Funds.

NOTES

1. This form should be used for all estimates, whether relating to original works or repairs.

2. A sanction to an estimate must invariably be regarded as strictly limiting the expenditure to the precise objects detailed in the estimate. Any anticipated or actual savings on a sanctioned estimate should not, without the special orders of the Chairman, be utilised for any additional description of work not originally contemplated when the estimate was sanctioned, or not fairly contingent on the actual execution of the work concerned.

3. It is the duty of the officer in charge of the work to report to the Chairman any deviation which is likely to alter its character, or to cause any excess over the total amount of the sanctioned estimate, but if the deviation is trifling, and if the excess is not likely to exceed 10 per cent. of the estimated cost, the work may be completed with the written sanction of the Chairman. The deviations should, however, be reported to the Council and its sanction obtained for the admission of the excess charges. If, on the other hand, the deviations are likely to materially alter the character of the work, or if it is probable that estimated cost will be exceeded by more than 10 per cent., a revised estimate, accompanied by a comparative statement of differences in Form No. 76, should be submitted at once so as to enable the sanction of the Council or the authority concerned to be obtained in time.

4. In the case of road works, care should be taken, when the collection of materials is provided for, to deduct any quantities already at site, and also to attach a statement in Form No. 88 for the balance to be collected.

5. Data should be given in the remarks column of Part II of the Estimate for all consolidated rates not traceable in the schedule of rates in Form No.77.

6. In the case of sanctions accorded by any authority other than the Council, the particulars thereof should be noted at foot of the last page.

Resubmitted to Government.

2. In G.O.No. 203, Home (Education) dated 15th February 1919 a subsidy of Rs 7000/- was sanctioned and placed at the disposal of the Council for construction of a building for the school. It is reported that the Council utilised a sum of Rs 5313-5-4 for other works including the expenditure of Rs 2935 on a site ~~mf~~ out of the -- subsidy sanctioned in G.O.No. and refunded the balance (viz) Rs 1686-10-8- Please see copy of the Chairman's letter G.C No. 1460/25, dated 27th August 1925 enclosed- The Chairman reports that some items of work such as laying out foundation etc were carried out before the grant was

resumed by the Government and that the balance of the work yet to be done amounts to Rs 5887.

3. The Municipal Council is prepared to bear one half of the cost and the subsidy of Rs 2943 applied for represents one half of the estimated cost (viz) Rs 5887. The plan has been approved by me and the estimates are reported to have been sanctioned by the Superintending Engineering 3rd Circle As regards the Council's willingness to accept the grant on the post payment system the Chairman states that it might be possible for the Council to take up the work on hand and accept the postpayment as the collection of taxes progresses and that a further report will be sent by the end of October 1925. In these circumstances I recommend that the subsidy applied for may be sanctioned on the post-payment system.

4. A sum of Rs 2943 has been included tentatively for the purpose in part II of the Civil Budget Estimate for 1926-27.

Sir,

I have the honour to submit an application for grants required for the construction of school buildings in this Municipality. The estimated cost of the scheme amounts to Rs. 9000/- as detailed in the annexed statement. The Council has made a provision of Rs. 3000/- towards the construction of Elementary school buildings in the current year's budget under Elementary Education fund and I request that Government will be pleased to sanction payment of a grant of Rs. 6000/- to the Council made payable a portion in the current and the balance in the next year.

p.3 supra

The Council is willing to bear one half of the Cost of item no (1) on p 3 supra

The necessity for the buildings has been keenly felt and Government have promised favourable consideration of the application for grants in their Memo No. 32077-1248 dated 17-11-1924.

Sir.

In submitting herewith the letters Ref.No.74-Cl/25, dated 6-4-1925 from the Chairman, Municipal Council, -- Chingleput with the application, I have the honour to state that the Council has agreed to accept the grant on the post payment system and that it is prepared to meet Rs.3500 being one-half of the cost from its own funds excluding the sum of Rs.846 referred to in the Government Memo No. 4317-A-2 dated 16-11-1923. The total estimated cost of the work is stated to be Rs.7000/- I recommend that a grant of Rs.2654/- being the difference between the -- estimated cost and the Council's share including the amount of Rs.846 utilised out of the balance in the Elementary

Education Fund referred to above, may be sanctioned to be paid on the post payment system.

2. Necessary provision for the purpose is being mad in Part II of the budget estimate for 1926-27.

3. In 1924-25, the Council's application was considered along with the distribution of the provision of Rs.1 lakh but it was not recommended as the Council was unable to accept the grant on the post payment system (vide) para.6 of my letter R.C.No.636-B/24, dated 23-12-24 disposed of in G.O. To

The District Educational Officer,
Chingleput District,
M a d r a s.

Sir,

Your Communication No. 337 of 1925 dated 29-1-25 of the endorsement No. Dis 135 B of 1925 dated 22-1-25 of the Director of Public Instruction--grants for construction of Elementary school buildings--Application to be renewed in 1925-26.

The proposal of this council to construct the Gundur Girls' School was started in 1920, application for grants was made year after year since then and they were all refused. Vide letters No. 46 N.B/21 dated 16-1-21 and No. 2365 of 1922 dated 31-3-1922 of the Director of Public Instruction. In 1923-24 the Government have, in their memorandum No. 4317-A-2 dated 16-11-23 permitted the utilisation of Rs. 840/-, the budgetted balance of 1923-24 and promised to consider the application for grant in 1924-25. Accordingly work was carried out as far as funds could permit. The application for grant in 1924-25 was returned to be renewed in 1925-26.

I now renew the application in respect of this school and request that necessary grant be sanctioned, in time, to complete the building at least during 1925-26 as the technical sanction of the estimate has already been obtained.

Sir,

I have the honour to submit herewith an application for a grant of Rs 21,000/- for providing four school buildings during the year 1924-25. The Council maintains 14 elementary day-schools - 9 for boys and 5 for girls - but only six buildings are owned by the Council and seven are rented, one of the girls' schools being held in a portion of a building rented for a boys' school. Attendance and progress of work in a school held in a rented building is often much effected by its shifting for one reason or other from one building to another. Further it is often found difficult to secure for rent a suitable building with accom-

modation for Abaj ground. A building and garden for a girls' school has just been purchased at a cost of Rs. 3,060/- from Municipal funds. Two suitable (pucca) houses have been selected for the construction of school buildings and the cost of constructing buildings thereon has been estimated at Rs. 7,500/-. The estimates have been sent to the Superintending Engineer for scrutiny and sanction, and the work is proposed to be taken in hand immediately after receipt of the estimates back from the Superintending Engineer. It is also proposed to purchase two other buildings which are at present rented and the cost of their acquisition is estimated at Rs 13,500/-

2. In April 1921 the Council had to refund to Government a sum of Rs 13,333/-, the grant received for construction of school buildings, as at the time the work of construction of the buildings had not been taken in hand and Government in their Memorandum No. 5146-1 of 21 dated 4th April 1921 was good enough to state that an application for a grant might again be made when the work is ready for execution.

3. I request that you will be pleased to move Government to sanction a grant of Rs 2,100/- so that the work may be taken in hand immediately on receipt of intimation of sanction for the grant.

Sir.

In renewing my application C.R.438/23-24 dated 28-9-1923 for the second time for a grant of Rs.21,000 from Provincial Funds for providing four school buildings, I have the honour to state that the Council finds it difficult to meet the situation without owning its own buildin as either buildings available for rent are -- unfit for school purposes or no building is available at all in the vicinity where the location of a school is a necessity. Further the parties from whom buildings are rented out demand higher rent every year so much so that either the school has to be shifted much to the detriment of the school or the Council has to unwillingly agree to

the higher rent. The District Educational Officer too will bear testimony to this effect. The different -- querries of the Government have all been replied to in the course of the last official year.

In conclusion I have the honour to request you to move the Government at least for half the grant in case it is not possible to provide for the full grant prayed for in this budget.

Grant - construction of Elementary School building Municipal Council, Mangalore.

Resubmitted.

2. In 1924-25, the Council applied for a grant of Rs 21666/- towards the construction of two school buildings and the acquisition of two buildings for the use of schools. But no grant was recommended as the amount of Rs 13,333 resumed in previous years was not sufficient to complete the execution of works. The Council has now renewed its application and requests the payment of at least half grant.

3. In regard to the construction of two buildings, it is reported that the plans and estimates have been approved by the Superintending Engineer and that the sites are accessible to all classes of pupils including Adi-Dravidas . As regards the two schools for which purchase of buildings is proposed, it is reported that they are in need of accommodation and that the cost of purchase of the buildings has been estimated with reference to the market value of the buildings in the neighbourhood and scrutinized and approved by the officers of the Public Works Department.

(2) Kadiri Girls' School
(1) Pentland petta Girls' School
(2) Market ward Boys' School

4. In view of the fact that the Council has surrendered a sum of Rs 13,333/- in previous years and has modified its original request to a half grant, I recommend that a grant of Rs 10,500/- being one half of the estimated cost may be paid on post payment system.

5. Necessary provision for the purpose is being made in Part III of the Budget Estimate for 1926-27.

The President, District Board, Coimbatore,

and,

The Director of Public Instruction, Madras.

Sir,

The Government girls school at Bhavani was recently transferred to the control of this Taluk Board as per G.O.No 1132 Law - Education dated 23/9/22. This building is exactly opposite to the Cauvery bridge and on the trunk road. During the recent floods in the Cauvery in the month of July 1924, the water rose to 6½' over the floor of the bulding. It was directly exposed to the most violent current in the breach

breach from the Cauvery. The water completely pulled down the compound wall all round. The south-eastern corner of the verandah had fallen down. The well in the school compound was completely covered up, breaking away the parapet wall etc, leaving no trace of it. The cost for constructing a wall alone round the school comes to Rs 1750/. For constructing the damaged portions of the school building, and for the restoration of the well, the cost is estimated at Rs 1385/. The total amount required is Rs 3135/. The improvements have to be attended to very urgently. The building belongs to the Government, and the liability of the Taluk Board is to maintain the same in good condition. The Taluk Board has already spent a sum of Rs 720/ towards closing the deep pits formed round the building. This Taluk Board is not in a position to meet this extraordinary unforeseen expense either from its general funds or from Elementary education funds, and looks to Government for rescue. An extract from the minutes of its proceedings is enclosed.

2. I request that you will be good enough to obtain the sanction of the Government for an allotment of Rs 3135/ from Provincial Funds as a special case. I submit that necessary estimates are ready.

Construction of Building for the Thirumpadayan Kuid School:— The construction of the school Building has been completed. The construction of the compound wall has yet to be finished. The Government were requested to sanction the necessary grant during last year. But they in their G.O.M. 4711 L+M dt 23.2.'25 observed that it was too late then to include provision in the Civil Budget Estimate for 1925-26 and asked to renew the application this year. 3. Educational buildings:--The elementary school for the girls of the II ward, the elementary school for Mahammadan girls and the elementary boys school, Thenkarai are without proper buildings. Suitable buildings for housing them are not available in the town and the buildings available for rent are so cramped for space that the expansion of the schools is not possible. In the interests of the expansion of education and also of the improvement of the health and physique of the pupils themselves, the provision of proper buildings for these schools is imperatively necessary. For 1926-27 grant is applied for on behalf of the II ward girls school and the Thenkarai boys school at the rate of Rs.12,000 for each school, inclusive of cost of site. In respect of the III ward girls school, for which a building has already been provided, a grant of Rs.4,300 is again applied for. Though the credit taken for a government grant in this respect in the elementary education budget estimates of 1923-24 and 1924-25 was allowed to stand yet in Government Memo No.1906-A dated 12-6-25 Law(Education), the grant was refused without assinging any reason whatever. A reconsideration of the order was requested in this office letter No.R.O.C.72 G.R. dated 30-7-1925 addressed to the Secretary to Government in the education department, but this has again been refused. If no grant is possible to be made in 1925-26 this may be considered in 1926-27 and a grant sanctioned for this item along with a grant for the provision of buildings for the two schools specified.

Communicated in P.D.B's Endorsement Ref 3387-25 A1 dated18--8--25.

.....

I have the honour to forward herewith an appli--cation for grants from provincial funds for the construction of Elementary school buildings-one for the Girls' school at

at Palakod and another for the Dharmapuri Higher Elementary --- school for boys and to request that the Government may be pleased to sanction same.

2. In this connection I may invite the favour of -- your kind attention to the fact that Government were pleased to sanction grants for these two works as noted in the margin and the same were also resumed in G.O No. 1746 L&M dated 16--9--21 and since then appli-- cation for grants in -- respect of these two works are being sub- mitted every year but so far not one has yet been sanctioned.

1. G.O.No 203 H.E dated 15-2-19 Rs3000/- for the construction of an elementary school --- building at Dharmapuri.
2. G.O. No.1576 H.E dated 16-12-19 Rs3000/- for the construction of a Girls' school building at Palakod.

3. As the application is being renewed every year as - already stated by me I need hardly dwell in great detail upon the pressing necessaity for increased accommodation in the Board Higher Elementary school Dharmapuri for want of which the recognition - of the VII standard of the school is pending sanction by the --- Educational Council while on the other hand the site acquired long ago for the Palakod Girls' school building at a cost of Rs1000/- is lying waste as the board is not in a sound financial position to undertake this work.

4.. The sites selected for both these schools have been certified to be accessible to classes of pupils including Adi-Adidravidas and Adi-Andhras and the plans and the estimates have also been sanctioned by the Director of Public Instruction, Madras as has already been pointed out by me in the applications submitted in the previous years.

5. In conclusion I would only request that the Government may be pleased to consider this application favourably at -- least this year and sanction the same.

Drgs. Plans and estimates have been approved by the Director and the site for the girls' school already acquired. A grant of Rs 3,000 was sanctioned for each of these schools in 1919 but the grant was resumed in 1921. The President states that the Board has been applying for grants for these ~~years~~ works since that year but that no grant has been sanctioned.

There seems to be no special reason why the Taluk Board should not meet one half of the cost by raising a loan if necessary.

A draft memo is put below for approval. After it comes the case may be passed on to D.P.I. (Edn.) for consideration of the question of sanctioning a half grant.

To The Secretary to the Government of Madras,

Local Self Government Department.

Sir,

I have the honour to renew my application for grants required for the construction of school buildings as directed in G.O. No.305 L & M dated 26th January 1925 and to request that the Government may be pleased to - - sanction a grant of Rs.11310 for the construction of elementary school buildings as shown in the annexed list.- - All the estimates have been sanctioned by this council at its meeting held on 20-12-24. The sites for the construction of the buildings have been approved by the supervisor of the P.W.Department as explained in my letter Ref on - No.1031/G1 of 24 submitted to Government on 27-12-24, and also by the Deputy Inspector of schools, Conjeeveram Range and the local chief Medical Officer.

I have explained in my letter dated 17-12-24 that the construction of the school buildings is very necessary and that the council has been paying highy rents for unsuitable rented buildings.

I, therefore, request that the Government will be -- pleased to sanction the grant of Rs.11310 applied for last year.

2. Grant-Girls' School Building.

A sum of Rs.8,000 was sanctioned by Government in G.O.No.333 Home (Education) dated 16-3-1920 for constructing a Girls' school building etc in the Municipality. A sum of Rs.939 was utilised for raising compound walls to the Turpupalam Elementary school, while the balance of Rs.7061 was surrendered to Government as per G.O. No.366 L & M., dated 28-2-1921. Out of the surrendered grant of Rs.7061 a sum of Rs.2840 was sanctioned in G.O.No.2111-Mis dated 1-11-22 for the purchase of the Girls' Elementary School building, thus leaving a balance of Rs.4220. The building purchased for Rs.2840 is in a dilapidated condition and it is an old fashioned dwelling house. It is now proposed to convert it into a pucca school building as per type design No.C.E.T.S.15/1922 with slight alterations therefrom approved by the Chief Engineer, Public Works Department. The estimate for conversion comes to Rs.4220. The whole amount of Rs.4220 is applied for from the surrendered grant.

Sir,

Through The Director of Public Instruction and the President, District Educational Council,

Copy Submitted Dated.

I have the honor to invite attention to this office letter R.C.No.1603/24-A-2 dated 15-10-24 regarding the application for a grant of Rs.17000/- for the construction of two Elementary School buildings and request that the grant may be sanctioned and disbursed in the current official year.

The Council again considered the question of the grant at the time of the consideration of the Budget for the current official year and resolved to request the Government again for the allotment of the grant. A copy of the Council's resolution is enclosed. The figure Rs.16000/- in the resolution is a mistake for Rs.17000/-

I request therefore that Government will be pleased to allot

the grant applied for.

Sir,

Last year's circular letter to Municipalities dated 5th Feb 1924

1/ In compliance with the Proceedings of the Director of Public Instruction Madras R.O.C.No.636/B 24 dated 9-4-1924, applications for Provincial subsidy for six elementary schools at one half of the cost of new construction were submitted through the District Educational officer and Inspectress of Girls schools in this office letter/ R.O.C. No.612/24 dated 15th May 1924 for sanction. Both the ---- Inspecting officers were good enough to recommend the appli--cations favourably owing to the urgency of providing better accommodation for the daily increasing strength in the

rented buildings.

2/ The Director of Public Instruction, Madras, in the Proceedings R.O.C.No.636/B/24 dated 7-1-1925, while sanctioning subsidies for various other schools has not, it seems, favourably considered our application and on a further reference to him it is now ascer-tained that since provision has been made for building construction in the compulsory scheme introduced in this Municipality, no subsidy was sanctioned by Government.

3/ On a perusal of the Financial statement appended to G.O.1228 L.B dated 14-10-1922, it will be observed that excluding the provision made for (1) garden museum (2) stipend to teachers (3) Superintendent (4) and (4) Loan charges, the ordinary maintenance charges was estimated as Rs.7750. But from the actual figures furnished below, it will be observed that the running charges are increasing year after year and the Council within the 3 years after the introduction had to provide in the current year for an additional allotment of Rs.5650 in the Budget.

Year.	Expen diture. Ordinary.	Capital. Building.	Equipment.
1922-23	4201	6618	2317
1923-24	6766	..	834
1924-25	8585	..	809
Budget provision for 1925-26	13400	1750	500

4/ Further the managers of private aided schools have not received any compensation ever since the compulsory scheme came into force on the ground that the amount fixed by the Educational officers according to the rules are too low for the alleged loss they sustained on account of the non-levy of school fees in their schools and they have appealed to higher authorities. As soon as orders are received the Council will have to pay for nearly 3 years and this will ----- necessiate an additional allotment of Rs.1400 under compensation in

addition to the current years provision.

5/ The capital charges have similarly been provided so far funds could permit every year and with the current years allotment, the cost exceeds Rs.4000 against the estimated provision shown in the financial statement. The building expenditure of Rs.6618 being the cost of Valipalayam girls school has not been taken into account for this purpose. Hence the Council resolved in view of the growing expenditure for the maintenance of schools which have now come to 12, to approach the Government to favourably consider for the grant of one half subsidy of the total cost of buildings and to apply for loan to meet the (Council's share) the other half.

6/ I submit herewith a copy of Councils resolution and to request that Government may be pleased to kindly consider this application favourably and sanction a Provincial subsidy of Rs.8000 required for the following schools as a special case at an early date.

	Estimated cost.
Valipalayam Ely.school.	Rs.2500

Subject : - Subsidy for the construction of elementary school buildings. Municipal Council, Tirupur.

C. 3506 A. From the Chairman, Municipal Council, Tirupur, No. 612, 24, dated 19th June 1925.

- do- D.P.I. No. 1743 B/25, dated 9-9-25.

When the Municipal Councils, Tirupur, Madura and Kumbakonam applied last year for a subsidy towards the cost of construction of buildings for elementary schools, the D.P.I. remarked as follows : --

"These municipal councils have introduced compulsion "and in connection with the estimated cost of the scheme "of compulsion, provision has been made for a building "programme, spread over a few years. There is no reason "why a grant should be given apart from the scheme. All "the Municipal Councils are financially sound. Further the "Municipal Council, Kumbakonam, proposes to meet its "share (half the cost) from the loan proposed to be "raised. These cases I have excluded from the statement "(i.e. list of schemes for which subsidies were recommend-"ed)".

2. The Municipal Council, Tiruppur, proposes to construct buildings for six elementary schools at a total cost of Rs. 16,050 and applies for a half grant. The cuncil proposes to apply for a loan to meet the other half of the cost.

3. The budget estimate of the Elementary Education Fund under the control of the council for the year 1925-26 closes with a balance of Rs. 1,719/- The chairman states that compensation to managers of aided schools has not been disbursed for the last three years. When this is paid it is not likely that there will be any balance in the Elementary Education Fund. A half grant may therefore be sanctioned towards the cost of the building works. A sum of Rs. 8,000 will be included in the provision to be as

for 1926-27 for subsidies to local bodies for elementary school buildings. The L.S.G. department may be requested to consider the question of giving the loan asked for by the Council to cover its portion of the expenditure on the buildings.

The ordinary surplus or deficit of the Council under the General Account and the Elementary Education fund is noted below for three years ending 1925-26 i.e. as follows:-

	General Fund Rs.	Elementary Education Fund Rs
1922-23. (Actuals)	+ 23458	- 1044
1923-24 (—do—)	+ 24749	+ 1328

1925-26 (Bud Est)	+ 26440	- 650
Closing Balance (B.E)	+ 51462	+ 3011

The Council can easily meet its share of the cost (Rs 8000) from its general revenues in one instalment. ~~or take a loan~~ No loan seems needed. If the Council takes a loan it will be in a position to repay it from its General revenues if in any year the Elementary Education fund, to which the loan charges are debitable, will not admit of the payment. The annuity for a loan of Rs 8000 repayable in 10 years amounts to Rs 1074.

The budget estimate of the Council for the current year is expected to close with a balance of Rs 1,988 after providing for a capital expenditure of Rs 5000 from Govt. accordinary. It will not be possible for the Council to undertake the capital

C. Schemes which are really urgent for which plans & estimates are ready

1) Kumatti Bd. 9000 — 9000

Bd. EG. School building at Sathyamangalam 2.-00. for girls. 9000 — 9000

(3) Gobichettipalayam Girls 9000 — 9000

Though the estimate was sanctioned for Rs 9000 the Govt were pleased to sanction a grant of Rs 5000. in 333HE dt 16.3.20 & the work was not started then. owing to insufficient means to find out funds in addition the grant of Rs 5000 has been renewed by Govt in Go 366 L+M/A 28.2.21 Owing to recent floods in the Bhavani the walls of Hindu were disjointed at Sathyamangalam and the Bd School for boys as well as girls suffer very much for want of accommodation The construction & build up for these schools was not found more urgent than those of the girls' school at Gobichettipalayam is located at the L.F. Church by the work of a room even for rent. and it is in urgent need of a separate building of its own This bd requests it's kindness

Mr Bowen is not in a position to defray even a part of the expenditure and hence the Government will be graciously pleased to sanction the entire grant in each case. Necessary plans and estimates are with the Dt. Edl. Officer Coimbatore

It is stated that plans and estimates are pending with the Dt. Educational Officer. The grant is asked for in full. The P.T.B. says that the Taluk Bd's resources are too slender to defray even a part of the cost and hence the application for full grant. The financial position of the Bd. may first be examined before supporting a full grant

PRS
ZP

The three buildings cost Rs 27000 in all & if half the cost is met by Govt as grant given to the Bd it need find only Rs 13500. The annual fee loan of this sum payable in 20 years comes to Rs 1154. The ord. repairs the Bd exceed the income by Rs 3650 but this is due to the provision for repairs of (Rs 3800 under masonry, Rs 2000 under roofs) damage in 1924-25 & the normal surplus of the Bd, i.e. Rs 2495 & it can finance in previous years the Bd has actually worked

~~Sir,~~

Through The Collector of Tinnevelly.

Sir,

Reference:- Government Memorandum No. 23390-B 1 L & M dated 12th August 1925.

I have the honour to submit herewith an application for a grant of Rs.1350/- for the construction of a building for Kurichi boys school. The school is badly in need of a suitable building. The place selected for building is adjacent to the habitation of backward classes. There are 10 Municipal elementary schools of which

Rly 8/10.

only two are provided with buildings of their own. The Collector of Tinnevelly has been kind enough to assign a piece of land for the construction of the building. I have the honour to forward here a copy of the Resolution of the Municipal Council and to request that you will be so good as to consider the application favourably and sanction the grant applied for.

I have the honour to be,

Sir,

Your most obedient servant,

It is understood from Law (Edn) that the D.P.I did not support the application for reallotment of the balance of the grant ~~that the taluk board was not prepared to meet the extra cost over the estimated cost that would be required to bring the building to completion from its funds~~ and that no grant was therefore sanctioned.

also. Please put up an extract of the D.P.I's letter.

7.8.25

When the municipal councils, Tiruppur, Madura and Kumbakonam applied last year for a subsidy towards the cost of constructing buildings for Elementary schools the D.P.I remarked as follows.

"These municipal councils have introduced Compulsion and in connection with the estimated cost of the scheme of compulsion, provision has been made for a building programme, spread over a few years. There is no reason why a grant should be given apart from the scheme. All the municipal councils are financially sound. Further the municipal council Kumbakonam proposes to meet its share, half the cost from the loan proposed to be raised. Nine cases I have excluded from the statement" (i.e a list of schemes for which subsidies were recommended)

1091

As,

91

It is understood from Law (Edn) that the D.P.I's remarks as tracked above are no longer considered bar in the matter of giving grants. On the other hand, the present policy seems to be against any such objection as that raised by the D.P.I. In fact, a half grant has already been provided for in the case of Tiruppur. While that is so, there is no reason why an exception should be made in the present case and a half grant should be recommended provided the Council is prepared to meet the other half from its own general revenues and not from the E.E fund as it now proposes to do. The latter course cannot however be accepted as the E.E fund consists mostly of Govt. grants. The draft ord. below is for approval.

Ag. After which the file may be sent to Law (Edn) to consider the question of providing a half grant.

3. Building for Municipal Girls' School No.I.

This is the only Municipal School which has not a building of its own. The present rented building is found quite unsuited to the requirements. There is no other building in the locality which satisfies all conditions. Agreeably to Director of Public Instruction's Proceedings 636 B/24 dated 9-4-24 Council's application for a grant was submitted through the Assistant Inspectress of Schools with this office R.C. 9 of 24 dated 27-4-24 and in obedience to the instructions of the Government as communicated in para 3 of G.O.No.2775 L & M., dated 7-10-1924 I have submitted to Government a copy of Council's Resolution No.176 dated 29-11-24 with my letter C.No.9 dated 1-12-1924. The School cannot be continued in the present building without seriously impairing the efficiency and the popularity of the Girls' School started in a locality where it was found most needed to bring the conditions of female education in the Municipality into a line with that of male education. The school has been admirably serving the needs. A proper building is its only need. I therefore beg that the Government may be pleased to sanction the grant applied for.

The G.O. relating to 1st two items is not available. It is understood from Law Edn that the above procedure is followed only in cases of Secondary schools. These Schools seem to be Ely Schools. So this Department may support a half grant and forward to Law Edn. for consideration.

A Taluk Board has nothing to do with Secondary Education - The buildings should all be for Elementary Schools. Law(Edn) may be asked to consider a grant of Rs 11,070.

3. ii. With regard to buildings of the Elementary Schools, I may say that most of the Elementary Schools are located in rented buildings. After the introduction of "Free & Compulsory" Education it is urged by Government as well as the Director of Public Instruction that gradual steps should be taken by the Council for the provision of buildings to all the elementary schools. Hence an estimate for buildings as per approved type design has been sanctioned by the Council. It is hoped that the Government will be pleased to favour us with the full grant applied for in consideration of the legitimate demand of the Council.

In continuation of my letter R.C.NO. 34 G1-25 dated 25- 8- 25, I have the honour to state that the best season for collecting material at the work shop is drawing to a close. From December onwards there will not be full supply of water in the canals and materials can not be conveyed easily and without considerable extra charges for boats etc. When the harvesting season also commences labour becomes dear to make the estimate amounts go high. Sir,

With reference to Government Memorandum No.28189-1-C L. & M., dated 24-9-25 on the application for grants for the construction of educational buildings, I have the honour to state that the sites for the respective buildings have already been acquired and that the plans and estimates also prepared last year.

As these stimates required some revision, I have sent them on 1-10-1925 to the District Board Engineer, Ramnad for revision and also to get necessary approval of the competent authority with reference to G.O.No.3215/L. & M., dated 7-9-25.

Immediately after receipt back of the estimates, they will be got sanctioned by the Taluk Board and the works executed. One half of the cost of the estimates will be met from the Taluk Board funds and the other half from the Provincial subsidy sanctioned by the Government in their order

Sir,

Reference:- Memorandum No. 30016-1 C.L.M dated 7th October, 1925. (Education Building-Application for Government grant.)

I have the honour to invite your kind attention to G.O. No.mis. 1330 Law (Education) dated 3-8-1925 wherein the Government have remarked that the deficit resulting from the alterations proposed on the Budget of 25-26 regarding Elementary Education Fund should be avoided by curtailing expenditure.

920

This shows that this Board will have a deficit balance in Elementary Education Fund according to the Budget for 25-26 as approved by Governement. Yet the Board has resolved to contribute from its general funds a sum of Rs.3400/ towards capital expenditure for school houses at Kunnathur and Nathakadayur although the deficit anticipated in Elementary Education fund at the end of the year will also have to be met from General Funds.

In these circumstances, the Board finds it difficult to contribute any more towards Elementary Educatio during 1925-26 and it requests the Government to meet only a small sum of Rs. 1700/- towards the extension of Alangium Board School building.

I therefore request that you will be pleased to sanction the whole sum of Rs. 5100/- applied for Educational buildings in this Office R.O.C. No. 1579/T.B. of 25 dated 2-9-25.

Sir,

In reply to Government Memorandum No.28847-1-C-L & M., dated 30th September 1925 requesting to report if the council is willing to meet half the cost of constructing a building for the Periapet Hindu Girls' school, I have the honour to state that this council has to pay to Government the dues relating to the medical bills and to recoup the amount of deposits now attached in the treasury in respect of medical contributions. Hence the council have to starve the roads and other items of works owing to financial difficulties. They have already taxed the population and if any slight increase in fees, if adopted during the year, will go towards the needs of improvement in other aspects. Hence the difficulty to contribute half the cost.

2.

2. In view of these circumstances, of the council resolved that it is unable to contribute half the cost towards the construction.

Sir,

I have the honor to state that the Board Hindu Girls school, Satyamangalam is held in a building at a rent of Rs 15/ per mensem. The building is inaccessible to the depressed classes, and no other suitable building is available. Further it is very diificult to continue payment of rent as stated above. The construction of a separate building is urgently necessary, and the Government were requested

In reply to query 1 of the Government Memorandum, I have the honour to state that plans and estimates are ready in the case of works noted in the* margin and that technical sanction of the Taluk Board referred to in Rule 240 of the Local Boards Manual will be obtained at its next meeting in respect of works Nos. 2 and 3, and that of the Superintending Engineer for Work No. 1 will be obtained after obtaining the formal approval of the Taluk Board to the estimate at its next meeting.

2. In reply to query No. 2, I beg to state that the Taluk

Taluk Board has no funds to spare from its own funds, and I am of opinion that a portion of the cost can be met from the closing balance under Elementary Education Funds of this Taluk Board.

3. In this connection I beg to submit that this Board is making application for Government grant for these works and several others not found in the margin year after year for the past three or four years and nothing has been sanctioned till now. The Government have also intimated the Taluk Board in their order No. 1219 L. & M., Mis. dated 10-5-1924 and Memorandum No. 28612-1 L. & M., dated 16-10-1924, that the application of this Taluk Board for grants for Elementary School buildings is still under their consideration. I therefore request that the Government may be pleased to take a generous view on the application of this Taluk Board for grant for school buildings, especially in view of the fact that application for the same is being made by this Taluk Board year after year, but with no success.

Sir,

Refce:--Government memo No.28188--1--C L & M., dated 28th September 1925.

With reference to the above I have the honour to inform you that the financial position of this Taluk Board does not admit of any outlay on capital expenditure for --- construction of buildings, even to the extent of half the amount of the provincial subsidies. The Budget estimates of this Taluk Board for the current year is already before the Government pending orders and a reference to it would bear out my statement.

I have the honour to be,
Sir,
Your most obedient servant,

President.

The balance of Rs.95,000 will have to be provided in Part II. But as all schemes may not mature during the course of next year, it is proposed to provide a lump grant of Rs.67,000 in this part of the budget. In this event the provision in part II and part I will correspond to the current year's budget grant of Rs.70,000 (Rs..43 lakh original grant plus .27 lakh supplemental grant.)

Part II Schemes - 1926-27

Subject:- Subsidies to local bodies for construction of elementary school buildings.

Schemes for which subsidies were sanctioned in G.O. No. 2014 Law (Edn), dated 27-12-24 - (items 1 - 15 on page 1 ante) ~~dated 27-12-24.~~ In G.O.No. 2014 dt 27-12-24,

the Government sanctioned subsidies amounting to Rs 47,954 towards the completion of works for which grants were originally paid and subsequently resumed. Out of this amount, a sum of Rs 11,549 has already been disbursed and another sum of Rs 17,682 is expected to be disbursed in the course of the current year. The balance of Rs 18,723 should be provided in Part I of the budget for 1926-27.

2. Schemes for which subsidies were sanctioned in G.O. No. 1622 Law (Edn) dated 16-9-25.

(Items 24 to 35 on page 2 ante - ~~dated 16-12-25.~~) In G.O.No. 1622 L.E dt 16-9-25,

Sanction was accorded to the grant of subsidies amounting to Rs 50,802 towards the construction of buildings in respect of which local bodies were willing to bear not less than one half of the cost. In the current year's budget, there is a provision of Rs 27,740, but it does not seem likely that the whole amount will be distributed in the current year. The balance of Rs 40,802 will have to be provided in Part I of the next year's budget. Thus the total amount to be provided in Part I of the budget is Rs 18,723 plus Rs 40,802 = Rs 59,525

Assuming that only Rs 10,000/- will be paid in the current year

3. Items falling under ~~VPS~~ Part II

The remaining items falling under ~~VPS~~ Part II may be divided into: -

(1) works in respect of which local bodies

are willing to bear at least one half of the cost from their own funds.-These are shown in statement (A) —— Flag (r)

(2) works in respect of which local bodies have not yet signified their willingness to bear at least one half of the cost from their own funds.- Vide entries in statement (B) — Flag (n)

4 The total cost of the works included in statement (A) is Rs 1,90,237. The amount to be paid from Provincial funds as Government subsidy is Rs 88,246/- (Rs 59,525) Submitted that this amount may be provided in the budget estimate for 1926-27 in addition to the sum mentioned in paragraph 2 supra. It is not, however, likely that the whole amount will be spent next year as the works are generally... Any balance that may be available may be utilised towards the grant of subsidies for works mentioned in statement (B) as it is likely that some of the local bodies mentioned in the statement may be prepared to bear at least one half of the cost from their own funds. (n)

5 Payment of grant to schools in the Agency tracts.

The D.P.I. has recommended the payment of a subsidy of Rs 9,700 towards the cost of construction of a building for the school at Kothapad in the Agency tracts. The necessary provision may be made in the next year's budget for the payment of subsidy with the concurrence of Revenue and Finance. In this connection, it may be mentioned that out of 10,964 elementary schools for boys and girls, on the 31-3-24, under the control of local bodies, only 3617 schools were accommodated in buildings of their own. The rest were held in rented buildings, and Chattrams and Temples, etc. The above figures show that the local bodies should be helped as liberally as possible with a view to enable them to provide the schools under their management with buildings of their own.

7 The file may be sent U.O. to Revenue and Finance for remarks.

PART II SCHEME FOR 1926-27: Grants to local bodies for the construction of elementary school buildings.

The principle on which subsidies may be granted to local bodies for the construction of elementary school buildings was definitely laid down only in January last and embodied in G.O. No.1622 Law (Education), dated 16-9-1925. According to that G.O., subsidies should ordinarily be restricted to one-half of the total cost of the buildings, specially deserving cases being considered on their merits, and the disbursement should be made on the post-payment system. The exact amount of money to be allotted each year for the purpose will, however, depend upon the general financial position.

2. The following statement shows the amounts actually allotted in the budget in recent years and the amount actually disbursed to local bodies:

→

pgs 40-41 of G.O. 2014 Law (Edn) 27.12.24

Mr. Graham's note on page 41 of G.O. 2014 Law (Edn) 27.12.24

Year.	Amount allotted in the budget. Rs.	Amount actually disbursed to the local bodies. Rs.
1922-23	75,000	(Fig. not available)
1923-24	5,000	6,817
1924-25	1,00,000	7,637
1925-26	70,940	10,762 (for six months)

It will be seen that although a large sum of Rs.1 lakh was provided in the budget for 1924-25, it has been possible to disburse only Rs.7,637 in that year. Again, so far as the current year 1925-26 is concerned, Law (Education) estimate that against the budget provision of Rs. (43,200 plus 27,740) or Rs.70,940, only Rs.39,231 will actually be disbursed in the year. These circumstances show that in spite of the large demands made by the local bodies in the first instance, they are not able to achieve any rapid progress with the actual construction of buildings. The criterion that has therefore to be kept in view in considering the question of budget provision is the extent to which local bodies can actually carry out the construction rather than the demands made by them.

3. Law (Education) now propose a total provision of Rs.1,79,183 for 1926-27 as follows:

	Rs.
(a) B.E. 1926-27 - Part I	59,525
(b) B.E. 1926-27 - Part II	1,19,658
Total ..	1,79,183

4. Item (a): Against the commitment of Rs.47,954 agreed to by this dept. in G.O. No.2014, Law (Education), dated 27th December 1924 and Rs.50,802 agreed to in G.O. No.1622, Law (Education) dated 16-9-1925, it is anticipated that a sum of Rs.59,525 will remain over for payment in 1926-27. Submitted that this dept. may therefore agree to include a provision of Rs.59,500 (round) in Part I of the B.E. for 1926-27.

5. Item (b): The Part II demand of Rs.1,19,658 proposed by Law (Education) represents half the estimated cost of buildings in respect of which local bodies have agreed to finance half the cost from their resources. As indicated in para 2 above, past experience shows that the actual amount that will be required for disbursement next year (on the post-payment system) will be very small when compared with this figure. Submitted that it would seem sufficient if the Part II demand for 1926-27 is restricted to such a figure as will, together with the provision made in Part I, amount to the total provision made in the B.E. for 1925-26. The figure for Part II for 1926-27 demand may accordingly be fixed at Rs.11,500 (round).

6. As regards the provision of Rs.9,700 required for the payment of a subsidy to the Koraput taluk board for the construction of a building for the school at Kothapad in the Agency, the question is under consideration in a separate file.

Law

Law (Education) Department.

This Department asked for a provision of Rs 59,525/- in Part I and of Rs 1,19,658 in Part II of the next year's budget. The Finance Department has agreed to include the former amount in Part I, but proposes to restrict the provision in Part II to Rs 11,500.

2. In paragraph 2 on page 10 ante, the Finance Department has remarked that the sum actually disbursed in 1924-25 was only Rs 7,637 against the budget provision of Rs one lakh. Submitted that this was due to the fact that, in that year, considerable discussion took place as to the policy to be followed in the matter of payment of subsidies for the construction of elementary schools. The order sanctioning subsidies for school buildings (18 in number) issued late in the year, Viz., 27th December 1924. As the payment of subsidies was ~~the payment~~ on the post-payment system and as the local bodies had to incur expenditure and report the fact to Government before 7th March 1925, only a sum of Rs 7,637 could be disbursed in February and March 1925.

3. The amount provided for the completion of ~~those~~ the above 18 works in 1925-26 is Rs 43,200 and the amount expected to be paid is Rs 21,594. ~~The~~ These 50 per cent of the budget provision will be utilised if a full year's time is allowed to local bodies to complete the works. The provision suggested in Part II for 1926-27 is for over 70 school buildings. As the principle of distribution has already been settled, orders sanctioning subsidies to local bodies on the post-payment system can issue very early in April 1926 soonafter the budget is passed by the Legislative Council. There will thus be one full year available for

the completion of the school buildings . On the calculation ~~given~~ above, the local bodies will be able to claim in 1926-27 at least 50 % of the promised subsidy. This Deartment may therefore press for inclusion in Part II, of 50% of the total subsidy to be promised, namely, ~~[illegible]~~ one-half of Rs 119,658 or Rs 60,000/- ~~in round figures. We may you need not press for the provision~~ of the balance of the Estimate which was, if available, intended for many of the works which are under correspondence with Govt.

Finance may be asked to agree to the above sum. We are steadily expanding the agency of local bodies is also largely utilised for the purpose. Provision of buildings for schools opened should proceed ~~has~~ simultaneously to avoid any large accumulation of liabilities in this respect. Obviously there should be very few houses in rural areas fit to be used as schools & the necessity for the provision of suitable buildings for schools must be pressing.

Subject.- Provision in the next year's budget for subsidies to local bodies for construction of elementary school buildings.

(Z)

In G.O. No. 2014, dated 27-12-24, the Government sanctioned subsidies amounting to Rs 47,954 towards the completion of works for which grants were originally paid and subsequently resumed. Out of this amount, a sum of Rs 11,549 has according to the statement furnished by the D.P.I. already been disbursed and another sum of Rs 17,682 is expected to be disbursed in the course of the current year. The balance of Rs 18,723 should be provided in Part I of the budget for 1926-27.

2. Schemes for which subsidies were sanctioned in G.O. 1622 Law (Edn) dated 16-9-25. ~~(Items 24-35 on page 2 ante)~~

(A)

In G.O. No. 1622 L.E. dated 16-9-25, sanction was accorded to the grant of subsidies amounting to Rs 50,802 towards the construction of buildings in respect of which local bodies were willing to bear not less than one half of the cost. In the current year's budget, there is a provision of Rs 27,740, but it does not seem likely that the whole amount will be distributed in the current year. Assuming that only Rs 10,000 will be paid in the current year, the balance of Rs 40,802 will have to be provided in Part I of the next year 's budget. Thus the total amount to be provided in Part I of the budget is Rs 18,723 plus Rs 40,802 = Rs 59,525. or Rs 59,500 in round figures

3. Items falling under Part II

The remaining items falling under Part II may be divided into:-

(1) works in respect of which local bodies are willing to bear at least one half of the cost

from their own funds (These are shown in statement A)

(2) works in respect of which local bodies have not yet signified their willingness to bear at least one half of the cost from their own funds - [Vide entries in statement B]

4. The total cost of the works included in statement A is Rs 2,43,212. The amount to be paid from Provincial funds as Government subsidy comes to Rs 1,19,658. In previous years, the amount actually disbursed to local bodies fell considerably short of budget provision, and it may be taken that the amount that will be required for disbursement next year on the post-payment system will be very small, as compared with the total demand. It would seem sufficient if the Part II demand for 1926-27 is restricted to such a figure as will, together with the provision made in Part I, amount to the total provision made in the B.E. for 1925-26. The figure for Part II for 1926-27 demand may accordingly be fixed at Rs 11,500 (round).

5. The D.P.I. may be asked to offer his remarks on the above suggestion at a very early date.

The D.P.I. apparently considers that a sum of Rs 11,500 in Part II of the budget will be sufficient though the total demand is Rs 1,19,658. Draft note for the Finance Committee is submitted. It may be sent to Finance for adding that dept's note.

Law (Education) Department.

NOTE FOR THE FINANCE COMMITTEE:-

Part II Schemes for 1926-27.

Subject:- Subsidies to local bodies for the construction of buildings for elementary schools.

Proposal of the Director of Public Instruction:- The total demand for subsidies from local bodies for the constructionof buildings for elementary schools in 1926-27 is Rs.98,000/- (in round figures). As all schemes may not mature in the course of the next year, a lump grant of Rs.67,000/- may be provided in Part II of the Budget.

Note by the Law (Education) Department. Out of the 12444 schools under the control of local bodies on the 31st March 1925 only 3854 or nearly 31 per cent of the schools are located in buildings of their own, the rest being accommodated in rented buildings, chavadies or temples. It has been usual to make year after year provision in the budget for the payment of subsidies to local bodies to enable them to construct buildings for elementary schools as shown below:-

1918-19	..	Rs.7.85 lakhs.
1919-20	..	4.31 ,,
1920-21	..	4.00 ,,
1921-22	..	0.90 ,,
1922-23	..	0.75 ,,
1923-24	..	0.05 ,,
1924-25	..	1.00 ,,
1925-26	..	0.71

2. In G.Os. No.2014 Law (Education), dated 27th December 1924 and No.1622 dated 16th September 1925, the Government sanctioned subsidies amounting to Rs.98,756/- towards

towards the cost of construction of buildings for elementary schools under the control of local bodies. Since this amount is payable on the post-payment system, only a sum of Rs.39,231/- is expected to be disbursed before 1st April next. The balance of Rs.59,500/- (in round figures) to meet the cost of completion of works already approved will have to be treated as obligatory expenditure and entered in Part-I of the budget estimate for 1926-27.

3. In G.O.No.1622 Law (Education), dated 16th September 1925, the Government stated that they would be prepared to consider applications from local bodies for subsidies for new school buildings, only if they were prepared to meet at least one half of the expenditure from their own funds. The total of the demands for subsidies from local bodies which have definitely expressed their willingness to meet not less than one half of the cost of buildings to be newly constructed in 1926-27 comes to Rs.1,19,658/-. The amount actually disbursed in previous years fell considerably short of the budget provision, and it may be taken that the amount required for disbursement in 1926-27 will be small as compared with the total demand. It seems therefore sufficient if the Part II demand for new works in 1926-27 is restricted to such a figure as will, together with the provision made in Part I, amount to the total provision (Rs.70,940) made in the budget estimate for the current year. A sum of Rs.11,500/- (in round figures) may be provided in Part II of the budget for 1926-27 under 31 C(c) Education - Primary - Grants to local bodies for primary education - Grants-in-aid - General-Voted-non-recurring - Buildings.

V.T.Krishnama Achariyar,
24-11-25.

Note by the Finance Department:- The proposal may be placed before the Finance Committee as a Part II Scheme for 1926-27.

INSTRUCTIONS FOR THE SECRETARIAT.

(a) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(b) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(b1) For rules regarding printing of notes, see rule 315 of the office Manual.

(c) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(d) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for *one* week, and larger papers for *two* weeks only. *The type of notes and of all confidential papers is distributed immediately after striking.*

(e) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(a) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Registrar with a remark to that effect.

(b) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Registrar any instance of incomplete or careless editing.

(c) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(d) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(e) The names of the Secretary and Members should be printed in full when they occur on the right hand side, only the first time when they appear on the left side, the initials alone being printed later.
